RE: Fiscal Note and Fiscal Note Summary Request for Senate Substitute No. 3 for Senate Joint Resolution No. 38

Dear Ms. Galloway:

Enclosed please find a copy of Senate Substitute No. 3 for Senate Joint Resolution No. 38 that was received by our office.

We are referring the enclosed joint resolution to you for the purposes of preparing a fiscal note and fiscal note summary in accordance with Sections 116.160.1, 116.170 and 116.175, RSMo. As you are aware, the fiscal note and fiscal note summary are required to be forwarded by you to our office within thirty days of receipt of the joint resolution, pursuant to Section 116.170, RSMo.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft
Secretary of State

SECOND REGULAR SESSION

[TRULY AGREED TO AND FINALLY PASSED]

SENATE SUBSTITUTE NO. 3 FOR

SENATE JOINT RESOLUTION NO. 38

100TH GENERAL ASSEMBLY

2020

4110S.08T

JOINT RESOLUTION

Submitting to the qualified voters of Missouri, an amendment repealing sections 2, 3, and 7 of article III of the Constitution of Missouri, and adopting three new sections in lieu thereof relating to regulating the legislature to limit the influence of partisan or other special interests.

Be it resolved by the Senate, the House of Representatives concurring therein:

That at the next general election to be held in the state of Missouri, on Tuesday next following the first Monday in November, 2020, or at a special election to be called by the governor for that purpose, there is hereby submitted to the qualified voters of this state, for adoption or rejection, the following amendment to article III of the Constitution of the state of Missouri:

Section A. Sections 2, 3, and 7, article III, Constitution of Missouri, are repealed and three new sections adopted in lieu thereof, to be known as sections 2, 3, and 7, to read as follows:

Section 2. (a) After December 6, 2018, no person serving as a member of or employed by the general assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after December 6, 2018.

(b) No person serving as a member of or employed by the general assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal **[**in excess of five dollars per occurrence**]**. This Article shall not prevent candidates

EXPLANATION–Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.

for the general assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. [The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency, and rounded to the nearest dollar amount.]

(c) The general assembly shall make no law authorizing unlimited campaign contributions to candidates for the general assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election [for the general assembly] **to the office of state representative or state senator** shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand [five] **four** hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for [a public office listed in this subsection] **the office of state representative or state senator.**

[For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative Consumer Price Index and rounded to the nearest dollar amount, for all years after 2018.]

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions

imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri ethics commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3. (a) [There is hereby established the post of "Nonpartisan State Demographer". The nonpartisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The nonpartisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the nonpartisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the nonpartisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the nonpartisan state demographer. The state auditor shall prescribe a time frame

and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The nonpartisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the nonpartisan state demographer position, an individual shall not have served in a partisan, elected position for four years prior to the appointment. The nonpartisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c)] The house of representatives shall consist of one hundred sixty-three members elected at each general election and [apportioned] **redistricted** as provided in this section.

[(1)] **(b)** [Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the nonpartisan state demographer] **The house independent bipartisan citizens commission** shall [begin the preparation of legislative districting plans and maps] **redistrict the house of representatives** using the following methods, listed in order of priority:

[a.] **(1)** Districts shall be [established on the basis of total] **as nearly equal as practicable in** population[. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census], **and shall be drawn on the basis of one person, one vote. Districts are as nearly equal as practicable in population if no district deviates by more than one percent from the ideal population of the district, as measured by dividing the number of districts into the statewide population data being used, except that a district may deviate by up to three percent if necessary to follow political subdivision lines consistent with subdivision (4) of this subsection;**

[b.] **(2)** Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as

amended). [Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.] **The following principles shall take precedence over any other part of this constitution: no district shall be drawn in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color; and no district shall be drawn such that members of any community of citizens protected by the preceding clause have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice;**

[Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the nonpartisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the nonpartisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the nonpartisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the nonpartisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and

five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The nonpartisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable;

c.] **(3)** Subject to the requirements of [paragraphs a. and b. of this subdivision] **subdivisions (1) and (2) of this subsection**, districts shall be composed of contiguous territory **as compact as may be**. Areas which meet only at the points of adjoining corners are not contiguous. **In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries;**

[d.] **(4)** To the extent consistent with [paragraphs a. to c. of this subdivision, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county] **subdivisions (1) to (3) of this subsection, communities shall be preserved. Districts shall satisfy this requirement if district lines follow political subdivision lines to the extent possible, using the following criteria, in order of priority. First, each county shall wholly contain as many districts as its population allows. Second, if a county wholly contains one or more districts, the remaining population shall be wholly joined in a single district made up of population from outside the county. If a county does not wholly contain a district, then no more than two segments of a county shall be combined with an adjoining county. Third, split counties and county segments, defined as any part of the county that is in a district not wholly within that county, shall each be as few as possible. Fourth, as few municipal lines shall be crossed as possible;**

[e. Preference shall be that districts are compact in form, but the standards established by paragraphs a. to d. of this subdivision take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.]

(5) Districts shall be drawn in a manner that achieves both partisan fairness and, secondarily, competitiveness, but the standards established by subdivisions (1) to (4) of this subsection shall take precedence over partisan fairness and competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the average electoral performance of the two political parties receiving the most votes in the three preceding general elections for governor, for United States Senate, and for President of the United States shall be calculated. This index shall be defined as the total votes received by each party in the three preceding general elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the total number of wasted votes for each party, summing across all of the districts in the plan shall be calculated. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the threshold needed for victory. In any redistricting plan and map of the proposed districts, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

To promote competitiveness, the electoral performance index shall be used to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. In each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

[(2)**]** **(c)** Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a **[**reapportionment**]** **redistricting plan** has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, **the state committee and** the congressional district **[**committee**]** **committees** of each of the two **political** parties casting the highest vote for governor at the last

preceding **general** election shall meet and the members of [the] **each** committee shall nominate, by a majority vote of the **elected** members of the committee present, provided that a majority of the elected members is present, [two] members of their party, residents in that district, **in the case of a congressional district committee,** as nominees for [reapportionment commissioners] **the house independent bipartisan citizens commission**. [Neither] **No** party shall select more than one nominee from any one state legislative district. The congressional **district** committees shall each submit to the governor their list of **two** elected nominees. **The state committees shall each submit to the governor their list of five elected nominees**. Within thirty days **thereafter,** the governor shall appoint a **house independent bipartisan citizens** commission consisting of one [name] **nominee** from each list **submitted by each congressional district committee and two nominees from each list submitted by each state committee** to [reapportion] **redistrict** the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts. **No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.**

If any [of the congressional committees] **committee** fails to submit a list within such time, the governor shall appoint a member of his **or her** own choice [from that district and] from the political party of the committee failing to [make the appointment] **submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.**

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final [statement of apportionment] **redistricting plan.**

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were

last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

[(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the nonpartisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.]

(d) The commissioners so selected shall, [within ten days of receiving the tentative plan of apportionment and map of the proposed districts,] **on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed,** meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

[The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the nonpartisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.]

(e) Not later than five months after the appointment of the commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and

during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(f) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(g) After the final statement is filed, members of the house of representatives shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the house of representatives shall be redistricted using the same methods and criteria as described in subsection (b) of this section by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the house independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, members of the house of representatives shall be elected according to such districts until a redistricting plan is made as provided in this section.

(h) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his **or her** actual and necessary expenses incurred while serving as a member of the commission.

(i) No [reapportionment] **redistricting plan** shall be subject to the referendum.

(j) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a

defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.

Section 7. (a) [Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the nonpartisan state demographer authorized in Article III, Section 3 shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the house of representatives.

(b)] Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a [reapportionment] **redistricting plan** has been invalidated by a court of competent jurisdiction, the state committee **and the congressional district committees** of each of the two political parties casting the highest vote for governor at the last preceding **general** election shall[, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and] **meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the senate independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees.** Within thirty days thereafter the governor shall appoint a **senate independent**

bipartisan citizens commission **consisting** of [ten members, five] **two nominees** from each list **submitted by each state committee and one nominee from each list submitted by each congressional district committee**, to [reapportion] **redistrict** the thirty-four senatorial districts and to establish the numbers and boundaries of said districts. **No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.**

If [either of the party committees] **any committee** fails to submit a list within such time, the governor shall appoint [five members] **a member** of his **or her** own choice from the **political** party of the committee [so] failing to [act] **submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.**

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final [statement of apportionment] **redistricting plan.**

[(c) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the nonpartisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.]

(b) The commissioners so selected shall [within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection], **on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed,** meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. [The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from

the nonpartisan state demographer provided that such changes are consistent with this section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the house of representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.]

(c) The senate independent bipartisan citizens commission shall redistrict the senate using the same methods and criteria as those required by subsection (b), section 3 of this article for the redistricting of the house of representatives.

(d) Not later than five months after the appointment of the senate independent bipartisan citizens commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(e) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(f) After the final statement is filed, senators shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the senate shall be redistricted using the same methods and criteria as described in subsection (b) of section 3 of this article by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom

shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the senate independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, senators shall be elected according to such districts until a redistricting plan is made as provided in this section.

(g) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his **or her** actual and necessary expenses incurred while serving as a member of the commission.

(h) No **[**reapportionment**]** **redistricting plan** shall be subject to the referendum.

(i) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.

Section B. Pursuant to chapter 116, and other applicable constitutional provisions and laws of this state allowing the general assembly to adopt ballot language for the submission of this joint resolution to the voters of this state, the official summary statement of this resolution shall be as follows:

"Shall the Missouri Constitution be amended to:

- Ban all lobbyist gifts to legislators and their employees;
- Reduce legislative campaign contribution limits; and
- Create citizen-led independent bipartisan commissions to

draw state legislative districts based on one person, one vote, minority voter protection, compactness, competitiveness, fairness, and other criteria?"

President of the Senate

Speaker of the House of Representatives

SECRETARY OF STATE
CAPITOL OFFICE

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-SJR 38)

Subject

Senate Substitute No. 3 for Senate Joint Resolution No. 38. (Received May 28, 2020)

Date

June 17, 2020

Description

This proposal would amend Article III of the Constitution of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Missouri Ethics Commission,** and the **State Auditor's office.**

George Butler provided information to the State Auditor's office.

Rebecca Now, Executive Director, Webster Groves/Shrewsbury/Rock Hill Area Chamber of Commerce provided information to the State Auditor's office.

David Kimball, Professor of Political Science, University of Missouri-St. Louis provided information to the State Auditor's office.

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Len Pagano, Mayor, City of St. Peters provided information to the State Auditor's office.

Jean Dugan, League of Women Voters of Missouri provided information to the State Auditor's office.

David Roberts provided information to the State Auditor's office.

W. Craig Hosmer, Hosmer King & Royce, LLC provided information to the State Auditor's office.

Tommie L. Pierson, Sr. provided information to the State Auditor's office.

Dan Vicuna, National Redistricting Manager, Common Cause provided information to the State Auditor's office.

Barry Greenberg, Mayor, City of Maplewood provided information to the State Auditor's office.

Sean Soendker Nicholson provided information to the State Auditor's office.

Caroline Fan, Chief Strategy Officer, USAKO Group provided information to the State Auditor's office.

Otto Fajen, Legislative Director, Missouri National Education Association provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no fiscal impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no fiscal impact.

Officials from the **Department of Health and Senior Services** indicated this initiative petition will have no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this Senate Joint Resolution, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this fiscal note.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their office.

Officials from the **Department of Social Services** indicated this does not fiscally impact their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this proposal would have no projected fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal amends Article III of the Missouri Constitution by amending Sections 2, 3, and 7.

The proposed amendment would:

- Amend Section 2 by:
  - Disallowing persons that are members of or employed by the General Assembly from accepting gifts from a lobbyist valued at $5 and under;
  - Reducing campaign contributions to Missouri State Senate candidates from $2,500 to $2,400; and
  - Removing inflationary adjustments to campaign contribution limits for Missouri State Senate and House of Representative candidates.

- Amend Section 3 by:
  - Removing language relating to the establishment of the post of non-partisan state demographer; and
  - Creating a House Independent Bipartisan Citizens Commission to redistrict the Missouri House of Representatives and outlining how the redistricting process shall take place.

- Amend Section 7 by:
  - Creating a Senate Independent Bipartisan Citizens Commission to redistrict the Missouri Senate and outlining how the redistricting process shall take place.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years (FYs) and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated TAFP (Truly Agreed and Finally Passed) Senate Substitute No. 3 for Joint Resolution No. 38 regarding redistricting the House of Representatives and the Senate maps will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for SS No. 3 for SJR No. 38 proposing to amend Article III.

Officials from **Jackson County** indicated:

June 6, 2020

Auditor Galloway:

SJR38 would have a significant fiscal impact on local governments and small businesses in Missouri if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard when drawing state legislative plans based on "the people that are able to vote."

Sometimes referred to as a citizen voting-age population (CVAP) standard, such a move would be a radical departure from the standard Missouri has used for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

The Census Bureau's 5-Year American Community Survey indicates that 185,665 Jackson County residents[1] — more than 1 in 4 of our neighbors and family members — would lose representation if maps are drawn using an eligible voter standard. Jackson County provides services to everyone in our community, and not counting everyone in Jackson County would have a significant impact on who and how our residents are represented in the General Assembly.

[1] Citizen Voting Age Population Special Tabulation from the 2018 5-Year American Community Survey

Underrepresented constituents receive less funding. This is common sense, and is documented in academic research. See, for instance, research by Stephen Ansolabehere, Alan Gerber and Jim Snyder on the "clear evidence of the political consequences of unequal representation,"[2] and work from Tiberiu Dragu and Jonathan Rodden demonstrating that "overrepresented regions appear to receive substantially larger per capita shares of government expenditure."[3]

Furthermore, testimony provided to the House General Laws Committee during debate on SJR38 made clear that **if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color.** From that testimony, given by Nimrod Chapel, Jr. of the Missouri NAACP State Conference, and Yurij Rudensky and Ethan Herenstein of the Brennan Center for Justice:

> **Apportioning on the basis of citizen voting age population (CVAP)—or any basis narrower than total population—would be discriminatory.** Apportioning on the basis of CVAP would be discriminatory. The main proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death that apportioning on the basis of CVAP would be "advantageous to Republicans and Non-Hispanic whites."[4] Research proves that to be true in Missouri as well.
>
> Over 90 percent of the people excluded from Missouri's apportionment base under CVAP apportionment would be citizen children. Missouri's citizen children are not evenly distributed across the state—in fact, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.
>
> For white communities, only 21 percent of their population is under eighteen years of age. But households in Black and Latino communities tend to include

[2] Ansolabehere, S., Gerber, A., & Snyder, J. (2002). Equal Votes, Equal Money: Court-Ordered Redistricting and Public Expenditures in the American States. American Political Science Review, 96(4), 767-777. doi:10.1017/S0003055402000448

[3] Dragu, T., & Rodden, J. (2011). Representation and redistribution in federations. Proceedings of the National Academy of Sciences of the United States of America, 108(21), 8601–8604. https://doi.org/10.1073/pnas.1019061108

[4] *See* Exhibit D to Letter Motion to Compel Defendants to Show Cause, New York v.U.S. Dep't of Commerce, No. 18-cv-2921 (S.D.N.Y. May 31, 2019), ECF No. 595-1.

> more children, with 26.7 percent and 37 percent of their respective populations aged under eighteen. In other words, more than a quarter of Missouri's Black community and more than a third of the state's Latino community simply would not count under a CVAP-based apportionment.

Furthermore, from the same public testimony:

> [The voter-approved redistricting system in 2018's] Amendment 1 offers robust protections for communities of color in the redistricting process. Beyond those contained in the Voting Rights Act, Amendment 1 provides independent state-law protections that protect minority communities' ability to participate in the political process and elect their representatives of choice. While SJR 38 would retain some state-level protections, it significantly weakens them by eliminating Amendment 1's prohibition against making it harder for communities of color to elect representatives of their choice and its protection of coalitional districts where different communities can combine their voting strength. As a result, SJR 38 would leave minority communities more vulnerable during the redistricting process.

If SJR38 is fully implemented as intended by Sen. Hegeman, we should expect a significant impact on Missouri's small businesses and local government revenues, due to the dramatic change in who is represented, and due to the inevitable decline in economic activity that would come from the public outcry after passage and implementation of such a discriminatory redistricting system.

The Associated Press determined in 2017 that North Carolina's discriminatory House Bill 2 would cost the state more than $3.76 billion in lost economic activity[5] over a dozen years because of a strong public response to the law. Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One study[6] "found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed.

If economic and tourist activity is depressed by even 5% because of a boycott, we would see a drop of approximately $2,500,000 in sales tax revenue or $5,000,000 over two fiscal years. Jackson County municipalities would also expect to see reduced sales and lodging taxes and may lose employers to other states if Missouri's reputation is harmed by discriminatory laws.

[6] Peralta, E. In Wake Of Immigration Law, Boycott Cost Arizona Millions. National Public Radio, November 18, 2010.

The fiscal impact of SJR38 would be significant for local governments, small businesses, and state revenues if any population standard other than total population is used for state legislative maps. We estimate the total fiscal impact on the Jackson County budget to be between $5,000,000 and an unknown amount.

Thank you for your attention to this submission.

State Auditor's Office
State Capitol, Rm 121
Jefferson City, MO 65101
fiscalnote@auditor.mo.gov

Auditor Galloway:

With a population of 996,726, St. Louis County is the largest county in Missouri, comprising 16% of the state's population, and is the 43 largest county in the United States. St. Louis County is also an important employment center with approximately half of all the metropolitan area's jobs and one quarter of all jobs in Missouri. St. Louis County's 88 municipalities have primary responsibility within their jurisdictions for services such as public safety, planning and zoning, local street maintenance and building code enforcement. The unincorporated area, which contains nearly one-third of the county's population comes under the direct jurisdiction of county government. St. Louis County provides a wide range of services falling within three categories: 1) county-wide services, which are available on an equal basis to all residents of St. Louis County; 2) services to unincorporated areas; and 3) services to incorporated areas by contractual agreement. These services include health care and public health, human services, police and public safety, judicial and justice services, parks and recreation, planning and zoning, tax assessment, public works, environmental health, and election administration.

Not counting everyone in St. Louis County – as contemplated in SJR38 – would significantly affect who and how our residents are represented in the Missouri General Assembly and would have a substantial fiscal impact on local governments and small businesses. The Census Bureau's 5-Year American Community Survey indicates that 252,445 St. Louis County residents — more than 1 in 4 of our neighbors — stand to lose representation if maps are drawn using an eligible voter standard as proposed in SJR38.

SJR38 aims to change the current population standard for drawing state legislative maps from using total population to eligible voter population, sometimes referred to as a citizen voting-age population (CVAP) standard. On January 29, 2020, SJR38 Sponsor Senator Dan Hegeman indicated on the Senate floor that the intent of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for drawing state legislative maps, and instead use a new population standard based on "the people that are able to vote."

Such a move would constitute a radical departure from how Missouri has drawn maps for at least 145 years. Drawing maps based on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

Testimony provided to the House General Laws Committee during debate on SJR38 made clear that if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color. According to testimony provided by
Nimrod Chapel, Jr. of the Missouri NAACP State Conference and Yurij Rudensky and Ethan Herenstein of the Brennan Center for Justice, SJR 38 would have the following consequences:

- Apportioning on the basis of CVAP would be discriminatory. The main proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death that apportioning on the basis of CVAP would be "advantageous to Republicans and Non-Hispanic whites." Research proves that to be true in Missouri as well.

- Over 90 percent of the people excluded under CVAP apportionment would be citizen children. Missouri's citizen children are not evenly distributed across the state—in fact, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.

- For white communities, only 21 percent of their population is under eighteen years of age. But households in Black and Latino communities tend to include more children, with 26.7 percent and 37 percent of their respective populations aged under eighteen. In other words, more than a quarter of Missouri's Black community and more than a third of the state's Latino community simply would not count under a CVAP-based apportionment.

- The voter-approved redistricting system in 2018's] Amendment 1 offers robust protections for communities of color in the redistricting process. Beyond those contained in the Voting Rights Act, Amendment 1 provides independent state-law protections that protect minority communities' ability to participate in the political process and elect their representatives of choice. While SJR 38 would retain some state-level protections, it significantly weakens them by eliminating Amendment 1's prohibition against making it harder for communities of color to elect representatives of their choice and its protection of coalitional districts where different communities can combine their voting strength. As a result, SJR 38 would leave minority communities more vulnerable during the redistricting process.

If SJR38 is fully implemented as intended, we should expect a significant impact on Missouri's small businesses and local government revenues, due to the dramatic change in who is represented, and due to the foreseeable decline in economic activity resulting from passing and implementing such a discriminatory redistricting system. The Associated Press determined in 2017 that North Carolina's discriminatory House Bill 2 would cost the state more than $3.76 billion in lost business over a dozen years because of a strong public response to the law. Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One study "found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed. St. Louis County and the 88 municipalities within the county would also expect to see reduced sales and lodging taxes, and may lose employers to other states if Missouri's reputation is harmed by discriminatory laws.

RECEIVED 37

If any population standard other than total population is used for drawing state legislative maps, the fiscal impact of SJR38 would be devastating for local governments, small businesses, and state revenues.

Thank you for your attention to this submission.

Respectfully,

Sam Page

Officials from the **City of Columbia** indicated concern about the significant fiscal impact Senate Joint Resolution 38 would have on the local government and small businesses of Columbia. They are specifically concerned about Section 3(a)(b)(1) in SJR 38 (Page 4, Lines 43-54) which would change the population standard for state legislative maps away from using total population to a citizen voting-age population or eligible voter standard.

Using a citizen voting-age population (CVAP) standard would be a radical departure from the standard Missouri has used for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

When the Mayor announced the Columbia/Boone County Complete Count Census Committee in November 2019, he said "Data drives our democracy. Data drives decisions." The Census Bureau's 5-Year American Community Survey indicates that 27,675 Columbia residents — almost 1 in 4 of their community members — would lose representation if maps are drawn using an eligible voter standard. In the Columbia School District, 35,259 children and residents would not count.

Columbia provides services to everyone in their community, and not counting everyone in their community would have a significant impact on how their residents are represented in the General Assembly. Only counting eligible voters in legislative redistricting would dilute the representation of Columbia. Simply put, underrepresented constituents receive less funding. Studies show that "overrepresented regions appear to receive substantially larger per capita shares of government expenditure."[1] If their residents are not properly represented, they would expect a significant impact on their local budgets as well as higher education funding.

And for a city with the flagship University of Missouri-Columbia, SJR 38 would dramatically underrepresent international students and visiting scholars. The discriminatory impact SJR 38 would have on the representation for voters of color could have a significant impact on Missouri's small businesses and local government revenues. Due to the dramatic change in who is represented, and the inevitable decline in economic activity that would come from the public outcry after passage and implementation of such a discriminatory redistricting system, the lost economic activity for a City like Columbia would be significant.

In 2017, the Associated Press determined North Carolina's discriminatory, anti-LGBT House Bill 2 would cost the state more than $3.76 billion in lost economic activity[2] over a dozen years because of a strong public response to the law. Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One

[2] Dalesio, E. and Drew, J. Price tag of North Carolina's LGBT law: $3.76B. Associated Press, March 27, 2017. https://apnews.com/fa4528580f3e4a01bb68bcb272f1f0f8

study[3]"found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed.

If local economic and tourist activity is depressed because of a boycott, they would foresee a significant impact on economic activity for small businesses, and a significant impact on sales tax and lodging tax revenue for the City of Columbia.

In April 2018, the Columbia City Council adopted a Statement of Community Principals to "*reject all forms of prejudice and discrimination, including those based on age, color, diverse ability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, and veteran status. We take individual and collective responsibility for helping to eliminate bias, and discrimination and for increasing our own understanding of these issues through education, training, and interaction with others.*"

Drawing maps on anything other than the total population of Missouri as proposed by SJR 38 is contrary to these values and would perpetuate inequities and discrimination that would have a significant fiscal impact on their constituents and the City of Columbia.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated:

Re: SRJ38

Auditor Galloway:

SJR38 would have a significant fiscal impact on local governments and small businesses in Missouri if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard when drawing state legislative plans based on "the people that are able to vote."

Sometimes referred to as a citizen voting-age population (CVAP) standard, such a move would be a radical departure from how Missouri has drawn maps for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

The Census Bureau's 5-Year American Community Survey indicates that 71,670 St. Louis City residents — almost 1 in 4 individuals — would lose representation if maps are drawn using an eligible voter standard.

The City of St. Louis provides services to everyone in our community, and not counting everyone in St. Louis would have a significant impact on who and how our residents are represented in the General Assembly.

Also, testimony provided to the General Assembly in the House General Laws Committee made clear that if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color. We should expect a significant impact on Missouri's small businesses, the local economy, local sales taxes, local lodging taxes, and state income taxes if maps are drawn in discriminatory way that disproportionately impacts Missourians of color.

The Associated Press determined in 2017 that North Carolina's discriminatory House Bill 2 would cost the state more than $3.76 billion in lost business over a dozen years because of a strong public response to the law. [Source: Associated Press, March 27, 2017]. Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One study "found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed [Associated Press, November 19, 2010; NPR, November 18, 2010; East Valley Tribune, April 21, 2011].

Based on the experience of other states after the passage of similar measures, we estimate our local economy could see a drop of as much as one-third of our sales tax revenue. That doesn't take into account lower property values or the possibility of losing employers to other states if Missouri's reputation is harmed by discriminatory laws.

The fiscal impact of SJR38 would be significant for local governments, small businesses, and state revenues if any population standard other than total population is used for state legislative maps.

Thank you for your attention to this submission.

Respectfully,

Lyda Krewson
Mayor, City of St. Louis

Officials from the **Missouri Ethics Commission** indicated the proposed legislation does not have fiscal impact on their Commission. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission may require additional staff resources.

Officials from the **State Auditor's office** indicated implementation of SJR 38 would have no fiscal impact on their office.

George Butler provided the following information:

SJR38 presents a radical change to Missouri voters that could fundamentally alter who is represented in their state legislature, and would significantly impact the representation of every community in Missouri.

Senator Dan Hegeman, sponsor of SJR38, was explicit (https://www.youtube.com/watch?v=Lzsa5wrSgmo) in Senate debate that one goal of SJR38 language is to have future legislative maps drawn based on the number of eligible voters, not the total population. This would have a profound and discriminatory impact on Missouri communities and Missouri families.

The Constitutional requirement for the USA Census is to count ALL PERSONS residing in the various states, it says nothing about citizens other than American Indians & Slaves, who were not considered citizens, but the slaves were counted and included at a ratio of 3/5ths of a person. Yet they were not considered citizens.

The people of Missouri voted to pass the Amendment in 2019 to revise how Missouri allocated Congressional & State Districts, why is the legislature being allowed to try to overturn this citizen initiated & voted on Amendment?

Rebecca Now, Executive Director, Webster Groves/Shrewsbury/Rock Hill Area Chamber of Commerce provided the following information:

The language of the bill SJR 38 will present a significant negative economic impact to the communities the Chamber of Commerce serves, as it will hurt their families and their small businesses.

The dollar amount is not currently quantifiable, but they have a number of families with children under 18 and the entire population deserves representation.

David Kimball, Professor of Political Science, University of Missouri-St. Louis provided the following information:

I am concerned that SJR38 would have a significant fiscal impact on local governments in Missouri. SJR38 removes the requirement in the state constitution that legislative districts be drawn on the basis of total population, meaning that children and non-citizens (roughly 1.5 million Missouri residents) would not count in the redistricting process. Changing the population criteria for redistricting in Missouri would cause a disproportionate loss in

representation in the legislature for certain parts of the state, where a large majority of children and non-citizens reside.

A loss of representation in the legislature leads to a decline in state funding for affected counties and municipalities. This happened in the United States before court decisions in the 1960s required legislative districts to be equal in population. Prior to the court rulings many states, including Missouri, had malapportioned legislatures with districts of vastly different populations. In malapportioned legislatures "rotten boroughs" (districts with relatively few residents) received a disproportionate share of state funding (Ansolabehere, Gerber, and Snyder 2003). After court rulings forced districts to be drawn with equal total population then state funding was distributed equally to local counties based on population (Ansolabehere and Snyder 2008). More generally, areas that lose representation in legislative bodies are at a disadvantage in the distribution of government resources (Dragu and Rodden 2011; Elis, Malhotra, and Meredith 2009). The potential for unequal distribution of government resources is exacerbated in states like Missouri, where legislators are elected from single member districts (Snyder and Ueda 2007). If SJR38 moves Missouri away from drawing legislative districts on the basis of total population then that will have a significant fiscal impact on local governments in Missouri.

RE: SJR38, aka "Missouri Lobbying, Campaign Finance, and Redistricting Amendment"

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of the proposed Amendment to the Missouri Constitution as per SJR38 known as the "Missouri Lobbying, Campaign Finance, and Redistricting Amendment." Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so. Below, we will show an error in the calculations on the Fiscal Note for SJR38 and four main ways that this amendment would cause significant short- and long-term damage to the fiscal health of the state budget and the overall health of the state economy.

I. Fiscal Note

The Oversight Subcommittee of the Joint Committee on Legislative Research lists two possible new expenses deriving from this amendment.

1. **Election Costs**: It is within the scope of the authority of the Governor to call a special election to decide this constitutional amendment, add it to the primary election in August 2020, or add it to the general election in November 2020. Special elections have cost taxpayers $7.8 Million in the past, so Oversight estimates the range of additional one-time costs at **$0 to $7.8 million**. This outcome seems unlikely but possible.

2. **Who Redistricts**: Oversight estimates a reduction in annual cost due to the elimination of the position of the nonpartisan state demographer of about $100,000. It also estimates an increase in annual expenses relating to the operations of the independent

bipartisan citizens commissions of something less than $100,000. They make two mistakes in logic.

a. They are referring to a second state demographer who might be hired for the specific purpose of redistricting. The state already employs a State Demographer, Matthew Hesser, who could be given the responsibilities for redistricting at no new cost to the State.

b. These commissions exist as well: the amendment would only increase their members from 10 in the House and 16 in the Senate to 20 for each.

Taking these facts into consideration, the largest possible so-called cost "savings" would take place only if the State removed the second demographer ($100,000) and then spent the minimum ($0) on the commissioners for a net savings of $100,000. Conversely, the State would incur the largest possible new expenses if it never hired the second demographer in the first place and gave the task of redistricting to the state demographer who is already on staff ($0) while also spending the maximum on the commissioners ($100,000) for a net increase of $100,000. A more accurate estimation of fiscal impact would be **from $100,000 in cost savings to $100,000 in new expenses**.

Yet both of these expenses pale in comparison to the hidden costs of this amendment.

II. Political Impact

We predict that the proposed constitutional amendment would create a badly flawed redistricting process with several egregious political outcomes. We will focus on those that promise to cause the most significant fiscal and economic damage.

1. **"One person, one vote"** (see Section 3. [b] [1.]): Every State in the Union interprets this phrase to mean the total population of a district and uses total population as the basis for redistricting. The State of Missouri has used this method throughout its history. Most states, including Missouri, derive this data from the decennial federal Census.[1] The Supreme Court has ruled that total population satisfies this phrase and has never ruled on whether it is permissible for States to use any other method.[2] Yet the sponsors of this legislation want to interpret this phrase as the population of eligible voters.[3]

1 See U. S. Census Bureau, *2010 Census Redistricting Data (Public Law 94-171) Summary File*, January 2011; Nathaniel Persily, et al., Amicus Brief in support of the Appellees in *Evenwel vs. Abbott*, September 25, 2015 (No. 14-940); both accessed June 4, 2020.

2 Matt Ford, "One Person, One Vote, Eight Justices," *The Atlantic*, April 4, 2016.

3 During the Missouri Senate floor debate on 29 January 2020 (see YouTube), Senator Dan Hegeman (MO-12) defined "one person, one vote" in terms of "people that vote. The people that are able to vote are the people that are counted. Not registered voters, but the opportunity to do that.". Conversely, "Senate Majority Floor Leader Caleb Rowden, R-Columbia, told reporters the Legislature is 'staying silent' and sticking with precedent on the question of who is counted in redistricting. The courts will likely decide whether districts are drawn based on total population, he said." (See Brendan Crowley, "Filibuster sidelines Clean Missouri amendment," *The News Tribune*, Jan. 31 2020)

a. **Ambiguity**: The amendment creates ambiguity where there was none — on the practical question of how to count people for the purposes of redistricting. The State could interpret it to mean: Voting-Eligible Population (VEP), Voter Turnout (VT), Registered Voters (RVs), Voting-Age Population (VAP), or Citizen Voting Age Population (CVAP). We predict that the uncertainty of this badly written amendment will open the door for more abuse. It will lead to confusion among citizens and election officials about who gets counted during redistricting.

b. **Deadlock:** The amendment substitutes our current, objective procedures with unnecessary gridlock. It would place the redistricting process in the hands of politically appointed commissioners, which would end in deadlock. As the sponsors admit, they want to leave the final determination to the courts.[4] After considerable litigation, the backup panel of six judges would almost certainly be triggered for redistricting.

c. **Underrepresentation**: Depending on how voters are counted, the process could exclude citizens who did not vote recently (VT) or who have moved but have not reregistered in time for the election (RVs). The clear intent of the legislation is to not count children and non-citizens (CVAP or VAP), in spite of the obvious fact that noncitizens become citizens and children become adults. Black and Latino families have a disproportionate number of members who fit these categories.[5] We therefore predict more systematic underrepresentation of minority groups.

2. **Standing & Redress**: The amendment would restrict who has standing to appeal these redistricting plans as well as the scope of the courts' authority to redress that unfairness (see Section 3. [j.] and 7. [i]). To have standing, a potential litigant must be "an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district." Then, the courts may make adjustments to "only those districts, and only those parts of district boundaries, necessary to bring the map into compliance." These rules imply that lawsuits challenging unrepresentative districts will have to be filed one by one, each capable of only modest redress. The courts may combine them into a single sprawling suit or litigate them individually; but either way, the amendment would create major challenges in terms of judicial manageability.

3. **"Wasted Votes":** The proposed amendment would increase the upper limit of "wasted votes" to "fifteen percent" (Section 3. [b] [5]). Currently there are zero (0) state legislative districting plans in the U. S. in which "wasted votes" exceed the fifteen percent limit. Nonetheless, most neutral election observers would characterize many state legislative

4 See fn 3.

5 See Missouri Office of Administration, Division of Budget & Planning, *2010 Census Data*, "County Population by Race, Hispanic Origin, and Total Minority"; and the Written Testimony of Nimrod Chapel, Jr. (Missouri NAACP) and Yurij Rudensky and Ethan Herenstein (Brennan Center for Justice at New York University School of Law) on SJR 38 in the Missouri House of Representatives General Laws Committee on April 30, 2020, *Brennan Center for Justice*; both accessed May 31, 2020.

districts as badly gerrymandered.[6] Raising this so-called "limit" to fifteen percent would effectively remove the threshold, opening the door to more abuse, not less.

Economic Impact

In light of these likely outcomes of the proposed amendment, we predict significant short- and long-term damage to the fiscal health of the State budget and the economic health of the State more generally.

1. **Escalating Judicial & Legal Costs**: In 2018, the Clean Missouri Amendment was approved by 62% of the voters and by a majority of voters in 77 out of 115 house districts.[7] Given the bold-faced unfairness of SJ38 and the fact that the sponsors of the legislation are trying to undo a decision of a majority of the voters, we can reliably predict that angry litigants from all over the State will want to sue. The sponsors, too, want to land these suits before the courts. Moreover, they are effectively making Missouri into the test case for this new and untested method of redistricting, so the individual litigants will almost certainly be well funded not just from local and state but also national PACs. The entire budget for the State of Missouri's other lawsuits in 2019 was $24 million,[8] and recent redistricting lawsuits in other states **range in cost from $1.6 to $10 million each**.[9] What is new and different about this proposed amendment is that the sponsors leave open the possibility that the courts could require litigants to sue individually in multiple districts across the State. In that case, **legal costs for the State will skyrocket**.

2. **Expensive Redistricting Procedures**: In comparison to the current method of using total population, all of the options for creating an accurate and up-to-date statewide database of "voters" are more difficult, less reliable, more labor intensive, and thus more expensive. Based on what we know currently about the proposed amendment, we can reasonably exclude certain options:

    a. **VT/RVs/VEP**: Ward/precinct lists of Voter Turnout (VT) or Registered Voters (Rvs) would almost certainly under-represent eligible voters and cannot be used "as is" to represent current voter population. Statistics on Voting-Eligible Populations (VEP) are similarly unreliable because they rely on wildly

6 See evidence and analysis of the historical data provided by *PlanScore*; David Meyers, "The 12 Worst House Districts: Experts Label Gerrymandering's Dirty Dozen," *The Fulcrum*, Nov. 7, 2019; both accessed May 31, 2020.

7 Missouri Secretary of State, *Election Night Results, November 2018*, accessed May 30, 2020; Ashlyn O'Hara and Galen Bacharier, "Lawmakers voted to reconsider Clean Missouri. Did your district support it?" *Columbian Missouirian*, May 12, 2020, accessed May 30, 2020.

8 Kurt Erickson, "Missouri paid out more than $24 million for lawsuits last year," *St. Louis Post-Dispatch*, Feb 3, 2020, accessed May 31, 2020.

9 For North Carolina see Gary D. Robertson, "NC redistricting fight turns to state courts after ruling," *The Associated Press*, June 29, 2019; for Virginia see Alan Suderman, "Public could pay $10 million for redistricting lawsuits," *The Associated Press*, July 17, 2018; for Wisconsin see Patrick Marley, "Redistricting Legal Fight on Track to Cost Wisconsin Taxpayers $3.5 million," *Milwaukee Journal Sentinel*, January 22, 2019; all accessed May 31, 2020.

inconsistent reporting practices at the local level.[10] All three of these options would be so inaccurate that they would be prohibitively expensive to clean up.

b. **VAP**: The local data on Voting-Age Population (VAP) already exists and is publicly available from the U.S. Census Bureau. The State is therefore least likely to incur new costs if eligible voters were counted using VAP. However, the sponsors of SJR38 explicitly removed from the "truly agreed to and finally passed" language of the law all references to using the decennial Census for these purposes. It is therefore unlikely that they intend to use VAP data alone.

c. **CVAP**: Given the concern of the sponsors about excluding non-citizens, the most likely candidate for this new database is Citizen Voting-Age Population (CVAP). Using CVAP, however, would require creating a new database linking citizenship to voting age at the ward/precinct level. The sponsors have not yet outlined their plan for creating such a database; the most likely way to do so would be through some kind of statewide census. There were 2,396,271 households in Missouri from 2014 to 2018. We conservatively estimate the cost of a census at $107 per household based on the 2020 Federal rate.[11]

Such a statewide census would create **a minimum of $256 million in new expenses**. In sum, this amendment would create one of, if not the most **expensive redistricting process in all fifty states**.

3. **Bad for Business & Local Government**: The amendment will shift legislative power away from districts with more children and non-citizens.[12] These shifts in relative representation would impact the ability of communities to mobilize state resources through their elected representatives. Moreover, the business community thrives when laws are transparent and predictable; uncertainty makes entrepreneurs nervous about re/investing. This badly written amendment would negatively impact both large corporations and small businesses. Though **not concretely quantifiable**, the long-term fiscal and economic costs from these factors are **foreseeable and very significant**.

4. **Economic Sanctions**: Thanks to social media and a heightened level of partisan activism, changes to state laws now often receive national or even global attention, particularly when they are prejudicial to vulnerable populations like children, non-citizen, and people of color. In response, activist groups often call for a wide range of public and private sanctions against the state. Typical responses include reductions in business travel, conferences, cultural events, and tourism. In extreme cases, it can lead boycotts, corporate relocations, and divestment. In the long-term, such sanctions impact small businesses as much as large corporations. Some recent estimates from comparable

12 See fn 5.

states suggest **economic losses ranging from $256.4 million to $3.76 billion**.[13] By making Missouri into a national and international poster child for discriminatory redistricting, we anticipate **substantial long-term fiscal and economic damage**.

There are many things we cannot know for sure, but that is the core problem with this amendment — its uncertainty. The Legislature is asking the citizens of Missouri to become the lab rats for an untested, dangerous experiment in political redistricting. This risky adventure runs contrary to the traditions and culture of the Show-Me State.

Our conclusion is that this unnecessary and badly written amendment exposes the State to **significant foreseeable fiscal and economic damage on a wide range of fronts**. Even if some of these likely outcomes cannot be precisely quantified, we encourage you to make clear to the voters of the State of Missouri **the disastrous scale of these predictable outcomes** in the language of your fiscal note summary.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110 and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

[13]In Indiana, the Center for American Progress estimated that their Religious Freedom Restoration Act could cost the state $250 million over 6 years (Sarah McBride and Laura E. Durso, “Indiana’s Religious Freedom Restoration Act Is Bad for Business,” *CAP*, March 31, 2015, accessed June 4, 2020). In North Carolina, the Public Facilities Privacy & Security Act restricted bathroom use to people of the same sex according to their birth certificate. According to Emery P. Dalesio and Jonathan Drew of *The Associated Press* (published in *The Washington Post* and many other news sources, 30 March 2017), passage of this new law resulted in an estimated loss to North Carolina's economy of over $3.76 billion in investments and jobs.

Mayor Len Pagano, City of St. Peters provided the following information:

Auditor Galloway:

SJR38 would have a significant fiscal impact on local governments and small businesses in Missouri if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard when drawing state legislative plans based on "the people that are able to vote."

Such a move would be a radical departure from how Missouri has drawn maps for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

The Census Bureau's 5-Year American Community Survey indicates that 13,400 residents of St. Peters would lose representation if maps are drawn using an eligible voter standard.

Our cities provide services to everyone in our community, and not counting everyone would have a significant impact on how our residents are represented — and who is represented — in the General Assembly.

Testimony provided to the General Assembly in the House General Laws Committee made clear that if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color. From that testimony, given by Nimrod Chapel, Jr. of the Missouri NAACP State Conference and Yurij Rudensky and Ethan Herenstein of the Brennan Center for Justice:

> **Apportioning on the basis of citizen voting age population (CVAP)—or any basis narrower than total population—would be discriminatory.** Apportioning on the basis of CVAP would be discriminatory. The main proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death

that apportioning on the basis of CVAP would be "advantageous to Republicans and Non-Hispanic whites."4 Research proves that to be true in Missouri as well.

Over 90 percent of the people excluded from Missouri's apportionment base under CVAP apportionment would be citizen children. Missouri's citizen children are not evenly distributed across the state—in fact, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.

For white communities, only 21 percent of their population is under eighteen years of age. But households in Black and Latino communities tend to include more children, with 26.7 percent and 37 percent of their respective populations aged under eighteen. In other words, more than a quarter of Missouri's Black community and more than a third of the state's Latino community simply would not count under a CVAP-based apportionment.

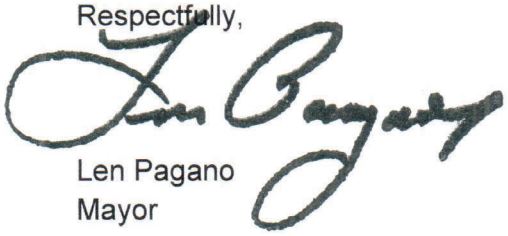
Furthermore, from the same public testimony:

> [The voter-approved redistricting system in 2018's] Amendment 1 offers robust protections for communities of color in the redistricting process. Beyond those contained in the Voting Rights Act, Amendment 1 provides independent state-law protections that protect minority communities' ability to participate in the political process and elect their representatives of choice. While SJR 38 would retain some state-level protections, it significantly weakens them by eliminating Amendment 1's prohibition against making it harder for communities of color to elect representatives of their choice and its protection of coalitional districts where different communities can combine their voting strength. As a result, SJR 38 would leave minority communities more vulnerable during the redistricting process.

If SJR38 is fully implemented as intended by Sen. Hegeman, we should expect a significant impact on Missouri's small businesses and local government revenues, due to the dramatic change in who is represented, and due to the inevitable decline in economic activity that would come from passage and implementation of such a discriminatory redistricting system.

Thank you for your attention to this submission.

Respectfully,



Len Pagano
Mayor

Jean Dugan, provided the following information:

As co-presidents of the League of Women Voters of Metro St. Louis, they are concerned about the impact of language in SJR38 that could lead to Missouri not counting non-citizens or anyone under age 18 when legislative district maps are drawn. As they said, "Removing 1.4 million children from our population count substantially affects the size of House and Senate districts and reduces the representation of all children and non-citizens." The fiscal impact of this is unclear, but they believe not using total population would be detrimental to most Missouri families.

Nancy J. Miller and Louise T. Wilkerson

Keep clean redistricting process that counts kids

By Nancy J. Miller and Louise T. Wilkerson

https://www.stltoday.com/opinion/columnists/nancy-miller-and-louise-wilkerson-keep-clean-redistricting-process-that-counts-kids/article_6a268be7-5129-5b5e-a3ad-03cea5febc33.html

After the courts confirmed that the 2020 Census should count every resident, many members of the Missouri General Assembly indicated that they think legislative district maps should be drawn counting only citizens over the age of 18.

The Legislature last week approved Senate Joint Resolution 38 to put an amendment on the ballot to replace Clean Missouri's redistricting process. The new amendment would allow unprecedented partisan and racial gerrymandering. Not only would this amendment to the state constitution give political parties more power, it would open the door to a process that excludes children and non-citizens when drawing legislative district maps.

Apparently, some legislators do not think kids should count as part of their constituency, even though minors make up 22% of the state's population. That is an estimated 1.4 million children under the age of 18 across the state, according to the Missouri Census Data Center. That includes 22% of the St. Louis County population, 19% of St. Louis city, and 23% of St. Charles County.

The League of Women Voters believes that district maps should continue to be drawn on the basis of total population — all the people who live in an area. Courts have supported this method since total population serves the principle of representational equality. The Supreme Court ruling in Evenwel v. Abbott reaffirmed that the interests of all people living in the U.S. should hold equal weight and yield comparable influence in the democratic process. Legislators are elected to serve all residents, not just those eligible to vote.

Currently, Missouri's 163 House districts have an average population of 37,000 and the 34 Senate districts have an average population of 174,000. Those population numbers for legislative districts are crucial for their communities. Representation determines how

resources get allocated. Removing 1.4 million children from their population count substantially affects the size of House and Senate districts and reduces the representation of all children and non-citizens.

Accurate Census are used by school districts, municipal boards and states to determine funding priorities and allocate necessary resources for schools, libraries, transportation and other public programs and services. If legislative district maps are drawn based on incomplete counts, then all individuals living in those districts might suffer.

When all their neighbors are not represented and included in all counts, the entire community loses out. They need fair maps that include all of us.

Families with children would lose the most if Missouri switches to Citizen Voting Age Population for redistricting after the 2020 Census. Those district maps would be in place for the next decade. A lot of changes occur in 10 years, including current teenagers becoming eligible to vote, and refugees and other immigrants gaining citizenship. Are they to be denied their representation?

League volunteers have registered dozens of newly naturalized citizens to vote. Their excitement about earning the right to vote in this country reminds us of the importance of citizenship. It should also remind us of the importance of refugees and other immigrants in our economy. Many of them come with valuable skills and are willing to work hard to achieve the American dream.

State legislators should be eager to represent non-citizen residents, not discount them.

The Missouri General Assembly's new gerrymandering plan is part of a national effort to undermine the principles of representative democracy. The daughter of gerrymandering mastermind Thomas B. Hofeller released files after his death showing he advocated using Citizen Voting Age Population for redistricting instead of total population since it favored one group of citizens over others, saying it "would be advantageous to non-Hispanic whites."

These files were evidence in the 2019 Texas court case that ruled out a Census question on citizenship. In Missouri, experts say using voting age in redistricting would benefit rural areas at the expense of St. Louis and other cities.

In 2018 voters in every state Senate district supported Amendment 1, known as Clean Missouri, to clean up Missouri's Legislature. They believe Missourians do not want to exclude children under 18 and non-citizens from the count, drop the amendment's independent demographer, give political parties more power, hide the data used for the final maps, or set a weaker race equity standard.

"Voters should be livid at this legislative attempt to circumvent their will," the Post-Dispatch said in a Feb. 12 editorial that recognized SJR 38 as an incumbent-protection plan.

They want fair maps that count their kids as well as non-citizens. To achieve that, they need to keep the process clean. Let's not mess with Amendment 1.

fiscalnote@auditor.mo.gov

Auditor Galloway:

This submission is in my individual capacity and not as a member of the Springfield City Council. I hope to discuss this issue as a city, but I want to submit my personal perspective for your consideration and in your timeframe.

I am concerned that SJR38 would have a significant fiscal impact on local governments and small businesses of Southwest Missouri if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard when drawing state legislative plans based on "the people that are able to vote."

Sometimes referred to as a citizen voting-age population (CVAP) standard, such a move would be a radical departure from the standard Missouri has used for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

The Census Bureau's 5-Year American Community Survey indicates that 33,190 Springfield residents would lose representation if maps are drawn using an eligible voter standard. In the Springfield R-XII School District, 44,922 children and noncitizens would not count.

Springfield provides services to everyone in our community, and not counting everyone in our community would have a significant impact on how our residents are represented in the General Assembly. Underrepresented constituents receive less funding. This is common sense, and is documented in academic research. See, for instance, research by Stephen Ansolabehere, Alan Gerber and Jim Snyder on the "clear evidence of the political consequences of unequal representation," and work from Tiberiu Dragu and Jonathan Rodden demonstrating that

"overrepresented regions appear to receive substantially larger per capita shares of government expenditure."

Furthermore, testimony provided to the House General Laws Committee during debate on SJR38 made clear that if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color. If SJR38 is fully implemented as intended by Sen. Hegeman, we should expect a significant impact on Missouri's small businesses and local government revenues, due to the dramatic change in who is represented, and due to the inevitable decline in economic activity that would come from the public outcry after passage and implementation of such a discriminatory redistricting system. The Associated Press determined in 2017 that North Carolina's discriminatory House Bill 2 would cost the state more than $3.76 billion in lost economic activity over a dozen years because of a strong public response to the law. Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One study "found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed.

I am concerned that the fiscal impact of SJR38 would be significant for local governments if any population standard other than total population is used for state legislative maps.

Thank you for your attention to this submission.

Tommie L. Pierson, Sr. provided the following information:

June 4, 2020

Auditor Galloway:

SJR38 would have a significant fiscal impact on local governments and small businesses in Missouri if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard when drawing state legislative plans based on "the people that are able to vote."

Such a move would be a radical departure from how Missouri has drawn maps for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

The Census Bureau's 5-Year American Community Survey indicates that 2,200 residents of Bellefontaine Neighbors would lose representation if maps are drawn using an eligible voter standard. In the Riverview Gardens School District, 10,820 children and noncitizen immigrants would lose representation.

Our cities provide services to everyone in our community, and not counting everyone would have a significant impact on how our residents are represented — and who is represented — in the General Assembly.

Testimony provided to the General Assembly in the House General Laws Committee made clear that if Missouri maps are drawn based on the number of eligible voters, instead of the total population, there would be a discriminatory impact on the representation for voters of color. From that testimony, given by Nimrod Chapel, Jr. of the Missouri NAACP State Conference and Yurij Rudensky and Ethan Herenstein of the Brennan Center for Justice:

> **Apportioning on the basis of citizen voting age population (CVAP)—or any basis narrower than total population—would be discriminatory.** Apportioning on the basis of CVAP would be discriminatory. The main proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death that apportioning on the basis of CVAP would be "advantageous to Republicans and Non-Hispanic whites."4 Research proves that to be true in Missouri as well.
>
> Over 90 percent of the people excluded from Missouri's apportionment base under CVAP apportionment would be citizen children. Missouri's citizen children are not evenly distributed across the state—in fact, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.

> For white communities, only 21 percent of their population is under eighteen years of age. But households in Black and Latino communities tend to include more children, with 26.7 percent and 37 percent of their respective populations aged under eighteen. In other words, more than a quarter of Missouri's Black community and more than a third of the state's Latino community simply would not count under a CVAP-based apportionment.

Furthermore, from the same public testimony:

> [The voter-approved redistricting system in 2018's] Amendment 1 offers robust protections for communities of color in the redistricting process. Beyond those contained in the Voting Rights Act, Amendment 1 provides independent state-law protections that protect minority communities' ability to participate in the political process and elect their representatives of choice. While SJR 38 would retain some state-level protections, it significantly weakens them by eliminating Amendment 1's prohibition against making it harder for communities of color to elect representatives of their choice and its protection of coalitional districts where different communities can combine their voting strength. As a result, SJR 38 would leave minority communities more vulnerable during the redistricting process.

If SJR38 is fully implemented as intended by Sen. Hegeman, we should expect a significant impact on Missouri's small businesses and local government revenues, due to the dramatic change in who is represented, and due to the inevitable decline in economic activity that would come from passage and implementation of such a discriminatory redistricting system.

Thank you for your attention to this submission.

Public Comments on the Fiscal Impact of Amendment 3

Submitted by Dan Vicuna, Common Cause national redistricting manager
June 5, 2020

The provision of Amendment 3 that would require the drawing of state legislative districts based on counting only American citizens of voting age is a radical and discriminatory change that would intentionally target people of color by reducing their representation in the state legislature. National Republican political operatives began advocating for this approach to redistricting after an analysis completed by the late Thomas Hofeller, the Republican National Committee's redistricting director following the 2010 census. Analyzing population data from Texas as an example, Hofeller concluded in 2015 that drawing districts that include a count of only citizens of voting age "would be advantageous to Republicans and Non-Hispanic Whites."[1] In addition to reducing representation in Missouri communities with higher percentages of noncitizens, this change would disproportionately impact communities of color because of the number of children who would be not be counted. In Missouri, only one in five white Missourians are children.[2] However, that number jumps to one in four black Missourians and one in three Latino Missourians.[3]

Dale Oldham, Hofeller's business partner until Hofeller's death, has traveled to Missouri and directly consulted with legislative supporters of Amendment 3. If Missouri passes Amendment 3, it will be the only state in the United States to draw districts based on citizen voting age population and the first ever to exclude such large swaths of the population since the adoption of the 14th Amendment in 1868.

As the sole state in the country to adopt a radical and discriminatory approach to redistricting, Missouri would inevitably become ground zero for activism. The passage of unmistakably discriminatory laws targeting certain racial groups or members of the LGBTQ communities has frequently led to statewide economic boycotts costing or threatening costs of between $100

million and several billion dollars.[4] The targeting of Missouri with economic boycotts that will have a significant fiscal impact is not just likely. It is inevitable.

Below are some examples of the significant fiscal impact on states that have targeted vulnerable communities for discrimination.

- **North Carolina:** In 2016, North Carolina Gov. Pat McCrory signed HB 2, the Public Facilities Privacy & Security Act. This bill targeted the transgender community by mandating that all government buildings using single-sex restrooms limit the use of those restrooms based on gender assigned at birth. Prior to its partial repeal in 2017, the Associated Press estimated that lost economic activity caused by protest boycotts would cost the state at least $3.76 billion over a dozen years.[5] By the end of 2017, lost business was estimated to cost the state $525 million. A Forbes Magazine analysis estimated actual statewide losses of $630 million by the November 2018 election.[6] Actions in support of the boycott ranged from PayPal reversing course on expanding in the state,[7] the NCAA moving basketball tournament games to other states,[8] and entertainers cancelling concerts.
- **Indiana:** Indiana's Religious Freedom Restoration Act (RFRA), enacted in 2015, allowed businesses to discriminate against its customers based on sexual orientation by allowing businesses to claim that the discrimination is based on religious beliefs. The bill's passage cost the City of Indianapolis upwards of $60 million as companies and conventions pulled out of the city,[9] and was estimated to cost the state approximately $256 million over six years.[10] Jurisdictions such as Connecticut, Washington,[11] San

[11] Mary Ann Georgantopoulos, *Boycott Against Indiana's Religious Freedom Law Grows Across U.S.*, BUZZFEED NEWS (Apr. 1, 2015), https://www.buzzfeednews.com/article/maryanngeorgantopoulos/here-are-the-celebrities-businesses-and-governments-boycotti.

Francisco, and Seattle,[12] and also implemented boycotts of municipal funds spent in Indiana.

- **Arizona:** In 2010, Arizona began implementation of SB 1070, a bill targeting immigrants that was widely believed to increase racial profiling of Latinos in the state. Within a year of its passage, Arizona lost $141 million in direct spending from convention cancellations alone and approximately $253 million in lost economic output.[13]
- **Georgia:** In 2019, Georgia's governor approved HB 481, a bill with strict limitations on the right to an abortion. This drew significant opposition from the entertainment industry, which generates $9.5 billion per year in the state.[14] The law is currently enjoined as it proceeds in litigation, which has limited the economic damage caused.
- **Texas:** Legislation in Texas targeting the LGBTQ community, such as a "bathroom bill" resembling North Carolina's and a "religious liberty" bill similar to Indiana's, put the state at risk of economic boycotts. The Texas Association of Business estimates that protests targeting Texas could cost the state up to $8.5 billion and 185,000 jobs if such legislation passed.[15]

Passage of Amendment 3 would have a significant fiscal impact on the state of Missouri. Enshrining unprecedented discrimination into the Missouri Constitution will trigger a fierce backlash consistent with what other states have experienced. The Census Bureau estimated in 2018 that 22.5% of Missouri's population – 1,471,488 people – are minors under the age of 18 and that 2.1% of the state's population – 126,200 people – are noncitizens. The proposal to deny representation in the state legislature to all non-voters could adversely impact significantly more people than bills targeting undocumented immigrants or transgendered individuals and is, as result, far more likely to lead to severe fiscal consequences. The state auditor's office has a responsibility to inform Missouri voters about the near-certain fiscal costs of passing a patently discriminatory measure.

Barry Greenberg, Mayor, City of Maplewood provided the following information:

State Auditor's Office
State Capitol, Rm 121
Jefferson City, MO 65101
fiscalnote@auditor.mo.gov

June 5, 2020

Auditor Galloway:

I don’t understand the benefit of SJR38, sponsored by Dan Hegeman, not only does it negatively impact the representation of my city, it doesn’t accurately reflect ours, or any other cities demographics. The legislature wants to pass anti-abortion legislation because every life is important. Apparently those lives are only important if they can serve a particular agenda.

The fiscal impact of SJR38 would be significant for local governments, small businesses, and state revenues if the population standard for state legislative maps is changed from using total population to a citizen voting-age population or eligible voter standard.

SJR38 Sponsor Dan Hegeman indicated on the Senate floor on January 29, 2020 that the intention of Section 3(a)(b)(1) in SJR38 (Page 4, Lines 43-54) is to move the state of Missouri away from using total population for state legislative maps, and instead use a new population standard of "the people that are able to vote."

Sometimes referred to as a citizen voting-age population (CVAP) standard, such a move would be a radical departure from how Missouri has drawn maps for at least 145 years. Drawing maps on anything other than the total population of Missouri would also be a departure from current practice in the United States. Right now, every state in America counts everyone for redistricting purposes.

If a citizen voting-age population standard is used in Missouri for state legislative plans, as Senator Hegeman said was his intention with SJR38, the impacts on the representation for local governments and political subdivisions would be significant.

The Census Bureau's 5-Year American Community Survey indicates that 1,695 or about 21% of Maplewood residents would lose their representation because they are children not yet eligible to vote, or because they are noncitizens. Maplewood provides services to all of our residents, and a significant change to which of our residents are counted in General Assembly districts would have a significant impact on who and how our residents are represented.

Testimony provided to the General Assembly in the House General Laws Committee made clear that if Missouri maps are drawn based on the number of eligible voters, instead of based on the total population, there would be a significant discriminatory impact on the representation of voters and communities of color.

We should expect a significant impact on Missouri's small businesses and Missouri's overall economy if maps are drawn in discriminatory way that disproportionately impacts Missourians

of Color. This smells of jerrymandering and it is not a pleasant odor emanating from Jefferson City.

The fiscal impact of SJR38 would be significant for local governments, small businesses, and state revenues if any population standard other than total population is used for state legislative Maps.

I can be reached at b-greenberg@cityofmaplwood.com. I appreciate your attention to this matter.

Respectfully,

Barry Greenberg

Barry Greenberg, Mayor
City of Maplewood, Missouri

Sean Soendker Nicholson provided the following information:

State Auditor's Office
State Capitol, Rm 121
Jefferson City, MO 65101
fiscalnote@auditor.mo.gov

June 6, 2020

To Whom It May Concern:

The passage and full implementation of SJR38 would have significant fiscal and economic impacts on the State of Missouri, on local governments, and on Missouri small businesses. The legislative debate on SJR38 illuminated many things about the goals and potential impact of the proposed constitutional amendment, and the fiscal note for SJR38 should reflect the potential cost of the proposal.

SJR38 removes the explicit requirement that state legislative maps be based on the total population of Missouri.

SJR38 asks Missouri voters to repeal three explicit requirements in the state constitution requiring that state senate and state house districts be based on the total population of the state. Section 3(a)(b)(1) on Page 4 on SJR38 proposes the following changes to the constitution:

> Districts shall be ~~[established on the basis of total]~~ **as nearly equal as practicable in population**~~[. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census]~~**, and shall be drawn on the basis of one person, one vote**.

This would be a significant change to our current constitutional requirements with profound consequences for the people of Missouri. Instead of counting all constituents in our state for state legislative maps, as every state in the United States of America does now, SJR 38 seeks to make Missouri the first state in the Union to move away from counting everyone.[1] SJR38 would

[1] Nathaniel Persily et al., Brief of Nathaniel Persily, Bernard Grofman, Stephen Ansolabehere, Charles Stewart III, and Bruce E. Cain as Amici Curiae in Support of Appellees, No. 14-940, in the Supreme Court of the United States (September 25, 2015).

replace the current constitutional requirement that all Missourians be counted with a new standard, that state house and senate maps be drawn "on the basis of one person, one vote."

Missouri has based state legislative maps on total population since at least 1875.
Drawing maps on anything other than total population would be a radical departure from the standard that Missouri has used for at least 145 years.[2] Note the following passages from the Constitution of 1875:

> The ratio of representation shall be ascertained at each apportioning session of the General Assembly, by dividing *the whole number of inhabitants of the State, as ascertained by the last decennial census of the United States… (emphasis added)*

SJR38 proposes a radical change to longstanding redistricting policy which would have significant impacts on representation if fully implemented.

Basing legislative maps on the number of eligible voters in Missouri is the explicit goal of the SJR38 sponsor Senator Dan Hegeman.
Senator Dan Hegeman was asked by Senator Jill Schupp to explain the intent of Section 3(a)(b)(1) of SJR38 during floor debate on the proposal in January. This was their exchange from January 29, 2020:

> SCHUPP: My question to you is, when we're talking about populations, what does 'one person, one vote' mean? And why are you using that to substitute for using the census data as the way we determine how a district is drawn? In other words, are we counting everyone, are we counting the people who live in a district that do have a vote, for a variety of reasons, including that they are not old enough, including that they are not citizens? Tell me what that means, how are we coming up with the population —
>
> HEGEMAN: What do you mean, noncitizens?
>
> SCHUPP: How are we coming up with the population, are you tying it to who votes?
>
> HEGEMAN: *We're looking at the people that vote. The people that are able to vote are the people that are counted. Not registered voters, but the opportunity to do that. (emphasis added)*

[2] Keith, Douglas. "Apportionment of State Legislatures, 1776-1920." *Brennan Center for Justice.* https://www.brennancenter.org/our-work/research-reports/apportionment-state-legislatures-1776-1920

Basing maps on the number of eligible voters — that is, on the citizen voting-age population of the state — would be a radical change from the standard Missouri has had on the books for (at least) the last 145 years.

Basing legislative maps on anything other than total population would be discriminatory. Testimony submitted to the General Assembly ahead of the House General Laws Committee hearing on SJR38 makes clear that any movement away from using total population would have a discriminatory impact on the representation for voters of color. In the testimony from the Missouri NAACP State Conference and Brennan Center for Justice:

> **Apportioning on the basis of citizen voting age population (CVAP)—or any basis narrower than total population—would be discriminatory.** Apportioning on the basis of CVAP would be discriminatory. The main proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death that apportioning on the basis of CVAP would be "advantageous to Republicans and Non-Hispanic whites."[3] Research proves that to be true in Missouri as well.
>
> Over 90 percent of the people excluded from Missouri's apportionment base under CVAP apportionment would be citizen children. Missouri's citizen children are not evenly distributed across the state—in fact, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.
>
> For white communities, only 21 percent of their population is under eighteen years of age. But households in Black and Latino communities tend to include more children, with 26.7 percent and 37 percent of their respective populations aged under eighteen. In other words, more than a quarter of Missouri's Black community and more than a third of the state's Latino community simply would not count under a CVAP-based apportionment. *(emphasis in original)*

Such an outcome would have a significant fiscal impact on the state of Missouri, on local governments, and on Missouri small businesses.

[3] *See* Exhibit D to Letter Motion to Compel Defendants to Show Cause, New York v. U.S. Dep't of Commerce, No. 18-cv-2921 (S.D.N.Y. May 31, 2019), ECF No. 595-1.

Basing legislative maps on anything other than total population would dramatically impact representation for political subdivisions.

As noted in the NAACP and Brennan Center testimony, removing more than 1.5 million Missourians from the population base for state house and state senate districts would have significant and profound consequences for political representation in Missouri, especially for communities with large numbers of children and communities of color which skew younger than their white counterparts.

Consider the Citizen Voting Age Population data from the Census Bureau's 2018 5-Year American Community Survey:

City	Total Residents	Citizens Over 18	Would Not Count
Kansas City	481,415	351,220	130,195
St. Louis	311,275	239,605	71,670
Springfield	166,635	133,445	33,190
Independence	117,205	87,980	29,225
Lee's Summit	96,325	68,630	27,695
Columbia	120,250	92,575	27,675
O'Fallon	86,340	60,835	25,505
St. Joseph	76,465	56,680	19,785
Blue Springs	54,370	38,420	15,950
St. Charles	69,575	54,770	14,805
Florissant	51,745	37,260	14,485
St. Peters	56,840	43,440	13,400
Chesterfield	47,665	34,980	12,685
Wentzville	37,485	24,935	12,550
Joplin	50,075	38,370	11,705
Wildwood	35,515	25,630	9,885
Jefferson City	43,015	33,275	9,740
Cape Girardeau	39,325	30,510	8,815
Ballwin	30,330	22,200	8,130
University City	34,655	26,555	8,100

The loss of representation would be especially profound in communities with many children. For instance:

- More than 1 in 3 residents of Carthage, Neosho and Wentzville would not count.
- More than 1 in 4 residents of Ballwin, Belton, Blue Springs, Bridgeton, Chesterfield, Creve Coeur, Dardenne Prairie, Eureka, Excelsior Springs, Ferguson, Florissant, Grain Valley, Grandview, Harrisonville, Jackson, Jennings, Kansas City, Kirkwood, Lebanon, Lee's Summit, Lemay, Manchester, Marshall, Maryland Heights, Mexico, Nixa, O'Fallon, Overland, Ozark, Poplar Bluff, Raymore, Republic, Rolla, Sedalia, Sikeston, Spanish Lake, St. Ann, St. Joseph, Troy, Union, Webb City, Webster Groves and Wildwood would not count.

This loss of representation would be significant and harmful to all of these communities.

Reducing the representation of a political subdivision would have significant consequences for the public policy of the state and the ability for Missourians to advocate for their interests.
Missouri counts everyone in state legislative districts now for good reason. "When people are excluded from the political process, they can't advocate for their own interests," writes Michael Latner of the Union of Concerned Scientists.[4]

David Kimball, Professor of Political Science at University of Missouri-St. Louis summarizes the academic research on what's at stake:

> A loss of representation in the legislature leads to a decline in state funding for affected counties and municipalities. This happened in the United States before court decisions in the 1960s required legislative districts to be equal in population. Prior to the court rulings many states, including Missouri, had malapportioned legislatures with districts of vastly different populations. In malapportioned legislatures "rotten boroughs" (districts with relatively few residents) received a disproportionate share of state funding (Ansolabehere, Gerber, and Snyder 2003).[5] After court rulings forced districts to be drawn with equal total population then state funding was distributed equally to local counties based on population (Ansolabehere and Snyder 2008).[6] More generally, **areas that lose representation in legislative bodies are at a disadvantage in the**

distribution of government resources (Dragu and Rodden 2011[7]; Elis, Malhotra, and Meredith 2009).[8] The potential for unequal distribution of government resources is exacerbated in states like Missouri where legislators are elected from single member districts (Snyder and Ueda 2007).[9] **If SJR38 moves Missouri away from drawing legislative districts on the basis of total population then that will have a significant fiscal impact on local governments in Missouri**. (*emphasis added)*

Nicholas Stephanopoulos, Professor of Law at Harvard Law School echoes these thoughts: "Gerrymandering is not just about seats and votes; if you affect who gets elected, you affect which policies come out. Gerrymandering makes it possible to have a big distortion in what the public wants versus what the public gets."[10]

Underrepresented communities will receive less funding because they will be underrepresented in the General Assembly, and this will have significant long term implications for political subdivision budgets.

When states enact discriminatory policies, there are economic consequences: reduced tourism and business travel, threats of boycotts and actual boycotts, and new challenges for in-state business and universities trying to recruit talent.

When state legislatures pass discriminatory laws, there are significant economic consequences. SJR38 seeks to make Missouri the first state to move away from the current standard of counting everyone in redistricting. If it is passed and fully implemented, as Senator Hegeman articulated, we should expect a response from citizens, organizations, businesses and other governments that have the ability to redirect their travel, conference, and associated dollars. Consider:

- The Associated Press determined in 2017 that North Carolina's discriminatory House Bill 2 would cost the state more than $3.76 billion in lost economic activity over a dozen years because of a strong public response to the law.[11]

- Arizona lost significant economic activity after its state legislature passed a controversial immigration bill. One study "found a $141 million hit to the convention and tourism industry in the four months after" the controversial law was signed.[12]
- Indiana's Religious Freedom Restoration Act (RFRA), enacted in 2015, would have allowed businesses to discriminate against its customers based on sexual orientation by shielding themselves with a claim of religious liberty. Its passage directly cost the City of Indianapolis upwards of $60 million as companies and conventions pulled out of the city and was estimated to cost the state approximately $256 million over six years.[13] Jurisdictions such as San Francisco, Seattle, Connecticut, and Washington also implemented boycotts of municipal funds spent in Indiana.[14] [15]
- Legislation in Texas targeting the LGBTQ community, such as a "bathroom bill" resembling House Bill 2 in North Carolina and a "religious liberty" bill similar to Indiana, put the state at risk of similar boycotts. The Texas Association of Business estimates that protests targeting Texas if such legislation passed could cost the state up to $8.5 billion and 185,000 jobs.[16]

Small business, local government budgets, and state government budgets are impacted when states enact discriminatory policies.

Based on the foregoing information, small businesses, local government budgets, and the state budget will be impacted in the following way.

Assumptions

- **A reduction of commerce and tourism would have a direct, tangible impact on sales tax and transient guest tax revenues.**

- In Fiscal Year 2019, $2,237,149,579 in state revenue came from Sales and Use Tax.[17] If that was reduced by even 1%, that would mean a loss to the state of more than $22,000,000.
- For Fiscal Year 2020, Jackson County estimates that it will receive $49,434,000 in sales tax revenues.[18] If these are reduced by even 1% in FY2021 or FY2022, that would cost the County almost $500,000 per fiscal year.
- For Fiscal Year 2020, St. Louis County expects to receive $383,400,000 in sales taxes and $13,600,000 in lodging taxes.[19] If these are reduced by even 1% in FY2021 or FY2022, that would cost the county almost $4,000,000 per fiscal year.

- **The Committee on Legislative Research's fiscal note on SJR38[20] incorrectly assumes "the Nonpartisan State Demographer position will be eliminated if this joint resolution passes."** There is already a Missouri State Demographer working in the Office of Administration[21], and nothing in SJR38 would bring about the termination of this position. SJR38 would change the responsibilities of the position only.
- **The Missouri Ethics Commission estimated[22] in the fiscal note response for Initiative Petition 2018-048 that it would require up between $61,107 and $67,478 per year to inform impacted entities of changes to lobbyist gift rules and campaign finance rules.** SJR38 would change the lobbyist gift limit for $5 while maintaining exemptions in the state constitution for gift acceptance, and will change campaign contribution limits by $100 for state senate candidates only.
- **SJR38 significantly increases the number of partisan political appointees on both the house apportionment commission and the senatorial apportionment commission.** The existing senatorial apportionment commission will double in size, from 10 to 20 partisan commissioners. The existing house apportionment commission will increase from 16 to 20 partisan commissioners. The partisan commissions will now be required to meet as outlined in SJR38, and all 40 partisan commissioners will require reimbursement of expenses. This could be as much as $50,000 in FY2020 and $100,000 in FY2021.[23]

[20] SJR38 (2020), Fiscal Note, June 1, 2020

[21] Office of Administration, Division of Personnel https://oa.mo.gov/personnel/classification-specifications/0468

[22] Fiscal note for Initiative Petition 18-048, https://app.auditor.mo.gov/Repository/Notes/18-048.pdf

[23] SJR38 (2020), Fiscal Note, June 1, 2020

In Summary, if SJR38 passes the fiscal impact to state and local government budgets and small businesses could be significant.

State government entities will see annual operating costs increase by at least $61,000, will have decennial costs by up to $150,000 and will have a net fiscal impact starting in 2023 ranging from a loss of $22,000,000 to an unknown but significant loss of revenue annually. Local governments expect sales and use tax and transient guest tax revenue to decrease significantly starting in 2023. Local businesses project a significant negative impact on tourism and sales leading to an unknown decrease in revenue.

Respectfully submitted,

Sean Soendker Nicholson
510 E 115th Ter
Kansas City, MO 64131

Caroline Fan, Chief Strategy Officer, USAKO Group provided the following information:

The fiscal impact of SJR 38 would be significant and severely impact local governments, small businesses, and state revenues if the state changed the standard for redistricting from counting to all residents to a citizen voting age method, which has never been used.

She worked as the Immigration Policy Specialist for the Progressive States Network during the 2008-2009 legislative session, and worked with then Arizona State Rep. Kyrsten Sinema on opposing the predecessor to Arizona's SB 1070 which was a "papers please" bill that insisted on checking everyone's citizenship during routine stops. It did not pass that year because they made it known that the cost of lawsuits and boycotts against the state and the economic impact of such discriminatory legislation would be devastating during the '08 recession. In 2010, when it did pass, the bill cost the state an estimated $141 million in lost convention and tourism in the first four months alone. (https://www.eastvalleytribune.com/arizona/immigration/costly-sb-1070-brought-businesses-to-the-table/article_b506db80-6c53-11e0-8d84-001cc4c03286.html)

Now Missouri is posed to make the same type of mistake, by putting a first in the nation CVAP initiative on the ballot. **SJR 38 is far from budget neutral**, it will cause international corporations and startups to question whether they want to open branches and headquarters here. She now works in the startup world, where 55% of billion dollar startups have an immigrant founder or co-founder, according to Forbes. Missouri has done a decent job at trying to reposition itself as a startup hub within the Midwest. Arch Grants draws top talent from across the world to St. Louis with its non-dilutive $50,000 grants. According to state's own "Show Me Jobs" report, startups account for 44,000 jobs annually. But immigrants and refugees are not going to want to move to a state where their voices are not valued. She knows this because she has participated in trade missions to Asia, and hosted diplomats and international investors and businesspeople here, some of which has been covered by the St. Louis Business Journal (https://www.bizjournals.com/stlouis/news/2019/11/15/3-south-korean-startups-to-visit-st-louis-as-they.html.)

Separate from the impact that SJR 38 will have on startups, it will have a significant fiscal impact on small businesses in the state. The American Immigration Council report in 2018 (https://www.americanimmigrationcouncil.org/research/immigrants-in-missouri) found that 14,795 immigrant business owners accounted for 5 percent of all self-employed Missouri residents in 2018 and generated $397.7 million in business income. Additionally, **immigrant led households in the state had $6.8 billion in spending power (after-tax income) in 2018, contributing billions to the state's economy** as consumers. They can expect that a measure like SJR 38 will cause some entrepreneurs to leave the state, or to choose other places to set up businesses.

Furthermore, Immigrant-led households in the state paid (https://www.newamericaneconomy.org/locations/) $1.9 billion in federal taxes and $790.8 million in state and local taxes in 2018.

SJR 38 would also negatively impact the desire of international students to enroll in Missouri schools. Last week, Gov. Parson made an additional $41 million of cuts to higher education in the state, but the state's 23,014 international students here (#13 out of 50 states) had an economic impact of more than $627 million in 2018 according to the Institute for International Education. (https://dhewd.mo.gov/newsapp/newsitem/uuid/5cd3c806-0a4e-4bf1-87fc-145fa2edfe98) None of these international students would count for redistricting, and they are vital to our state's economy – those who stay open up small businesses.

In St. Louis County where she lives, 252,445 kids and noncitizens (25.3% of the population) would lose representation. In districts with high Asian American student enrollment, the percentage is even greater:

-Parkway C-2 School District: 37,917 residents would lose representation (26.4% of district population)

-Ladue School District: 8,609 (30.8%)

Finally, she is commenting as the wife of a physician who came here for his job at WashU/ Barnes, for a department that is #1 or #2 in his field nationally. But most medical workers who come here are not working jobs at that level. 28% of physicians are immigrants. Missouri has a gigantic shortage of physicians – so much so that the General Assembly enacted a bill in 2014 to make it easier for doctors to come here. Doctors and nurses are highly sought after and can have their choice of where to live and practice. All things being equal, why would they pick a state where they and their families are discriminated against? They wouldn't, and don't.

The fiscal impact of SJR38 would be significant for local governments, small businesses, and state revenues if any population standard other than total population is used for state legislative maps.

Otto Fajen, Legislative Director, Missouri National Education Association provided the following information:

Missouri National Education Association
1810 East Elm Street
Jefferson City, MO 65101

June 5, 2020

Office of the Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Auditor Galloway:

SJR 38 would enact significantly discriminatory policies, leave minority communities more vulnerable during the redistricting process, and erase language expressly requiring that districts be established on the basis of total population. The national and international backlash from such a policy is likely to have a significant and adverse impact on the state's economy and reduce state and local government revenues.

Apportioning based on citizen voting-age population (CVAP)—or any basis narrower than total population—would be discriminatory. The leading proponent of CVAP-based apportionment was Thomas Hofeller, the architect behind racially discriminatory maps in North Carolina, Texas, Virginia, and other states, who explained in a memo made public after his death that apportioning based on CVAP would be "advantageous to Republicans and Non-Hispanic whites."

Over 90 percent of the people excluded from Missouri's apportionment base under CVAP apportionment would be ***citizen children***. Missouri's citizen children are not evenly distributed across the state, Missouri's communities of color skew younger than their white counterparts. As a result, these minority communities would suffer disproportionate representational losses if citizen children were excluded from the apportionment base.

Even if Missouri were to institute an apportionment base that did not exclude children, apportioning on the basis of citizens alone would also be discriminatory. Cutting out noncitizens while including citizen children would render the purported justification—counting only the "people that are able to vote"— mere pretext. Considering that noncitizens—like many other constituents—pay taxes, contribute to their communities, raise citizen children, and may soon become voters themselves, there is no plausible justification for a citizen-based apportionment other than discriminatory anti-immigrant sentiment.

States that adopt such blatantly discriminatory policies are likely to see severe reactions that adversely affect the state, its economy, and its government. Enactment of overtly discriminatory policies can lead companies to abort current plans to locate new business sites within the state and to rule the state out of future consideration for business expansion. This costs the state economy the direct jobs of the new business, indirect growth from supporting businesses, and the increased economic effect of those supporting businesses in the remainder of the economy. The loss of a new employer's 500-job site will likely cost the state about $200 million in economic activity and could cost the state several million dollars in payroll taxes.

Further, the tourism industry, in particular, representing a very significant $17 billion out of Missouri's roughly $300 billion economy, may be targeted with convention, travel, and tourism boycotts if the state adopts a discriminatory policy. A 10% reduction in the tourism sector would represent a loss of $1.7 billion in economic activity and would have a noticeable impact on Missouri workers, related businesses, and state and local governments.

Finally, this discriminatory redistricting policy is likely to reduce state funding for affected counties and municipalities with a greater proportion of the uncounted total population. Areas that lose representation or have diluted representation are at risk of receiving a lesser distribution of public funds and services. The skewed representation that SJR 38 could create is analogous to what happened in Missouri and other states before court action requiring legislative districts to be equal in population. With districts representing significantly different populations, those jurisdictions with more uncounted residents are likely to be at a disadvantage and experience an adverse fiscal impact over the long term. ***When children do not count the cost to local governments and neighborhood schools are significant.***

A comprehensive analysis of the fiscal impact of SJR 38 should give due consideration to the likelihood of the adverse impacts caused by these reactions.

Respectfully submitted,

Otto Fajen
Legislative Director
Missouri National Education Association

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities expect no cost or savings. Individual local governmental entities expect significant decreased revenues of a total unknown amount.

RE: Fiscal Note and Fiscal Note Summary Request for Senate Substitute for Senate Committee Substitute for Senate Joint Resolution Nos. 14 & 9

Dear Ms. Galloway:

Enclosed please find a copy of Senate Substitute for Senate Committee Substitute for Senate Joint Resolution Nos. 14 & 9 that was received by our office.

We are referring the enclosed joint resolution to you for the purposes of preparing a fiscal note and fiscal note summary in accordance with Sections 116.160.1, 116.170 and 116.175, RSMo. As you are aware, the fiscal note and fiscal note summary are required to be forwarded by you to our office within thirty days of receipt of the joint resolution, pursuant to Section 116.170, RSMo.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

SENATE SUBSTITUTE FOR

SENATE COMMITTEE SUBSTITUTE FOR

SENATE JOINT RESOLUTION NOS. 14 & 9

100TH GENERAL ASSEMBLY

2019

0508S.04T

JOINT RESOLUTION

Submitting to the qualified voters of Missouri, an amendment to article VII of the Constitution of Missouri, by adding thereto one new section relating to the limitation of terms served by certain elected officers.

Be it resolved by the Senate, the House of Representatives concurring therein:

That at the next general election to be held in the state of Missouri, on Tuesday next following the first Monday in November, 2020, or at a special election to be called by the governor for that purpose, there is hereby submitted to the qualified voters of this state, for adoption or rejection, the following amendment to article VII of the Constitution of the state of Missouri:

Section A. Article VII, Constitution of Missouri, is amended by adding thereto one new section, to be known as section 15, to read as follows:

Section 15. No person shall be elected governor, lieutenant governor, secretary of state, state auditor, state treasurer, or attorney general more than twice, and no person who has held the office of governor, lieutenant governor, secretary of state, state auditor, state treasurer, or attorney general, or acted as governor, lieutenant governor, secretary of state, state auditor, state treasurer, or attorney general, for more than two years of a term to which some other person was elected to such office shall be elected to that same office more than once. This subsection shall supersede the provisions of Article IV, Section 17 that relate to term limitations, provided that service in the offices of governor or state treasurer resulting from an election or appointment, or in the case of the governor succession to office, prior

to December 3, 2020, shall count towards the limitations provided in this subsection.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-SJR 14 & 9)

Subject

Truly Agreed To and Finally Passed Senate Substitute for Senate Committee Substitute for Senate Joint Resolution Nos. 14 & 9. (Received May 30, 2019)

Date

June 19, 2019

Description

This proposal would amend Article VII of the Constitution of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Lieutenant Governor's office,** and the **State Auditor's office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no cost to their department.

Officials from the **Department of Higher Education** indicated no impact for these Senate Joint Resolutions (SJRs) 14 & 9.

Officials from the **Department of Health and Senior Services** indicated this initiative petition will have no impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated if passed, it will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated Senate Substitute for Senate Committee Substitute for Senate Joint Resolution Nos. 14 & 9 does not appear to have a fiscal impact on their department.

Officials from the **Department of Revenue** indicated this joint resolution will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this SJR will not fiscally impact their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this Senate Joint Resolution would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal amends Article VII of the Constitution of Missouri by adding Section 15 which limits the terms for the offices of Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated Senate Joint Resolution Nos. 14 and 9 to amend Article VII, regarding elected officials terms, will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for SJR Nos. 14 & 9 proposing to amend Article VII.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated while they don't see any substantial fiscal effect on their school from this resolution, they are not sure that term limits has had its desired effect, unless attaining a lobbyist position was indeed the original desired outcome.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's office.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

FIRST REGULAR SESSION

[TRULY AGREED TO AND FINALLY PASSED]

SENATE SUBSTITUTE FOR

SENATE COMMITTEE SUBSTITUTE FOR

HOUSE BILL NO. 126

100TH GENERAL ASSEMBLY

0461S.18T 2019

AN ACT

To repeal sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, and to enact in lieu thereof seventeen new sections relating to abortion, with penalty provisions, a contingent effective date for a certain section, and an emergency clause for a certain section.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, are repealed and seventeen new sections enacted in lieu thereof, to be known as sections 135.630, 188.010, 188.015, 188.017, 188.018, 188.026, 188.027, 188.028, 188.033, 188.038, 188.043, 188.044, 188.052, 188.056, 188.057, 188.058, and 188.375, to read as follows:

135.630. 1. As used in this section, the following terms mean:

(1) "Contribution", a donation of cash, stock, bonds, or other marketable securities, or real property;

(2) "Director", the director of the department of social services;

(3) "Pregnancy resource center", a nonresidential facility located in this state:

(a) Established and operating primarily to provide assistance to women **and families** with crisis pregnancies or unplanned pregnancies by offering pregnancy testing, counseling, emotional and material support, and other similar services **or by offering services as described**

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

under subsection 2 of section 188.325, to encourage and assist such women **and families** in carrying their pregnancies to term; and

(b) Where childbirths are not performed; and

(c) Which does not perform, induce, or refer for abortions and which does not hold itself out as performing, inducing, or referring for abortions; and

(d) Which provides direct client services at the facility, as opposed to merely providing counseling or referral services by telephone; and

(e) Which provides its services at no cost to its clients; and

(f) When providing medical services, such medical services must be performed in accordance with Missouri statute; and

(g) Which is exempt from income taxation pursuant to the Internal Revenue Code of 1986, as amended;

(4) "State tax liability", in the case of a business taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapters 143, 147, 148, and 153, excluding sections 143.191 to 143.265 and related provisions, and in the case of an individual taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapter 143, excluding sections 143.191 to 143.265 and related provisions;

(5) "Taxpayer", a person, firm, a partner in a firm, corporation, or a shareholder in an S corporation doing business in the state of Missouri and subject to the state income tax imposed by the provisions of chapter 143, or a corporation subject to the annual corporation franchise tax imposed by the provisions of chapter 147, or an insurance company paying an annual tax on its gross premium receipts in this state, or other financial institution paying taxes to the state of Missouri or any political subdivision of this state pursuant to the provisions of chapter 148, or an express company which pays an annual tax on its gross receipts in this state pursuant to chapter 153, or an individual subject to the state income tax imposed by the provisions of chapter 143, or any charitable organization which is exempt from federal income tax and whose Missouri unrelated business taxable income, if any, would be subject to the state income tax imposed under chapter 143.

2. (1) Beginning on March 29, 2013, any contribution to a pregnancy resource center made on or after January 1, 2013, shall be eligible for tax credits as provided by this section.

(2) For all tax years beginning on or after January 1, 2007, **and ending on or before December 31, 2020,** a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to fifty percent of the amount such taxpayer contributed to a pregnancy resource center. **For all tax years beginning on or after January 1, 2021, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in**

an amount equal to seventy percent of the amount such taxpayer contributed to a pregnancy resource center.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per tax year. However, any tax credit that cannot be claimed in the tax year the contribution was made may be carried over only to the next succeeding tax year. No tax credit issued under this section shall be assigned, transferred, or sold.

4. Except for any excess credit which is carried over pursuant to subsection 3 of this section, a taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution or contributions to a pregnancy resource center or centers in such taxpayer's tax year has a value of at least one hundred dollars.

5. The director shall determine, at least annually, which facilities in this state may be classified as pregnancy resource centers. The director may require of a facility seeking to be classified as a pregnancy resource center whatever information which is reasonably necessary to make such a determination. The director shall classify a facility as a pregnancy resource center if such facility meets the definition set forth in subsection 1 of this section.

6. The director shall establish a procedure by which a taxpayer can determine if a facility has been classified as a pregnancy resource center. Pregnancy resource centers shall be permitted to decline a contribution from a taxpayer. The cumulative amount of tax credits which may be claimed by all the taxpayers contributing to pregnancy resource centers in any one fiscal year shall not exceed two million dollars for all fiscal years ending on or before June 30, 2014, and two million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2014, and ending on or before June 30, 2019, and three million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2019**, and ending on or before June 30, 2021. For all fiscal years beginning on or after July 1, 2021, there shall be no limit imposed on the cumulative amount of tax credits that may be claimed by all taxpayers contributing to pregnancy resource centers under the provisions of this section**. Tax credits shall be issued in the order contributions are received. If the amount of tax credits redeemed in a fiscal year is less than the cumulative amount authorized under this subsection, the difference shall be carried over to a subsequent fiscal year or years and shall be added to the cumulative amount of tax credits that may be authorized in that fiscal year or years.

7. **For all fiscal years ending on or before June 30, 2021,** the director shall establish a procedure by which, from the beginning of the fiscal year until some point in time later in the fiscal year to be determined by the director, the cumulative amount of tax credits are equally apportioned among all facilities classified as pregnancy resource centers. If a pregnancy resource

center fails to use all, or some percentage to be determined by the director, of its apportioned tax credits during this predetermined period of time, the director may reapportion these unused tax credits to those pregnancy resource centers that have used all, or some percentage to be determined by the director, of their apportioned tax credits during this predetermined period of time. The director may establish more than one period of time and reapportion more than once during each fiscal year. To the maximum extent possible, the director shall establish the procedure described in this subsection in such a manner as to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

8. Each pregnancy resource center shall provide information to the director concerning the identity of each taxpayer making a contribution to the pregnancy resource center who is claiming a tax credit pursuant to this section and the amount of the contribution. The director shall provide the information to the director of revenue. The director shall be subject to the confidentiality and penalty provisions of section 32.057 relating to the disclosure of tax information.

9. **[**~~Under section 23.253 of the Missouri sunset act:~~

~~(1) The provisions of the program authorized under this section shall automatically sunset on December thirty-first six years after August 28, 2018, unless reauthorized by an act of the general assembly;~~

~~(2) If such program is reauthorized, the program authorized under this section shall automatically sunset on December thirty-first six years after the effective date of the reauthorization of this section;~~

~~(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which a program authorized under this section is sunset; and~~

~~(4) The provisions of this subsection shall not be construed to limit or in any way impair the department's ability to issue tax credits authorized on or before the date the program authorized under this section expires or a taxpayer's ability to redeem such tax credits.~~**] The provisions of section 23.253 shall not apply to this section.**

188.010. **In recognition that Almighty God is the author of life , that all men and women are "endowed by their Creator with certain unalienable Rights, that among these are Life", and that article I, section 2 of the Constitution of Missouri provides that all persons have a natural right to life,** it is the intention of the general assembly of the state of Missouri to **[**~~grant~~**]**:

(1) Defend the right to life **[**~~to~~**]** **of** all humans, born and unborn**[**~~, and to~~**]**;

(2) Declare that the state and all of its political subdivisions are a "sanctuary of life" that protects pregnant women and their unborn children; and

(3) Regulate abortion to the full extent permitted by the Constitution of the United States, decisions of the United States Supreme Court, and federal statutes.

188.015. As used in this chapter, the following terms mean:

(1) "Abortion":

(a) The act of using or prescribing any instrument, device, medicine, drug, or any other means or substance with the intent to destroy the life of an embryo or fetus in his or her mother's womb; or

(b) The intentional termination of the pregnancy of a mother by using or prescribing any instrument, device, medicine, drug, or other means or substance with an intention other than to increase the probability of a live birth or to remove a dead [~~or dying~~] unborn child;

(2) "Abortion facility", a clinic, physician's office, or any other place or facility in which abortions are performed or induced other than a hospital;

(3) "Conception", the fertilization of the ovum of a female by a sperm of a male;

(4) "Department", the department of health and senior services;

(5) **"Down Syndrome", the same meaning as defined in section 191.923;**

(6) "Gestational age", length of pregnancy as measured from the first day of the woman's last menstrual period;

[~~(6)~~] **(7)** "Medical emergency", a condition which, based on reasonable medical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which a delay will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman;

[~~(7)~~] **(8)** "Physician", any person licensed to practice medicine in this state by the state board of registration for the healing arts;

[~~(8)~~] **(9)** "Reasonable medical judgment", a medical judgment that would be made by a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved;

[~~(9)~~] **(10)** "Unborn child", the offspring of human beings from the moment of conception until birth and at every stage of its biological development, including the human conceptus, zygote, morula, blastocyst, embryo, and fetus;

[~~(10)~~] **(11)** "Viability" or "viable", that stage of fetal development when the life of the unborn child may be continued indefinitely outside the womb by natural or artificial life-supportive systems**;**

(12) "Viable pregnancy" or "viable intrauterine pregnancy", in the first trimester of pregnancy, an intrauterine pregnancy that can potentially result in a liveborn baby.

188.017. 1. This section shall be known and may be cited as the "Right to Life of the Unborn Child Act".

2. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

3. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 2 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

188.018. If any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of this chapter shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed each provision, section, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter, or the application of this chapter to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.026. 1. This section and sections 188.056, 188.057, and 188.058 shall be known and may be cited as the "Missouri Stands for the Unborn Act".

2. In Roe v. Wade, 410 U.S. 113 (1973), certain information about the development of the unborn child, human pregnancy, and the effects of abortion was either not part of the record or was not available at the time. Since 1973, advances in medical and scientific technology have greatly expanded our knowledge of prenatal life and the effects of abortion on women. The general assembly of this state finds:

(1) At conception, a new genetically distinct human being is formed;

(2) The fact that the life of an individual human being begins at conception has long been recognized in Missouri law: "[T]he child is, in truth, alive from the moment of conception". State v. Emerich, 13 Mo. App. 492, 495 (1883), affirmed, 87 Mo. 110 (1885). Under section 1.205, the general assembly has recognized that the life of each human being

begins at conception and that unborn children have protectable interests in life, health, and well-being;

(3) The first prohibition of abortion in Missouri was enacted in 1825. Since then, the repeal and reenactment of prohibitions of abortion have made distinctions with respect to penalties for performing or inducing abortion on the basis of "quickening"; however, the unborn child was still protected from conception onward;

(4) In ruling that Missouri's prohibition on abortion was constitutional in 1972, the Missouri supreme court accepted as a stipulation of the parties that "'[i]nfant Doe, Intervenor Defendant in this case, and all other unborn children have all the qualities and attributes of adult human persons differing only in age or maturity. Medically, human life is a continuum from conception to death.'" Rodgers v. Danforth, 486 S.W.2d 258, 259 (1972);

(5) In Webster v. Reproductive Health Services, 492 U.S. 490 (1989), the Supreme Court, while considering the "preamble" that set forth "findings" in section 1.205, stated: "We think the extent to which the preamble's language might be used to interpret other state statutes or regulations is something that only the courts of Missouri can definitively decide. State law has offered protections to unborn children in tort and probate law". Id. at 506. Since *Webster*, Missouri courts have construed section 1.205 and have consistently found that an unborn child is a person for purposes of Missouri's homicide and assault laws when the unborn child's mother was killed or assaulted by another person. Section 1.205 has even been found applicable to the manslaughter of an unborn child who was eight weeks gestational age or earlier. State v. Harrison, 390 S.W.3d 927 (Mo. Ct. App. 2013);

(6) In medicine, a special emphasis is placed on the heartbeat. The heartbeat is a discernible sign of life at every stage of human existence. During the fifth week of gestational age, an unborn child's heart begins to beat and blood flow begins during the sixth week;

(7) Depending on the ultrasound equipment being used, the unborn child's heartbeat can be visually detected as early as six to eight weeks gestational age. By about twelve weeks gestational age, the unborn child's heartbeat can consistently be made audible through the use of a handheld Doppler fetal heart rate device;

(8) Confirmation of a pregnancy can be indicated through the detection of the unborn child's heartbeat, while the absence of a heartbeat can be an indicator of the death of the unborn child if the child has reached the point of development when a heartbeat should be detectable;

(9) Heart rate monitoring during pregnancy and labor is utilized to measure the heart rate and rhythm of the unborn child, at an average rate between one hundred ten and one hundred sixty beats per minute, and helps determine the health of the unborn child;

(10) The Supreme Court in *Roe* discussed "the difficult question of when life begins" and wrote: "[p]hysicians and their scientific colleagues have regarded [quickening] with less interest and have tended to focus either upon conception, upon live birth, or upon the interim point at which the fetus becomes 'viable', that is, potentially able to live outside the mother's womb, albeit with artificial aid". *Roe*, 410 U.S. at 160. Today, however, physicians' and scientists' interests on life in the womb also focus on other markers of development in the unborn child, including, but not limited to, presence of a heartbeat, brain development, a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy, and the ability to experience pain;

(11) In Planned Parenthood of Central Missouri v. Danforth, 428 U.S. 52 (1976), the Supreme Court noted that "we recognized in *Roe* that viability was a matter of medical judgment, skill, and technical ability, and we preserved the flexibility of the term". Id. at 64. Due to advances in medical technology and diagnoses, present-day physicians and scientists now describe the viability of an unborn child in an additional manner, by determining whether there is a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy;

(12) While the overall risk of miscarriage after clinical recognition of pregnancy is twelve to fifteen percent, the incidence decreases significantly if cardiac activity in the unborn child has been confirmed. The detection of a heartbeat in an unborn child is a reliable indicator of a viable pregnancy and that the unborn child will like ly survive to birth, especially if presenting for a prenatal visit at eight weeks gestational age or later. For asymptomatic women attending a first prenatal visit between six and eleven weeks gestational age where a heartbeat was confirmed through an ultrasound, the subsequent risk of miscarriage is one and six-tenths percent. Although the risk is higher at six weeks gestational age at nine and four-tenths percent, it declines rapidly to one and five-tenths percent at eight weeks gestational age, and less than one percent at nine weeks gestational age or later;

(13) The presence of a heartbeat in an unborn child represents a more definable point of ascertaining survivability than the ambiguous concept of viability that has been adopted by the Supreme Court, especially since if a heartbeat is detected at eight weeks gestational age or later in a normal pregnancy, there is likely to be a viable pregnancy and there is a high probability that the unborn child will survive to birth;

(14) The placenta begins developing during the early first trimester of pregnancy and performs a respiratory function by making oxygen supply to and carbon dioxide removal from the unborn child possible later in the first trimester and throughout the second and third trimesters of pregnancy;

(15) By the fifth week of gestation, the development of the brain of the unborn child is underway. Brain waves have been measured and recorded as early as the eighth week of gestational age in children who were removed during an ectopic pregnancy or hysterectomy. Fetal magnetic resonance imaging (MRI) of an unborn child's brain is used during the second and third trimesters of pregnancy and brain activity has been observed using MRI;

(16) Missouri law identifies the presence of circulation, respiration, and brain function as indicia of life under section 194.005, as the presence of circulation, respiration, and brain function indicates that such person is not legally dead, but is legally alive;

(17) Unborn children at eight weeks gestational age show spontaneous movements, such as a twitching of the trunk and developing limbs. It has been reported that unborn children at this stage show reflex responses to touch. The perioral area is the first part of the unborn child's body to respond to touch at about eight weeks gestational age and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(18) Peripheral cutaneous sensory receptors, the receptors that feel pain, develop early in the unborn child. They appear in the perioral cutaneous area at around seven to eight weeks gestational age, in the palmar regions at ten to ten and a half weeks gestational age, the abdominal wall at fifteen weeks gestational age, and over all of the unborn child's body at sixteen weeks gestational age;

(19) Substance P, a peptide that functions as a neurotransmitter, especially in the transmission of pain, is present in the dorsal horn of the spinal cord of the unborn child at eight to ten weeks gestational age. Enkephalins, peptides that play a role in neurotransmission and pain modulation, are present in the dorsal horn at twelve to fourteen weeks gestational age;

(20) When intrauterine needling is performed on an unborn child at sixteen weeks gestational age or later, the reaction to this invasive stimulus is blood flow redistribution to the brain. Increased blood flow to the brain is the same type of stress response seen in a born child and an adult;

(21) By sixteen weeks gestational age, pain transmission from a peripheral receptor to the cortex is possible in the unborn child;

(22) Physicians provide anesthesia during in utero treatment of unborn children as early as sixteen weeks gestational age for certain procedures, including those to correct

fetal urinary tract obstruction. Anesthesia is administered by ultrasound-guided injection into the arm or leg of the unborn child;

(23) A leading textbook on prenatal development of the human brain states, "It may be concluded that, although nociperception (the actual perception of pain) awaits the appearance of consciousness, nociception (the experience of pain) is present some time before birth. In the absence of disproof, it is merely prudent to assume that pain can be experienced even early in prenatal life (Dr. J. Wisser, Zürich): the fetus should be given the benefit of the doubt". Ronan O'Rahilly & Fabiola Müller. The Embryonic Human Brain: An Atlas of Developmental Stages (3d ed. 2005);

(24) By fourteen or fifteen weeks gestational age or later, the predominant abortion method in Missouri is dilation and evacuation (D & E). The D & E abortion method includes the dismemberment, disarticulation, and exsanguination of the unborn child, causing the unborn child's death;

(25) The Supreme Court acknowledged in Gonzales v. Carhart, 550 U.S. 124, 160 (2007), that "the standard D & E is in some respects as brutal, if not more, than the intact D & E" partial birth abortion method banned by Congress and upheld as facially constitutional by the Supreme Court, even though the federal ban was applicable both before and after viability and had no exception for the health of the mother;

(26) Missouri's ban on the partial birth abortion method, section 565.300, is in effect because of Gonzales v. Carhart and the Supreme Court's subsequent decision in Nixon v. Reproductive Health Services of Planned Parenthood of the St. Louis Region, Inc., 550 U.S. 901 (2007), to vacate and remand to the appellate court the prior invalidation of section 565.300. Since section 565.300, like Congress' ban on partial birth abortion, is applicable both before and after viability, there is ample precedent for the general assembly to constitutionally prohibit the brutal D & E abortion method at fourteen weeks gestational age or later, even before the unborn child is viable, with a medical emergency exception;

(27) In Roper v. Simmons, 543 U.S. 551 (2005), the Supreme Court determined that "evolving standards of decency" dictated that a Missouri statute allowing the death penalty for a conviction of murder in the first degree for a person under eighteen years of age when the crime was committed was unconstitutional under the Eighth and Fourteenth Amendments to the United States Constitution because it violated the prohibition against "cruel and unusual punishments";

(28) In Bucklew v. Precythe, 139 S. Ct. 1112, 1123 (2019), the Supreme Court noted that "'[d]isgusting' practices" like disemboweling and quartering "readily qualified as

'cruel and unusual', as a reader at the time of the Eighth Amendment's adoption would have understood those words";

(29) Evolving standards of decency dictate that Missouri should prohibit the brutal and painful D & E abortion method at fourteen weeks gestational age or later, with a medical emergency exception, because if a comparable method of killing was used on:

(a) A person convicted of murder in the first degree, it would be cruel and unusual punishment; or

(b) An animal, it would be unlawful under state law because it would not be a humane method, humane euthanasia, or humane killing of certain animals under chapters 273 and 578;

(30) In *Roper*, the Supreme Court also found that "[i]t is proper that we acknowledge the overwhelming weight of international opinion against the juvenile death penalty.... The opinion of the world community, while not controlling our outcome, does provide respected and significant confirmation for our own conclusions". *Roper*, 543 U.S. at 578. In its opinion, the Supreme Court was instructed by "international covenants prohibiting the juvenile death penalty", such as the International Covenant on Civil and Political Rights, 999 U.N.T.S. 171. Id. at 577;

(31) The opinion of the world community, reflected in the laws of the United Nation's 193-member states and six other entities, is that in most countries, most abortions are prohibited after twelve weeks gestational age or later;

(32) The opinion of the world community is also shared by most Americans, who believe that most abortions in the second and third trimesters of pregnancy should be illegal, based on polling that has remained consistent since 1996;

(33) Abortion procedures performed later in pregnancy have a higher medical risk for women. Compared to an abortion at eight weeks gestational age or earlier, the relative risk increases exponentially at later gestational ages. The relative risk of death for a pregnant woman who had an abortion performed or induced upon her at:

(a) Eleven to twelve weeks gestational age is between three and four times higher than an abortion at eight weeks gestational age or earlier;

(b) Thirteen to fifteen weeks gestational age is almost fifteen times higher than an abortion at eight weeks gestational age or earlier;

(c) Sixteen to twenty weeks gestational age is almost thirty times higher than an abortion at eight weeks gestational age or earlier; and

(d) Twenty-one weeks gestational age or later is more than seventy-five times higher than an abortion at eight weeks gestational age or earlier;

(34) In addition to the short-term risks of an abortion, studies have found that the long-term physical and psychological consequences of abortion for women include, but are not limited to, an increased risk of preterm birth, low birthweight babies, and placenta previa in subsequent pregnancies, as well as serious behavioral health issues. These risks increase as abortions are performed or induced at later gestational ages. These consequences of an abortion have a detrimental effect not only on women, their children, and their families, but also on an already burdened health care system, taxpayers, and the workforce;

(35) A large percentage of women who have an abortion performed or induced upon them in Missouri each year are at less than eight weeks gestational age, a large majority are at less than fourteen weeks gestational age, a larger majority are at less than eighteen weeks gestational age, and an even larger majority are at less than twenty weeks gestational age. A prohibition on performing or inducing an abortion at eight weeks gestational age or later, with a medical emergency exception, does not amount to a substantial obstacle to a large fraction of women for whom the prohibition is relevant, which is pregnant women in Missouri who are seeking an abortion while not experiencing a medical emergency. The burden that a prohibition on performing or inducing an abortion at eight, fourteen, eighteen, or twenty weeks gestational age or later, with a medical emergency exception, might impose on abortion access, is outweighed by the benefits conferred upon the following:

(a) Women more advanced in pregnancy who are at greater risk of harm from abortion;

(b) Unborn children at later stages of development;

(c) The medical profession, by preserving its integrity and fulfilling its commitment to do no harm; and

(d) Society, by fostering respect for human life, born and unborn, at all stages of development, and by lessening societal tolerance of violence against innocent human life;

(36) In *Webster*, the Supreme Court noted, in upholding a Missouri statute, "that there may be a 4-week error in estimating gestational age". *Webster*, 492 U.S. at 516. Thus, an unborn child thought to be eight weeks gestational age might in fact be twelve weeks gestational age, when an abortion poses a greater risk to the woman and the unborn child is considerably more developed. An unborn child at fourteen weeks gestational age might be eighteen weeks gestational age and an unborn child at eighteen weeks gestational age might be twenty-two weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, and the risk of pain experienced by the unborn child is

greater. An unborn child at twenty weeks gestational age might be twenty-four weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, the risk of pain experienced by the unborn child is greater, and the unborn child may be viable.

3. The state of Missouri is bound by Article VI, Clause 2 of the Constitution of the United States that "all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land". One such treaty is the International Covenant on Civil and Political Rights, entered into force on March 23, 1976, and adopted by the United States on September 8, 1992. In ratifying the Covenant, the United States declared that while the provisions of Articles 1 through 27 of the Covenant are not self-executing, the United States' understanding is that state governments share responsibility with the federal government in implementing the Covenant.

4. Article 6, Paragraph 1, U.N.T.S. at 174, of the International Covenant on Civil and Political Rights states, "Every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily deprived of his life". The state of Missouri takes seriously its obligation to comply with the Covenant and to implement this paragraph as it relates to the inherent right to life of unborn human beings, protecting the rights of unborn human beings by law, and ensuring that such unborn human beings are not arbitrarily deprived of life. The state of Missouri hereby implements Article 6, Paragraph 1 of the Covenant by the regulation of abortion in this state.

5. The state of Missouri has interests that include, but are not limited to:

(1) Protecting unborn children throughout pregnancy and preserving and promoting their lives from conception to birth;

(2) Encouraging childbirth over abortion;

(3) Ensuring respect for all human life from conception to natural death;

(4) Safeguarding an unborn child from the serious harm of pain by an abortion method that would cause the unborn child to experience pain while she or he is being killed;

(5) Preserving the integrity of the medical profession and regulating and restricting practices that might cause the medical profession or society as a whole to become insensitive, even disdainful, to life. This includes regulating and restricting abortion methods that are not only brutal and painful, but if allowed to continue, will further coarsen society to the humanity of not only unborn children, but all vulnerable and innocent human life, making it increasingly difficult to protect such life;

(6) Ending the incongruities in state law by permitting some unborn children to be killed by abortion, while requiring that unborn children be protected in non-abortion circumstances through, including, but not limited to, homicide, assault, self-defense, and defense of another statutes; laws guaranteeing prenatal health care, emergency care, and testing; state-sponsored health insurance for unborn children; the prohibition of restraints in correctional institutions to protect pregnant offenders and their unborn children; and protecting the interests of unborn children by the appointment of conservators, guardians, and representatives;

(7) Reducing the risks of harm to pregnant women who obtain abortions later in pregnancy; and

(8) Avoiding burdens on the health care system, taxpayers, and the workforce because of increased preterm births, low birthweight babies, compromised pregnancies, extended postpartum recoveries, and behavioral health problems caused by the long-term effects of abortions performed or induced later in the pregnancy.

188.027. 1. Except in [~~the case~~] cases of medical emergency, no abortion shall be performed or induced on a woman without her voluntary and informed consent, given freely and without coercion. Consent to an abortion is voluntary and informed and given freely and without coercion if, and only if, at least seventy-two hours prior to the abortion:

(1) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has informed the woman orally, reduced to writing, and in person, of the following:

(a) The name of the physician who will perform or induce the abortion;

(b) Medically accurate information that a reasonable patient would consider material to the decision of whether or not to undergo the abortion, including:

a. A description of the proposed abortion method;

b. The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

c. The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical condition;

(c) Alternatives to the abortion which shall include making the woman aware that information and materials shall be provided to her detailing such alternatives to the abortion;

(d) A statement that the physician performing or inducing the abortion is available for any questions concerning the abortion, together with the telephone number that the physician may be later reached to answer any questions that the woman may have;

(e) The location of the hospital that offers obstetrical or gynecological care located within thirty miles of the location where the abortion is performed or induced and at which the physician performing or inducing the abortion has clinical privileges and where the woman may receive follow-up care by the physician if complications arise;

(f) The gestational age of the unborn child at the time the abortion is to be performed or induced; and

(g) The anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed or induced;

(2) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from conception to full term, including color photographs or images of the developing unborn child at two-week gestational increments. Such descriptions shall include information about brain and heart functions, the presence of external members and internal organs during the applicable stages of development and information on when the unborn child is viable. The printed materials shall prominently display the following statement: "The life of each human being begins at conception. Abortion will terminate the life of a separate, unique, living human being.";

(3) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has presented the woman, in person, printed materials provided by the department, which describe the various surgical and drug-induced methods of abortion relevant to the stage of pregnancy, as well as the immediate and long-term medical risks commonly associated with each abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and the possible adverse psychological effects associated with an abortion;

(4) The physician who is to perform or induce the abortion or a qualified professional shall provide the woman with the opportunity to view at least seventy-two hours prior to the abortion an active ultrasound of the unborn child and hear the heartbeat of the unborn child if the heartbeat is audible. The woman shall be provided with a geographically indexed list maintained by the department of health care providers, facilities, and clinics that perform ultrasounds, including those that offer ultrasound services free of charge. Such materials shall provide contact information for each provider, facility, or clinic including telephone numbers

and, if available, website addresses. Should the woman decide to obtain an ultrasound from a provider, facility, or clinic other than the abortion facility, the woman shall be offered a reasonable time to obtain the ultrasound examination before the date and time set for performing or inducing an abortion. The person conducting the ultrasound shall ensure that the active ultrasound image is of a quality consistent with standard medical practice in the community, contains the dimensions of the unborn child, and accurately portrays the presence of external members and internal organs, if present or viewable, of the unborn child. The auscultation of fetal heart tone must also be of a quality consistent with standard medical practice in the community. If the woman chooses to view the ultrasound or hear the heartbeat or both at the abortion facility, the viewing or hearing or both shall be provided to her at the abortion facility at least seventy-two hours prior to the abortion being performed or induced;

(5) [~~Prior to an abortion being performed or induced on an unborn child of twenty-two weeks gestational age or older, the physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department that offer information on the possibility of the abortion causing pain to the unborn child. This information shall include, but need not be limited to, the following:~~

~~(a) At least by twenty-two weeks of gestational age, the unborn child possesses all the anatomical structures, including pain receptors, spinal cord, nerve tracts, thalamus, and cortex, that are necessary in order to feel pain;~~

~~(b) A description of the actual steps in the abortion procedure to be performed or induced, and at which steps the abortion procedure could be painful to the unborn child;~~

~~(c) There is evidence that by twenty-two weeks of gestational age, unborn children seek to evade certain stimuli in a manner that in an infant or an adult would be interpreted as a response to pain;~~

~~(d) Anesthesia is given to unborn children who are twenty-two weeks or more gestational age who undergo prenatal surgery;~~

~~(e) Anesthesia is given to premature children who are twenty-two weeks or more gestational age who undergo surgery;~~

~~(f) Anesthesia or an analgesic is available in order to minimize or alleviate the pain to the unborn child~~] **The printed materials provided by the department shall include information on the possibility of an abortion causing pain in the unborn child. This information shall include, but need not be limited to, the following:**

(a) Unborn children as early as eight weeks gestational age start to show spontaneous movements and unborn children at this stage in pregnancy show reflex responses to touch;

(b) In the unborn child, the area around his or her mouth and lips is the first part of the unborn child's body to respond to touch and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(c) Pain receptors on the unborn child's skin develop around his or her mouthat around seven to eight weeks gestational age, around the palms of his or her hands at ten to ten and a half weeks, on the abdominal wall at fifteen weeks, and over all of his or her body at sixteen weeks gestational age;

(d) Beginning at sixteen weeks gestational age and later, it is possible for pain to be transmitted from receptors to the cortex of the unborn child's brain, where thinking and perceiving occur;

(e) When a physician performs a life-saving surgery, he or she provides anesthesia to unborn children as young as sixteen weeks gestational age in order to alleviate the unborn child's pain; and

(f) A description of the actual steps in the abortion procedure to be performed or induced and at which steps the abortion procedure could be painful to the unborn child;

(6) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining to the woman alternatives to abortion she may wish to consider. Such materials shall:

(a) Identify on a geographical basis public and private agencies available to assist a woman in carrying her unborn child to term, and to assist her in caring for her dependent child or placing her child for adoption, including agencies commonly known and generally referred to as pregnancy resource centers, crisis pregnancy centers, maternity homes, and adoption agencies. Such materials shall provide a comprehensive list by geographical area of the agencies, a description of the services they offer, and the telephone numbers and addresses of the agencies; provided that such materials shall not include any programs, services, organizations, or affiliates of organizations that perform or induce, or assist in the performing or inducing of, abortions or that refer for abortions;

(b) Explain the Missouri alternatives to abortion services program under section 188.325, and any other programs and services available to pregnant women and mothers of newborn children offered by public or private agencies which assist a woman in carrying her unborn child to term and assist her in caring for her dependent child or placing her child for adoption, including but not limited to prenatal care; maternal health care; newborn or infant care; mental health services; professional counseling services; housing programs; utility assistance; transportation services; food, clothing, and supplies related to pregnancy; parenting skills; educational programs; job training and placement services; drug and alcohol testing and treatment; and adoption assistance;

(c) Identify the state website for the Missouri alternatives to abortion services program under section 188.325, and any toll-free number established by the state operated in conjunction with the program;

(d) Prominently display the statement: "There are public and private agencies willing and able to help you carry your child to term, and to assist you and your child after your child is born, whether you choose to keep your child or place him or her for adoption. The state of Missouri encourages you to contact those agencies before making a final decision about abortion. State law requires that your physician or a qualified professional give you the opportunity to call agencies like these before you undergo an abortion.";

(7) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining that the father of the unborn child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion. Such materials shall include information on the legal duties and support obligations of the father of a child, including, but not limited to, child support payments, and the fact that paternity may be established by the father's name on a birth certificate or statement of paternity, or by court action. Such printed materials shall also state that more information concerning paternity establishment and child support services and enforcement may be obtained by calling the family support division within the Missouri department of social services; and

(8) The physician who is to perform or induce the abortion or a qualified professional shall inform the woman that she is free to withhold or withdraw her consent to the abortion at any time without affecting her right to future care or treatment and without the loss of any state or federally funded benefits to which she might otherwise be entitled.

2. All information required to be provided to a woman considering abortion by subsection 1 of this section shall be presented to the woman individually, in the physical presence of the woman and in a private room, to protect her privacy, to maintain the confidentiality of her decision, to ensure that the information focuses on her individual circumstances, to ensure she has an adequate opportunity to ask questions, and to ensure that she is not a victim of coerced abortion. Should a woman be unable to read materials provided to her, they shall be read to her. Should a woman need an interpreter to understand the information presented in the written materials, an interpreter shall be provided to her. Should a woman ask questions concerning any of the information or materials, answers shall be provided in a language she can understand.

3. No abortion shall be performed or induced unless and until the woman upon whom the abortion is to be performed or induced certifies in writing on a checklist form provided by the department that she has been presented all the information required in subsection 1 of this

section, that she has been provided the opportunity to view an active ultrasound image of the unborn child and hear the heartbeat of the unborn child if it is audible, and that she further certifies that she gives her voluntary and informed consent, freely and without coercion, to the abortion procedure.

4. [~~No abortion shall be performed or induced on an unborn child of twenty-two weeks gestational age or older unless and until the woman upon whom the abortion is to be performed or induced has been provided the opportunity to choose to have an anesthetic or analgesic administered to eliminate or alleviate pain to the unborn child caused by the particular method of abortion to be performed or induced. The administration of anesthesia or analgesics shall be performed in a manner consistent with standard medical practice in the community.~~

~~5.~~] No physician shall perform or induce an abortion unless and until the physician has obtained from the woman her voluntary and informed consent given freely and without coercion. If the physician has reason to believe that the woman is being coerced into having an abortion, the physician or qualified professional shall inform the woman that services are available for her and shall provide her with private access to a telephone and information about such services, including but not limited to the following:

(1) Rape crisis centers, as defined in section 455.003;

(2) Shelters for victims of domestic violence, as defined in section 455.200; and

(3) Orders of protection, pursuant to chapter 455.

[~~6.~~] **5.** The physician who is to perform or induce the abortion shall, at least seventy-two hours prior to such procedure, inform the woman orally and in person of:

(1) The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

(2) The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical conditions.

[~~7.~~] **6.** No physician shall perform or induce an abortion unless and until the physician has received and signed a copy of the form prescribed in subsection 3 of this section. The physician shall retain a copy of the form in the patient's medical record.

[~~8.~~] **7.** In the event of a medical emergency [~~as provided by section 188.039~~], the physician who performed or induced the abortion shall clearly certify in writing the nature and circumstances of the medical emergency. This certification shall be signed by the physician who performed or induced the abortion, and shall be maintained under section 188.060.

[~~9.~~] **8.** No person or entity shall require, obtain, or accept payment for an abortion from or on behalf of a patient until at least seventy-two hours have passed since the time that the information required by subsection 1 of this section has been provided to the patient. Nothing in this subsection shall prohibit a person or entity from notifying the patient that payment for the abortion will be required after the seventy-two-hour period has expired if she voluntarily chooses to have the abortion.

[~~10.~~] **9.** The term "qualified professional" as used in this section shall refer to a physician, physician assistant, registered nurse, licensed practical nurse, psychologist, licensed professional counselor, or licensed social worker, licensed or registered under chapter 334, 335, or 337, acting under the supervision of the physician performing or inducing the abortion, and acting within the course and scope of his or her authority provided by law. The provisions of this section shall not be construed to in any way expand the authority otherwise provided by law relating to the licensure, registration, or scope of practice of any such qualified professional.

[~~11.~~] **10.** By November 30, 2010, the department shall produce the written materials and forms described in this section. Any written materials produced shall be printed in a typeface large enough to be clearly legible. All information shall be presented in an objective, unbiased manner designed to convey only accurate scientific and medical information. The department shall furnish the written materials and forms at no cost and in sufficient quantity to any person who performs or induces abortions, or to any hospital or facility that provides abortions. The department shall make all information required by subsection 1 of this section available to the public through its department website. The department shall maintain a toll-free, twenty-four-hour hotline telephone number where a caller can obtain information on a regional basis concerning the agencies and services described in subsection 1 of this section. No identifying information regarding persons who use the website shall be collected or maintained. The department shall monitor the website on a regular basis to prevent tampering and correct any operational deficiencies.

[~~12.~~] **11.** In order to preserve the compelling interest of the state to ensure that the choice to consent to an abortion is voluntary and informed, and given freely and without coercion, the department shall use the procedures for adoption of emergency rules under section 536.025 in order to promulgate all necessary rules, forms, and other necessary material to implement this section by November 30, 2010.

[~~13.~~] **12.** If the provisions in subsections 1 and [9] **8** of this section requiring a seventy-two-hour waiting period for an abortion are ever temporarily or permanently restrained or enjoined by judicial order, then the waiting period for an abortion shall be twenty-four hours; provided, however, that if such temporary or permanent restraining order or injunction is stayed

or dissolved, or otherwise ceases to have effect, the waiting period for an abortion shall be seventy-two hours.

188.028. 1. Except in the case of a medical emergency, no person shall knowingly perform or induce an abortion upon a pregnant woman under the age of eighteen years unless:

(1) The attending physician has secured the informed written consent of the minor and one parent or guardian, and the consenting parent or guardian of the minor has notified any other custodial parent in writing prior to the securing of the informed written consent of the minor and one parent or guardian. For purposes of this subdivision, "custodial parent" shall only mean a parent of a minor who has been awarded joint legal custody or joint physical custody of such minor by a court of competent jurisdiction. Notice shall not be required for any parent:

(a) Who has been found guilty of any offense in violation of chapter 565, relating to offenses against the person; chapter 566, relating to sexual offenses; chapter 567, relating to prostitution; chapter 568, relating to offenses against the family; or chapter 573, related to pornography and related offenses, if a child was a victim;

(b) Who has been found guilty of any offense in any other state or foreign country, or under federal, tribal, or military jurisdiction if a child was a victim, which would be a violation of chapters 565, 566, 567, 568, or 573 if committed in this state;

(c) Who is listed on the sexual offender registry under sections 589.400 to 589.425;

(d) Against whom an order of protection has been issued, including a foreign order of protection given full faith and credit in this state under section 455.067;

(e) Whose custodial, parental, or guardianship rights have been terminated by a court of competent jurisdiction; or

(f) Whose whereabouts are unknown after reasonable inquiry, who is a fugitive from justice, who is habitually in an intoxicated or drugged condition, or who has been declared mentally incompetent or incapacitated by a court of competent jurisdiction;

(2) The minor is emancipated and the attending physician has received the informed written consent of the minor;

(3) The minor has been granted the right to self-consent to the abortion by court order pursuant to subsection 2 of this section, and the attending physician has received the informed written consent of the minor; or

(4) The minor has been granted consent to the abortion by court order, and the court has given its informed written consent in accordance with subsection 2 of this section, and the minor is having the abortion willingly, in compliance with subsection 3 of this section.

2. The right of a minor to self-consent to an abortion under subdivision (3) of subsection 1 of this section or court consent under subdivision (4) of subsection 1 of this section may be granted by a court pursuant to the following procedures:

(1) The minor or next friend shall make an application to the juvenile court which shall assist the minor or next friend in preparing the petition and notices required pursuant to this section. The minor or the next friend of the minor shall thereafter file a petition setting forth the initials of the minor; the age of the minor; the names and addresses of each parent, guardian, or, if the minor's parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that, if the court does not grant the minor majority rights for the purpose of consent to the abortion, the court should find that the abortion is in the best interest of the minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem of the child; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend;

(2) A hearing on the merits of the petition, to be held on the record, shall be held as soon as possible within five days of the filing of the petition. If any party is unable to afford counsel, the court shall appoint counsel at least twenty-four hours before the time of the hearing. At the hearing, the court shall hear evidence relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interests of the minor;

(3) In the decree, the court shall for good cause:

(a) Grant the petition for majority rights for the purpose of consenting to the abortion;

(b) Find the abortion to be in the best interests of the minor and give judicial consent to the abortion, setting forth the grounds for so finding; or

(c) Deny the petition, setting forth the grounds on which the petition is denied;

(4) If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights, or the judicial consent, shall bar an action by the parents or guardian of the minor on the grounds of battery of the minor by those performing or inducing the abortion. The immunity granted shall only extend to the performance or induction of the abortion in accordance herewith and any necessary accompanying services which are performed in a competent manner. The costs of the action shall be borne by the parties;

(5) An appeal from an order issued under the provisions of this section may be taken to the court of appeals of this state by the minor or by a parent or guardian of the minor. The notice of intent to appeal shall be given within twenty-four hours from the date of issuance of the order. The record on appeal shall be completed and the appeal shall be perfected within five days from the filing of notice to appeal. Because time may be of the essence regarding the performance or induction of the abortion, the supreme court of this state shall, by court rule, provide for expedited appellate review of cases appealed under this section.

3. If a minor desires an abortion, then she shall be orally informed of and, if possible, sign the written consent required under this chapter in the same manner as an adult person. No abortion shall be performed or induced on any minor against her will, except that an abortion may be performed or induced against the will of a minor pursuant to a court order described in subdivision (4) of subsection 1 of this section that the abortion is necessary to preserve the life of the minor.

188.033. Whenever an abortion facility or a family planning agency located in this state, or any of its agents or employees acting within the scope of his or her authority or employment, provides to a woman considering an abortion the name, address, telephone number, or website of an abortion provider that is located outside of the state, such abortion facility or family planning agency or its agents or employees shall also provideto such woman the printed materials produced by the department under section 188.027. If the name, address, telephone number, or website of such abortion provider is not provided to such woman in person, such printed materials shall be offered to her, and ifshe chooses, sent to such woman at no cost to her the same day or as soon as possible either electronically or by U.S. mail overnight delivery service or by other overnight or same-day delivery service to an address of such woman's choosing. The department shall furnish such printed materials at no cost and in sufficient quantities to abortion facilities and family planning agencies located within the state.

188.038. 1. The general assembly of this state finds that:

(1) Removing vestiges of any past bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is an important task for those in the legal, medical, social services, and human services professions;

(2) Ending any current bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is a legitimate purpose of government in order to guarantee that those who "are endowed by their Creator with certain unalienable Rights" can enjoy "Life, Liberty and the pursuit of Happiness";

(3) The historical relationship of bias or discrimination by some family planning programs and policies towards poor and minority populations, including, but not limited to, the nonconsensual sterilization of mentally ill, poor, minority, and immigrant women and other coercive family planning programs and policies, must be rejected;

(4) Among Missouri residents, the rate of black or African-American women who undergo abortions is significantly higher, about three and a half times higher, than the rate of white women who undergo abortions. Among Missouri residents, the rate of black or African-American women who undergo repeat abortions is significantly higher, about one and a half times higher, than the rate of white women who undergo repeat abortions;

(5) Performing or inducing an abortion because of the sex of the unborn child is repugnant to the values of equality of females and males and the same opportunities for girls and boys, and furthers a false mindset of female inferiority;

(6) Government has a legitimate interest in preventing the abortion of unborn children with Down Syndrome because it is a form of bias or disability discrimination and victimizes the disabled unborn child at his or her most vulnerable stage. Eliminating unborn children with Down Syndrome raises grave concerns for the lives of those who do live with disabilities. It sends a message of dwindling support for their unique challenges, fosters a false sense that disability is something that could have been avoidable, and is likely to increase the stigma associated with disability.

2. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in an unborn child.

3. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of the sex or race of the unborn child.

4. Any physician or other person who performs or induces or attempts to perform or induce an abortion prohibited by this section shall be subject to all applicable civil penalties under this chapter including, but not limited to, sections 188.065 and 188.085.

188.043. 1. No person shall perform or induce **[~~a surgical or medical~~]** **an** abortion **on another** unless such person has **[~~proof of~~]** medical malpractice insurance with coverage amounts of at least **[~~five hundred thousand dollars~~]** **one million dollars per occurrence and three million dollars in the annualaggregate**.

2. For the purpose of this section, "medical malpractice insurance" means insurance coverage against the legal liability of the insured and against loss, damage, or expense incident to a claim arising out of the death or injury of any person as a result of the negligence or malpractice in rendering professional service byany health care provider.

3. No abortion facility or hospital shall employ or engage the services of a person to perform [~~one or more abortions~~] **or induce an abortion on another** if the person does not have [~~proof of~~] medical malpractice insurance pursuant to this section, except **that** the abortion facility or hospital may provide medical malpractice insurance for the services of persons employed or engaged by such facility or hospital **which is no less than the coverage amounts set forth in this section**.

4. Notwithstanding the provisions of section 334.100, failure of a person to maintain the medical malpractice insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.044. 1. When a drug or chemical, or combination thereof, used by a person to induce an abortion carries a warning from its manufacturer or distributor, a peer-reviewed medical journal article, or a Food and Drug Administration label that its use may cause birth defects, disability, or other injury in a child who survives the abortion, then in addition to the requirements of section 188.043, such person shall also carry tail insurance with coverage amounts of at least one million dollars per occurrence and three million dollars in the annual aggregate for personal injury to or death of a child who survives such abortion. Such policy shall be maintained in force or be in effect for a period of twenty-one years after the person used the drug or chemical, or combination thereof, to induce the abortion.

2. For the purpose of this section, "tail insurance" means insurance which covers the legal liability of the insured once a medical malpractice insurance policy is cancelled, not renewed, or terminated, and covers claims made after such cancellation or termination for acts occurring during the period the prior medical malpractice insurance was in effect.

3. No abortion facility or hospital shall employ or engage the services of a person to induce an abortion on another using any drug or chemical, or combination thereof, which may cause birth defects, disability, or other injury in a child who survives the abortion, if the person does not have tail insurance pursuant to this section, except that the abortion facility or hospital may provide tail insurance for the services of persons employed or engaged by such facility or hospital which is no less than the coverage amounts and duration set forth in this section.

4. Notwithstanding the provisions of section 334.100 to the contrary, failure of a person to maintain the tail insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.052. 1. An individual abortion report for each abortion performed or induced upon a woman shall be completed by [~~her attending~~] **the** physician **who performed or induced the abortion. Abortion reports shall include, but not be limited to, a certification that the**

physician does not have any knowledge that the woman sought the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in the unborn child and a certification that the physician does not have any knowledge that the woman sought the abortion solely because of the sex or race of the unborn child.

2. An individual complication report for any post-abortion care performed upon a woman shall be completed by the physician providing such post-abortion care. This report shall include:

(1) The date of the abortion;

(2) The name and address of the abortion facility or hospital where the abortion was performed **or induced**;

(3) The nature of the abortion complication diagnosed or treated.

3. All abortion reports shall be signed by the attending physician[,] **who performed or induced the abortion** and submitted to the [~~state~~] department [~~of health and senior services~~] within forty-five days from the date of the abortion. All complication reports shall be signed by the physician providing the post-abortion care and submitted to the department [~~of health and senior services~~] within forty-five days from the date of the post-abortion care.

4. A copy of the abortion report shall be made a part of the medical record of the patient of the **abortion** facility or hospital in which the abortion was performed **or induced**.

5. The [~~state~~] department [~~of health and senior services~~] shall be responsible for collecting all abortion reports and complication reports and collating and evaluating all data gathered therefrom and shall annually publish a statistical report based on such data from abortions performed **or induced** in the previous calendar year.

188.056. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eight weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.057, 188.058, or 188.375 if prosecution under such sections would violate the provisions of

Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.057. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at fourteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.058, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words

of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.058. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eighteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this section shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.057, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.375. 1. This section shall be known and may be cited as the "Late-Term Pain-Capable Unborn Child Protection Act".

2. As used in this section, the phrase "late-term pain-capable unborn child" shall mean an unborn child at twenty weeks gestational age or later.

3. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman carrying a late-term pain-capable unborn child, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of a late-term pain-capable unborn child in violation of this subsection shall be

guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

4. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 3 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

5. Prosecution under subsection 3 of this section shall bar prosecution under sections 188.056, 188.057, or 188.058 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

6. When in cases of medical emergency a physician performs or induces an abortion upon a woman in her third trimester carrying a late-term pain-capable unborn child, the physician shall utilize the available method or technique of abortion most likely to preserve the life or health of the unborn child. In cases where the method or technique of abortion most likely to preserve the life or health of the unborn child would present a greater risk to the life or health of the woman than another legally permitted and available method or technique, the physician may utilize such other method or technique. In all cases where the physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, the physician shall certify in writing the available method or techniques considered and the reasons for choosing the method or technique employed.

7. When in cases of medical emergency a physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, there shall be in attendance a physician other than the physician performing or inducing the abortion who shall take control of and provide immediate medical care for a child born as a result of the abortion.

8. Any physician who knowingly violates any of the provisions of subsections 6 or 7 of this section shall be guilty of a class D felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of subsections 6 or 7 of this section shall not be prosecuted for a conspiracy to violate the provisions of those subsections.

9. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of

gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

Section B. The enactment of section 188.017 of this act shall only become effective upon notification to the revisor of statutes by an opinion by the attorney general of Missouri, a proclamation by the governor of Missouri, or the adoption of a concurrent resolution by the Missouri general assembly that:

(1) The United States Supreme Court has overruled, in whole or in part, *Roe v. Wade*, 410 U.S. 113 (1973), restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017, and that as a result, it is reasonably probable that section 188.017 of this act would be upheld by the court as constitutional;

(2) An amendment to the Constitution of the United States has been adopted that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017; or

(3) The United States Congress has enacted a law that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017.

Section C. Because of the need to protect the health and safety of women and their children, both unborn and born, the repeal and reenactment of section 188.028 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the repeal and reenactment of section 188.028 of this act shall be in full force and effect upon its passage and approval.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Lowell Pearson regarding a proposed referendum petition for Senate Substitute for Senate Committee Substitute for House Bill 126, version 1 (2020-R002)

Dear Auditor Galloway:

Enclosed please find a referendum petition sample sheet for Senate Substitute for Senate Committee Substitute for House Bill 126 filed by Lowell Pearson on May 31, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

PETITION FOR REFERENDUM

Page No.

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and_____County (or City of St. Louis), respectfully order that Senate Substitute for Senate Committee Substitute for House Bill No. 126, entitled "AN ACT To repeal sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, and to enact in lieu thereof seventeen new sections relating to abortion, with penalty provisions, a contingent effective date for a certain section, and an emergency clause for a certain section," passed by the 100th general assembly of the state of Missouri, at the first regular session of the 100th general assembly, shall be referred to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, unless the general assembly shall designate another date, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and_____County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

FIRST REGULAR SESSION

[TRULY AGREED TO AND FINALLY PASSED]

SENATE SUBSTITUTE FOR

SENATE COMMITTEE SUBSTITUTE FOR

HOUSE BILL NO. 126

100TH GENERAL ASSEMBLY

0461S.18T 2019

AN ACT

To repeal sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, and to enact in lieu thereof seventeen new sections relating to abortion, with penalty provisions, a contingent effective date for a certain section, and an emergency clause for a certain section.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, are repealed and seventeen new sections enacted in lieu thereof, to be known as sections 135.630, 188.010, 188.015, 188.017, 188.018, 188.026, 188.027, 188.028, 188.033, 188.038, 188.043, 188.044, 188.052, 188.056, 188.057, 188.058, and 188.375, to read as follows:

135.630. 1. As used in this section, the following terms mean:

(1) "Contribution", a donation of cash, stock, bonds, or other marketable securities, or real property;

(2) "Director", the director of the department of social services;

(3) "Pregnancy resource center", a nonresidential facility located in this state:

(a) Established and operating primarily to provide assistance to women **and families** with crisis pregnancies or unplanned pregnancies by offering pregnancy testing, counseling, emotional and material support, and other similar services **or by offering services as described**

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

under subsection 2 of section 188.325, to encourage and assist such women **and families** in carrying their pregnancies to term; and

(b) Where childbirths are not performed; and

(c) Which does not perform, induce, or refer for abortions and which does not hold itself out as performing, inducing, or referring for abortions; and

(d) Which provides direct client services at the facility, as opposed to merely providing counseling or referral services by telephone; and

(e) Which provides its services at no cost to its clients; and

(f) When providing medical services, such medical services must be performed in accordance with Missouri statute; and

(g) Which is exempt from income taxation pursuant to the Internal Revenue Code of 1986, as amended;

(4) "State tax liability", in the case of a business taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapters 143, 147, 148, and 153, excluding sections 143.191 to 143.265 and related provisions, and in the case of an individual taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapter 143, excluding sections 143.191 to 143.265 and related provisions;

(5) "Taxpayer", a person, firm, a partner in a firm, corporation, or a shareholder in an S corporation doing business in the state of Missouri and subject to the state income tax imposed by the provisions of chapter 143, or a corporation subject to the annual corporation franchise tax imposed by the provisions of chapter 147, or an insurance company paying an annual tax on its gross premium receipts in this state, or other financial institution paying taxes to the state of Missouri or any political subdivision of this state pursuant to the provisions of chapter 148, or an express company which pays an annual tax on its gross receipts in this state pursuant to chapter 153, or an individual subject to the state income tax imposed by the provisions of chapter 143, or any charitable organization which is exempt from federal income tax and whose Missouri unrelated business taxable income, if any, would be subject to the state income tax imposed under chapter 143.

2. (1) Beginning on March 29, 2013, any contribution to a pregnancy resource center made on or after January 1, 2013, shall be eligible for tax credits as provided by this section.

(2) For all tax years beginning on or after January 1, 2007, **and ending on or before December 31, 2020,** a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to fifty percent of the amount such taxpayer contributed to a pregnancy resource center. **For all tax years beginning on or after January 1, 2021, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in**

an amount equal to seventy percent of the amount such taxpayer contributed to a pregnancy resource center.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per tax year. However, any tax credit that cannot be claimed in the tax year the contribution was made may be carried over only to the next succeeding tax year. No tax credit issued under this section shall be assigned, transferred, or sold.

4. Except for any excess credit which is carried over pursuant to subsection 3 of this section, a taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution or contributions to a pregnancy resource center or centers in such taxpayer's tax year has a value of at least one hundred dollars.

5. The director shall determine, at least annually, which facilities in this state may be classified as pregnancy resource centers. The director may require of a facility seeking to be classified as a pregnancy resource center whatever information which is reasonably necessary to make such a determination. The director shall classify a facility as a pregnancy resource center if such facility meets the definition set forth in subsection 1 of this section.

6. The director shall establish a procedure by which a taxpayer can determine if a facility has been classified as a pregnancy resource center. Pregnancy resource centers shall be permitted to decline a contribution from a taxpayer. The cumulative amount of tax credits which may be claimed by all the taxpayers contributing to pregnancy resource centers in any one fiscal year shall not exceed two million dollars for all fiscal years ending on or before June 30, 2014, and two million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2014, and ending on or before June 30, 2019, and three million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2019**, and ending on or before June 30, 2021. For all fiscal years beginning on or after July 1, 2021, there shall be no limit imposed on the cumulative amount of tax credits that may be claimed by all taxpayers contributing to pregnancy resource centers under the provisions of this section**. Tax credits shall be issued in the order contributions are received. If the amount of tax credits redeemed in a fiscal year is less than the cumulative amount authorized under this subsection, the difference shall be carried over to a subsequent fiscal year or years and shall be added to the cumulative amount of tax credits that may be authorized in that fiscal year or years.

7. **For all fiscal years ending on or before June 30, 2021,** the director shall establish a procedure by which, from the beginning of the fiscal year until some point in time later in the fiscal year to be determined by the director, the cumulative amount of tax credits are equally apportioned among all facilities classified as pregnancy resource centers. If a pregnancy resource

center fails to use all, or some percentage to be determined by the director, of its apportioned tax credits during this predetermined period of time, the director may reapportion these unused tax credits to those pregnancy resource centers that have used all, or some percentage to be determined by the director, of their apportioned tax credits during this predetermined period of time. The director may establish more than one period of time and reapportion more than once during each fiscal year. To the maximum extent possible, the director shall establish the procedure described in this subsection in such a manner as to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

8. Each pregnancy resource center shall provide information to the director concerning the identity of each taxpayer making a contribution to the pregnancy resource center who is claiming a tax credit pursuant to this section and the amount of the contribution. The director shall provide the information to the director of revenue. The director shall be subject to the confidentiality and penalty provisions of section 32.057 relating to the disclosure of tax information.

9. [~~Under section 23.253 of the Missouri sunset act:~~

~~(1) The provisions of the program authorized under this section shall automatically sunset on December thirty-first six years after August 28, 2018, unless reauthorized by an act of the general assembly;~~

~~(2) If such program is reauthorized, the program authorized under this section shall automatically sunset on December thirty-first six years after the effective date of the reauthorization of this section;~~

~~(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which a program authorized under this section is sunset; and~~

~~(4) The provisions of this subsection shall not be construed to limit or in any way impair the department's ability to issue tax credits authorized on or before the date the program authorized under this section expires or a taxpayer's ability to redeem such tax credits.~~] **The provisions of section 23.253 shall not apply to this section.**

188.010. **In recognition that Almighty God is the author of life , that all men and women are "endowed by their Creator with certain unalienable Rights, that among these are Life", and that article I, section 2 of the Constitution of Missouri provides that all persons have a natural right to life,** it is the intention of the general assembly of the state of Missouri to [~~grant~~]:

(1) Defend the right to life [~~to~~] **of** all humans, born and unborn[~~, and to~~];

(2) Declare that the state and all of its political subdivisions are a "sanctuary of life" that protects pregnant women and their unborn children; and

(3) Regulate abortion to the full extent permitted by the Constitution of the United States, decisions of the United States Supreme Court, and federal statutes.

188.015. As used in this chapter, the following terms mean:

(1) "Abortion":

(a) The act of using or prescribing any instrument, device, medicine, drug, or any other means or substance with the intent to destroy the life of an embryo or fetus in his or her mother's womb; or

(b) The intentional termination of the pregnancy of a mother by using or prescribing any instrument, device, medicine, drug, or other means or substance with an intention other than to increase the probability of a live birth or to remove a dead [~~or dying~~] unborn child;

(2) "Abortion facility", a clinic, physician's office, or any other place or facility in which abortions are performed or induced other than a hospital;

(3) "Conception", the fertilization of the ovum of a female by a sperm of a male;

(4) "Department", the department of health and senior services;

(5) **"Down Syndrome", the same meaning as defined in section 191.923;**

(6) "Gestational age", length of pregnancy as measured from the first day of the woman's last menstrual period;

[~~(6)~~] **(7)** "Medical emergency", a condition which, based on reasonable medical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which a delay will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman;

[~~(7)~~] **(8)** "Physician", any person licensed to practice medicine in this state by the state board of registration for the healing arts;

[~~(8)~~] **(9)** "Reasonable medical judgment", a medical judgment that would be made by a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved;

[~~(9)~~] **(10)** "Unborn child", the offspring of human beings from the moment of conception until birth and at every stage of its biological development, including the human conceptus, zygote, morula, blastocyst, embryo, and fetus;

[~~(10)~~] **(11)** "Viability" or "viable", that stage of fetal development when the life of the unborn child may be continued indefinitely outside the womb by natural or artificial life-supportive systems**;**

(12) "Viable pregnancy" or "viable intrauterine pregnancy", in the first trimester of pregnancy, an intrauterine pregnancy that can potentially result in a liveborn baby.

188.017. 1. This section shall be known and may be cited as the "Right to Life of the Unborn Child Act".

2. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

3. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 2 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

188.018. If any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of this chapter shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed each provision, section, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter, or the application of this chapter to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.026. 1. This section and sections 188.056, 188.057, and 188.058 shall be known and may be cited as the "Missouri Stands for the Unborn Act".

2. In Roe v. Wade, 410 U.S. 113 (1973), certain information about the development of the unborn child, human pregnancy, and the effects of abortion was either not part of the record or was not available at the time. Since 1973, advances in medical and scientific technology have greatly expanded our knowledge of prenatal life and the effects of abortion on women. The general assembly of this state finds:

(1) At conception, a new genetically distinct human being is formed;

(2) The fact that the life of an individual human being begins at conception has long been recognized in Missouri law: "[T]he child is, in truth, alive from the moment of conception". State v. Emerich, 13 Mo. App. 492, 495 (1883), affirmed, 87 Mo. 110 (1885). Under section 1.205, the general assembly has recognized that the life of each human being

begins at conception and that unborn children have protectable interests in life, health, and well-being;

(3) The first prohibition of abortion in Missouri was enacted in 1825. Since then, the repeal and reenactment of prohibitions of abortion have made distinctions with respect to penalties for performing or inducing abortion on the basis of "quickening"; however, the unborn child was still protected from conception onward;

(4) In ruling that Missouri's prohibition on abortion was constitutional in 1972, the Missouri supreme court accepted as a stipulation of the parties that "'[i]nfant Doe, Intervenor Defendant in this case, and all other unborn children have all the qualities and attributes of adult human persons differing only in age or maturity. Medically, human life is a continuum from conception to death.'" Rodgers v. Danforth, 486 S.W.2d 258, 259 (1972);

(5) In Webster v. Reproductive Health Services, 492 U.S. 490 (1989), the Supreme Court, while considering the "preamble" that set forth "findings" in section 1.205, stated: "We think the extent to which the preamble's language might be used to interpret other state statutes or regulations is something that only the courts of Missouri can definitively decide. State law has offered protections to unborn children in tort and probate law". Id. at 506. Since *Webster*, Missouri courts have construed section 1.205 and have consistently found that an unborn child is a person for purposes of Missouri's homicide and assault laws when the unborn child's mother was killed or assaulted by another person. Section 1.205 has even been found applicable to the manslaughter of an unborn child who was eight weeks gestational age or earlier. State v. Harrison, 390 S.W.3d 927 (Mo. Ct. App. 2013);

(6) In medicine, a special emphasis is placed on the heartbeat. The heartbeat is a discernible sign of life at every stage of human existence. During the fifth week of gestational age, an unborn child's heart begins to beat and blood flow begins during the sixth week;

(7) Depending on the ultrasound equipment being used, the unborn child's heartbeat can be visually detected as early as six to eight weeks gestational age. By about twelve weeks gestational age, the unborn child's heartbeat can consistently be made audible through the use of a handheld Doppler fetal heart rate device;

(8) Confirmation of a pregnancy can be indicated through the detection of the unborn child's heartbeat, while the absence of a heartbeat can be an indicator of the death of the unborn child if the child has reached the point of development when a heartbeat should be detectable;

(9) Heart rate monitoring during pregnancy and labor is utilized to measure the heart rate and rhythm of the unborn child, at an average rate between one hundred ten and one hundred sixty beats per minute, and helps determine the health of the unborn child;

(10) The Supreme Court in *Roe* discussed "the difficult question of when life begins" and wrote: "[p]hysicians and their scientific colleagues have regarded [quickening] with less interest and have tended to focus either upon conception, upon live birth, or upon the interim point at which the fetus becomes 'viable', that is, potentially able to live outside the mother's womb, albeit with artificial aid". *Roe*, 410 U.S. at 160. Today, however, physicians' and scientists' interests on life in the womb also focus on other markers of development in the unborn child, including, but not limited to, presence of a heartbeat, brain development, a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy, and the ability to experience pain;

(11) In Planned Parenthood of Central Missouri v. Danforth, 428 U.S. 52 (1976), the Supreme Court noted that "we recognized in *Roe* that viability was a matter of medical judgment, skill, and technical ability, and we preserved the flexibility of the term". Id. at 64. Due to advances in medical technology and diagnoses, present-day physicians and scientists now describe the viability of an unborn child in an additional manner, by determining whether there is a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy;

(12) While the overall risk of miscarriage after clinical recognition of pregnancy is twelve to fifteen percent, the incidence decreases significantly if cardiac activity in the unborn child has been confirmed. The detection of a heartbeat in an unborn child is a reliable indicator of a viable pregnancy and that the unborn child will like ly survive to birth, especially if presenting for a prenatal visit at eight weeks gestational age or later. For asymptomatic women attending a first prenatal visit between six and eleven weeks gestational age where a heartbeat was confirmed through an ultrasound, the subsequent risk of miscarriage is one and six-tenths percent. Although the risk is higher at six weeks gestational age at nine and four-tenths percent, it declines rapidly to one and five-tenths percent at eight weeks gestational age, and less than one percent at nine weeks gestational age or later;

(13) The presence of a heartbeat in an unborn child represents a more definable point of ascertaining survivability than the ambiguous concept of viability that has been adopted by the Supreme Court, especially since if a heartbeat is detected at eight weeks gestational age or later in a normal pregnancy, there is likely to be a viable pregnancy and there is a high probability that the unborn child will survive to birth;

(14) The placenta begins developing during the early first trimester of pregnancy and performs a respiratory function by making oxygen supply to and carbon dioxide removal from the unborn child possible later in the first trimester and throughout the second and third trimesters of pregnancy;

(15) By the fifth week of gestation, the development of the brain of the unborn child is underway. Brain waves have been measured and recorded as early as the eighth week of gestational age in children who were removed during an ectopic pregnancy or hysterectomy. Fetal magnetic resonance imaging (MRI) of an unborn child's brain is used during the second and third trimesters of pregnancy and brain activity has been observed using MRI;

(16) Missouri law identifies the presence of circulation, respiration, and brain function as indicia of life under section 194.005, as the presence of circulation, respiration, and brain function indicates that such person is not legally dead, but is legally alive;

(17) Unborn children at eight weeks gestational age show spontaneous movements, such as a twitching of the trunk and developing limbs. It has been reported that unborn children at this stage show reflex responses to touch. The perioral area is the first part of the unborn child's body to respond to touch at about eight weeks gestational age and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(18) Peripheral cutaneous sensory receptors, the receptors that feel pain, develop early in the unborn child. They appear in the perioral cutaneous area at around seven to eight weeks gestational age, in the palmar regions at ten to ten and a half weeks gestational age, the abdominal wall at fifteen weeks gestational age, and over all of the unborn child's body at sixteen weeks gestational age;

(19) Substance P, a peptide that functions as a neurotransmitter, especially in the transmission of pain, is present in the dorsal horn of the spinal cord of the unborn child at eight to ten weeks gestational age. Enkephalins, peptides that play a role in neurotransmission and pain modulation, are present in the dorsal horn at twelve to fourteen weeks gestational age;

(20) When intrauterine needling is performed on an unborn child at sixteen weeks gestational age or later, the reaction to this invasive stimulus is blood flow redistribution to the brain. Increased blood flow to the brain is the same type of stress response seen in a born child and an adult;

(21) By sixteen weeks gestational age, pain transmission from a peripheral receptor to the cortex is possible in the unborn child;

(22) Physicians provide anesthesia during in utero treatment of unborn children as early as sixteen weeks gestational age for certain procedures, including those to correct

fetal urinary tract obstruction. Anesthesia is administered by ultrasound-guided injection into the arm or leg of the unborn child;

(23) A leading textbook on prenatal development of the human brain states, "It may be concluded that, although nociperception (the actual perception of pain) awaits the appearance of consciousness, nociception (the experience of pain) is present some time before birth. In the absence of disproof, it is merely prudent to assume that pain can be experienced even early in prenatal life (Dr. J. Wisser, Zürich): the fetus should be given the benefit of the doubt". Ronan O'Rahilly & Fabiola Müller. The Embryonic Human Brain: An Atlas of Developmental Stages (3d ed. 2005);

(24) By fourteen or fifteen weeks gestational age or later, the predominant abortion method in Missouri is dilation and evacuation (D & E). The D & E abortion method includes the dismemberment, disarticulation, and exsanguination of the unborn child, causing the unborn child's death;

(25) The Supreme Court acknowledged in Gonzales v. Carhart, 550 U.S. 124, 160 (2007), that "the standard D & E is in some respects as brutal, if not more, than the intact D & E" partial birth abortion method banned by Congress and upheld as facially constitutional by the Supreme Court, even though the federal ban was applicable both before and after viability and had no exception for the health of the mother;

(26) Missouri's ban on the partial birth abortion method, section 565.300, is in effect because of Gonzales v. Carhart and the Supreme Court's subsequent decision in Nixon v. Reproductive Health Services of Planned Parenthood of the St. Louis Region, Inc., 550 U.S. 901 (2007), to vacate and remand to the appellate court the prior invalidation of section 565.300. Since section 565.300, like Congress' ban on partial birth abortion, is applicable both before and after viability, there is ample precedent for the general assembly to constitutionally prohibit the brutal D & E abortion method at fourteen weeks gestational age or later, even before the unborn child is viable, with a medical emergency exception;

(27) In Roper v. Simmons, 543 U.S. 551 (2005), the Supreme Court determined that "evolving standards of decency" dictated that a Missouri statute allowing the death penalty for a conviction of murder in the first degree for a person under eighteen years of age when the crime was committed was unconstitutional under the Eighth and Fourteenth Amendments to the United States Constitution because it violated the prohibition against "cruel and unusual punishments";

(28) In Bucklew v. Precythe, 139 S. Ct. 1112, 1123 (2019), the Supreme Court noted that "'[d]isgusting' practices" like disemboweling and quartering "readily qualified as

'cruel and unusual', as a reader at the time of the Eighth Amendment's adoption would have understood those words";

(29) Evolving standards of decency dictate that Missouri should prohibit the brutal and painful D & E abortion method at fourteen weeks gestational age or later, with a medical emergency exception, because if a comparable method of killing was used on:

(a) A person convicted of murder in the first degree, it would be cruel and unusual punishment; or

(b) An animal, it would be unlawful under state law because it would not be a humane method, humane euthanasia, or humane killing of certain animals under chapters 273 and 578;

(30) In *Roper*, the Supreme Court also found that "[i]t is proper that we acknowledge the overwhelming weight of international opinion against the juvenile death penalty.... The opinion of the world community, while not controlling our outcome, does provide respected and significant confirmation for our own conclusions". *Roper*, 543 U.S. at 578. In its opinion, the Supreme Court was instructed by "international covenants prohibiting the juvenile death penalty", such as the International Covenant on Civil and Political Rights, 999 U.N.T.S. 171. Id. at 577;

(31) The opinion of the world community, reflected in the laws of the United Nation's 193-member states and six other entities, is that in most countries, most abortions are prohibited after twelve weeks gestational age or later;

(32) The opinion of the world community is also shared by most Americans, who believe that most abortions in the second and third trimesters of pregnancy should be illegal, based on polling that has remained consistent since 1996;

(33) Abortion procedures performed later in pregnancy have a higher medical risk for women. Compared to an abortion at eight weeks gestational age or earlier, the relative risk increases exponentially at later gestational ages. The relative risk of death for a pregnant woman who had an abortion performed or induced upon her at:

(a) Eleven to twelve weeks gestational age is between three and four times higher than an abortion at eight weeks gestational age or earlier;

(b) Thirteen to fifteen weeks gestational age is almost fifteen times higher than an abortion at eight weeks gestational age or earlier;

(c) Sixteen to twenty weeks gestational age is almost thirty times higher than an abortion at eight weeks gestational age or earlier; and

(d) Twenty-one weeks gestational age or later is more than seventy-five times higher than an abortion at eight weeks gestational age or earlier;

(34) In addition to the short-term risks of an abortion, studies have found that the long-term physical and psychological consequences of abortion for women include, but are not limited to, an increased risk of preterm birth, low birthweight babies, and placenta previa in subsequent pregnancies, as well as serious behavioral health issues. These risks increase as abortions are performed or induced at later gestational ages. These consequences of an abortion have a detrimental effect not only on women, their children, and their families, but also on an already burdened health care system, taxpayers, and the workforce;

(35) A large percentage of women who have an abortion performed or induced upon them in Missouri each year are at less than eight weeks gestational age, a large majority are at less than fourteen weeks gestational age, a larger majority are at less than eighteen weeks gestational age, and an even larger majority are at less than twenty weeks gestational age. A prohibition on performing or inducing an abortion at eight weeks gestational age or later, with a medical emergency exception, does not amount to a substantial obstacle to a large fraction of women for whom the prohibition is relevant, which is pregnant women in Missouri who are seeking an abortion while not experiencing a medical emergency. The burden that a prohibition on performing or inducing an abortion at eight, fourteen, eighteen, or twenty weeks gestational age or later, with a medical emergency exception, might impose on abortion access, is outweighed by the benefits conferred upon the following:

(a) Women more advanced in pregnancy who are at greater risk of harm from abortion;

(b) Unborn children at later stages of development;

(c) The medical profession, by preserving its integrity and fulfilling its commitment to do no harm; and

(d) Society, by fostering respect for human life, born and unborn, at all stages of development, and by lessening societal tolerance of violence against innocent human life;

(36) In *Webster*, the Supreme Court noted, in upholding a Missouri statute, "that there may be a 4-week error in estimating gestational age". *Webster*, 492 U.S. at 516. Thus, an unborn child thought to be eight weeks gestational age might in fact be twelve weeks gestational age, when an abortion poses a greater risk to the woman and the unborn child is considerably more developed. An unborn child at fourteen weeks gestational age might be eighteen weeks gestational age and an unborn child at eighteen weeks gestational age might be twenty-two weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, and the risk of pain experienced by the unborn child is

greater. An unborn child at twenty weeks gestational age might be twenty-four weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, the risk of pain experienced by the unborn child is greater, and the unborn child may be viable.

3. The state of Missouri is bound by Article VI, Clause 2 of the Constitution of the United States that "all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land". One such treaty is the International Covenant on Civil and Political Rights, entered into force on March 23, 1976, and adopted by the United States on September 8, 1992. In ratifying the Covenant, the United States declared that while the provisions of Articles 1 through 27 of the Covenant are not self-executing, the United States' understanding is that state governments share responsibility with the federal government in implementing the Covenant.

4. Article 6, Paragraph 1, U.N.T.S. at 174, of the International Covenant on Civil and Political Rights states, "Every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily deprived of his life". The state of Missouri takes seriously its obligation to comply with the Covenant and to implement this paragraph as it relates to the inherent right to life of unborn human beings, protecting the rights of unborn human beings by law, and ensuring that such unborn human beings are not arbitrarily deprived of life. The state of Missouri hereby implements Article 6, Paragraph 1 of the Covenant by the regulation of abortion in this state.

5. The state of Missouri has interests that include, but are not limited to:

(1) Protecting unborn children throughout pregnancy and preserving and promoting their lives from conception to birth;

(2) Encouraging childbirth over abortion;

(3) Ensuring respect for all human life from conception to natural death;

(4) Safeguarding an unborn child from the serious harm of pain by an abortion method that would cause the unborn child to experience pain while she or he is being killed;

(5) Preserving the integrity of the medical profession and regulating and restricting practices that might cause the medical profession or society as a whole to become insensitive, even disdainful, to life. This includes regulating and restricting abortion methods that are not only brutal and painful, but if allowed to continue, will further coarsen society to the humanity of not only unborn children, but all vulnerable and innocent human life, making it increasingly difficult to protect such life;

(6) Ending the incongruities in state law by permitting some unborn children to be killed by abortion, while requiring that unborn children be protected in non-abortion circumstances through, including, but not limited to, homicide, assault, self-defense, and defense of another statutes; laws guaranteeing prenatal health care, emergency care, and testing; state-sponsored health insurance for unborn children; the prohibition of restraints in correctional institutions to protect pregnant offenders and their unborn children; and protecting the interests of unborn children by the appointment of conservators, guardians, and representatives;

(7) Reducing the risks of harm to pregnant women who obtain abortions later in pregnancy; and

(8) Avoiding burdens on the health care system, taxpayers, and the workforce because of increased preterm births, low birthweight babies, compromised pregnancies, extended postpartum recoveries, and behavioral health problems caused by the long-term effects of abortions performed or induced later in the pregnancy.

188.027. 1. Except in [~~the case~~] **cases** of medical emergency, no abortion shall be performed or induced on a woman without her voluntary and informed consent, given freely and without coercion. Consent to an abortion is voluntary and informed and given freely and without coercion if, and only if, at least seventy-two hours prior to the abortion:

(1) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has informed the woman orally, reduced to writing, and in person, of the following:

(a) The name of the physician who will perform or induce the abortion;

(b) Medically accurate information that a reasonable patient would consider material to the decision of whether or not to undergo the abortion, including:

a. A description of the proposed abortion method;

b. The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

c. The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical condition;

(c) Alternatives to the abortion which shall include making the woman aware that information and materials shall be provided to her detailing such alternatives to the abortion;

(d) A statement that the physician performing or inducing the abortion is available for any questions concerning the abortion, together with the telephone number that the physician may be later reached to answer any questions that the woman may have;

(e) The location of the hospital that offers obstetrical or gynecological care located within thirty miles of the location where the abortion is performed or induced and at which the physician performing or inducing the abortion has clinical privileges and where the woman may receive follow-up care by the physician if complications arise;

(f) The gestational age of the unborn child at the time the abortion is to be performed or induced; and

(g) The anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed or induced;

(2) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from conception to full term, including color photographs or images of the developing unborn child at two-week gestational increments. Such descriptions shall include information about brain and heart functions, the presence of external members and internal organs during the applicable stages of development and information on when the unborn child is viable. The printed materials shall prominently display the following statement: "The life of each human being begins at conception. Abortion will terminate the life of a separate, unique, living human being.";

(3) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has presented the woman, in person, printed materials provided by the department, which describe the various surgical and drug-induced methods of abortion relevant to the stage of pregnancy, as well as the immediate and long-term medical risks commonly associated with each abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and the possible adverse psychological effects associated with an abortion;

(4) The physician who is to perform or induce the abortion or a qualified professional shall provide the woman with the opportunity to view at least seventy-two hours prior to the abortion an active ultrasound of the unborn child and hear the heartbeat of the unborn child if the heartbeat is audible. The woman shall be provided with a geographically indexed list maintained by the department of health care providers, facilities, and clinics that perform ultrasounds, including those that offer ultrasound services free of charge. Such materials shall provide contact information for each provider, facility, or clinic including telephone numbers

and, if available, website addresses. Should the woman decide to obtain an ultrasound from a provider, facility, or clinic other than the abortion facility, the woman shall be offered a reasonable time to obtain the ultrasound examination before the date and time set for performing or inducing an abortion. The person conducting the ultrasound shall ensure that the active ultrasound image is of a quality consistent with standard medical practice in the community, contains the dimensions of the unborn child, and accurately portrays the presence of external members and internal organs, if present or viewable, of the unborn child. The auscultation of fetal heart tone must also be of a quality consistent with standard medical practice in the community. If the woman chooses to view the ultrasound or hear the heartbeat or both at the abortion facility, the viewing or hearing or both shall be provided to her at the abortion facility at least seventy-two hours prior to the abortion being performed or induced;

(5) [~~Prior to an abortion being performed or induced on an unborn child of twenty-two weeks gestational age or older, the physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department that offer information on the possibility of the abortion causing pain to the unborn child. This information shall include, but need not be limited to, the following:~~

~~(a) At least by twenty-two weeks of gestational age, the unborn child possesses all the anatomical structures, including pain receptors, spinal cord, nerve tracts, thalamus, and cortex, that are necessary in order to feel pain;~~

~~(b) A description of the actual steps in the abortion procedure to be performed or induced, and at which steps the abortion procedure could be painful to the unborn child;~~

~~(c) There is evidence that by twenty-two weeks of gestational age, unborn children seek to evade certain stimuli in a manner that in an infant or an adult would be interpreted as a response to pain;~~

~~(d) Anesthesia is given to unborn children who are twenty-two weeks or more gestational age who undergo prenatal surgery;~~

~~(e) Anesthesia is given to premature children who are twenty-two weeks or more gestational age who undergo surgery;~~

~~(f) Anesthesia or an analgesic is available in order to minimize or alleviate the pain to the unborn child~~] **The printed materials provided by the department shall include information on the possibility of an abortion causing pain in the unborn child. This information shall include, but need not be limited to, the following:**

(a) Unborn children as early as eight weeks gestational age start to show spontaneous movements and unborn children at this stage in pregnancy show reflex responses to touch;

(b) In the unborn child, the area around his or her mouth and lips is the first part of the unborn child's body to respond to touch and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(c) Pain receptors on the unborn child's skin develop around his or her mouthat around seven to eight weeks gestational age, around the palms of his or her hands at ten to ten and a half weeks, on the abdominal wall at fifteen weeks, and over all of his or her body at sixteen weeks gestational age;

(d) Beginning at sixteen weeks gestational age and later, it is possible for pain to be transmitted from receptors to the cortex of the unborn child's brain, where thinking and perceiving occur;

(e) When a physician performs a life-saving surgery, he or she provides anesthesia to unborn children as young as sixteen weeks gestational age in order to alleviate the unborn child's pain; and

(f) A description of the actual steps in the abortion procedure to be performed or induced and at which steps the abortion procedure could be painful to the unborn child;

(6) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining to the woman alternatives to abortion she may wish to consider. Such materials shall:

(a) Identify on a geographical basis public and private agencies available to assist a woman in carrying her unborn child to term, and to assist her in caring for her dependent child or placing her child for adoption, including agencies commonly known and generally referred to as pregnancy resource centers, crisis pregnancy centers, maternity homes, and adoption agencies. Such materials shall provide a comprehensive list by geographical area of the agencies, a description of the services they offer, and the telephone numbers and addresses of the agencies; provided that such materials shall not include any programs, services, organizations, or affiliates of organizations that perform or induce, or assist in the performing or inducing of, abortions or that refer for abortions;

(b) Explain the Missouri alternatives to abortion services program under section 188.325, and any other programs and services available to pregnant women and mothers of newborn children offered by public or private agencies which assist a woman in carrying her unborn child to term and assist her in caring for her dependent child or placing her child for adoption, including but not limited to prenatal care; maternal health care; newborn or infant care; mental health services; professional counseling services; housing programs; utility assistance; transportation services; food, clothing, and supplies related to pregnancy; parenting skills; educational programs; job training and placement services; drug and alcohol testing and treatment; and adoption assistance;

(c) Identify the state website for the Missouri alternatives to abortion services program under section 188.325, and any toll-free number established by the state operated in conjunction with the program;

(d) Prominently display the statement: "There are public and private agencies willing and able to help you carry your child to term, and to assist you and your child after your child is born, whether you choose to keep your child or place him or her for adoption. The state of Missouri encourages you to contact those agencies before making a final decision about abortion. State law requires that your physician or a qualified professional give you the opportunity to call agencies like these before you undergo an abortion.";

(7) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining that the father of the unborn child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion. Such materials shall include information on the legal duties and support obligations of the father of a child, including, but not limited to, child support payments, and the fact that paternity may be established by the father's name on a birth certificate or statement of paternity, or by court action. Such printed materials shall also state that more information concerning paternity establishment and child support services and enforcement may be obtained by calling the family support division within the Missouri department of social services; and

(8) The physician who is to perform or induce the abortion or a qualified professional shall inform the woman that she is free to withhold or withdraw her consent to the abortion at any time without affecting her right to future care or treatment and without the loss of any state or federally funded benefits to which she might otherwise be entitled.

2. All information required to be provided to a woman considering abortion by subsection 1 of this section shall be presented to the woman individually, in the physical presence of the woman and in a private room, to protect her privacy, to maintain the confidentiality of her decision, to ensure that the information focuses on her individual circumstances, to ensure she has an adequate opportunity to ask questions, and to ensure that she is not a victim of coerced abortion. Should a woman be unable to read materials provided to her, they shall be read to her. Should a woman need an interpreter to understand the information presented in the written materials, an interpreter shall be provided to her. Should a woman ask questions concerning any of the information or materials, answers shall be provided in a language she can understand.

3. No abortion shall be performed or induced unless and until the woman upon whom the abortion is to be performed or induced certifies in writing on a checklist form provided by the department that she has been presented all the information required in subsection 1 of this

section, that she has been provided the opportunity to view an active ultrasound image of the unborn child and hear the heartbeat of the unborn child if it is audible, and that she further certifies that she gives her voluntary and informed consent, freely and without coercion, to the abortion procedure.

4. ~~[No abortion shall be performed or induced on an unborn child of twenty-two weeks gestational age or older unless and until the woman upon whom the abortion is to be performed or induced has been provided the opportunity to choose to have an anesthetic or analgesic administered to eliminate or alleviate pain to the unborn child caused by the particular method of abortion to be performed or induced. The administration of anesthesia or analgesics shall be performed in a manner consistent with standard medical practice in the community.~~

~~5.~~] No physician shall perform or induce an abortion unless and until the physician has obtained from the woman her voluntary and informed consent given freely and without coercion. If the physician has reason to believe that the woman is being coerced into having an abortion, the physician or qualified professional shall inform the woman that services are available for her and shall provide her with private access to a telephone and information about such services, including but not limited to the following:

(1) Rape crisis centers, as defined in section 455.003;

(2) Shelters for victims of domestic violence, as defined in section 455.200; and

(3) Orders of protection, pursuant to chapter 455.

[~~6.~~] **5.** The physician who is to perform or induce the abortion shall, at least seventy-two hours prior to such procedure, inform the woman orally and in person of:

(1) The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

(2) The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical conditions.

[~~7.~~] **6.** No physician shall perform or induce an abortion unless and until the physician has received and signed a copy of the form prescribed in subsection 3 of this section. The physician shall retain a copy of the form in the patient's medical record.

[~~8.~~] **7.** In the event of a medical emergency [~~as provided by section 188.039~~], the physician who performed or induced the abortion shall clearly certify in writing the nature and circumstances of the medical emergency. This certification shall be signed by the physician who performed or induced the abortion, and shall be maintained under section 188.060.

[~~9.~~] **8.** No person or entity shall require, obtain, or accept payment for an abortion from or on behalf of a patient until at least seventy-two hours have passed since the time that the information required by subsection 1 of this section has been provided to the patient. Nothing in this subsection shall prohibit a person or entity from notifying the patient that payment for the abortion will be required after the seventy-two-hour period has expired if she voluntarily chooses to have the abortion.

[~~10.~~] **9.** The term "qualified professional" as used in this section shall refer to a physician, physician assistant, registered nurse, licensed practical nurse, psychologist, licensed professional counselor, or licensed social worker, licensed or registered under chapter 334, 335, or 337, acting under the supervision of the physician performing or inducing the abortion, and acting within the course and scope of his or her authority provided by law. The provisions of this section shall not be construed to in any way expand the authority otherwise provided by law relating to the licensure, registration, or scope of practice of any such qualified professional.

[~~11.~~] **10.** By November 30, 2010, the department shall produce the written materials and forms described in this section. Any written materials produced shall be printed in a typeface large enough to be clearly legible. All information shall be presented in an objective, unbiased manner designed to convey only accurate scientific and medical information. The department shall furnish the written materials and forms at no cost and in sufficient quantity to any person who performs or induces abortions, or to any hospital or facility that provides abortions. The department shall make all information required by subsection 1 of this section available to the public through its department website. The department shall maintain a toll-free, twenty-four-hour hotline telephone number where a caller can obtain information on a regional basis concerning the agencies and services described in subsection 1 of this section. No identifying information regarding persons who use the website shall be collected or maintained. The department shall monitor the website on a regular basis to prevent tampering and correct any operational deficiencies.

[~~12.~~] **11.** In order to preserve the compelling interest of the state to ensure that the choice to consent to an abortion is voluntary and informed, and given freely and without coercion, the department shall use the procedures for adoption of emergency rules under section 536.025 in order to promulgate all necessary rules, forms, and other necessary material to implement this section by November 30, 2010.

[~~13.~~] **12.** If the provisions in subsections 1 and [~~9~~] **8** of this section requiring a seventy-two-hour waiting period for an abortion are ever temporarily or permanently restrained or enjoined by judicial order, then the waiting period for an abortion shall be twenty-four hours; provided, however, that if such temporary or permanent restraining order or injunction is stayed

or dissolved, or otherwise ceases to have effect, the waiting period for an abortion shall be seventy-two hours.

188.028. 1. **Except in the case of a medical emergency,** no person shall knowingly perform **or induce** an abortion upon a pregnant woman under the age of eighteen years unless:

(1) The attending physician has secured the informed written consent of the minor and one parent or guardian**, and the consenting parent or guardian of the minor has notified any other custodial parent in writing prior to the securing of the informed written consent of the minor and one parent or guardian. For purposes of this subdivision, "custodial parent" shall only mean a parent of a minor who has been awarded joint legal custody or joint physical custody of such minor by a court of competent jurisdiction. Notice shall not be required for any parent:**

(a) Who has been found guilty of any offense in violation of chapter 565, relating to offenses against the person; chapter 566, relating to sexual offenses; chapter 567, relating to prostitution; chapter 568, relating to offenses against the family; or chapter 573, related to pornography and related offenses, if a child was a victim;

(b) Who has been found guilty of any offense in any other state or foreign country, or under federal, tribal, or military jurisdiction if a child was a victim, which would be a violation of chapters 565, 566, 567, 568, or 573 if committed in this state;

(c) Who is listed on the sexual offender registry under sections 589.400 to 589.425;

(d) Against whom an order of protection has been issued, including a foreign order of protection given full faith and credit in this state under section 455.067;

(e) Whose custodial, parental, or guardianship rights have been terminated by a court of competent jurisdiction; or

(f) Whose whereabouts are unknown after reasonable inquiry, who is a fugitive from justice, who is habitually in an intoxicated or drugged condition, or who has been declared mentally incompetent or incapacitated by a court of competent jurisdiction; **[**~~or~~**]**

(2) The minor is emancipated and the attending physician has received the informed written consent of the minor; **[**~~or~~**]**

(3) The minor has been granted the right to self-consent to the abortion by court order pursuant to subsection 2 of this section, and the attending physician has received the informed written consent of the minor; or

(4) The minor has been granted consent to the abortion by court order, and the court has given its informed written consent in accordance with subsection 2 of this section, and the minor is having the abortion willingly, in compliance with subsection 3 of this section.

2. The right of a minor to self-consent to an abortion under subdivision (3) of subsection 1 of this section or court consent under subdivision (4) of subsection 1 of this section may be granted by a court pursuant to the following procedures:

(1) The minor or next friend shall make an application to the juvenile court which shall assist the minor or next friend in preparing the petition and notices required pursuant to this section. The minor or the next friend of the minor shall thereafter file a petition setting forth the initials of the minor; the age of the minor; the names and addresses of each parent, guardian, or, if the minor's parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that, if the court does not grant the minor majority rights for the purpose of consent to the abortion, the court should find that the abortion is in the best interest of the minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem of the child; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend;

(2) A hearing on the merits of the petition, to be held on the record, shall be held as soon as possible within five days of the filing of the petition. If any party is unable to afford counsel, the court shall appoint counsel at least twenty-four hours before the time of the hearing. At the hearing, the court shall hear evidence relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interests of the minor;

(3) In the decree, the court shall for good cause:

(a) Grant the petition for majority rights for the purpose of consenting to the abortion; **[**~~or~~**]**

(b) Find the abortion to be in the best interests of the minor and give judicial consent to the abortion, setting forth the grounds for so finding; or

(c) Deny the petition, setting forth the grounds on which the petition is denied;

(4) If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights, or the judicial consent, shall bar an action by the parents or guardian of the minor on the grounds of battery of the minor by those performing **or inducing** the abortion. The immunity granted shall only extend to the performance **or induction** of the abortion in accordance herewith and any necessary accompanying services which are performed in a competent manner. The costs of the action shall be borne by the parties;

(5) An appeal from an order issued under the provisions of this section may be taken to the court of appeals of this state by the minor or by a parent or guardian of the minor. The notice of intent to appeal shall be given within twenty-four hours from the date of issuance of the order. The record on appeal shall be completed and the appeal shall be perfected within five days from the filing of notice to appeal. Because time may be of the essence regarding the performance **or induction** of the abortion, the supreme court of this state shall, by court rule, provide for expedited appellate review of cases appealed under this section.

3. If a minor desires an abortion, then she shall be orally informed of and, if possible, sign the written consent required **[**~~by section 188.039~~**]** **under this chapter** in the same manner as an adult person. No abortion shall be performed **or induced** on any minor against her will, except that an abortion may be performed **or induced** against the will of a minor pursuant to a court order described in subdivision (4) of subsection 1 of this section that the abortion is necessary to preserve the life of the minor.

188.033. Whenever an abortion facility or a family planning agency located in this state, or any of its agents or employees acting within the scope of his or her authority or employment, provides to a woman considering an abortion the name, address, telephone number, or website of an abortion provider that is located outside of the state, such abortion facility or family planning agency or its agents or employees shall also provideto such woman the printed materials produced by the department under section 188.027. If the name, address, telephone number, or website of such abortion provider is not provided to such woman in person, such printed materials shall be offered to her, and ifshe chooses, sent to such woman at no cost to her the same day or as soon as possible either electronically or by U.S. mail overnight delivery service or by other overnight or same-day delivery service to an address of such woman's choosing. The department shall furnish such printed materials at no cost and in sufficient quantities to abortion facilities and family planning agencies located within the state.

188.038. 1. The general assembly of this state finds that:

(1) Removing vestiges of any past bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is an important task for those in the legal, medical, social services, and human services professions;

(2) Ending any current bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is a legitimate purpose of government in order to guarantee that those who "are endowed by their Creator with certain unalienable Rights" can enjoy "Life, Liberty and the pursuit of Happiness";

(3) The historical relationship of bias or discrimination by some family planning programs and policies towards poor and minority populations, including, but not limited to, the nonconsensual sterilization of mentally ill, poor, minority, and immigrant women and other coercive family planning programs and policies, must be rejected;

(4) Among Missouri residents, the rate of black or African-American women who undergo abortions is significantly higher, about three and a half times higher, than the rate of white women who undergo abortions. Among Missouri residents, the rate of black or African-American women who undergo repeat abortions is significantly higher, about one and a half times higher, than the rate of white women who undergo repeat abortions;

(5) Performing or inducing an abortion because of the sex of the unborn child is repugnant to the values of equality of females and males and the same opportunities for girls and boys, and furthers a false mindset of female inferiority;

(6) Government has a legitimate interest in preventing the abortion of unborn children with Down Syndrome because it is a form of bias or disability discrimination and victimizes the disabled unborn child at his or her most vulnerable stage. Eliminating unborn children with Down Syndrome raises grave concerns for the lives of those who do live with disabilities. It sends a message of dwindling support for their unique challenges, fosters a false sense that disability is something that could have been avoidable, and is likely to increase the stigma associated with disability.

2. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in an unborn child.

3. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of the sex or race of the unborn child.

4. Any physician or other person who performs or induces or attempts to perform or induce an abortion prohibited by this section shall be subject to all applicable civil penalties under this chapter including, but not limited to, sections 188.065 and 188.085.

188.043. 1. No person shall perform or induce **[**~~a surgical or medical~~**]** **an** abortion **on another** unless such person has **[**~~proof of~~**]** medical malpractice insurance with coverage amounts of at least **[**~~five hundred thousand dollars~~**]** **one million dollars per occurrence and three million dollars in the annual aggregate**.

2. For the purpose of this section, "medical malpractice insurance" means insurance coverage against the legal liability of the insured and against loss, damage, or expense incident to a claim arising out of the death or injury of any person as a result of the negligence or malpractice in rendering professional service by any health care provider.

3. No abortion facility or hospital shall employ or engage the services of a person to perform [~~one or more abortions~~] **or induce an abortion on another** if the person does not have [~~proof of~~] medical malpractice insurance pursuant to this section, except **that** the abortion facility or hospital may provide medical malpractice insurance for the services of persons employed or engaged by such facility or hospital **which is no less than the coverage amounts set forth in this section**.

4. Notwithstanding the provisions of section 334.100, failure of a person to maintain the medical malpractice insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.044. 1. When a drug or chemical, or combination thereof, used by a person to induce an abortion carries a warning from its manufacturer or distributor, a peer-reviewed medical journal article, or a Food and Drug Administration label that its use may cause birth defects, disability, or other injury in a child who survives the abortion, then in addition to the requirements of section 188.043, such person shall also carry tail insurance with coverage amounts of at least one million dollars per occurrence and three million dollars in the annual aggregate for personal injury to or death of a child who survives such abortion. Such policy shall be maintained in force or be in effect for a period of twenty-one years after the person used the drug or chemical, or combination thereof, to induce the abortion.

2. For the purpose of this section, "tail insurance" means insurance which covers the legal liability of the insured once a medical malpractice insurance policy is cancelled, not renewed, or terminated, and covers claims made after such cancellation or termination for acts occurring during the period the prior medical malpractice insurance was in effect.

3. No abortion facility or hospital shall employ or engage the services of a person to induce an abortion on another using any drug or chemical, or combination thereof, which may cause birth defects, disability, or other injury in a child who survives the abortion, if the person does not have tail insurance pursuant to this section, except that the abortion facility or hospital may provide tail insurance for the services of persons employed or engaged by such facility or hospital which is no less than the coverage amounts and duration set forth in this section.

4. Notwithstanding the provisions of section 334.100 to the contrary, failure of a person to maintain the tail insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.052. 1. An individual abortion report for each abortion performed or induced upon a woman shall be completed by [~~her attending~~] **the** physician **who performed or induced the abortion. Abortion reports shall include, but not be limited to, a certification that the**

physician does not have any knowledge that the woman sought the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in the unborn child and a certification that the physician does not have any knowledge that the woman sought the abortion solely because of the sex or race of the unborn child.

2. An individual complication report for any post-abortion care performed upon a woman shall be completed by the physician providing such post-abortion care. This report shall include:

(1) The date of the abortion;

(2) The name and address of the abortion facility or hospital where the abortion was performed **or induced**;

(3) The nature of the abortion complication diagnosed or treated.

3. All abortion reports shall be signed by the attending physician[,] **who performed or induced the abortion** and submitted to the [~~state~~] department [~~of health and senior services~~] within forty-five days from the date of the abortion. All complication reports shall be signed by the physician providing the post-abortion care and submitted to the department [~~of health and senior services~~] within forty-five days from the date of the post-abortion care.

4. A copy of the abortion report shall be made a part of the medical record of the patient of the **abortion** facility or hospital in which the abortion was performed **or induced**.

5. The [~~state~~] department [~~of health and senior services~~] shall be responsible for collecting all abortion reports and complication reports and collating and evaluating all data gathered therefrom and shall annually publish a statistical report based on such data from abortions performed **or induced** in the previous calendar year.

188.056. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eight weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.057, 188.058, or 188.375 if prosecution under such sections would violate the provisions of

Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.057. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at fourteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.058, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words

of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.058. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eighteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this section shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.057, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.375. 1. This section shall be known and may be cited as the "Late-Term Pain-Capable Unborn Child Protection Act".

2. As used in this section, the phrase "late-term pain-capable unborn child" shall mean an unborn child at twenty weeks gestational age or later.

3. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman carrying a late-term pain-capable unborn child, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of a late-term pain-capable unborn child in violation of this subsection shall be

guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

4. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 3 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

5. Prosecution under subsection 3 of this section shall bar prosecution under sections 188.056, 188.057, or 188.058 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

6. When in cases of medical emergency a physician performs or induces an abortion upon a woman in her third trimester carrying a late-term pain-capable unborn child, the physician shall utilize the available method or technique of abortion most likely to preserve the life or health of the unborn child. In cases where the method or technique of abortion most likely to preserve the life or health of the unborn child would present a greater risk to the life or health of the woman than another legally permitted and available method or technique, the physician may utilize such other method or technique. In all cases where the physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, the physician shall certify in writing the available method or techniques considered and the reasons for choosing the method or technique employed.

7. When in cases of medical emergency a physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, there shall be in attendance a physician other than the physician performing or inducing the abortion who shall take control of and provide immediate medical care for a child born as a result of the abortion.

8. Any physician who knowingly violates any of the provisions of subsections 6 or 7 of this section shall be guilty of a class D felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of subsections 6 or 7 of this section shall not be prosecuted for a conspiracy to violate the provisions of those subsections.

9. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of

gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

Section B. The enactment of section 188.017 of this act shall only become effective upon notification to the revisor of statutes by an opinion by the attorney general of Missouri, a proclamation by the governor of Missouri, or the adoption of a concurrent resolution by the Missouri general assembly that:

(1) The United States Supreme Court has overruled, in whole or in part, *Roe v. Wade*, 410 U.S. 113 (1973), restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017, and that as a result, it is reasonably probable that section 188.017 of this act would be upheld by the court as constitutional;

(2) An amendment to the Constitution of the United States has been adopted that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017; or

(3) The United States Congress has enacted a law that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017.

Section C. Because of the need to protect the health and safety of women and their children, both unborn and born, the repeal and reenactment of section 188.028 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the repeal and reenactment of section 188.028 of this act shall be in full force and effect upon its passage and approval.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sara Baker regarding a proposed referendum petition for Senate Substitute for Senate Committee Substitute for House Bill 126 (2020-R001)

Dear Auditor Galloway:

Enclosed please find a referendum petition sample sheet for Senate Substitute for Senate Committee Substitute for House Bill 126 filed by Sara Baker on May 28, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

FIRST REGULAR SESSION

[TRULY AGREED TO AND FINALLY PASSED]

SENATE SUBSTITUTE FOR

SENATE COMMITTEE SUBSTITUTE FOR

HOUSE BILL NO. 126

100TH GENERAL ASSEMBLY

0461S.18T 2019

AN ACT

To repeal sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, and to enact in lieu thereof seventeen new sections relating to abortion, with penalty provisions, a contingent effective date for a certain section, and an emergency clause for a certain section.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Sections 135.630, 188.010, 188.015, 188.027, 188.028, 188.043, and 188.052, RSMo, are repealed and seventeen new sections enacted in lieu thereof, to be known as sections 135.630, 188.010, 188.015, 188.017, 188.018, 188.026, 188.027, 188.028, 188.033, 188.038, 188.043, 188.044, 188.052, 188.056, 188.057, 188.058, and 188.375, to read as follows:

135.630. 1. As used in this section, the following terms mean:

(1) "Contribution", a donation of cash, stock, bonds, or other marketable securities, or real property;

(2) "Director", the director of the department of social services;

(3) "Pregnancy resource center", a nonresidential facility located in this state:

(a) Established and operating primarily to provide assistance to women **and families** with crisis pregnancies or unplanned pregnancies by offering pregnancy testing, counseling, emotional and material support, and other similar services **or by offering services as described**

EXPLANATION — Matter enclosed in bold-faced brackets **[**thus**]** in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

under subsection 2 of section 188.325, to encourage and assist such women **and families** in carrying their pregnancies to term; and

(b) Where childbirths are not performed; and

(c) Which does not perform, induce, or refer for abortions and which does not hold itself out as performing, inducing, or referring for abortions; and

(d) Which provides direct client services at the facility, as opposed to merely providing counseling or referral services by telephone; and

(e) Which provides its services at no cost to its clients; and

(f) When providing medical services, such medical services must be performed in accordance with Missouri statute; and

(g) Which is exempt from income taxation pursuant to the Internal Revenue Code of 1986, as amended;

(4) "State tax liability", in the case of a business taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapters 143, 147, 148, and 153, excluding sections 143.191 to 143.265 and related provisions, and in the case of an individual taxpayer, any liability incurred by such taxpayer pursuant to the provisions of chapter 143, excluding sections 143.191 to 143.265 and related provisions;

(5) "Taxpayer", a person, firm, a partner in a firm, corporation, or a shareholder in an S corporation doing business in the state of Missouri and subject to the state income tax imposed by the provisions of chapter 143, or a corporation subject to the annual corporation franchise tax imposed by the provisions of chapter 147, or an insurance company paying an annual tax on its gross premium receipts in this state, or other financial institution paying taxes to the state of Missouri or any political subdivision of this state pursuant to the provisions of chapter 148, or an express company which pays an annual tax on its gross receipts in this state pursuant to chapter 153, or an individual subject to the state income tax imposed by the provisions of chapter 143, or any charitable organization which is exempt from federal income tax and whose Missouri unrelated business taxable income, if any, would be subject to the state income tax imposed under chapter 143.

2. (1) Beginning on March 29, 2013, any contribution to a pregnancy resource center made on or after January 1, 2013, shall be eligible for tax credits as provided by this section.

(2) For all tax years beginning on or after January 1, 2007, **and ending on or before December 31, 2020,** a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to fifty percent of the amount such taxpayer contributed to a pregnancy resource center. **For all tax years beginning on or after January 1, 2021, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in**

an amount equal to seventy percent of the amount such taxpayer contributed to a pregnancy resource center.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per tax year. However, any tax credit that cannot be claimed in the tax year the contribution was made may be carried over only to the next succeeding tax year. No tax credit issued under this section shall be assigned, transferred, or sold.

4. Except for any excess credit which is carried over pursuant to subsection 3 of this section, a taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution or contributions to a pregnancy resource center or centers in such taxpayer's tax year has a value of at least one hundred dollars.

5. The director shall determine, at least annually, which facilities in this state may be classified as pregnancy resource centers. The director may require of a facility seeking to be classified as a pregnancy resource center whatever information which is reasonably necessary to make such a determination. The director shall classify a facility as a pregnancy resource center if such facility meets the definition set forth in subsection 1 of this section.

6. The director shall establish a procedure by which a taxpayer can determine if a facility has been classified as a pregnancy resource center. Pregnancy resource centers shall be permitted to decline a contribution from a taxpayer. The cumulative amount of tax credits which may be claimed by all the taxpayers contributing to pregnancy resource centers in any one fiscal year shall not exceed two million dollars for all fiscal years ending on or before June 30, 2014, and two million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2014, and ending on or before June 30, 2019, and three million five hundred thousand dollars for all fiscal years beginning on or after July 1, 2019, **and ending on or before June 30, 2021. For all fiscal years beginning on or after July 1, 2021, there shall be no limit imposed on the cumulative amount of tax credits that may be claimed by all taxpayers contributing to pregnancy resource centers under the provisions of this section**. Tax credits shall be issued in the order contributions are received. If the amount of tax credits redeemed in a fiscal year is less than the cumulative amount authorized under this subsection, the difference shall be carried over to a subsequent fiscal year or years and shall be added to the cumulative amount of tax credits that may be authorized in that fiscal year or years.

7. **For all fiscal years ending on or before June 30, 2021,** the director shall establish a procedure by which, from the beginning of the fiscal year until some point in time later in the fiscal year to be determined by the director, the cumulative amount of tax credits are equally apportioned among all facilities classified as pregnancy resource centers. If a pregnancy resource

center fails to use all, or some percentage to be determined by the director, of its apportioned tax credits during this predetermined period of time, the director may reapportion these unused tax credits to those pregnancy resource centers that have used all, or some percentage to be determined by the director, of their apportioned tax credits during this predetermined period of time. The director may establish more than one period of time and reapportion more than once during each fiscal year. To the maximum extent possible, the director shall establish the procedure described in this subsection in such a manner as to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

8. Each pregnancy resource center shall provide information to the director concerning the identity of each taxpayer making a contribution to the pregnancy resource center who is claiming a tax credit pursuant to this section and the amount of the contribution. The director shall provide the information to the director of revenue. The director shall be subject to the confidentiality and penalty provisions of section 32.057 relating to the disclosure of tax information.

9. [~~Under section 23.253 of the Missouri sunset act:~~

~~(1) The provisions of the program authorized under this section shall automatically sunset on December thirty-first six years after August 28, 2018, unless reauthorized by an act of the general assembly;~~

~~(2) If such program is reauthorized, the program authorized under this section shall automatically sunset on December thirty-first six years after the effective date of the reauthorization of this section;~~

~~(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which a program authorized under this section is sunset; and~~

~~(4) The provisions of this subsection shall not be construed to limit or in any way impair the department's ability to issue tax credits authorized on or before the date the program authorized under this section expires or a taxpayer's ability to redeem such tax credits.~~] **The provisions of section 23.253 shall not apply to this section.**

188.010. **In recognition that Almighty God is the author of life, that all men and women are "endowed by their Creator with certain unalienable Rights, that among these are Life", and that article I, section 2 of the Constitution of Missouri provides that all persons have a natural right to life,** it is the intention of the general assembly of the state of Missouri to [grant]:

(1) Defend the right to life [to] **of** all humans, born and unborn[~~, and to~~];

(2) Declare that the state and all of its political subdivisions are a "sanctuary of life" that protects pregnant women and their unborn children; and

(3) Regulate abortion to the full extent permitted by the Constitution of the United States, decisions of the United States Supreme Court, and federal statutes.

188.015. As used in this chapter, the following terms mean:

(1) "Abortion":

(a) The act of using or prescribing any instrument, device, medicine, drug, or any other means or substance with the intent to destroy the life of an embryo or fetus in his or her mother's womb; or

(b) The intentional termination of the pregnancy of a mother by using or prescribing any instrument, device, medicine, drug, or other means or substance with an intention other than to increase the probability of a live birth or to remove a dead [~~or dying~~] unborn child;

(2) "Abortion facility", a clinic, physician's office, or any other place or facility in which abortions are performed or induced other than a hospital;

(3) "Conception", the fertilization of the ovum of a female by a sperm of a male;

(4) "Department", the department of health and senior services;

(5) **"Down Syndrome", the same meaning as defined in section 191.923;**

(6) "Gestational age", length of pregnancy as measured from the first day of the woman's last menstrual period;

[~~(6)~~] **(7)** "Medical emergency", a condition which, based on reasonable medical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which a delay will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman;

[~~(7)~~] **(8)** "Physician", any person licensed to practice medicine in this state by the state board of registration for the healing arts;

[~~(8)~~] **(9)** "Reasonable medical judgment", a medical judgment that would be made by a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved;

[~~(9)~~] **(10)** "Unborn child", the offspring of human beings from the moment of conception until birth and at every stage of its biological development, including the human conceptus, zygote, morula, blastocyst, embryo, and fetus;

[~~(10)~~] **(11)** "Viability" or "viable", that stage of fetal development when the life of the unborn child may be continued indefinitely outside the womb by natural or artificial life-supportive systems;

(12) "Viable pregnancy" or "viable intrauterine pregnancy", in the first trimester of pregnancy, an intrauterine pregnancy that can potentially result in a liveborn baby.

188.017. 1. This section shall be known and may be cited as the "Right to Life of the Unborn Child Act".

2. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

3. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 2 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

188.018. If any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of this chapter shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed each provision, section, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, sections, subsections, sentences, clauses, phrases, or words of this chapter, or the application of this chapter to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.026. 1. This section and sections 188.056, 188.057, and 188.058 shall be known and may be cited as the "Missouri Stands for the Unborn Act".

2. In Roe v. Wade, 410 U.S. 113 (1973), certain information about the development of the unborn child, human pregnancy, and the effects of abortion was either not part of the record or was not available at the time. Since 1973, advances in medical and scientific technology have greatly expanded our knowledge of prenatal life and the effects of abortion on women. The general assembly of this state finds:

(1) At conception, a new genetically distinct human being is formed;

(2) The fact that the life of an individual human being begins at conception has long been recognized in Missouri law: "[T]he child is, in truth, alive from the moment of conception". State v. Emerich, 13 Mo. App. 492, 495 (1883), affirmed, 87 Mo. 110 (1885). Under section 1.205, the general assembly has recognized that the life of each human being

begins at conception and that unborn children have protectable interests in life, health, and well-being;

(3) The first prohibition of abortion in Missouri was enacted in 1825. Since then, the repeal and reenactment of prohibitions of abortion have made distinctions with respect to penalties for performing or inducing abortion on the basis of "quickening"; however, the unborn child was still protected from conception onward;

(4) In ruling that Missouri's prohibition on abortion was constitutional in 1972, the Missouri supreme court accepted as a stipulation of the parties that "'[i]nfant Doe, Intervenor Defendant in this case, and all other unborn children have all the qualities and attributes of adult human persons differing only in age or maturity. Medically, human life is a continuum from conception to death.'" Rodgers v. Danforth, 486 S.W.2d 258, 259 (1972);

(5) In Webster v. Reproductive Health Services, 492 U.S. 490 (1989), the Supreme Court, while considering the "preamble" that set forth "findings" in section 1.205, stated: "We think the extent to which the preamble's language might be used to interpret other state statutes or regulations is something that only the courts of Missouri can definitively decide. State law has offered protections to unborn children in tort and probate law". Id. at 506. Since *Webster*, Missouri courts have construed section 1.205 and have consistently found that an unborn child is a person for purposes of Missouri's homicide and assault laws when the unborn child's mother was killed or assaulted by another person. Section 1.205 has even been found applicable to the manslaughter of an unborn child who was eight weeks gestational age or earlier. State v. Harrison, 390 S.W.3d 927 (Mo. Ct. App. 2013);

(6) In medicine, a special emphasis is placed on the heartbeat. The heartbeat is a discernible sign of life at every stage of human existence. During the fifth week of gestational age, an unborn child's heart begins to beat and blood flow begins during the sixth week;

(7) Depending on the ultrasound equipment being used, the unborn child's heartbeat can be visually detected as early as six to eight weeks gestational age. By about twelve weeks gestational age, the unborn child's heartbeat can consistently be made audible through the use of a handheld Doppler fetal heart rate device;

(8) Confirmation of a pregnancy can be indicated through the detection of the unborn child's heartbeat, while the absence of a heartbeat can be an indicator of the death of the unborn child if the child has reached the point of development when a heartbeat should be detectable;

(9) Heart rate monitoring during pregnancy and labor is utilized to measure the heart rate and rhythm of the unborn child, at an average rate between one hundred ten and one hundred sixty beats per minute, and helps determine the health of the unborn child;

(10) The Supreme Court in *Roe* discussed "the difficult question of when life begins" and wrote: "[p]hysicians and their scientific colleagues have regarded [quickening] with less interest and have tended to focus either upon conception, upon live birth, or upon the interim point at which the fetus becomes 'viable', that is, potentially able to live outside the mother's womb, albeit with artificial aid". *Roe*, 410 U.S. at 160. Today, however, physicians' and scientists' interests on life in the womb also focus on other markers of development in the unborn child, including, but not limited to, presence of a heartbeat, brain development, a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy, and the ability to experience pain;

(11) In Planned Parenthood of Central Missouri v. Danforth, 428 U.S. 52 (1976), the Supreme Court noted that "we recognized in *Roe* that viability was a matter of medical judgment, skill, and technical ability, and we preserved the flexibility of the term". Id. at 64. Due to advances in medical technology and diagnoses, present-day physicians and scientists now describe the viability of an unborn child in an additional manner, by determining whether there is a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy;

(12) While the overall risk of miscarriage after clinical recognition of pregnancy is twelve to fifteen percent, the incidence decreases significantly if cardiac activity in the unborn child has been confirmed. The detection of a heartbeat in an unborn child is a reliable indicator of a viable pregnancy and that the unborn child will likely survive to birth, especially if presenting for a prenatal visit at eight weeks gestational age or later. For asymptomatic women attending a first prenatal visit between six and eleven weeks gestational age where a heartbeat was confirmed through an ultrasound, the subsequent risk of miscarriage is one and six-tenths percent. Although the risk is higher at six weeks gestational age at nine and four-tenths percent, it declines rapidly to one and five-tenths percent at eight weeks gestational age, and less than one percent at nine weeks gestational age or later;

(13) The presence of a heartbeat in an unborn child represents a more definable point of ascertaining survivability than the ambiguous concept of viability that has been adopted by the Supreme Court, especially since if a heartbeat is detected at eight weeks gestational age or later in a normal pregnancy, there is likely to be a viable pregnancy and there is a high probability that the unborn child will survive to birth;

(14) The placenta begins developing during the early first trimester of pregnancy and performs a respiratory function by making oxygen supply to and carbon dioxide removal from the unborn child possible later in the first trimester and throughout the second and third trimesters of pregnancy;

(15) By the fifth week of gestation, the development of the brain of the unborn child is underway. Brain waves have been measured and recorded as early as the eighth week of gestational age in children who were removed during an ectopic pregnancy or hysterectomy. Fetal magnetic resonance imaging (MRI) of an unborn child's brain is used during the second and third trimesters of pregnancy and brain activity has been observed using MRI;

(16) Missouri law identifies the presence of circulation, respiration, and brain function as indicia of life under section 194.005, as the presence of circulation, respiration, and brain function indicates that such person is not legally dead, but is legally alive;

(17) Unborn children at eight weeks gestational age show spontaneous movements, such as a twitching of the trunk and developing limbs. It has been reported that unborn children at this stage show reflex responses to touch. The perioral area is the first part of the unborn child's body to respond to touch at about eight weeks gestational age and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(18) Peripheral cutaneous sensory receptors, the receptors that feel pain, develop early in the unborn child. They appear in the perioral cutaneous area at around seven to eight weeks gestational age, in the palmar regions at ten to ten and a half weeks gestational age, the abdominal wall at fifteen weeks gestational age, and over all of the unborn child's body at sixteen weeks gestational age;

(19) Substance P, a peptide that functions as a neurotransmitter, especially in the transmission of pain, is present in the dorsal horn of the spinal cord of the unborn child at eight to ten weeks gestational age. Enkephalins, peptides that play a role in neurotransmission and pain modulation, are present in the dorsal horn at twelve to fourteen weeks gestational age;

(20) When intrauterine needling is performed on an unborn child at sixteen weeks gestational age or later, the reaction to this invasive stimulus is blood flow redistribution to the brain. Increased blood flow to the brain is the same type of stress response seen in a born child and an adult;

(21) By sixteen weeks gestational age, pain transmission from a peripheral receptor to the cortex is possible in the unborn child;

(22) Physicians provide anesthesia during in utero treatment of unborn children as early as sixteen weeks gestational age for certain procedures, including those to correct

fetal urinary tract obstruction. Anesthesia is administered by ultrasound-guided injection into the arm or leg of the unborn child;

(23) A leading textbook on prenatal development of the human brain states, "It may be concluded that, although nociperception (the actual perception of pain) awaits the appearance of consciousness, nociception (the experience of pain) is present some time before birth. In the absence of disproof, it is merely prudent to assume that pain can be experienced even early in prenatal life (Dr. J. Wisser, Zürich): the fetus should be given the benefit of the doubt". Ronan O'Rahilly & Fabiola Müller. The Embryonic Human Brain: An Atlas of Developmental Stages (3d ed. 2005);

(24) By fourteen or fifteen weeks gestational age or later, the predominant abortion method in Missouri is dilation and evacuation (D & E). The D & E abortion method includes the dismemberment, disarticulation, and exsanguination of the unborn child, causing the unborn child's death;

(25) The Supreme Court acknowledged in Gonzales v. Carhart, 550 U.S. 124, 160 (2007), that "the standard D & E is in some respects as brutal, if not more, than the intact D & E" partial birth abortion method banned by Congress and upheld as facially constitutional by the Supreme Court, even though the federal ban was applicable both before and after viability and had no exception for the health of the mother;

(26) Missouri's ban on the partial birth abortion method, section 565.300, is in effect because of Gonzales v. Carhart and the Supreme Court's subsequent decision in Nixon v. Reproductive Health Services of Planned Parenthood of the St. Louis Region, Inc., 550 U.S. 901 (2007), to vacate and remand to the appellate court the prior invalidation of section 565.300. Since section 565.300, like Congress' ban on partial birth abortion, is applicable both before and after viability, there is ample precedent for the general assembly to constitutionally prohibit the brutal D & E abortion method at fourteen weeks gestational age or later, even before the unborn child is viable, with a medical emergency exception;

(27) In Roper v. Simmons, 543 U.S. 551 (2005), the Supreme Court determined that "evolving standards of decency" dictated that a Missouri statute allowing the death penalty for a conviction of murder in the first degree for a person under eighteen years of age when the crime was committed was unconstitutional under the Eighth and Fourteenth Amendments to the United States Constitution because it violated the prohibition against "cruel and unusual punishments";

(28) In Bucklew v. Precythe, 139 S. Ct. 1112, 1123 (2019), the Supreme Court noted that "'[d]isgusting' practices" like disemboweling and quartering "readily qualified as

'cruel and unusual', as a reader at the time of the Eighth Amendment's adoption would have understood those words";

(29) Evolving standards of decency dictate that Missouri should prohibit the brutal and painful D & E abortion method at fourteen weeks gestational age or later, with a medical emergency exception, because if a comparable method of killing was used on:

(a) A person convicted of murder in the first degree, it would be cruel and unusual punishment; or

(b) An animal, it would be unlawful under state law because it would not be a humane method, humane euthanasia, or humane killing of certain animals under chapters 273 and 578;

(30) In *Roper*, the Supreme Court also found that "[i]t is proper that we acknowledge the overwhelming weight of international opinion against the juvenile death penalty.... The opinion of the world community, while not controlling our outcome, does provide respected and significant confirmation for our own conclusions". *Roper*, 543 U.S. at 578. In its opinion, the Supreme Court was instructed by "international covenants prohibiting the juvenile death penalty", such as the International Covenant on Civil and Political Rights, 999 U.N.T.S. 171. Id. at 577;

(31) The opinion of the world community, reflected in the laws of the United Nation's 193-member states and six other entities, is that in most countries, most abortions are prohibited after twelve weeks gestational age or later;

(32) The opinion of the world community is also shared by most Americans, who believe that most abortions in the second and third trimesters of pregnancy should be illegal, based on polling that has remained consistent since 1996;

(33) Abortion procedures performed later in pregnancy have a higher medical risk for women. Compared to an abortion at eight weeks gestational age or earlier, the relative risk increases exponentially at later gestational ages. The relative risk of death for a pregnant woman who had an abortion performed or induced upon her at:

(a) Eleven to twelve weeks gestational age is between three and four times higher than an abortion at eight weeks gestational age or earlier;

(b) Thirteen to fifteen weeks gestational age is almost fifteen times higher than an abortion at eight weeks gestational age or earlier;

(c) Sixteen to twenty weeks gestational age is almost thirty times higher than an abortion at eight weeks gestational age or earlier; and

(d) Twenty-one weeks gestational age or later is more than seventy-five times higher than an abortion at eight weeks gestational age or earlier;

(34) In addition to the short-term risks of an abortion, studies have found that the long-term physical and psychological consequences of abortion for women include, but are not limited to, an increased risk of preterm birth, low birthweight babies, and placenta previa in subsequent pregnancies, as well as serious behavioral health issues. These risks increase as abortions are performed or induced at later gestational ages. These consequences of an abortion have a detrimental effect not only on women, their children, and their families, but also on an already burdened health care system, taxpayers, and the workforce;

(35) A large percentage of women who have an abortion performed or induced upon them in Missouri each year are at less than eight weeks gestational age, a large majority are at less than fourteen weeks gestational age, a larger majority are at less than eighteen weeks gestational age, and an even larger majority are at less than twenty weeks gestational age. A prohibition on performing or inducing an abortion at eight weeks gestational age or later, with a medical emergency exception, does not amount to a substantial obstacle to a large fraction of women for whom the prohibition is relevant, which is pregnant women in Missouri who are seeking an abortion while not experiencing a medical emergency. The burden that a prohibition on performing or inducing an abortion at eight, fourteen, eighteen, or twenty weeks gestational age or later, with a medical emergency exception, might impose on abortion access, is outweighed by the benefits conferred upon the following:

(a) Women more advanced in pregnancy who are at greater risk of harm from abortion;

(b) Unborn children at later stages of development;

(c) The medical profession, by preserving its integrity and fulfilling its commitment to do no harm; and

(d) Society, by fostering respect for human life, born and unborn, at all stages of development, and by lessening societal tolerance of violence against innocent human life;

(36) In *Webster*, the Supreme Court noted, in upholding a Missouri statute, "that there may be a 4-week error in estimating gestational age". *Webster*, 492 U.S. at 516. Thus, an unborn child thought to be eight weeks gestational age might in fact be twelve weeks gestational age, when an abortion poses a greater risk to the woman and the unborn child is considerably more developed. An unborn child at fourteen weeks gestational age might be eighteen weeks gestational age and an unborn child at eighteen weeks gestational age might be twenty-two weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, and the risk of pain experienced by the unborn child is

greater. An unborn child at twenty weeks gestational age might be twenty-four weeks gestational age, when an abortion poses a greater risk to the woman, the unborn child is considerably more developed, the abortion method likely to be employed is more brutal, the risk of pain experienced by the unborn child is greater, and the unborn child may be viable.

3. The state of Missouri is bound by Article VI, Clause 2 of the Constitution of the United States that "all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land". One such treaty is the International Covenant on Civil and Political Rights, entered into force on March 23, 1976, and adopted by the United States on September 8, 1992. In ratifying the Covenant, the United States declared that while the provisions of Articles 1 through 27 of the Covenant are not self-executing, the United States' understanding is that state governments share responsibility with the federal government in implementing the Covenant.

4. Article 6, Paragraph 1, U.N.T.S. at 174, of the International Covenant on Civil and Political Rights states, "Every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily deprived of his life". The state of Missouri takes seriously its obligation to comply with the Covenant and to implement this paragraph as it relates to the inherent right to life of unborn human beings, protecting the rights of unborn human beings by law, and ensuring that such unborn human beings are not arbitrarily deprived of life. The state of Missouri hereby implements Article 6, Paragraph 1 of the Covenant by the regulation of abortion in this state.

5. The state of Missouri has interests that include, but are not limited to:

(1) Protecting unborn children throughout pregnancy and preserving and promoting their lives from conception to birth;

(2) Encouraging childbirth over abortion;

(3) Ensuring respect for all human life from conception to natural death;

(4) Safeguarding an unborn child from the serious harm of pain by an abortion method that would cause the unborn child to experience pain while she or he is being killed;

(5) Preserving the integrity of the medical profession and regulating and restricting practices that might cause the medical profession or society as a whole to become insensitive, even disdainful, to life. This includes regulating and restricting abortion methods that are not only brutal and painful, but if allowed to continue, will further coarsen society to the humanity of not only unborn children, but all vulnerable and innocent human life, making it increasingly difficult to protect such life;

(6) Ending the incongruities in state law by permitting some unborn children to be killed by abortion, while requiring that unborn children be protected in non-abortion circumstances through, including, but not limited to, homicide, assault, self-defense, and defense of another statutes; laws guaranteeing prenatal health care, emergency care, and testing; state-sponsored health insurance for unborn children; the prohibition of restraints in correctional institutions to protect pregnant offenders and their unborn children; and protecting the interests of unborn children by the appointment of conservators, guardians, and representatives;

(7) Reducing the risks of harm to pregnant women who obtain abortions later in pregnancy; and

(8) Avoiding burdens on the health care system, taxpayers, and the workforce because of increased preterm births, low birthweight babies, compromised pregnancies, extended postpartum recoveries, and behavioral health problems caused by the long-term effects of abortions performed or induced later in the pregnancy.

188.027. 1. Except in [the case] cases of medical emergency, no abortion shall be performed or induced on a woman without her voluntary and informed consent, given freely and without coercion. Consent to an abortion is voluntary and informed and given freely and without coercion if, and only if, at least seventy-two hours prior to the abortion:

(1) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has informed the woman orally, reduced to writing, and in person, of the following:

(a) The name of the physician who will perform or induce the abortion;

(b) Medically accurate information that a reasonable patient would consider material to the decision of whether or not to undergo the abortion, including:

a. A description of the proposed abortion method;

b. The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

c. The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical condition;

(c) Alternatives to the abortion which shall include making the woman aware that information and materials shall be provided to her detailing such alternatives to the abortion;

(d) A statement that the physician performing or inducing the abortion is available for any questions concerning the abortion, together with the telephone number that the physician may be later reached to answer any questions that the woman may have;

(e) The location of the hospital that offers obstetrical or gynecological care located within thirty miles of the location where the abortion is performed or induced and at which the physician performing or inducing the abortion has clinical privileges and where the woman may receive follow-up care by the physician if complications arise;

(f) The gestational age of the unborn child at the time the abortion is to be performed or induced; and

(g) The anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed or induced;

(2) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from conception to full term, including color photographs or images of the developing unborn child at two-week gestational increments. Such descriptions shall include information about brain and heart functions, the presence of external members and internal organs during the applicable stages of development and information on when the unborn child is viable. The printed materials shall prominently display the following statement: "The life of each human being begins at conception. Abortion will terminate the life of a separate, unique, living human being.";

(3) The physician who is to perform or induce the abortion, a qualified professional, or the referring physician has presented the woman, in person, printed materials provided by the department, which describe the various surgical and drug-induced methods of abortion relevant to the stage of pregnancy, as well as the immediate and long-term medical risks commonly associated with each abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and the possible adverse psychological effects associated with an abortion;

(4) The physician who is to perform or induce the abortion or a qualified professional shall provide the woman with the opportunity to view at least seventy-two hours prior to the abortion an active ultrasound of the unborn child and hear the heartbeat of the unborn child if the heartbeat is audible. The woman shall be provided with a geographically indexed list maintained by the department of health care providers, facilities, and clinics that perform ultrasounds, including those that offer ultrasound services free of charge. Such materials shall provide contact information for each provider, facility, or clinic including telephone numbers

and, if available, website addresses. Should the woman decide to obtain an ultrasound from a provider, facility, or clinic other than the abortion facility, the woman shall be offered a reasonable time to obtain the ultrasound examination before the date and time set for performing or inducing an abortion. The person conducting the ultrasound shall ensure that the active ultrasound image is of a quality consistent with standard medical practice in the community, contains the dimensions of the unborn child, and accurately portrays the presence of external members and internal organs, if present or viewable, of the unborn child. The auscultation of fetal heart tone must also be of a quality consistent with standard medical practice in the community. If the woman chooses to view the ultrasound or hear the heartbeat or both at the abortion facility, the viewing or hearing or both shall be provided to her at the abortion facility at least seventy-two hours prior to the abortion being performed or induced;

(5) [~~Prior to an abortion being performed or induced on an unborn child of twenty-two weeks gestational age or older, the physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department that offer information on the possibility of the abortion causing pain to the unborn child. This information shall include, but need not be limited to, the following:~~

~~(a) At least by twenty-two weeks of gestational age, the unborn child possesses all the anatomical structures, including pain receptors, spinal cord, nerve tracts, thalamus, and cortex, that are necessary in order to feel pain;~~

~~(b) A description of the actual steps in the abortion procedure to be performed or induced, and at which steps the abortion procedure could be painful to the unborn child;~~

~~(c) There is evidence that by twenty-two weeks of gestational age, unborn children seek to evade certain stimuli in a manner that in an infant or an adult would be interpreted as a response to pain;~~

~~(d) Anesthesia is given to unborn children who are twenty-two weeks or more gestational age who undergo prenatal surgery;~~

~~(e) Anesthesia is given to premature children who are twenty-two weeks or more gestational age who undergo surgery;~~

~~(f) Anesthesia or an analgesic is available in order to minimize or alleviate the pain to the unborn child~~] **The printed materials provided by the department shall include information on the possibility of an abortion causing pain in the unborn child. This information shall include, but need not be limited to, the following:**

(a) Unborn children as early as eight weeks gestational age start to show spontaneous movements and unborn children at this stage in pregnancy show reflex responses to touch;

(b) In the unborn child, the area around his or her mouth and lips is the first part of the unborn child's body to respond to touch and by fourteen weeks gestational age most of the unborn child's body is responsive to touch;

(c) Pain receptors on the unborn child's skin develop around his or her mouth at around seven to eight weeks gestational age, around the palms of his or her hands at ten to ten and a half weeks, on the abdominal wall at fifteen weeks, and over all of his or her body at sixteen weeks gestational age;

(d) Beginning at sixteen weeks gestational age and later, it is possible for pain to be transmitted from receptors to the cortex of the unborn child's brain, where thinking and perceiving occur;

(e) When a physician performs a life-saving surgery, he or she provides anesthesia to unborn children as young as sixteen weeks gestational age in order to alleviate the unborn child's pain; and

(f) A description of the actual steps in the abortion procedure to be performed or induced and at which steps the abortion procedure could be painful to the unborn child;

(6) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining to the woman alternatives to abortion she may wish to consider. Such materials shall:

(a) Identify on a geographical basis public and private agencies available to assist a woman in carrying her unborn child to term, and to assist her in caring for her dependent child or placing her child for adoption, including agencies commonly known and generally referred to as pregnancy resource centers, crisis pregnancy centers, maternity homes, and adoption agencies. Such materials shall provide a comprehensive list by geographical area of the agencies, a description of the services they offer, and the telephone numbers and addresses of the agencies; provided that such materials shall not include any programs, services, organizations, or affiliates of organizations that perform or induce, or assist in the performing or inducing of, abortions or that refer for abortions;

(b) Explain the Missouri alternatives to abortion services program under section 188.325, and any other programs and services available to pregnant women and mothers of newborn children offered by public or private agencies which assist a woman in carrying her unborn child to term and assist her in caring for her dependent child or placing her child for adoption, including but not limited to prenatal care; maternal health care; newborn or infant care; mental health services; professional counseling services; housing programs; utility assistance; transportation services; food, clothing, and supplies related to pregnancy; parenting skills; educational programs; job training and placement services; drug and alcohol testing and treatment; and adoption assistance;

(c) Identify the state website for the Missouri alternatives to abortion services program under section 188.325, and any toll-free number established by the state operated in conjunction with the program;

(d) Prominently display the statement: "There are public and private agencies willing and able to help you carry your child to term, and to assist you and your child after your child is born, whether you choose to keep your child or place him or her for adoption. The state of Missouri encourages you to contact those agencies before making a final decision about abortion. State law requires that your physician or a qualified professional give you the opportunity to call agencies like these before you undergo an abortion.";

(7) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining that the father of the unborn child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion. Such materials shall include information on the legal duties and support obligations of the father of a child, including, but not limited to, child support payments, and the fact that paternity may be established by the father's name on a birth certificate or statement of paternity, or by court action. Such printed materials shall also state that more information concerning paternity establishment and child support services and enforcement may be obtained by calling the family support division within the Missouri department of social services; and

(8) The physician who is to perform or induce the abortion or a qualified professional shall inform the woman that she is free to withhold or withdraw her consent to the abortion at any time without affecting her right to future care or treatment and without the loss of any state or federally funded benefits to which she might otherwise be entitled.

2. All information required to be provided to a woman considering abortion by subsection 1 of this section shall be presented to the woman individually, in the physical presence of the woman and in a private room, to protect her privacy, to maintain the confidentiality of her decision, to ensure that the information focuses on her individual circumstances, to ensure she has an adequate opportunity to ask questions, and to ensure that she is not a victim of coerced abortion. Should a woman be unable to read materials provided to her, they shall be read to her. Should a woman need an interpreter to understand the information presented in the written materials, an interpreter shall be provided to her. Should a woman ask questions concerning any of the information or materials, answers shall be provided in a language she can understand.

3. No abortion shall be performed or induced unless and until the woman upon whom the abortion is to be performed or induced certifies in writing on a checklist form provided by the department that she has been presented all the information required in subsection 1 of this

section, that she has been provided the opportunity to view an active ultrasound image of the unborn child and hear the heartbeat of the unborn child if it is audible, and that she further certifies that she gives her voluntary and informed consent, freely and without coercion, to the abortion procedure.

4. ~~[No abortion shall be performed or induced on an unborn child of twenty-two weeks gestational age or older unless and until the woman upon whom the abortion is to be performed or induced has been provided the opportunity to choose to have an anesthetic or analgesic administered to eliminate or alleviate pain to the unborn child caused by the particular method of abortion to be performed or induced. The administration of anesthesia or analgesics shall be performed in a manner consistent with standard medical practice in the community.~~

~~5.~~] No physician shall perform or induce an abortion unless and until the physician has obtained from the woman her voluntary and informed consent given freely and without coercion. If the physician has reason to believe that the woman is being coerced into having an abortion, the physician or qualified professional shall inform the woman that services are available for her and shall provide her with private access to a telephone and information about such services, including but not limited to the following:

(1) Rape crisis centers, as defined in section 455.003;

(2) Shelters for victims of domestic violence, as defined in section 455.200; and

(3) Orders of protection, pursuant to chapter 455.

[~~6.~~] **5.** The physician who is to perform or induce the abortion shall, at least seventy-two hours prior to such procedure, inform the woman orally and in person of:

(1) The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

(2) The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical conditions.

[~~7.~~] **6.** No physician shall perform or induce an abortion unless and until the physician has received and signed a copy of the form prescribed in subsection 3 of this section. The physician shall retain a copy of the form in the patient's medical record.

[~~8.~~] **7.** In the event of a medical emergency [~~as provided by section 188.039~~], the physician who performed or induced the abortion shall clearly certify in writing the nature and circumstances of the medical emergency. This certification shall be signed by the physician who performed or induced the abortion, and shall be maintained under section 188.060.

[~~9.~~] **8.** No person or entity shall require, obtain, or accept payment for an abortion from or on behalf of a patient until at least seventy-two hours have passed since the time that the information required by subsection 1 of this section has been provided to the patient. Nothing in this subsection shall prohibit a person or entity from notifying the patient that payment for the abortion will be required after the seventy-two-hour period has expired if she voluntarily chooses to have the abortion.

[~~10.~~] **9.** The term "qualified professional" as used in this section shall refer to a physician, physician assistant, registered nurse, licensed practical nurse, psychologist, licensed professional counselor, or licensed social worker, licensed or registered under chapter 334, 335, or 337, acting under the supervision of the physician performing or inducing the abortion, and acting within the course and scope of his or her authority provided by law. The provisions of this section shall not be construed to in any way expand the authority otherwise provided by law relating to the licensure, registration, or scope of practice of any such qualified professional.

[~~11.~~] **10.** By November 30, 2010, the department shall produce the written materials and forms described in this section. Any written materials produced shall be printed in a typeface large enough to be clearly legible. All information shall be presented in an objective, unbiased manner designed to convey only accurate scientific and medical information. The department shall furnish the written materials and forms at no cost and in sufficient quantity to any person who performs or induces abortions, or to any hospital or facility that provides abortions. The department shall make all information required by subsection 1 of this section available to the public through its department website. The department shall maintain a toll-free, twenty-four-hour hotline telephone number where a caller can obtain information on a regional basis concerning the agencies and services described in subsection 1 of this section. No identifying information regarding persons who use the website shall be collected or maintained. The department shall monitor the website on a regular basis to prevent tampering and correct any operational deficiencies.

[~~12.~~] **11.** In order to preserve the compelling interest of the state to ensure that the choice to consent to an abortion is voluntary and informed, and given freely and without coercion, the department shall use the procedures for adoption of emergency rules under section 536.025 in order to promulgate all necessary rules, forms, and other necessary material to implement this section by November 30, 2010.

[~~13.~~] **12.** If the provisions in subsections 1 and [9] **8** of this section requiring a seventy-two-hour waiting period for an abortion are ever temporarily or permanently restrained or enjoined by judicial order, then the waiting period for an abortion shall be twenty-four hours; provided, however, that if such temporary or permanent restraining order or injunction is stayed

or dissolved, or otherwise ceases to have effect, the waiting period for an abortion shall be seventy-two hours.

188.028. 1. **Except in the case of a medical emergency,** no person shall knowingly perform **or induce** an abortion upon a pregnant woman under the age of eighteen years unless:

(1) The attending physician has secured the informed written consent of the minor and one parent or guardian, **and the consenting parent or guardian of the minor has notified any other custodial parent in writing prior to the securing of the informed written consent of the minor and one parent or guardian. For purposes of this subdivision, "custodial parent" shall only mean a parent of a minor who has been awarded joint legal custody or joint physical custody of such minor by a court of competent jurisdiction. Notice shall not be required for any parent:**

(a) Who has been found guilty of any offense in violation of chapter 565, relating to offenses against the person; chapter 566, relating to sexual offenses; chapter 567, relating to prostitution; chapter 568, relating to offenses against the family; or chapter 573, related to pornography and related offenses, if a child was a victim;

(b) Who has been found guilty of any offense in any other state or foreign country, or under federal, tribal, or military jurisdiction if a child was a victim, which would be a violation of chapters 565, 566, 567, 568, or 573 if committed in this state;

(c) Who is listed on the sexual offender registry under sections 589.400 to 589.425;

(d) Against whom an order of protection has been issued, including a foreign order of protection given full faith and credit in this state under section 455.067;

(e) Whose custodial, parental, or guardianship rights have been terminated by a court of competent jurisdiction; or

(f) Whose whereabouts are unknown after reasonable inquiry, who is a fugitive from justice, who is habitually in an intoxicated or drugged condition, or who has been declared mentally incompetent or incapacitated by a court of competent jurisdiction; [~~or~~]

(2) The minor is emancipated and the attending physician has received the informed written consent of the minor; [~~or~~]

(3) The minor has been granted the right to self-consent to the abortion by court order pursuant to subsection 2 of this section, and the attending physician has received the informed written consent of the minor; or

(4) The minor has been granted consent to the abortion by court order, and the court has given its informed written consent in accordance with subsection 2 of this section, and the minor is having the abortion willingly, in compliance with subsection 3 of this section.

2. The right of a minor to self-consent to an abortion under subdivision (3) of subsection 1 of this section or court consent under subdivision (4) of subsection 1 of this section may be granted by a court pursuant to the following procedures:

(1) The minor or next friend shall make an application to the juvenile court which shall assist the minor or next friend in preparing the petition and notices required pursuant to this section. The minor or the next friend of the minor shall thereafter file a petition setting forth the initials of the minor; the age of the minor; the names and addresses of each parent, guardian, or, if the minor's parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that, if the court does not grant the minor majority rights for the purpose of consent to the abortion, the court should find that the abortion is in the best interest of the minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem of the child; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend;

(2) A hearing on the merits of the petition, to be held on the record, shall be held as soon as possible within five days of the filing of the petition. If any party is unable to afford counsel, the court shall appoint counsel at least twenty-four hours before the time of the hearing. At the hearing, the court shall hear evidence relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interests of the minor;

(3) In the decree, the court shall for good cause:

(a) Grant the petition for majority rights for the purpose of consenting to the abortion; [~~or~~]

(b) Find the abortion to be in the best interests of the minor and give judicial consent to the abortion, setting forth the grounds for so finding; or

(c) Deny the petition, setting forth the grounds on which the petition is denied;

(4) If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights, or the judicial consent, shall bar an action by the parents or guardian of the minor on the grounds of battery of the minor by those performing **or inducing** the abortion. The immunity granted shall only extend to the performance **or induction** of the abortion in accordance herewith and any necessary accompanying services which are performed in a competent manner. The costs of the action shall be borne by the parties;

(5) An appeal from an order issued under the provisions of this section may be taken to the court of appeals of this state by the minor or by a parent or guardian of the minor. The notice of intent to appeal shall be given within twenty-four hours from the date of issuance of the order. The record on appeal shall be completed and the appeal shall be perfected within five days from the filing of notice to appeal. Because time may be of the essence regarding the performance **or induction** of the abortion, the supreme court of this state shall, by court rule, provide for expedited appellate review of cases appealed under this section.

3. If a minor desires an abortion, then she shall be orally informed of and, if possible, sign the written consent required ~~[by section 188.039]~~ **under this chapter** in the same manner as an adult person. No abortion shall be performed **or induced** on any minor against her will, except that an abortion may be performed **or induced** against the will of a minor pursuant to a court order described in subdivision (4) of subsection 1 of this section that the abortion is necessary to preserve the life of the minor.

188.033. Whenever an abortion facility or a family planning agency located in this state, or any of its agents or employees acting within the scope of his or her authority or employment, provides to a woman considering an abortion the name, address, telephone number, or website of an abortion provider that is located outside of the state, such abortion facility or family planning agency or its agents or employees shall also provide to such woman the printed materials produced by the department under section 188.027. If the name, address, telephone number, or website of such abortion provider is not provided to such woman in person, such printed materials shall be offered to her, and if she chooses, sent to such woman at no cost to her the same day or as soon as possible either electronically or by U.S. mail overnight delivery service or by other overnight or same-day delivery service to an address of such woman's choosing. The department shall furnish such printed materials at no cost and in sufficient quantities to abortion facilities and family planning agencies located within the state.

188.038. 1. The general assembly of this state finds that:

(1) Removing vestiges of any past bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is an important task for those in the legal, medical, social services, and human services professions;

(2) Ending any current bias or discrimination against pregnant women, their partners, and their family members, including their unborn children, is a legitimate purpose of government in order to guarantee that those who "are endowed by their Creator with certain unalienable Rights" can enjoy "Life, Liberty and the pursuit of Happiness";

(3) The historical relationship of bias or discrimination by some family planning programs and policies towards poor and minority populations, including, but not limited to, the nonconsensual sterilization of mentally ill, poor, minority, and immigrant women and other coercive family planning programs and policies, must be rejected;

(4) Among Missouri residents, the rate of black or African-American women who undergo abortions is significantly higher, about three and a half times higher, than the rate of white women who undergo abortions. Among Missouri residents, the rate of black or African-American women who undergo repeat abortions is significantly higher, about one and a half times higher, than the rate of white women who undergo repeat abortions;

(5) Performing or inducing an abortion because of the sex of the unborn child is repugnant to the values of equality of females and males and the same opportunities for girls and boys, and furthers a false mindset of female inferiority;

(6) Government has a legitimate interest in preventing the abortion of unborn children with Down Syndrome because it is a form of bias or disability discrimination and victimizes the disabled unborn child at his or her most vulnerable stage. Eliminating unborn children with Down Syndrome raises grave concerns for the lives of those who do live with disabilities. It sends a message of dwindling support for their unique challenges, fosters a false sense that disability is something that could have been avoidable, and is likely to increase the stigma associated with disability.

2. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in an unborn child.

3. No person shall perform or induce an abortion on a woman if the person knows that the woman is seeking the abortion solely because of the sex or race of the unborn child.

4. Any physician or other person who performs or induces or attempts to perform or induce an abortion prohibited by this section shall be subject to all applicable civil penalties under this chapter including, but not limited to, sections 188.065 and 188.085.

188.043. 1. No person shall perform or induce ~~[a surgical or medical]~~ **an** abortion **on another** unless such person has ~~[proof of]~~ medical malpractice insurance with coverage amounts of at least ~~[five hundred thousand dollars]~~ **one million dollars per occurrence and three million dollars in the annual aggregate.**

2. For the purpose of this section, "medical malpractice insurance" means insurance coverage against the legal liability of the insured and against loss, damage, or expense incident to a claim arising out of the death or injury of any person as a result of the negligence or malpractice in rendering professional service by any health care provider.

3. No abortion facility or hospital shall employ or engage the services of a person to perform [~~one or more abortions~~] **or induce an abortion on another** if the person does not have [~~proof of~~] medical malpractice insurance pursuant to this section, except **that** the abortion facility or hospital may provide medical malpractice insurance for the services of persons employed or engaged by such facility or hospital **which is no less than the coverage amounts set forth in this section**.

4. Notwithstanding the provisions of section 334.100, failure of a person to maintain the medical malpractice insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.044. 1. When a drug or chemical, or combination thereof, used by a person to induce an abortion carries a warning from its manufacturer or distributor, a peer-reviewed medical journal article, or a Food and Drug Administration label that its use may cause birth defects, disability, or other injury in a child who survives the abortion, then in addition to the requirements of section 188.043, such person shall also carry tail insurance with coverage amounts of at least one million dollars per occurrence and three million dollars in the annual aggregate for personal injury to or death of a child who survives such abortion. Such policy shall be maintained in force or be in effect for a period of twenty-one years after the person used the drug or chemical, or combination thereof, to induce the abortion.

2. For the purpose of this section, "tail insurance" means insurance which covers the legal liability of the insured once a medical malpractice insurance policy is cancelled, not renewed, or terminated, and covers claims made after such cancellation or termination for acts occurring during the period the prior medical malpractice insurance was in effect.

3. No abortion facility or hospital shall employ or engage the services of a person to induce an abortion on another using any drug or chemical, or combination thereof, which may cause birth defects, disability, or other injury in a child who survives the abortion, if the person does not have tail insurance pursuant to this section, except that the abortion facility or hospital may provide tail insurance for the services of persons employed or engaged by such facility or hospital which is no less than the coverage amounts and duration set forth in this section.

4. Notwithstanding the provisions of section 334.100 to the contrary, failure of a person to maintain the tail insurance required by this section shall be an additional ground for sanctioning of a person's license, certificate, or permit.

188.052. 1. An individual abortion report for each abortion performed or induced upon a woman shall be completed by [~~her attending~~] **the** physician **who performed or induced the abortion. Abortion reports shall include, but not be limited to, a certification that the physician does not have any knowledge that the woman sought the abortion solely because of a prenatal diagnosis, test, or screening indicating Down Syndrome or the potential of Down Syndrome in the unborn child and a certification that the physician does not have any knowledge that the woman sought the abortion solely because of the sex or race of the unborn child.**

2. An individual complication report for any post-abortion care performed upon a woman shall be completed by the physician providing such post-abortion care. This report shall include:

(1) The date of the abortion;

(2) The name and address of the abortion facility or hospital where the abortion was performed **or induced**;

(3) The nature of the abortion complication diagnosed or treated.

3. All abortion reports shall be signed by the attending physician[~~,~~] **who performed or induced the abortion** and submitted to the [state] department [~~of health and senior services~~] within forty-five days from the date of the abortion. All complication reports shall be signed by the physician providing the post-abortion care and submitted to the department [~~of health and senior services~~] within forty-five days from the date of the post-abortion care.

4. A copy of the abortion report shall be made a part of the medical record of the patient of the **abortion** facility or hospital in which the abortion was performed **or induced**.

5. The [state] department [~~of health and senior services~~] shall be responsible for collecting all abortion reports and complication reports and collating and evaluating all data gathered therefrom and shall annually publish a statistical report based on such data from abortions performed **or induced** in the previous calendar year.

188.056. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eight weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.057, 188.058, or 188.375 if prosecution under such sections would violate the provisions of

20-R001

Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.057. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at fourteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.058, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words

of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.058. 1. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman at eighteen weeks gestational age or later, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of an unborn child in violation of this subsection shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this section shall not be prosecuted for a conspiracy to violate the provisions of this section.

2. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 1 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

3. Prosecution under this section shall bar prosecution under sections 188.056, 188.057, or 188.375 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

4. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

188.375. 1. This section shall be known and may be cited as the "Late-Term Pain-Capable Unborn Child Protection Act".

2. As used in this section, the phrase "late-term pain-capable unborn child" shall mean an unborn child at twenty weeks gestational age or later.

3. Notwithstanding any other provision of law to the contrary, no abortion shall be performed or induced upon a woman carrying a late-term pain-capable unborn child, except in cases of medical emergency. Any person who knowingly performs or induces an abortion of a late-term pain-capable unborn child in violation of this subsection shall be

guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of this subsection shall not be prosecuted for a conspiracy to violate the provisions of this subsection.

4. It shall be an affirmative defense for any person alleged to have violated the provisions of subsection 3 of this section that the person performed or induced an abortion because of a medical emergency. The defendant shall have the burden of persuasion that the defense is more probably true than not.

5. Prosecution under subsection 3 of this section shall bar prosecution under sections 188.056, 188.057, or 188.058 if prosecution under such sections would violate the provisions of Amendment V to the Constitution of the United States or article I, section 19 of the Constitution of Missouri.

6. When in cases of medical emergency a physician performs or induces an abortion upon a woman in her third trimester carrying a late-term pain-capable unborn child, the physician shall utilize the available method or technique of abortion most likely to preserve the life or health of the unborn child. In cases where the method or technique of abortion most likely to preserve the life or health of the unborn child would present a greater risk to the life or health of the woman than another legally permitted and available method or technique, the physician may utilize such other method or technique. In all cases where the physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, the physician shall certify in writing the available method or techniques considered and the reasons for choosing the method or technique employed.

7. When in cases of medical emergency a physician performs or induces an abortion upon a woman during her third trimester carrying a late-term pain-capable unborn child, there shall be in attendance a physician other than the physician performing or inducing the abortion who shall take control of and provide immediate medical care for a child born as a result of the abortion.

8. Any physician who knowingly violates any of the provisions of subsections 6 or 7 of this section shall be guilty of a class D felony, as well as subject to suspension or revocation of his or her professional license by his or her professional licensing board. A woman upon whom an abortion is performed or induced in violation of subsections 6 or 7 of this section shall not be prosecuted for a conspiracy to violate the provisions of those subsections.

9. If any one or more provisions, subsections, sentences, clauses, phrases, or words of this section or the application thereof to any person, circumstance, or period of

gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the balance of the section shall remain effective notwithstanding such unenforceability, unconstitutionality, or invalidity. The general assembly hereby declares that it would have passed this section, and each provision, subsection, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provisions, subsections, sentences, clauses, phrases, or words of the section, or the application of the section to any person, circumstance, or period of gestational age, would be declared unenforceable, unconstitutional, or invalid.

Section B. The enactment of section 188.017 of this act shall only become effective upon notification to the revisor of statutes by an opinion by the attorney general of Missouri, a proclamation by the governor of Missouri, or the adoption of a concurrent resolution by the Missouri general assembly that:

(1) The United States Supreme Court has overruled, in whole or in part, *Roe v. Wade*, 410 U.S. 113 (1973), restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017, and that as a result, it is reasonably probable that section 188.017 of this act would be upheld by the court as constitutional;

(2) An amendment to the Constitution of the United States has been adopted that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017; or

(3) The United States Congress has enacted a law that has the effect of restoring or granting to the state of Missouri the authority to regulate abortion to the extent set forth in section 188.017.

Section C. Because of the need to protect the health and safety of women and their children, both unborn and born, the repeal and reenactment of section 188.028 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the repeal and reenactment of section 188.028 of this act shall be in full force and effect upon its passage and approval.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-R001)

Subject

Referendum petition from Sara Baker regarding Senate Substitute for Senate Committee Substitute for House Bill No. 126. (Received May 28, 2019)

Date

June 17, 2019

Description

Voters will approve or reject this statutory change.

The referendum is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **Missouri Life Sciences Research Board.**

Judy Morgan, District 24, Ingrid Burnett, District 19, and Donna Baringer, District 82, members of the Missouri House of Representatives Fiscal Review Committee provided information to the State Auditor's office.

Sarah Nesbitt, Washington University graduate and 240 graduates of Missouri institutions of higher education provided information to the State Auditor's office.

Mark R. Reading and Bret Fischer provided information to the State Auditor's office.

Kip Kendrick, State Representative, District 45, Ranking Member House Budget Committee provided information to the State Auditor's office.

Sarah W. Martin, 11th Ward Alderwoman, Lyda Krewson, Mayor, Annie Rice, 8th Ward Alderwoman, Dan Guenther, 9th Ward Alderman, Larry Arnowitz, 12th Ward Alderman, Cara Spencer, 20th Ward Alderwoman, Bret Narayan, 24th Ward Alderman, Shane Cohn, 25th Ward Alderman, and Heather Navarro, 28th Ward Alderwoman from City of St. Louis provided information to the State Auditor's office.

Assumptions

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated this legislation does not impact their department.

Officials from the **Department of Higher Education** indicated they report no fiscal impact for HB 126 as Truly Agreed and Finally Passed (TAFP).

Officials from the **Department of Health and Senior Services** indicated this referendum has no impact.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated initiative petition 20-R001 does not appear to have a fiscal impact on their department.

Officials from the **Department of Revenue** indicated their department has no impact for this fiscal note.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this referendum petition.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated this referendum petition would have no impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated the referendum petition would put the provisions of HB 126 to a vote of the people in the November 2020 general election.

HB 126 provides that for all tax years beginning on or after January 1, 2021, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to 70% of the amount such taxpayer contributed to a pregnancy resource center, an increase from the 50% previously allowed. The fiscal note for HB 126 estimates that this increase will result in a loss to General Revenue that could exceed $1.4 million annually beginning in Fiscal Year 2022.

HB 126 removes the December 31, 2024 sunset on the pregnancy resource center tax credit. The fiscal note for HB 126 estimates that the removal of the sunset will result in a loss to General Revenue that could exceed $4.9 million annually beginning in Fiscal Year 2026.

HB 126 expands the definition of pregnancy resource center to include facilities that offer services under the Alternatives to Abortion Program. It also removes the cap on the pregnancy resource tax credit for all fiscal years beginning on or after July 1, 2021. The fiscal note for HB 126 notes that these provisions, as well as the increased tax credit percentage, could increase utilization of the pregnancy resource center tax credit by an unknown amount.

Therefore, because HB 126 is estimated to reduce General Revenue by an amount that could exceed $4.9 million once the provisions are fully implemented in Fiscal Year 2026, if HB 126 were repealed there could be a positive impact to General Revenue that could exceed $4.9 million.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Office of the State Public Defender** indicated Referendum Petition 20-R001 "Abortion" will have an unknown but significant fiscal impact on the State Public Defender System. Referendum Petition 20-R002 creates a new Class B felony for "any person who knowingly . . . induces an abortion of an unborn child . . . ," which arguably would include post-conception contraception. If so, this would result in the prosecution of an unknown but significant number of indigent women throughout the state which would require representation by the State Public Defender System for the purpose of the referendum petition and as a result of excessive caseloads, their office CANNOT assume existing staff will provide competent, effective representation for any new cases where indigent persons are charged with the proposed new crime of knowingly performing or inducing an abortion of an unborn child. The Missouri State Public Defender System is currently providing legal representation in caseloads in excess of recognized standards. Their office will continue to request sufficient appropriations to provide competent and effective representation in all criminal cases where the right to counsel attaches.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this referendum petition.

Officials from the **City of Kansas City** indicated they cannot appreciate or ascertain any reasonable estimate of direct fiscal impact.

Officials from the **City of St. Louis** indicated their local government estimates the fiscal impact of the bill for fiscal years 2020, 2021 and 2022 to be as follows:

In their city, ensuring access to high-quality family planning and reproductive health services for all women, especially those who are uninsured or underinsured, is critical to improving health outcomes for the St. Louis region. Planned Parenthood and Federally Qualified Health Centers (FQHC) in their city serve as safety nets for the aforementioned population. FQHCs provide comprehensive services, which include, but are not limited to: women’s health (obstetrics/gynecology, family planning, pregnancy testing, childbirth classes), pediatrics and teens, immunizations, adult medical services, sexually transmitted

infections testing (including HIV) and treatment, dental, lead screening and treatment, and diabetes and nutrition education classes.

Planned Parenthood offers a variety of family planning, cancer prevention, and comprehensive reproductive health services, which include but are not limited to: annual gynecological exams, cervical cancer screenings, birth control, breast exams, STI testing and treatment, abortion care, emergency contraception, pregnancy tests, HPV vaccinations, urinary tract infection treatment, and vasectomies. If Planned Parenthood is no longer able to provide comprehensive reproductive and family planning services, this will create a critical gap in the St. Louis region's local public health system infrastructure, which will increase the vulnerability of economically disenfranchised populations who bear the highest burden of poor health outcomes (e.g., maternal mortality, infant mortality, chronic diseases). In addition, this will have a dire fiscal impact on other components of the health system, which will have to absorb the direct and indirect costs of obstetric care and postpartum care for the underinsured, uninsured, and for persons with public insurance (e.g., Gateway for Better Health, Medicaid).

According to recent data, the cost of having a baby in the St. Louis area ranges from $4,668 - $15,607. This range does not include delivery, indirect costs, or other special circumstances that may require additional resources or more specialized medical care. This is a cost that will be paid by hospital systems. In total, the increased costs of full-term OB care, postpartum care, and related administrative costs may exceed $7 million annually.

In addition, the safety net of reproductive care for women with limited means is fragile. If the largest provider of reproductive health care in St. Louis is unable to financially continue to be a cornerstone in the delivery of access to care, the cost in replacing the current reproductive care would be $37 million in direct care costs with an additional $8 million in increased administration costs.

One of the essential services of public health is the assurance that access to care is provided in the regions within the city's authority. The threat of massive disruptions to the delivery of care in the region to potentially vulnerable residents is significant.

They affirm the potential threat of disruption in Medicaid funding that could result from not complying with federal legislation that pledges access to comprehensive reproductive health services. In the past, their city has been penalized by federal agencies for maintaining state legislation that does not conform to minimum standards established by the federal government. Medicaid funding continues to be the glue that holds together the foundational structure for access to care. The impact of losing Medicaid funding will be calamitous to the St. Louis region's local public health system, and the lives of St. Louis residents and visitors.

Convention and Tourism

Their city has already had one Convention cancel for 2024 due to the passage of HB 126. The summarized data is as follows.

American Society for Engineering Education
Annual Conference & Exposition
Dates: June 15-18, 2024
Attendees: 4,500
Peak/Total Room Nights: 1,700/6,842
Direct Spend Economic Impact: $4.87 million

The speed at which this cancelation came through is indicative that the Convention Business would lose 3 to 4 conventions a year. The American Society for Engineering Education is representative of many of the Conventions that will be booked.

Over the next three years, at a minimum, it is expected that the loss of 3 Conventions a year will result in a $14.61 million dollar loss of economic activity each year in their city.

Loss of Students' Spending while attending our Universities

Information provided by Washington University indicates that their average student spends approximately $81,000 each, which is the impact on the local economy. If both major Universities lose conservatively 100 applicants in each of the next 3 years (200 for 1 year, 200 for 2 years, and 200 for 3 years), the amount of loss local economic activity would be $97,000,000.

Officials from **Wellsville-Middletown R-1 School District** indicated any bill that impacts the ability to provide health-related services to women including contraception, family planning, pre & post-natal services and yes, medically safe abortions, will have a long term fiscal impact on all state services.

Officials from **Metropolitan Community College** indicated no anticipated fiscal impact for their college.

Judy Morgan, District 24, Ingrid Burnett, District 19, and Donna Baringer, District 82, members of the Missouri House of Representatives Fiscal Review Committee provided the following information:

Nicole Galloway, CPA
Missouri State Auditor
Capitol Office
State Capitol, Rm 121
Jefferson City, MO 65101

June 7, 2019

Dear Auditor Galloway,

As members of the Fiscal Review Committee of the Missouri House of Representatives, we are writing in regard to House Bill No. 126, which was passed by the Missouri legislature on May 17, 2019. Specifically, we would like to address the fiscal implications of House Bill No. 126.

First, in the first sentence of paragraph one of the fiscal analysis dated May 16, 2019 (page 3), Oversight noted, "Due to time constraints of less than 1 hour, Oversight was unable to receive some of the agency responses in a timely manner and performed limited analysis." It is quite disconcerting that the Missouri legislature passed House Bill No. 126 when Oversight clearly did not have the time to adequately analyze the fiscal implications of said bill. We consider spending taxpayer dollars with "limited analysis" of its fiscal implications as irresponsible and foolish.

Second, the truly agreed to and finally passed version of House Bill No. 126 made significant changes to the tax credits for pregnancy resource centers. Currently the program has a $2.5 million cap, which will expand to $3.5 million on July 1, 2019, contains a sunset clause of December 31, 2024, and awards taxpayers up to a 50% tax credit for contributions they make to pregnancy resource centers.

House Bill No. 126 removes both the cap and the sunset for pregnancy resource centers and increases the amount of the tax credit awarded to taxpayers from 50 percent to 70 percent of their contributions to such centers. Listed below are relevant statements from the fiscal analysis in regard to the changes in the tax credits for pregnancy resource centers.

- "Also, if the amount of tax credits redeemed in a fiscal year is less than the cumulative amount, the difference shall be carried over to a subsequent fiscal year or years and shall be added to the cumulative amount of tax credits that may be authorized in that fiscal year or years. Therefore, adding unused credits from the previous year(s), the cap in any given year past FY 2019 could well exceed $3.5 million." (Page 3)
- "Oversight notes this proposal allows facilities that offer services under the Alternatives to Abortion program to qualify for the pregnancy resource center. Oversight assumes this could expand the number of pregnancy resource centers that are eligible to distribute this tax credit." (Page 4)
- "Oversight notes that starting January 1, 2021 (FY 2021) this proposal increases the amount of the credit from 50 percent of the contribution to 70 percent of the contribution. Increasing the tax credit amount could encourage additional taxpayers to participate in the program." (Page 4)

- "Oversight notes with the combination of;

    - expanding the definition of pregnancy resource centers;
    - increasing the percentage of the credit; and
    - removing the cap

    would increase the utilization of the credit and Oversight will show all impacts as Could exceed the estimates provided above." (Page 4)

From a fiscal perspective, we are very concerned about the changes House Bill No. 126 stipulated in regard to pregnancy resource centers – from lifting the cap and sunset to increasing the tax credit from 50 percent to 70 percent for contributions. As the fiscal analysis noted with such broad ranging parameters, all the estimates for the cost of implementing these changes are listed in the "Could exceed" range of dollars. Although the fiscal analysis estimated the cost at (Could exceed $1.4 million) in FY 22 and (Could exceed $4.9 million) in FY 26, we are basically working in the dark. Since the amounts are listed as "Could exceed," we actually do not know how much the state coffers will lose based on these changes.

In addition sunsets serve a useful purpose in that the program comes back to the legislature for review automatically on a periodic basis. Removing the sunset means that the legislature will never again look at the tax credit program for pregnancy resource centers.

Third, under current federal law known as the Hyde Amendment, Medicaid is only required to pay for abortions in the cases of rape, incest, or threat to the life of the mother. The fiscal analysis noted, ". . .officials from the Department of Social Services (DSS) stated the proposed language may be subject to legal challenge on the grounds that it may conflict with current federal law governing the Medicaid program to the extent that it would prohibit the Missouri Medicaid program from paying for abortions in cases of pregnancies arising from rape or incest, or in cases where the abortion is necessary to save the life of the mother." (Page 5)

Oversight documented that Missouri was directed by the United States District Court in 1994 to comply with the requirements of the Hyde Amendment. (Page 6) Furthermore, the fiscal analysis stated, "Failure to comply with the requirements of current federal law could subject Missouri to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. The extent of the deferral or disallowance is unknown. Oversight noted in response to House Bill No. 126, the DSS stated the legislation could result in the loss of all federal Medicaid funds." (Page 6)

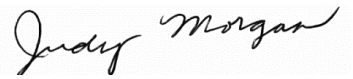
Therefore, implementation of House Bill No. 126 could result in our state losing the federal dollars we receive for MO HealthNet. According to the fiscal analysis, that amount for Fiscal Year 2019 was over $7.2 billion. (Page 6) Implementing a law that would put the disabled, mentally ill, pregnant women, and children at risk of losing their MO HealthNet coverage is unconscionable.

Fourth, the fiscal analysis noted, "This proposal may have a significant negative fiscal impact on small business health care providers if the State of Missouri loses federal funding used to provide

services to MO HealthNet recipients through these health care providers." (Page 14) Losing the $7.2 billion in federal dollars would also hurt our medical care providers.

We consider House Bill No. 126 as an unconstitutional piece of legislation based on its substance. In addition, Oversight was not provided an adequate amount of time to prepare the fiscal analysis and many uncertainties exist in regard to the fiscal impact House Bill No. 126 will have on our state budget. In closing, thank you for your consideration of this important matter affecting Missouri citizens.

Sincerely,



Judy Morgan
Missouri State Representative
District 24

Ingrid Burnett
Missouri State Representative
District 19

Donna M.C. Baringer
Missouri State Representative
District 82

.

Sarah Nesbitt, Washington University graduate and 240 graduates of Missouri institutions of higher education provided the following information:

Nicole Galloway
Missouri State Auditor
State Auditor's Office, P.O. Box 869
Jefferson City, MO 65102

Dear Auditor Galloway,

As students and alumni of Missouri institutions of higher education, we write to voice our concerns about the harm the implementation of HB 126 would have on the state of Missouri. We write together, as both alumni and current students, deeply concerned about the future of our educational institutions and their ability to thrive should HB 126 go into effect. As you make your assessment of the financial risk posed to our state by this law, we encourage you to note the significant financial consequences of our objection.

None of us would choose to attend college in a state that effectively bans abortion, as this violates both our own autonomy and that of our peers. None of us would choose to further our education in an atmosphere that threatens to criminalize professionals who perform abortion, because we trust our peers who study medicine and our neighbors who practice it. They strive to provide scientifically accurate information and patient-centered care, and we oppose any effort to eclipse those standards.

If Missouri's voters fail to repeal HB 126, we will be forced to withhold support of both state and private educational institutions who have been complicit – including through silence – in its implementation. We encourage you, as Missouri's Auditor, to view each of the undersigned as a potential economic loss to Missouri. In tuition dollars alone, each of us represents tens of thousands of dollars in revenue for Missouri educational institutions annually, and the impact of the loss of our talents, our innovation, and our drive is immeasurable. Even beyond the loss of tuition dollars, taxes, and legal expenses, this measure could cost the state all of its Medicaid funding, $7.2B that provides lifesaving care to Missourians in need.

Preventing Missourians from accessing abortion after eight weeks, before some of them even know they are pregnant, is unconstitutional, dangerous, and a violation of Missourians' individual freedoms; this kind of bar on access to reproductive healthcare only hurts the communities that many of us hold dear. Given the state coffers devoted to defending this unconstitutional measure, and given the number of students that will be deterred from coming to, staying in, or returning to Missouri, the financial consequences of implementing HB 126 are both tangible and substantial. We know the human cost will be far greater.

We believe that with smart policies that leave healthcare decisions to professionals and their patients, Missouri can thrive; HB 126 is just the opposite.

We call on the auditor to understand the potential cost the loss of Missouri's students will have on Missouri, and we call on our universities to echo our concerns by submitting their own fiscal analysis of referendum 2020-2001 to the auditor by Friday, June 7th.

Sincerely,

Sarah Nesbitt

Primary Contact Person

Referendum Petition 2020-R001
Relating to HB 126 related to abortion passed by Missouri General Assembly in 2019 session
The materials are being submitted in support of qualification of the measure, but in opposition to passage.

Proposed Statement of Fiscal Impact

Fiscal Impact Information Submitted Pursuant to Section 116.175, RSMo.

The proposed legislation will result in an estimated loss of $6.16 billion in state and local revenue, including $5.2 million lost in state general revenue, $596,695 lost in state dedicated funds, $4 million lost in local funds, and $6.16 billion lost in federal funds.

ESTIMATED NET EFFECT ON STATE FUNDS		
Fund Affected	**FY 2021**	**FY 2022**
General Revenue	($3,811,195)	($5,211,195)
Other State Dedicated Funds	($596,695)	($596,695)
Total Estimated Net Effect on All State Funds	($4,407,890)	($5,807,890)
ESTIMATED NET EFFECT ON LOCAL FUNDS		
Local Funds	($4,020,542)	($4,020,542)
Total Estimated Net Effect on All Local Funds	($4,020,542)	($4,020,542)
ESTIMATED NET EFFECT ON FEDERAL FUNDS		
Federal Funds	($6,152,760,664)	($6,152,760,664)
Total Estimated Net Effect on Federal Funds	($6,152,760,664)	($6,152,760,664)
Total All Funds	($6,161,189,096)	($6,162,589,086)

Introduction

HB 126 passed by the General Assembly and signed by Governor Parson makes a variety of changes to the state's laws on abortion, pregnancy resource centers, parental notification, and state regulations. These provisions have a dramatic impact on women's human rights, privacy rights, reproductive rights, and women's health.

The fiscal note prepared by the General Assembly's Oversight Division was prepared in haste and did not allow it to provide for thoughtful analysis and fiscal estimates by state agencies and the other entities that the division normally reaches out to for comment. The Oversight Division's fiscal note, in an exceptionally unusual preface to its work, states:

> ***"Due to time constraints of less than 1 hour, Oversight was unable to receive some of the agency responses in a timely manner and performed limited analysis.*** *Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note."* (emphasis added)

As of June 7, 2019, the Division continues to show the hurried fiscal note as its current estimate, so it appears unlikely that the Division will update this fiscal note. This fiscal submission will go into detail on a variety of topics not addressed by the Oversight Division. Table 1 provides a list of the areas that may result in an economic impact to the state. It shows the local and state taxes that would be affected by changes in economic activity related to the legislation. The table also includes a list of the agencies of state and local government that could need additional resources due to making illegal an activity that was previously legal. Most of these items have already been identified in the press as issues as the result of the recently passed abortion legislation passed in Missouri, Alabama, and Georgia. Many have also been identified during the travails faced by Indiana and North Carolina when their legislatures passed controversial bills on social issues.

The analysis will focus on the top issues on the list given the short deadline required by the Auditor's office for submission of fiscal note analysis. The possible issues have been identified by reviewing press coverage of recent controversial legislation over the past few years and cover a wide range of different topics.

Table 1 - Abortion - Possible Areas of Lost Economic Activity

	Local		Local surtaxes or fees				State			
Type of activity	Income Tax (St. Louis/KC earnings tax)	Sales Tax	Hotels	Auto rentals	Convention center	Other tourism taxes	Income tax	Sales Tax	Corporate Tax	Athletes & Entertainers
Loss of Medicaid as indicated in fiscal note for HB 126	X	X					X	X	X	
Loss of expansions of companies – Marquee expansions such as being considered by General Motors in Wentzville	X	X					X	X	X	
Loss of arts and entertainers - i.e. concerts, plays, film productions, etc.		X	X	X	X	X				X
Loss of sports events – NCAA and other amateur events – example NCAA (North Carolina), St. Louis NCAA men's basketball regional (2020), U.S. Women's Team Soccer in St. Louis (2019)		X	X	X	X	X				X
Loss of conventions	X	X	X	X	X	X	X	X	X	
General reduction in tourism	X	X	X	X	X	X	X	X	X	
Boycott of Missouri businesses - Enterprise Rent-A-Car, Edward D. Jones, Anheuser Busch, Monsanto, Panera Bread, Purina, etc.	X	X					X	X	X	
Boycott of Missouri businesses by pension systems in other states	X	X					X	X	X	
Boycott of state and local bond issues resulting in higher interest rates paid										
Business loss to major Research Medical Centers - BJC, Stowers Center, etc.	X	X					X	X	X	
Other states boycotting state employee travel to Missouri	X	X	X	X	X	X		X		
Loss of current companies – examples are Indiana (LGBT) and NC (bathrooms)	X	X					X	X	X	

Abortion - Possible Areas of Lost Economic Activity (continued)

	Local		Local surtaxes or fees				State			
Type of activity	Income Tax (St. Louis/KC earnings tax)	Sales Tax	Hotels	Auto rentals	Convention center	Other tourism taxes	Income tax	Sales Tax	Corporate Tax	Athletes & Entertainers
Donors to universities – Alabama example (loss of grants/students/etc.)	X	X					X	X		
Higher Education - withdrawal of students or decrease in attendance	X	X					X	X		
	Local Cost		**State General Revenue cost**							
Increase in budgets for agencies as a result of making something illegal that had previously been legal										
Local agencies

Overview of Reasons to Consider Various Issues as part of Abortion Fiscal Analysis

Medicaid summary

Most important, the Legislative Oversight Division failed to include in its summary page the largest cost item related to the bill – the loss of federal Medicaid funds. This issue is referenced in the text of the fiscal note but not included in the summary which in effect helped its passage by keeping the state cost down.

Medicaid is the single largest program in the entire state budget, consisting of approximately $11.2 billion in the FY-2020 budget, spread principally among three state departments. That amount includes approximately $6.2 billion federal funds. Any legitimate, responsible fiscal note should properly reflect the full cost of the legislation up to the amount possible under current state and federal laws. The Department of Social Services indicates that HB 126 violates the Hyde amendment in federal law with total loss of federal funds possible as a result.

Losing a portion or all of the federal funds would significantly and negatively impact Missourians. Medicaid funding provides a core funding component for hospitals, nursing homes, mental health facilities, prescription drugs and other services relied upon by nearly one million Missourians. Without such funding the state would have to pass a large tax increase to replace the lost federal funds to pay for the services or radically reduce the services available. Hospitals and nursing homes would be dramatically affected by loss of the federal funds, with some closing their doors. Health outcomes for the state's population would worsen. The loss of $6.2 billion in federal funds would result in the loss of employment and services that would multiply many times over in the loss of income, sales, and corporate tax revenues.

Boycott history summary

The Oversight Division also does not evaluate the possible impact of boycotts and other social pressure that would reduce economic activity and state revenue. Hard wedge social issues have a history of creating negative economic impact in states that pass related legislation. The two best examples are Indiana (2015) and North Carolina (2016), which faced serious boycotts and blowback after passing such legislation. Despite the very recent history of the well-documented threats and actual economic harm, the Oversight Division does not even mention or consider the possibility that HB 126 might have similar consequences. This despite the growing list of corporations, organizations, and people speaking out about the problems with recent abortion legislation passed in Missouri, Alabama, and Georgia. This also despite the fact that protests on race, workplace benefits, and campus leadership at the University of Missouri (2015)[i] led to significant student loss, reduced donations, loss of economic activity in Columbia, etc. Each of these examples shows that turmoil leads to economic loss and should be considered in an economic analysis.

Indiana passed a Religious Freedom Restoration Act[ii] in 2015. Indiana was forced to repeal and make significant changes because of the immediate economic threats levied through protests and by corporations and organizations against the state. Nine CEOs called for legislation to protect against discrimination, including Salesforce marketing, Anthem, Angie's List, Eli Lilly and Company, and Roche Diagnostics. The NBA, WBNA, and their Indiana-based teams did the same. U.S. Track and Field expressed deep concern. Angie's List threatened to cancel a $40 million expansion to its Indianapolis based headquarters. Salesforce announced it would cancel all programs that required customers or employees to travel to Indiana. Many other companies, politicians, and organizations raised their voices against the bill. In the face of this pressure, Indiana relented and passed changes to forestall major economic loss to the state.

North Carolina passed a Public Facilities Privacy and Security Act[iii] in 2016. The Wikipedia article footnoted indicates that North Carolina's economy lost over $400 million in investment and jobs. However, reporting at the time by the Associated Press indicated a cost of $3.8 billion[iv] including over 2,900 jobs by companies that cancelled projects - PayPal 400 job project, Deutsche Bank 250 job project, Adidas 160 job shoe factory, Voxpro hundreds of customer support workers, and CoStar 700 jobs. In addition, in 2016 the NCAA stripped the state of seven events including the men's championship

basketball event and indicated it would not receive any additional events through at least 2022 unless the bill was repealed. The Atlantic Coast Conference also moved events to neutral sites outside of North Carolina. The NBA also moved its All-Star game out of the state to New Orleans.

Despite these examples, the Oversight Division did not mention this possibility in the fiscal note. In each of the examples a sizable number of businesses staked out a position and many consumers have expected them to take such a position. Some possible boycotts on Missouri have already been reported[v] including companies such as Anheuser Busch, Enterprise Rent-A-Car, Panera Bread, Edward Jones, and Purina pet food. As litigation proceeds on HB 126, the calls and list of boycott suggestions will likely increase.

Marquee business expansions

As noted above, Indiana and North Carolina were faced with losing major business expansions as a result of passing controversial legislation. A major focus of the past legislative session was passing legislation to provide tax credits for General Motors for expansion at the Wentzville auto plant. General Motors will have to decide whether HB 126 is important to its expansion plans or factors into its equation when considering other suitors. However, the General Motors vision[vi] includes Driving Social Impact and Diversity which are commitments to finding women and minorities for employment and investing in women for leadership positions. HB 126 would seem to make it more difficult for GM to recruit women for Missouri jobs at all levels. The possible GM expansion is an example of the type of expansions that North Carolina lost. This fiscal note does not include any estimate for business expansion loss at this time because the bill just passed and no known business has announced concerns at this point.

Polls summary

The effectiveness of boycotts or other economic action is dependent upon the public's opinion about the issue. Overwhelming public opposition to the Indiana and North Carolina laws led to repeal of the legislation.

Polling on the issue of abortion and women's rights is also strong. Four recent polls by Gallup, Morning Consult, CBS News, HuffPost/YouGov show that most Americans do not support the abortion bills passed by Missouri, Alabama, Georgia, and Ohio.

- https://news.gallup.com/opinion/gallup/257627/alabama-bill-odds-public-consensus-abortion.aspx
- https://www.cbsnews.com/news/majority-of-americans-dont-want-roe-v-wade-overturned-cbs-news-poll-finds/
- https://morningconsult.com/2019/05/22/most-voters-oppose-abortion-laws-enacted-alabama-georgia/
- https://www.huffpost.com/entry/alabama-abortion-law-poll_n_5cdee283e4b00e035b8f7452
- https://www.vox.com/2019/5/22/18635563/poll-alabama-abortion-ban-law-democrats-republicans-2020

CBS News

- 67% want Roe v. Wade left in place, including 69% of women and 65% of men.
- Twice as many people would be angry about Roe v. Wade being overturned than happy or satisfied.
- While views divide along partisan lines, Republicans are split on overturning Roe v. Wade, with 45% saying keep it as is and 48% preferring its overturn.

Gallup

- 83% in support of abortion if woman's life endangered.
- 77% in support of abortion if the result of rape or incest.

HuffPost/YouGuv

- 57% disapprove of Alabama's law compared to 31% support.
- 50% approve of legal abortion in all or most cases compared to 37% that want abortion illegal in all or most cases.

Morning Consult

- 56% disapprove of states passing laws like those in Alabama and Georgia - similar to HuffPost/YouGov poll.
- 45% of Republicans think abortion should be legal in cases of rape, incest, or when a mother's life is in danger – similar to CBS News poll.

Loss of federal Medicaid funding

The largest possible impact on the Missouri economy as a result of the passage of HB 126 is the possible complete loss of federal funds for the state Medicaid program. The final fiscal note for HB 126 filed by the legislature's Oversight Division indicates that the state Department of Social Services reported that full funding for the Medicaid program could be lost under current federal law. The Oversight Division's fiscal note cover page summary indicates that the state loss could be more than $4.9 million as a result of passage. That is a substantial understatement of the amount of the loss which is further explained in the fiscal note's text. The $4.9 million Oversight Division fiscal note basically only reflects the cost of the pregnancy resource center tax credit and completely ignores the possible Medicaid funding loss. Medicaid is the single largest program in the entire state budget, consisting of approximately $11.2 billion in the FY-2020 budget spread principally among three state departments. That amount includes approximately $6.2 billion federal funds. Any legitimate, responsible fiscal note must properly reflect the full cost of the legislation up to the amount possible under current state and federal laws.

Federal law known as the Hyde Amendment (a "rider" to the Congressional appropriations bill for the Department of Health and Human Services renewed each year since 1981) restricts the ability of states to use federal funds to pay for abortions for Medicaid recipients except in remarkably narrow instances—where the pregnancy resulted from rape or incest and when necessary to save the life of the mother. The Missouri Department of Social Services has paid for abortions in such cases previously, using federal Medicaid funding pursuant to provisions of the Hyde Amendment. HB 126 prohibits abortions in Missouri in cases of rape or incest at eight weeks gestational age or later. Thus, it clearly violates provisions of federal law under the Hyde Amendment. That violation jeopardizes all federal Medicaid funding received by Missouri ($6.2 billion).

Losing a portion or all of the federal Medicaid funds would significantly and negatively impact Missourians, nearly one million of whom rely on the program for critical health care services. Medicaid funding provides a core funding component for hospitals, nursing homes, and mental health facilities. It is also a core component of funding prescriptions and other services. Without such funding the state would have to pass a large tax increase to replace the lost federal funds to pay for the services or radically reduce the services available. Without the federal funds hospitals and nursing homes would be dramatically affected, with some closing their doors. Health outcomes for Missourians would worsen.

The loss of all Medicaid funding would decimate the Missouri economy and health care for Missouri citizens. In addition to the loss of $6.2 billion in federal funds, the loss of employment and services would multiply many times over in the loss of income, sales, and corporate taxes. For the purposes of this fiscal note, we are including only the loss of federal funds in our estimate (not the massive multiplier effects).

It is critical to understand the human cost involved in such an ill-conceived measure as HB 126—and in particular, the impact on women's health. As the Missouri Foundation for Health stated regarding HB 126, "This law is just the latest action that flies in the face of a preponderance of evidence, conflicts with widespread consensus among health professionals, and will, in fact, be harmful, not helpful to women's health overall."

An evidence-based, scientific approach to women's health has led to great improvements in the health of women in states that have adopted such measures. However, when governments employ heavy-handed schemes like HB 126 to limit women's access to reproductive health services, women's health suffers (maternal mortality rates rise, cases of HIV increase, etc.). This is particularly problematic for Missouri because the health of Missouri women already significantly lags women's health nationally. The Missouri Foundation for Health reports that Missouri ranked 50th in 2018 in health outcomes for women, down from 43rd in 2016; and that in 2018, Missouri ranked 42nd in maternal mortality with a mortality rate of 32.6 per 100,000 (up 14 percent since 2016) compared to a national average of 20.2. So already poor health outcomes for Missouri women are getting worse. Tragically, Missouri's response was to pass a measure that will further restrict women's access to reproductive health services and thereby accelerate the decline in women's health.

Table 3 is an excerpt of the Medicaid funding table included in the Governor's Executive Budget[vii] (page 11-18) for FY 2020 showing the Governor recommended $6.2 billion in federal funds for the program. The fiscal analysis reflects the loss of the full amount because it reflects current federal law[viii].

Table 3 - Medicaid Funding in State Budget

	FY 2019 Appropriation	FY 2020 Governor Recommended
General Revenue	$2,073,734,533	$2,390,252,752
Federal Funds	$5,833,111,912	$6,152,760,664
Other Funds	$2,668,355,622	$2,664,344,600
Total	$10,575,202,067	$11,207,358,016

Arts and Culture

Nonprofit arts and cultural organizations make their communities more desirable places to live and work. They also power the state's economy by creating jobs and driving consumer and business spending, which generates significant state and local government revenue.

An extensive 2015 nationwide economic impact analysis—Arts & Economic Prosperity 5: the Economic Impact of Nonprofit Arts & Cultural Organizations & Their Audiences by Americans for the Arts—evaluated this impact. The Missouri Arts Council commissioned a Missouri-specific version of this nationwide study. The study determined:

- The arts and culture industry in Missouri generated $1.039 billion in total statewide economic activity in FY2015.
- That amount includes both $602.9 million spent by organizations that employed people locally, bought goods and services from local businesses, and attracted tourists; and $436.1 million in additional spending by audiences pumped revenue into restaurants, hotels, retail stores, parking garages, and other local businesses.
- The combined spending by organizations and audiences supported 31,925 full-time equivalent jobs, created $805.6 million in household income for local residents, and delivered $89.6 million in revenue to local ($42.6 million) and state ($47.0 million) governments.

According to the study, more than 21.4 million people attended arts and culture events produced by 491 Missouri organizations in FY2015. Generally speaking, the arts community has strongly supported progressive government policies and vigorously opposed draconian measures such as HB 126. High-profile actors, directors, musicians, etc., have made headlines opposing measures such as the North Carolina bathroom bill and the Indiana bill that sought to discriminate against the LGBT community. Therefore, it seems likely that at least some arts community personages will refuse to perform in Missouri in response to passage of HB 126. Similarly, it appears likely that many arts-minded attendees will opt to

avoid Missouri performances; instead traveling to other states with less repressive laws. Given the figures derived from the Missouri Arts Council study, even a small decrease in economic activity tied to the arts and cultural organizations would mean a significant blow to the Missouri economy. The table below calculates the loss in state and local tax revenue assuming a reduction in arts/culture economic activity of 1.0%, 2.5% and 5.0%. We recommend the 5.0% option for the following reasons:

1. It is important to note that the figures referenced above from the 2015 Missouri Arts Council study do not include the economic impact of for-profit arts and culture organizations. Therefore, spending by for-profit arts and entertainment organizations and venues, such as the Fox Theatre in St. Louis, is not included. Such economic activity is likely to be as big as or bigger than that of the nonprofit entities and was not included simply because no similar study of for profit arts/cultural economic impact in Missouri was available. Thus, the economic loss to the state and local governments would be substantially higher if the for-profit entities were taken into account.

2. The data from the FY2015 study has not been multiplied to account for inflation in the years since 2015, which tends to understate the impact of the potential loss to the state and local governments.

Table 4 - Reduction in Arts/Culture economic activity

		1.0% reduction	2.5% reduction	5.0% reduction
State tax revenue	$46,998,000	$469,980	$1,174,950	$2,349,900
Local tax revenue	$42,612,000	$426,120	$1,065,300	$2,130,600
Overall loss	$89,610,000	$896,100	$2,240,250	$4,480,500

Pregnancy Resource Center Tax Credit

Four significant changes related to the pregnancy resource center tax credit were created by HB 126.

- The definition of a pregnancy resource center is modified to include facilities that provide assistance to women and families with crisis pregnancies or unplanned pregnancies by offering services specified in the bill and services provided under the Missouri Alternatives to Abortion Services Program.
- The tax credit that may be claimed is increased from 50 percent of the amount contributed to 70 percent beginning in tax year 2021.
- The $3.5 million cap on the amount of tax credits that may be claimed annually is removed in Fiscal Year 2022.
- The December 31, 2024 sunset provision on the program is eliminated.

While it is difficult to estimate the fiscal impact of the definitional change, it is clear that the remaining three provisions are likely to significantly increase state costs. Even if donations to pregnancy resource centers remain the same, the cost to the state for tax credits will increase markedly due to raising the credit from 50 to 70 percent of the amount contributed. That results in a $1.4 million FY-22 cost to the state as reported by the Oversight Division in its fiscal note for HB 126.

Removing the cap on the amount of tax credits will result in much greater costs to the state. Those costs are effectively inestimable because there will be no limit on the amount of credits that can be claimed. The only check on the amount of credits will be the amount of eligible contributions made to pregnancy resource centers. Therefore, that cost is unknown but potentially highly significant.

Eliminating the sunset on the amount of tax credits will cost the state at least $3.5 million annually beginning in FY-26 (also as reported by Oversight). Therefore, the total cost to the state will be $4.9 million to unknown.

Sporting events and conventions

Missouri is in much the same situation as North Carolina was in 2016-2017 in terms of sporting events. There are eight NCAA events scheduled from 2019 to 2022. The NCAA stripped North Carolina of seven events. The NHL All-Star Game is scheduled in St. Louis. The NBA moved its All-Star game from North Carolina in response to passage of the Public Facilities Privacy and Security Act in 2016.

In addition, US Gymnastics will have its annual championship in Kansas City in 2019 and its Olympic Trials in 2020. Given the tremendous sadness associated with widely reported abuse suffered by the women's gymnastics team members, it would seem that there will be calls by athletes and others to boycott at least their portion of the event in hopes of having it moved elsewhere.

The events include:

Kansas City events

- 2019 U.S. Gymnastics Championships – August 8-11, 2019 - Sprint Center

St. Louis events

- 2020 NHL All-Star Game - January 24-26, 2020 - Enterprise Center
- 2020 Missouri Valley Conference Men's Basketball Tournament - March 5-8, 2020 - Enterprise Center
- 2020 NCAA Men's Basketball Championship First/Second Rounds - March 19 & 21, 2020 - Enterprise Center
- 2020 NCAA Division II Spring Festival - May 10-16, 2020 - Lindenwood University / Dwight Davis Memorial Tennis Center
- 2020 NCAA Division III Men's & Women's Tennis Championships - May 18-23, 2020 - Dwight Davis Memorial Tennis Center
- 2020 U.S. Olympic Team Trials - Gymnastics - June 25-28, 2020 - Enterprise Center
- 2021 NCAA Division I Wrestling Championships - March 18-20, 2021 - Enterprise Center
- 2021 NCAA Division III Women's Volleyball Championship - November 18-20, 2021 - Washington University Field House
- 2022 NCAA Division II Wrestling Championships - March 11-12, 2022 - Chaifetz Arena
- 2022 NCAA Division II Women's Lacrosse Championship - May 20-22, 2022 - Harlen C. Hunter Stadium

The NCAA may not move all of its events to another location outside Missouri. Other sponsors will use their own criteria and judgement to determine whether to proceed with their events. However, data exists for the economic impact of one of the NCAA events to help put into perspective the loss of a single event. In 2020 St. Louis will host the NCAA Men's Basketball tournament first and second round games at the Enterprise Center. Multiple events on the above list are held at the Enterprise Center or at venues of a similar size.

Table 5 shows the economic estimate as reported in the local press for seven of the eight venues that hosted the same men's basketball rounds in 2019. The number of seats shown is the basketball configuration seat number as reported in Wikipedia. The average economic impact per seat for the seven venues is $443. That average economic impact would compute to $9.7 million in economic activity in St. Louis for this event.

Table 5 - Estimated Economic Impact of 2020 NCAA Men's Basketball Tournament at Enterprise Center

City	Stadium/Arena	Seats	Economic Impact	Economic Impact per seat
Hartford, CT	XL Center	16,294	$7,700,000	$473
Salt Lake City, UT	Vivint Smart Home Arena	18,306	$5,500,000	$300
Des Moines, IA	Wells Fargo Arena	16,110	$6,000,000	$372
Jacksonville, FL	Jacksonville Veterans Memorial Arena	14,091	$10,000,000	$710
Tulsa, OK	BOK Center	17,839	$9,000,000	$505
Columbus, OH	Nationwide Arena	19,500	$6,000,000	$308
Columbia, SC	Colonial Life Arena	18,000	$9,000,000	$500
San Jose, CA	SAP Center	18,543	N/A	N/A
	Total without San Jose	120,140	$53,200,000	$443
St. Louis estimate	Enterprise Center	22,000	$9,741,968	$443

Table 6 estimates the state and local tax loss for a loss of a single sporting event the size of the NCAA Men's basketball Tournament games in St. Louis. Assuming the sales tax is applied to the entire economic activity, and not including a calculation for individual income taxes, the cancellation of a single event would cost the state $411,598. In the past the Oversight Division has used a statewide local sales tax estimate of 3.88% for its fiscal notes, although the major event areas often are higher. This fiscal note assumes the 3.88% for a total loss of $377,988 in local sales taxes.

This fiscal note assumes the loss of five events statewide the size of the 2020 basketball event. This assumption is made because no additional estimate of loss is included in the analysis for a general tourism decrease. Even a small reduction in the rate of growth of general tourism would be greater than the $3.9 million state and local tax loss assumed. The 2018 Annual Report of the St. Louis Convention Center highlights[ix] 19 of the roughly 100 conventions it reports each year. The total rooms booked for those conventions is 20,490 rooms booked. That is higher than the number of rooms booked reported in the cities that hosted the same round of basketball in 2019. In addition, the estimate does not include any estimate of local convention surtaxes or fees. The estimate is therefore quite conservative.

Table 6 - Estimated loss to State and Local Funds for 1 event

	1 event	5 events
Economic Activity lost	($9,741,968)	($48,709,839)
State Sales tax		
GR (3%)	($292,259)	($1,461,295)
Dedicated taxes (1.225%)	($119,339)	($596,696)
subtotal state taxes	($411,598)	($2,057,991)
Local Sales tax (3.88%)	($377,988)	($1,889,942)
Total loss	($789,586)	($3,947,932)

RECEIVED
JUN 12 2019
STATE AUDITOR'S OFFICE

June 12, 2019

Dear Auditor Galloway:

I write to request that, in any fiscal note you prepare for any proposed petition pertaining to HB 126, your office incorporates the information and considerations contained in the fiscal note prepared for the final version of that legislation. For your reference, this fiscal note was identified for the General Assembly with reference number L.R. No. 0461-18. This fiscal note reflects the understanding and agreement of the General Assembly of the estimated impact of this bill upon the state budget at the time HB 126 was Truly Agreed To and Finally Passed. A copy of L.R. No. 0461-18 is attached for your reference.

Sincerely,

Kip Kendrick
State Representative, District 45
Ranking Member House Budget Committee

COMMITTEE ON LEGISLATIVE RESEARCH
OVERSIGHT DIVISION

FISCAL NOTE

L.R. No.: 0461-18
Bill No.: SS for SCS for HB 126
Subject: Abortion
Type: Original
Date: May 16, 2019

Bill Summary: This proposal requires the use of a fetal heartbeat detection test prior to an abortion and prohibits an abortion is a fetal heartbeat is detected.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND				
FUND AFFECTED	FY 2020	FY 2021	FY 2022	Fully Implemented (FY 2026)
General Revenue	$0	$0	(Could exceed $1,400,000)	(Could exceed $4,900,000)
Total Estimated Net Effect on General Revenue	**$0**	**$0**	**(Could exceed $1,400,000)**	**(Could exceed $4,900,000)**

ESTIMATED NET EFFECT ON OTHER STATE FUNDS				
FUND AFFECTED	FY 2020	FY 2021	FY 2022	Fully Implemented (FY 2026)
Total Estimated Net Effect on Other State Funds	**$0**	**$0**	**$0**	**$0**

Numbers within parentheses: ( ) indicate costs or losses. This fiscal note contains 14 pages.

ESTIMATED NET EFFECT ON FEDERAL FUNDS				
FUND AFFECTED	FY 2020	FY 2021	FY 2022	Fully Implemented (FY 2026)
Federal	$0 to (Unknown)	$0 to (Unknown)	$0 to (Unknown)	$0 to (Unknown)
Total Estimated Net Effect on All Federal Funds	**$0 to (Unknown)**	**$0 to (Unknown)**	**$0 to (Unknown)**	**$0 to (Unknown)**

ESTIMATED NET EFFECT ON FULL TIME EQUIVALENT (FTE)				
FUND AFFECTED	FY 2020	FY 2021	FY 2022	Fully Implemented (FY 2026)
Total Estimated Net Effect on FTE	**0**	**0**	**0**	**0**

☒ Estimated Net Effect (expenditures or reduced revenues) expected to exceed $100,000 in any of the three fiscal years after implementation of the act.

ESTIMATED NET EFFECT ON LOCAL FUNDS				
FUND AFFECTED	FY 2020	FY 2021	FY 2022	Fully Implemented (FY 2026)
Local Government	**$0**	**$0**	**$0**	**$0**

FISCAL ANALYSIS

ASSUMPTION

Due to time constraints of less than 1 hour, **Oversight** was unable to receive some of the agency responses in a timely manner and performed limited analysis. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

§135.630 Pregnancy Resource Center Tax Credit

Oversight notes according to the Tax Credit Analysis submitted by the Department of Social Services regarding this program, the Pregnancy Resource Center tax credit program had the following activity;

	FY 2016	FY 20167	FY 2018	FY 2019 (projected)	FY 2020 (projected)
Certificates Issued	4,363	4,628	4,416	4,400	5,400
Amount Authorized	$2,499,442	$2,443,386	$2,499,394	$2,500,000	$3,500,000
Amount Issued	$2,499,442	$2,443,386	$2,499,394	$2,500,000	$3,500,000
Amount Redeemed	$1,845,875	$2,183,505	$2,094,375	$2,000,000	$3,000,000

Amount Outstanding - $2,346,957 Amount Authorized but Unissued - 0

Oversight notes the pregnancy resource center tax credit program currently has a $2.5 million annual cap. The cap is scheduled to increase to $3.5 million starting July 1, 2019. Also, if the amount of tax credits redeemed in a fiscal year is less than the cumulative amount, the difference shall be carried over to a subsequent fiscal year or years and shall be added to the cumulative amount of tax credits that may be authorized in that fiscal year or years. Therefore, adding unused credits from the previous year(s), the cap in any given year past FY 2019 could well exceed $3.5 million. The tax credit is scheduled to sunset on December 31, 2024, unless extended. In response to similar legislation this year, DOR confirmed that this tax credit is a first come first served credit and they have not had to apportion the credit.

Oversight notes the pregnancy resource center tax credit program allows a taxpayer to receive a tax credit up to 50% of the contribution they make to a pregnancy resource center. Currently a pregnancy resource center can provide counseling, emotional and material support to a client but are prohibited from providing childbirth or abortion services.

In response to similar legislation filed this year, SB 204, officials at the **Department of Revenue** assumed this proposed section increases the amount of tax credit awarded to taxpayers from 50 percent of their contribution to the pregnancy resource centers to 70 percent of their contribution to pregnancy resource centers.

ASSUMPTION (continued)

During the 2018 Regular Session; HB 1288 increased the pregnancy resource tax credit cap to $3.5 million. This proposed legislation removes this cap, along with the sunset provisions. The Department in FY18 redeemed a total of $2,094,375 in the Pregnancy Resource Center tax credit, which consisted of credits at 50 percent of the contribution amount. If the tax credit award is increased from 50 percent of the contribution to 70 percent of the contribution, the Department estimates, based on FY18 redemption data, redemptions could increase by $1,047,152 for a total redemption amount of $3,141,527. The Pregnancy Resource Tax Credit, though, is limited to the tax liability of the taxpayer. Thus, it is unknown whether such increase in redemptions would occur in full.

Oversight notes this proposal allows facilities that offer services under the Alternatives to Abortion program to qualify for the pregnancy resource center. Oversight assumes this could expand the number of pregnancy resource centers that are eligible to distribute this tax credit. However, Oversight will not reflect a fiscal impact from this change alone.

Oversight notes that starting January 1, 2021 (FY 2021) this proposal increases the amount of the credit from 50% of the contribution to 70% of the contribution. Increasing the tax credit amount could encourage additional taxpayers to participate in the program. At 50%, the $3.5 million cap would generate $7,000,000 in contributions. This proposal would increase the credit rate to 70% and therefore, cost the state $4,900,000 ($7 million x 70%) in credits. This could result in an additional $1,400,000 ($4.9 m - $3.5 m) in credits per year. Oversight will show an impact of could exceed $1.4 million annually starting in FY 2022 (when calendar year 2021 tax returns are filed).

Oversight notes this proposal also would remove the sunset language from the pregnancy resource center tax credit. Since this program is to sunset on December 31, 2024, removal of the sunset would continue this credit past FY 2025. Oversight will show the impact as a loss of state revenues of could exceed $4.9 million annually starting in FY 2026 (current $3.5 m cap + $1.4 m increase in participation).

Oversight notes with the combination of;

- expanding the definition of pregnancy resource centers;
- increasing the percentage of the credit; and
- removing the cap

would increase the utilization of the credit and Oversight will show all impacts as Could exceed the estimates provided above.

ASSUMPTION (continued)

§§188.010 and 188.017 - Right to Life of the Unborn Child Act

Oversight notes, in response to the previous version of this proposal, the **Department of Corrections (DOC)** stated the proposal would not have a direct fiscal impact on their organization.

Oversight notes in response to similar legislation (SB 345), officials from the **Department of Corrections (DOC)** stated according to the Department of Health and Senior Services, Missouri currently has one licensed abortion facility (located in St. Louis). Women seeking abortions in Missouri will either go to another state or to the St. Louis facility. If this bill is enacted, the St. Louis facility closes. However, women will only have to drive a few more miles to Illinois, where abortions are legal.

Currently, there are three laws concerning abortion that contain penalties for violation (§188.080.001 - Class A misdemeanor; §188.080.002 - Class B felony; and §188.075.001 - Class A misdemeanor). No convictions of these statutes occurred in FY 2016 - 2018, even with the paucity of abortion facilities in the state. For these reasons, it is expected that enactment of this bill will have no fiscal impact on the DOC.

Oversight does not have any information to the contrary. Therefore, Oversight assumes there will be no fiscal impact to the DOC for fiscal note purposes.

Oversight notes, in response to the previous version of this proposal, the **Department of Social Services (DSS)** has stated the proposal would not have a direct fiscal impact on their organization.

In response to legislation with similar provisions banning abortions except in medical emergencies (SB 345), officials from the **Department of Social Services (DSS)** stated the proposed language may be subject to legal challenge on the grounds that it may conflict with current federal law governing the Medicaid program to the extent that it would prohibit the Missouri Medicaid program from paying for abortions in cases of pregnancies arising from rape or incest, or in cases where the abortion is necessary to save the life of the mother. Under current federal law, state Medicaid programs are not required to pay for abortions except in cases of rape, incest and when necessary to save the life of the mother. This is known as the Hyde Amendment. The current version of the Hyde amendment is included in the federal appropriation bill for the Medicaid program. (See the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2019, Pub. L. No. 115-245, §§506-07, 132 Stat. 2981 (2018).)

ASSUMPTION (continued)

In 1994 the United States District Court entered an injunction against Missouri directing Missouri to comply with the requirements of the Hyde Amendment. (Stangler vs. Shalala, 1994 WL 764104 (W.D.Mo 1994)). Failure to comply with the requirements of current federal law could subject Missouri to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. The extent of the deferral or disallowance is unknown.

Oversight notes in response to HB 126, the DSS stated the legislation could result in the loss of all federal Medicaid funds. In FY 2019, there is over $7.2 billion federal funds budgeted for MO HealthNet services across the Department of Social Services, Department of Mental Health, and Department of Health and Senior Services.

Oversight notes DSS officials provided the MO HealthNet Division paid for 2 abortions during FY 2018 to save the life of the mother; no abortions were paid for during FY 2017 and 2 abortions were paid for in FY 2016 that resulted from rape and incest.

Oversight assumes federal funding would only be in jeopardy if, as a result of rape and incest, the DSS did not authorize funding for abortions for MO HealthNet recipients and the DSS actually had cases that met those conditions. Oversight contacted the DSS and requested a letter be obtained from the Centers for Medicare and Medicaid (CMS) services stating whether the provisions of 188.026.3 would result in the loss of federal funding. DSS believes it is unlikely CMS will provide such a letter. Since it is unknown whether DSS would lose some or all federal funding, Oversight will range the potential loss of federal funding from $0 to (Unknown).

§§188.015 and 188.038 - Prohibition on selective abortions

In response to similar legislation (HB 771), officials from the **Department of Health and Senior Services (DHSS)** assumed the provisions of these sections would have no fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this organization.

In response to similar legislation (HB 771), officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** stated these provisions are anticipated to have no fiscal impact on the DIFP. However, should the extent of the work be more than anticipated, the DIFP would request additional appropriation and/or FTE through the budget process.

Oversight notes, in response to similar legislation (HB 771), the **Office of Attorney General, the Department of Social Services** and the **Office of State Courts Administrator** stated the proposal would not have a direct fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these organizations.

ASSUMPTION (continued)

§188.018 - Unconstitutionality of provisions

Oversight assumes the provisions of this section will have no fiscal impact on state agencies.

§188.026 - Missouri stands for the unborn act

Oversight assumes the provisions of this proposal will have no fiscal impact on state departments.

§188.027 - Printed materials to include information on causing pain

In response to legislation from this current session relating to printed materials (HB 252), officials from the **Department of Health and Senior Services (DHSS)** assumed the proposal would have no fiscal impact on their organization.

Oversight notes that from conversations with DHSS officials the department states they already have a surplus of the printed materials required by this proposal stored in their warehouse. In addition, DHSS states that the required materials are posted on their website and can be printed by clinics/providers when necessary. It is further assumed by DHSS officials that if someone needed the required materials to be sent to them, the clinic/provider would bear the mailing costs. Therefore, this proposal is not expected to have a fiscal impact on the DHSS.

§188.028 - Consent for minor to obtain an abortion

In response to similar legislation (HB 127), officials from the **Office of Attorney General (AGO)** assumed any additional litigation costs arising from this proposal can be absorbed with existing personnel and resources. However, the AGO may seek additional appropriations if there is a significant increase in litigation.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform the work associated with the proposal with existing staff and resources.

Oversight notes, in response to similar legislation (HB 127), the **Department of Health and Senior Services**, the **Department of Social Services** and the **Office of State Courts Administrator** have stated the proposal would not have a direct fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these organizations.

ASSUMPTION (continued)

§188.033 - Out-of-state abortions accompanied by printed materials

In response to similar legislation (HB 282), officials from the **Department of Health and Senior Services (DHSS)** assumed the proposal would have no fiscal impact on their organization.

Oversight notes that from conversations with DHSS officials the department states they already have a surplus of the printed materials required by this proposal stored in their warehouse. In addition, DHSS states that the required materials are posted on their website and can be printed by clinics/providers when necessary. It is further assumed by DHSS officials that if someone needed the required materials to be sent to them, the clinic/provider would bear the mailing costs. Therefore, this proposal is not expected to have a fiscal impact on the DHSS.

Oversight notes, in response to similar legislation (HB 282), the **Office of Attorney General, the Department of Social Services, the Office of State Courts Administrator** and **St. Louis County** have each stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these organizations.

§§188.043 and 188.044 - Malpractice and tail insurance

In response to similar legislation (SCS HB 126), officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** stated this bill is anticipated to have no fiscal impact to the department. However, should the extent of the work be more than anticipated, the DIFP would request additional appropriation and/or FTE through the budget process.

Oversight does not have any information to the contrary. Oversight assumes the DIFP will be able to perform the additional duties required by this proposal with existing personnel and resources. Oversight will reflect a zero fiscal impact for the DIFP for fiscal note purposes.

§§188.056, 188.057, and 188.058 - No abortions performed except in medical emergencies

Oversight notes the provisions of these sections provide that no abortion will be performed upon a woman at eight, fourteen or eighteen weeks gestational age or later, except in cases of medical emergencies. Oversight assumes these provisions would have no fiscal impact on state agencies.

Bill as a whole

ASSUMPTION (continued)

Officials from the **Office of Attorney General (AGO)** assume any additional litigation costs arising from this proposal can be absorbed with existing personnel and resources. However, the AGO may seek additional appropriations if there is a significant increase in litigation.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** state this bill is anticipated to have no fiscal impact to the department. However, should the extent of the work be more than anticipated, the DIFP would request additional appropriation and/or FTE through the budget process.

Oversight does not have any information to the contrary. Oversight assumes the DIFP will be able to perform the additional duties required by this proposal with existing personnel and resources. Oversight will reflect a zero fiscal impact for the DIFP for fiscal note purposes.

Officials from the **Missouri Office of Prosecution Services** have stated the proposal would not have a fiscal impact on their organization. However, the creation of a new crime creates additional responsibilities for county prosecutors which may in turn result in additional costs which are difficult to determine. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this organization.

Oversight notes that the **Department of Corrections**, the **Department of Public Safety, Missouri State Highway Patrol**, the **Office of State Courts Administrator**, the **Office of State Public Defender** and **Legislative Research** have stated the proposal would not have a direct fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these organizations.

§188.375 - Late-term pain-capable unborn child protection act

Oversight notes in response to similar legislation (SB 345), officials from the **Department of Corrections (DOC)** stated according to the Department of Health and Senior Services, Missouri currently has one licensed abortion facility (located in St. Louis). Women seeking abortions in Missouri will either go to another state or to the St. Louis facility. If this bill is enacted, the St. Louis facility closes. However, women will only have to drive a few more miles to Illinois, where abortions are legal.

ASSUMPTION (continued)

Currently, there are three laws concerning abortion that contain penalties for violation (§188.080.001 - Class A misdemeanor; §188.080.002 - Class B felony; and §188.075.001 - Class A misdemeanor). No convictions of these statutes occurred in FY 2016 - 2018, even with the paucity of abortion facilities in the state. For these reasons, it is expected that enactment of this bill will have no fiscal impact on the DOC.

Oversight does not have any information to the contrary. Therefore, Oversight assumes there will be no fiscal impact to the DOC for fiscal note purposes.

In response to similar legislation (SB 139), officials from the **Department of Social Services (DSS)** state the proposed language may be subject to legal challenge on the grounds that it may conflict with current federal law governing the Medicaid program to the extent that it would prohibit the Missouri Medicaid program from paying for abortions in cases of pregnancies arising from rape or incest, or in cases where the abortion is necessary to save the life of the mother. Under current federal law, state Medicaid programs are not required to pay for abortions except in cases of rape, incest and when necessary to save the life of the mother. This is known as the Hyde Amendment. The current version of the Hyde amendment is included in the federal appropriation bill for the Medicaid program. (See PL 114-113, 114-223 and PL 114-254.) In 1994 the United States District Court entered an injunction against Missouri directing Missouri to comply with the requirements of the Hyde Amendment. (Stangler vs. Shalala, 1994 WL 764104 (W.D.Mo 1994)). Failure to comply with the requirements of current federal law could subject Missouri to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. The extent of the deferral or disallowance is unknown.

This legislation could result in the loss of all federal Medicaid funds. In FY 2019, there is over $7.2 billion federal funds budgeted for MO HealthNet services across the Department of Social Services, Department of Mental Health, and Department of Health and Senior Services. To continue covering services in SFY 2020 to Medicaid participants, the State of Missouri would need an additional $7,408,762,188 in General Revenue to account for the reduction in Federal matching funds. A 2.4% medical inflation rate was used for FY 2020, FY 2021 and FY 2022.

SFY 2020: GR - $7,408,762,188, FED - 0, OTHER - 0, Total: $7,408,762,188
SFY 2021: GR - $7,586,572,481, FED - 0, OTHER - 0, Total: $7,586,572,481
SFY 2022: GR - $7,768,650,220, FED - 0, OTHER - 0, Total: $7,768,650,220

Oversight notes DSS officials provided the MO HealthNet Division paid for 2 abortions during FY 2018 to save the life of the mother; no abortions were paid for during FY 2017 and 2 abortion were paid for in FY 2016 that resulted from rape and incest.

ASSUMPTION (continued)

Oversight assumes federal funding would only be in jeopardy if, as a result of rape and incest, the DSS did not authorize funding for abortions for MO HealthNet recipients and the DSS actually had cases that met those conditions. Since it is unknown whether DSS would lose some or all federal funding, Oversight will range the potential loss of federal funding from $0 to (Unknown)

In response to similar legislation (SB 139), officials from the **Department of Health and Senior Services (DHSS)** stated §188.026.1-2 of the proposed legislation requires a physician performing an abortion to conduct a fetal heartbeat determination, and a record of the results of the fetal heartbeat determination exam to be included in the woman's medical record. The DHSS, Division of Regulation and Licensure, Section for Health Standards and Licensure (HSL) is responsible for regulating abortion facilities. This will require two additional steps to be added to the survey process to ensure the physician performing the abortion conducts a fetal heartbeat determination exam, and the medical record includes documentation of the fetal heartbeat determination. It is assumed that these new questions will require less than 30 additional minutes per survey, at the three abortion facilities in Missouri, for a total of one and one-half hours of additional work a year. These surveys are conducted by a Health Facilities Nursing Consultant. The average hourly rate for this position is $26.05, so the additional cost of these additional questions is $39.08 annually (1.5 hours x 26.05).

In addition, §188.052.2(4) of the proposed legislation states that the time, date, method, and results of the fetal heartbeat detection test performed prior to an abortion shall be captured in the individual complication report. This would require DHSS, Division of Community and Public Health (DCPH), to make minor revisions to the Complication Report for Post-Abortion Care form that is posted on the DHSS website, and would also require minor changes to the DHSS database used to capture this information. Both of these revisions could be completed by current staff. Forms are not printed, therefore, DCPH would not incur any cost to print revised forms.

The department anticipates being able to absorb these costs. However, until the FY20 budget is final, the department cannot identify specific funding sources.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the DHSS will be able to perform the additional duties prescribed in this bill with current staff and resources and will present no fiscal impact to the DHSS for fiscal note purposes.

In response to similar legislation (SB 139), officials from the **Office of Attorney General (AGO)** assumed any additional litigation costs arising from this proposal can be absorbed with existing personnel and resources. However, the AGO may seek additional appropriations if there is a significant increase in litigation.

ASSUMPTION (continued)

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

In response to similar legislation (SB 139), officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** state this bill is anticipated to have no fiscal impact on the DIFP. However, should the extent of the work be more than anticipated, the DIFP would request additional appropriation and/or FTE through the budget process.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the DIFP can perform the additional duties required by this proposal with existing personnel and resources.

Oversight notes the provisions of §188.026.4 provide that if a physician fails to conduct a fetal heartbeat detection test prior to the performance or inducement of an abortion, he/she will be subject to having his/her license application rejected, revoked, or suspended by the state board of registration for the healing arts for a period of six months and shall be subject to a fine of one thousand dollars.

Per DHSS's 2016 Annual Report (most current available), 4,562 abortions were performed in Missouri. Per www.steadyhealth.com, fetal heartbeats can usually be detected around 6-7 weeks, although it can take up to 10 weeks for the heartbeat to be heard. Other online information indicated a doctor can usually detect the baby's heartbeat at 9-10 weeks, although sometimes it takes 12 weeks for it to be easily detected. For purposes of this fiscal note, Oversight assumed a fetal heartbeat would be detected after 9-10 weeks. According to DHSS's report, 1,323 abortions (29%) were performed after the 9-10 week period of time.

Oversight notes, per DHSS's response, there are three facilities in Missouri which perform abortions. With the limited number of facilities providing abortion services, Oversight assumes there would be a limited number of physicians required to comply with the provisions of this the proposal. Therefore, for fiscal note purposes, Oversight is not presenting potential fine revenue; however, any fine revenue collected would be deposited in the State School Moneys Fund (0616).

Oversight notes, in response to similar legislation (SB 139), the **Office of State Courts Administrator (OSCA)** stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for OSCA.

FISCAL IMPACT - State Government	FY 2020 (10 Mo.)	FY 2021	FY 2022	Fully Implemented (FY 2026)
GENERAL REVENUE FUND				
Cost - DOR §135.630 removing the cap and sunset language from the pregnancy resource center	$0	$0	(Could exceed $1,400,000)	(Could exceed $4,900,000)
ESTIMATED NET EFFECT ON THE GENERAL REVENUE FUND	**$0**	**$0**	**(Could exceed $1,400,000)**	**(Could exceed $4,900,000)**
FEDERAL FUNDS				
Loss - DSS (§188.026) A potential reduction in federal funding if Missouri is found to be non-compliant with federal law	$0 to (Unknown)	$0 to (Unknown)	$0 to (Unknown)	$0 to (Unknown)
ESTIMATED NET EFFECT ON FEDERAL FUNDS	**$0 to (Unknown)**	**$0 to (Unknown)**	**$0 to (Unknown)**	**$0 to (Unknown)**

FISCAL IMPACT - Local Government	FY 2020 (10 Mo.)	FY 2021	FY 2022	Fully Implemented (FY 2026)
	$0	**$0**	**$0**	**$0**

FISCAL IMPACT - Small Business

This proposal may have a significant negative fiscal impact on small business health care providers if the State of Missouri loses federal funding used to provide services to MO HealthNet recipients through these health care providers.

FISCAL DESCRIPTION

This proposal modifies provisions relating to abortion and the pregnancy resource center tax credit.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.

Office of the Missouri State Auditor
Auditor Nicole Galloway
Capitol Building, Suite 121
P.O. Box 869
Jefferson City, Missouri 65102

Dear Madam Auditor Galloway,

We write to you as elected officials representing a portion of the state's largest economy. Please consider this correspondence a request of a cost overview analysis to determine the potential financial impact of the Missouri Legislature's passage of House Bill 126.

The Saint Louis region generates nearly half of Missouri's revenue, bringing in over $30 million in sales tax revenue. According to Missouri's Department of Economic Development, "The St. Louis region boasts one of America's great metropolises in the Gateway City, with almost ten Fortune 500 firms, world-class museums, restaurants, shopping, and sports (Cardinal baseball and Blues Hockey). Leading industries include retail trade, professional and technical services, construction, food services and administrative and support services such as Edward Jones, Enterprise Rent-A-Car, AG Edwards and Anheuser-Busch."

We already know from the previous legislation, discriminatory laws in Missouri and other states have negative financial impacts. In 2016, when the Missouri Legislature attempted to discriminate against our LGBT neighbors we heard widespread criticism from the business community about how this law would have made Missouri an unattractive place to do business. House Bill 126 has the same effect. Discrimination, in any form, is detrimental to the hiring abilities and financial bottom line of our major industries. Allowing HB 126 to become law will spark backlash against our state. We could face economic boycotts and travel advisories as our residents push back against this unconstitutional law. This is not unprecedented in Missouri- we need look no further than the NAACP's issuance of a travel advisory in 2017 warning visitors who travel to our state that they may face discrimination. Right now, we can look to states like Georgia to see legislation similar to HB 126 has triggered a boycott from leading artists and entertainers costing the state millions. We cannot suffer another blow to our economic development.

Room 230, City Hall • 1200 Market Street • St. Louis, MO 63103 • (314) 622-3756
martins@stlouis-mo.gov

These types of discriminatory laws have a broad impact. Potential students have announced they will no longer consider Missouri's top higher education institutes. These same institutions have research facilities that will have to contend with the best and the brightest looking to work elsewhere. Our convention center will be competing to attract conferences and entertainment with cities in other more inclusive states. Corporations rooted in Saint Louis and those looking to relocate have already denounced discriminatory laws citing the difficulty of competing for top talent.

The Legislature's Fiscal Oversight Division reports the fiscal impact of this fully implemented legislation on General Revenue in 2026 could exceed $4,900,000. Our state also stands to lose $7.2B in Medicaid funding should this measure become law. This number was determined quickly and without a full response from all departments. We know this legislation will have severe financial consequences for our city. We ask you to consider those costs in your analysis of referenda seeking to repeal HB 126 that will come before your office for review.

Sincerely,

Mayor Lyda Krewson
8th Ward Alderwoman Annie Rice
9th Ward Alderman Dan Guenther
11th Ward Alderwoman Sarah W. Martin
12th Ward Alderman Larry Arnowitz
20th Ward Alderwoman Cara Spencer
24th Ward Alderman Bret Narayan
25th Ward Alderman Shane Cohn
28th Ward Alderwoman Heather Navarro

The State Auditor's office did not receive a response from the **Attorney General's office,** the **Secretary of State's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, State Technical College of Missouri, University of Missouri, St. Louis Community College,** and **Missouri Life Sciences Research Board.**

Fiscal Note Summary

Revenues from state sources may decrease by at least $4.9 million annually and federal Medicaid revenues may decrease by an unknown amount, up to $7.2 billion annually. The Public Defender's Office anticipates increased costs of an unknown amount to defend women's medical actions after conception. Local governmental entities anticipate a significant negative impact.

STATE AUDITORS OFFICE

RE: Petition approval request from Mark Parachini regarding a proposed constitutional amendment to Article XV (2020-148)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Parachini on January 24, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the People of this State of Missouri that the Constitution be amended:

To enact a new Article XV of this Constitution as follows:

XV Section 1. Right of adults to possess and use cannabis – 1. Purposes.

The purposes of this Section 1 are to establish the rights of adults in this State to possess and use cannabis. These rights include, but are not limited to, the rights of consuming, smoking, ingesting, selling, purchasing, storing, testing, processing, engineering, transporting, cultivating, transferring, and otherwise using or possessing cannabis in this State. Cannabis includes, but is not limited to, any and all variations and varieties of hemp, hemp-infused products, marijuana, marijuana-infused products, and any other derivatives or products made therefrom. This Article XV shall have no impact on Article XIV of this Constitution. This Article XV shall have no impact on any enacted or proposed hemp laws and regulations in existence on the effective date of this Article XV. Except as provided in subsection (2) of this Article XV, the administration, regulation and enforcement of this Section 1 shall be by use of a similar method or similar methods as those established for the regulation of intoxicating liquor as provided in Chapter 311 of the Revised Statutes of Missouri and other directly relevant and applicable laws, rules and regulations of Missouri, but only if such laws, rules and regulations are in accordance with the purposes of this Article XV.

2. Administration, Regulation and Enforcement; Taxes; Criminal and Civil Implications; and Effective Date.

(a) Under this Article XV, the department of health and senior services shall regulate marijuana and marijuana-infused products in this State and shall emphasize the importance of public health, welfare and safety, including economic impact of the people of this State. The department of health and senior services shall promulgate emergency rules and rules necessary for the administration, regulation and enforcement of this Article XV. The department of health and senior services shall have sole authority for administration, regulation and enforcement of this Article XV. The department of health and senior services shall issue certifications to qualifying entities allowing legal patrons to purchase and otherwise use marijuana and marijuana-infused products in privately owned establishments. Consumer protection laws in existence on the effective date of this Article XV shall remain effective, regardless of subsequent changes in state or federal law. Nothing in this Article XV shall impact the rights, duties, protections, and obligations of individuals and entities regulated under Article XIV of this Constitution.

(b) Any Missouri entity, directly controlled and at least seventy-five percent owned by one or more Missouri residents, shall have the right to a license allowing such entity to use and possess quantities of marijuana and marijuana-infused products in excess of eight ounces if, and only if such entity submits objective proof of an operational plan, objective proof of preemptive, initial and/or continued compliance with requirements established pursuant to this Article XV, and objective proof of a certification attesting to the knowledge and understanding of compliance requirements promulgated pursuant to this Section, including industry standards established by a Missouri cannabis industry association, as designated by the department of health and senior services . Such designated association must have the mission of fostering a safe, substantial and

successful Missouri cannabis industry for the people of this State. Such designated association shall develop industry standards based on its mission and issue certifications to any entity, significant employee, and owner that verifies reasonable understanding and knowledge of compliance requirements and industry standards.

(c) Taxes levied pursuant to this Section 1 shall be at a rate of five percent on final retail sales or shall be the existing tax rate assessed against intoxicating liquor as of the effective date of this Article XV, whichever is less. All taxes collected pursuant to this Article XV shall be divided annually and equally into five fund accounts to be established by the department of health and senior services. The five fund accounts shall be used for: 1) funding for State and local road and infrastructure projects, with half going to the State for such purposes; 2) funding for programs assisting veterans of this State; 3) funding for local non-profit corporations and organizations dedicated to assisting local communities with drug-addiction relief and prevention programs, local housing and food programs, and any other local programs assisting disadvantaged families, children and individuals, including the homeless; 4)funding for public schools in economically disadvantaged districts; and 5) funding paid to local law enforcement offices and agencies with significant crime rates, to be used for combatting dangerous and illegal drug markets in their jurisdictions, excluding cannabis. No additional taxes shall be assessed on marijuana or marijuana-infused products. All fees required and assessed pursuant to this Section 1, as determined to be absolutely necessary by the department of health and senior services, shall be reasonable and shall be used exclusively for the administration, regulation and enforcement of this Article XV.

(d) The department of health and senior services shall issue any emergency rules, rules or programs necessary for accomplishing the purposes of this Section 1. No law, rule, regulation, action of a court, or any government or locality may infringe upon the civil and legal rights of a resident individual or domestic entity from participating in the legal cannabis industry of this State, either as a consumer, for-profit business, or nonprofit corporation in this State, unless not authorized by and in accordance with the laws, emergency rules, regulations and requirements promulgated under this Article XV. These rights include, but are not limited to, the rights to adopt, receive advice from counsel, protection against false imprisonment, protection against unreasonable searches and seizures, and any other rights that are traditionally recognized in this State.

(e) This Article XV shall not be subject to or impacted by the laws of other jurisdictions. No out-of-state entity or individual may participate in the Missouri cannabis market, unless authorized as necessary by the department of health and senior services. The department of health and senior services shall be responsible for overseeing any licensing and authorizations issued pursuant to this paragraph (d).

(f) All entities holding a license, certificate and/or any other form of authorization issued pursuant to this Section 1 shall be seventy-five percent owned and directly controlled by natural persons that have been residents of this State for at least the last three years. Any entity in compliance with this Section 1, shall have the right to apply for and obtain any such license, permit, certification, and/or authorization issued or required to be issued by the department of

health and senior services. The department of health and senior services shall recognize the rights of all legal people of this State to participate in their own cannabis industry.

(g) Any emergency rules, rules, limits, requirements, duties, obligations, fees, and any other necessities and responsibilities established by the department of health and senior services pursuant to this Section 1 shall be fair, reasonable and in accordance with any other laws and regulations not impacted by the implementation and adoption of this Article XV.

(h) Residents of this State, whether residing in this State voluntarily, involuntarily, temporarily or otherwise, shall have the right to be free of any criminal punishment, criminal allegation, criminal requirement, criminal charge, criminal conviction, criminal sentence, criminal record and/or any other criminal enforcement actions or allegations for actual, direct, conspired, suspected and/or indirect involvement with cannabis related crimes and/or civil violations, unless such use or possession involved more than fifty ounces of marijuana and/or marijuana-infused products at any one moment in time, extreme violence, or gross indifference to human life. The department of health and senior services shall establish civil penalties for illegally using and/or possessing more than twenty but less than thirty-five ounces of marijuana and/or marijuana-infused products at any one moment in time, not to exceed $50,000.00. The department of health and senior services shall establish civil penalties for illegally using and/or possessing thirty-five to fifty ounces of marijuana and/or marijuana-infused products at any one moment in time, not to exceed $250,000.00. The department of health and senior services shall not charge more than a $1,000.00 civil penalty for the possession and/or use of twenty or less ounces of marijuana and/or marijuana-infused products at any one moment in time. No individual or entity licensed under the laws, regulations and/or rules of this State shall be subject to criminal or civil liability solely for engaging in activities, conduct, acts, and/or omissions involving or related to cannabis, unless doing so would violate the quantity and nonviolence related requirements of this Article XV. Any individual or entity impacted by this paragraph (h) shall have the right to seek immediate relief, and such relief shall be granted immediately if available under this paragraph (h).

(i) The department of health and senior services shall continue administration, regulation and enforcement of Article XIV, regardless of the adoption of this Article XV.

(j) The department of health and senior services shall be the sole authority of administration, regulation and enforcement of this Article XV, unless otherwise provided in this Section 1. All emergency rules and rules promulgated under this Article XV shall be fair and reasonable to all people of this State. Public health, safety and welfare, including the safety of marijuana and marijuana-infused products, shall be considered when promulgating and enforcing emergency rules, rules, regulations, and any other actions taken pursuant to this Article XV.

(k) If the department of health and senior services is no longer in existence, its successor, or another governing body, shall have and must use full authority to administer, regulate and enforce this Article XV.

(k) Nothing in Article XV shall impact the rights, obligations, requirements, and protections of persons and entities licensed, certified, and/or regulated in any way under Article XIV of this Constitution.

(l) If any section, subsection, paragraph, term, and/or any provision of this Article XV is determined illegal by the highest court of this State, all others will remain in full force and effect, regardless of any act of congress or otherwise.

(m) The effective date of this Article XV shall be January 1, 2021, or shall be the effective date as determined by existing law, or shall be the effective date as established by the department of health and senior services if it so chooses, whichever one is earliest.

RE: Petition approval request from Mark Parachini regarding a proposed constitutional amendment to Article XV (2020-147)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Parachini on January 23, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the People of this State of Missouri that the Constitution be amended:

To enact a new Article XV of this Constitution as follows:

XV Section 1. Right of adults to possess and use cannabis – 1. Purposes.

The purposes of this Section 1 are to establish the rights of adults in this State to possess and use cannabis. These rights include, but are not limited to, the rights of consuming, smoking, ingesting, selling, purchasing, storing, testing, processing, engineering, transporting, cultivating, and transferring cannabis in this State. Cannabis includes, but is not limited to, any and all variations and varieties of hemp, hemp-infused products, marijuana, marijuana-infused products, and any other derivative or product made therefrom. This Article XV shall have no impact on Article XIV of this Constitution. This Article XV shall have no impact on any enacted or proposed hemp laws and regulations in existence on the effective date of this Article XV. Except as provided in subsection (2) of this Article XV, the administration, regulation and enforcement of this Section 1 shall use the same method, or a similar method, implemented by this State for the administration, regulation and enforcement of tabaco and tabaco-infused products. Only entities and natural persons licensed, certified, and otherwise authorized by the department of health and senior services shall have the right to use quantities of processed and usable marijuana and marijuana-infused products in excess of eight ounces.

2. Administration, Regulation and Enforcement; Taxes; Criminal and Civil Implications; and Effective Date

(a) The department of health and senior services shall regulate marijuana and marijuana-infused products in this State and shall emphasize the importance of public health, welfare and safety. The department of health and senior services shall promulgate emergency rules and rules necessary for the administration, regulation and enforcement of this Article XV. The department of health and senior services shall have sole authority for administration, regulation and enforcement of this Article XV. Consumer protection laws in existence on the effective date of this Article XV shall remain effective, regardless of subsequent changes in state or federal law. Nothing in this Article XV shall impact the rights, duties and obligations of individuals and entities regulated under Article XIV of this Constitution.

(b) Taxes levied pursuant to this Section 1 shall be at a rate of five percent on final retail sales or shall be the existing tax rate assessed against tabaco and tabaco-infused products as of the effective date of this Article XV, whichever is less. All taxes collected pursuant to this Article XV shall be divided annually and equally into five fund accounts to be established by the department of health and senior services. The five fund accounts shall be used for: 1) funding for State and local road and infrastructure projects, with half going to the State for such purposes; 2) funding for programs assisting veterans of this State; 3) funding for local non-profit corporations and organizations dedicated to assisting local communities with drug-addiction relief and prevention programs, local housing and food programs, and any other local programs assisting disadvantaged families, children and individuals, including the homeless; 4)funding for public schools in economically disadvantaged districts; and 5) funding paid equally to local law enforcement agencies and organizations for combatting dangerous and illegal drug markets in

their jurisdictions, excluding cannabis. No additional taxes shall be assessed on marijuana or marijuana-infused products. All fees required and assessed pursuant to this Section 1, as determined as necessary by the department of health and senior services, shall be reasonable and shall be used exclusively for the administration, regulation and enforcement of this Article XV.

(c) The department of health and senior services may issue any emergency rule, rule or program necessary for accomplishing the purposes of this Section 1.

(d) This Article XV shall not be subject to or impacted by the laws of other jurisdictions. No out-of-state entity or individual may participate in the Missouri cannabis market, unless authorized as necessary by the department of health and senior services. The department of health and senior services shall be responsible for overseeing any licensing and authorizations issued pursuant to this paragraph (d).

(e) All entities holding a license, certificate and/or any other form of authorization issued pursuant to this Section 1 shall be owned and directly controlled by natural persons that have been residents of this State for at least the last three years. Any entity in compliance with this Section 1, shall have the right to apply for and obtain any such license, permit, certification, and/or authorization issued or required to be issued by the department of health and senior services. The department of health and senior services shall recognize the rights of all legal people of this State to participate in their cannabis industry.

(f) Any emergency rules, rules, limits, requirements, duties, obligations, fees, and any other necessities and responsibilities established by the department of health and senior services pursuant to this Section 1 shall be fair, reasonable and in accordance with any other laws and regulations not impacted by the implementation and adoption of this Article XV.

(g) Residents of this State, whether residing in this State voluntarily, involuntarily, temporarily or otherwise, shall have the right to be free of any criminal punishment, criminal allegation, criminal requirement, criminal charge, criminal conviction, criminal sentence, criminal record and/or any other criminal enforcement actions or allegations for actual, direct, conspired, suspected and/or indirect involvement with nonviolent cannabis related crimes or civil violations, unless such use or possession involved more than fifty ounces of marijuana and/or marijuana-infused products at any one moment in time. The department of health and senior services shall establish civil penalties for illegally using and/or possessing more than twenty but less than thirty-five ounces of marijuana and/or marijuana-infused products at any one moment in time, not to exceed $50,000.00. The department of health and senior services shall establish civil penalties for illegally using and/or possessing thirty-five to fifty ounces of marijuana and/or marijuana-infused products at any one moment in time, not to exceed $250,000.00. The department of health and senior services shall not charge more than $1,000.00 for the illegal possession and/or use of twenty or less ounces of marijuana and/or marijuana-infused products at any one moment in time. No individual or entity licensed under the laws, regulations and/or rules of this State shall be subject to criminal or civil liability solely for engaging in activities, conduct, acts, and/or omissions involving or related to cannabis, unless doing so would violate the quantity and nonviolence related requirements of this Article XV. Any individual or entity

impacted by this paragraph (i) shall have the right to seek immediate relief, and such relief shall be granted immediately if available under this paragraph (i).

(h) The department of health and senior services shall continue administration, regulation and enforcement of Article XIV, regardless of the adoption of this Article XV.

(i) The department of health and senior services shall be the sole authority of administration, regulation and enforcement of this Article XV. All emergency rules and rules promulgated under this Article XV shall be fair and reasonable to all people of this State. Public health, safety and welfare, including the safety of marijuana and marijuana-infused products, shall be considered when promulgating and enforcing emergency rules, rules, regulations, and any other actions taken pursuant to this Article XV.

(j) If the department of health and senior services is no longer in existence, its successor, or another governing body, shall have and must use full authority to administer, regulate and enforce this Article XV.

(k) Nothing in Article XV shall impact the rights of persons and entities licensed, certified, and/or regulated in any way under Article XIV of this Constitution.

(l) If any section, subsection, paragraph, term, and/or any provision of this Article XV is determined illegal by the highest court of this State, all others will remain in full force and effect, regardless of any act of congress or otherwise.

(m) The effective date of this Article XV shall be January 1, 2021, or shall be the effective date as determined by existing law, or shall be the effective date as established by the department of health and senior services if it so chooses, whichever one is earliest.

ARTICLE XIV
MEDICAL AND ADULT-USE CANNABIS

SECTIONS
Right to access medical marijuana.
Right to access adult-use marijuana.

Section 1. Right to access medical marijuana.—1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to cultivate, purchase and use quality medical marijuana for treatment under the recommendation and supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes, or to unreasonably restrict access to and availability of satisfactory and necessary quantities of high-quality marijuana for medical use by qualifying patients. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of processed marijuana, such as dried flowers, buds, plant material suitable for medical use, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, non-profit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the [first] final signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin

extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility, and as otherwise provided in this Article XIV.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility, and as otherwise provided in this Article XIV.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility, and as otherwise provided in this Article XIV.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition listed in this section, and any other additional qualifying medical conditions as determined by the department, so long as such additional conditions do not impact or alter recognized qualifying medical conditions as determined by physicians of this state as of or after December 6, 2018.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the wellbeing of a qualifying patient, at the discretion of the patient, and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative, or as a supplement, to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section[.];

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted [unreasonably] and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients, unless otherwise provided in this Article XIV[.];

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section, and as otherwise provided in this Article XIV;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility, unless otherwise provided in this Article XIV. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees[.];

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis. Any other individual or entity regulated under this Article XIV or as determined necessary by the department shall be allowed to transport cannabis, including marijuana, medical marijuana and the products made therefrom[.];

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section, or as otherwise provided in this Article XIV[.];

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section; and

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to [meet the demand] provide an easily accessible and necessary supply [for] of marijuana for medical use by qualifying patients in accordance with the purposes of this section.

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, ease of availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices[.];

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees utilizing traditionally recognized methods;

(p) The reporting and transmittal of tax payments utilizing traditionally recognized methods;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section and Article XIV.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and for requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under [substantially] common control, ownership, or management, directly or indirectly, as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, [or] medical marijuana dispensary facility, or any other facility or certificate holder regulated under this Article XIV.

(5) The department shall maintain the confidentiality of all reports [or] and all other information obtained from [an applicant or licensee] any individual or entity pursuant to the administration and enforcement of this section containing any individualized patient or caregiver data, individual health information, traditionally protected proprietary business information[, or] and records [related to the licensee or its operation.] traditionally protected as privileged and/or confidential under state or federal law, [including] excluding [sales information, financial records, tax returns, credit reports,] cultivation and sales information regarding compliance with quantity and testing provisions, foreign ownership information, violations of health and safety requirements by licensees and certificate holders, testing results, and [security information and plans, or revealing any patient information, or] any other records that are not traditionally exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients and caregivers, including applications for such, may be used only for a purpose authorized by [federal law and] this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card. This subsection shall be subject to general provisions of the Missouri Sunshine Law and any other applicable state freedom of information, protected health information, confidentiality and privacy laws, as amended from time to time. Information in applications for, obtained from or regarding a qualifying patient or primary caregiver shall be treated as protected health information and shall be subject to existing state protections. A qualifying patient, primary caregiver, or applicant for such, shall be entitled to compensation, including costs and reasonable attorneys' fees, for harm resulting from knowingly improper disclosure and/or acceptance of protected health information generated pursuant to this section.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting [may] shall be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting [may] shall be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting [may] shall be limited by the department [, at the election of the licensee,] to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under [substantially] common control, ownership, or management, directly or indirectly.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except

for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under [substantially] common control, ownership, or management, directly or indirectly.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under [substantially] common control, ownership, or management, directly or indirectly.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) [Except for good cause]To ensure qualifying patients and primary caregivers have access to an adequate supply of quality medical marijuana necessary for the health and wellbeing of patients, [a] each qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate [up to six] marijuana, including nonflowering plants and at least twelve flowering marijuana plants for the [exclusive] use of [that] a qualifying patient. Marijuana cultivated by a cardholder under this subsection (12) may not be sold or taxed. The card shall be valid for [twelve] thirty-six months from its date of issuance and shall be renewable with the [annual] submittal of a new or updated physician's certification. The department shall charge [an annual] a fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than [four] six ounces of dried, [unprocessed] processed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a [sixty-day] ninety-day supply of dried, [unprocessed] processed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety-day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification

card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to [two] ten thousand dollars. 20-146

(15) The department [may] shall restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact. A restriction established by the department pursuant to this subsection (15) shall remain in effect. Additional licenses required to meet the needs of patients shall be issued under section 2 of this Article XIV.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact. A restriction established by the department pursuant to this subsection (16) shall remain in effect. Additional licenses required to meet the needs of patients shall be issued under section 2 of this Article XIV.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact. A restriction established by the department pursuant to this subsection (17) shall remain in effect. Additional licenses required to meet the needs of patients shall be issued under section 2 of this Article XIV.

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and [annually] renew an identification card or cards from the department. Cards shall be valid for three years and may be renewed with a new physician's certification. The department shall charge a fee of [twenty-five dollars per year] seventy-five dollars per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain [and annually renew] an identification card from the department. Cards shall be valid for three years. The department shall charge a fee of [twenty-five] seventy-five dollars [per year], with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its

successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri, unless otherwise provided in this Article XIV.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility, unless otherwise provided in this Article XIV.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official, or other governmental employee outside of the department, unless ordered by a court, shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more entities or individuals regulated under this section, including applicants, licensees, [or] certificate holders,[any] and qualifying patients and their primary caregivers, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. [Licensed entities] Entities or individuals making legal retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise[.]; and

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue of this state upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV[*], Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this [section] Article XIV, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand, or in a reasonably timely manner, to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this Article XIV and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician, and his or her respective health facility or office, shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider, and his or her respective health facility or office, shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to [civil or] criminal prosecution under Missouri law, denial of any right or privilege, [civil or administrative penalty or] sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of [up to six] at least twelve flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct. 20-146

(8) An attorney, and his or her firm, shall not be subject to legal liability, or disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to civil or criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal [or civil] liability or sanctions under Missouri law, except as provided for by this section. To ensure protection of public health and safety, a consumer, qualifying patient, primary caregiver, certificate holder, applicant or licensee harmed as a result of a violation of the provisions of this section shall be entitled to compensation and reasonable costs, including costs and reasonable attorneys' fees, and as authorized under existing consumer protection laws as of December 6, 2018.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients and primary caregivers to easily and reasonably access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; [or]

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the direct and immediate influence of marijuana [while at work] at the workplace or disciplining the employee or former employee, up to and including

termination from employment, for working or attempting to work while under the direct and immediate influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; [or]

(b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses unrelated to nonviolent marijuana crimes.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All entities, including but not limited to, entities holding medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department [, in a font size at least as large as the largest other font size used on the package,] as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than [three] six qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law for public consumption.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two] Six qualifying patients, who [both] all hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility, whether utilizing a primary caregiver or not. [No more than twelve qualifying patient or primary caregiver

cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.] 20-146

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing preschool, elementary or secondary school, child daycare center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality. The only local government or association ordinances or regulations that are binding on a marijuana facility or any other regulated entity or individual are those of the local government where the marijuana facility is located.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. [A qualifying patient must obtain a new physician certification at least annually.]

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use, unless otherwise required by law.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.

(Adopted November 6, 2018) (Amended November 6, 2020)

[*Ballot language of Constitutional Amendment 2 adopted November 6, 2018, placed this section in a new Article XIV but was renumbered as a new Article XIV, Section 1.]

Section 2. Marijuana Legalization, Regulation, and Taxation -1. Purposes.

The purposes of this section 1 are to make marijuana legal under state and local laws for adults twenty-one years of age or older, and to safely control the commercial production and distribution of marijuana under a system that reasonably licenses, reasonably regulates, and reasonably taxes the businesses and consumers involved. These purposes include protecting public safety, health and welfare in a fair way and safe environment, while promoting the Missouri cannabis industry. The people of this state have the right to the enjoyment of the gains of their own cannabis industry, including the fair and equal opportunity to participate in that industry by means that are not overly burdensome, discriminating or unfair. This section and its purposes shall be governed and protected as proscribed and mandated by the people of this great state, the "Show Me" state.

The intent of the purposes of this section is to provide revenue from the Missouri cannabis industry for education and general welfare programs for the people; prevent arrest and penalty for personal possession and cultivation of marijuana by adults twenty-one years of age or older; protect the rights of the voters of this state in support of a successful Missouri cannabis industry; minimize tax burdens of the people of this state by maintaining reasonable tax rates on cannabis that are lower than those of similar industries and reducing administrative, judicial and congressional expenses of illegal cannabis markets, including reduction of overcrowding of prisons and incarceration rates resulting from non-violent offenses related to cannabis; promoting the Missouri cannabis industry to foster economic prosperity for its people; enhance the quality of life, rights and benefits afforded to the honorable veterans of this state; allow for a marijuana microbusiness facility license to be held by any natural person that has been a resident of this state for at least one year and is otherwise qualified to directly control, safely operate and majority own a cannabis business in this state; remove the commercial production and distribution of marijuana from the illicit market for protection and safety of the people; prevent revenue generated from commerce in marijuana from going to criminal enterprises; prevent the distribution of marijuana to persons under twenty-one years of age; protect health by ensuring the safety of marijuana and products containing marijuana; and ensure the security of marijuana facilities. To the fullest extent possible, this section shall be interpreted in accordance with the purposes and intent set forth in this section and this Constitution.

This section is not intended to allow for the public use of marijuana, driving while intoxicated by marijuana, the use of marijuana in the workplace, or the use of marijuana by persons under twenty-one years of age.

2. Definitions.

(1) "Consumer" means a person who is at least twenty-one years of age.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the final signs of sexual maturity through harvest.

(5) "Local government" means, in the case of an incorporated area, a village, town, or city and, in the case of an unincorporated area, a county.

(6) "Marijuana" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana or cannabis, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp, including any part of that plant, including the seeds thereof and all derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than three-tenths of one percent on a dry weight basis, or commodities or products manufactured with industrial hemp, or any other

ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other products.

(7) "Marijuana accessories" means any equipment, product, material, or combination of equipment, products, or materials, which are specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.

(8) "Marijuana Cultivation Facility" means an entity licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a marijuana dispensary facility, marijuana testing facility, or to a marijuana-infused products manufacturing facility, and to any other facility regulated under this Article XIV.

(9) "Marijuana Dispensary Facility" means an entity licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and marijuana accessories as provided for in this section to consumers, and any other facility, qualifying patient, primary caregiver, or any other legal purchaser regulated under this Article XIV.

(10) "Marijuana Facility" means a marijuana cultivation facility, marijuana dispensary facility, marijuana testing facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or any other type of marijuana-related facility or business licensed or certified by the department pursuant to this section.

(11) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(12) "Marijuana-Infused Products Manufacturing Facility" means an entity licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a marijuana dispensary facility, a marijuana testing facility, or to another marijuana-infused products manufacturing facility, and to any other facility licensed or regulated under this Article XIV.

(13) "Marijuana Microbusiness Facility" means an entity, majority owned and directly controlled by one or more Missouri residents that have lived in the state for at least one year prior to the date of application, licensed and/or certified to cultivate not more than one hundred and fifty flowering plants or one-thousand five hundred square feet of flowering canopy space, process, store, transport, sell and package the marijuana and marijuana-infused products it cultivates and processes as stated in this Article XIV; and licensed and/or certified to acquire, store, process, manufacture, transport, deliver, sell, or otherwise transfer marijuana and marijuana-infused products it possesses or obtains from any other marijuana facility, to consumers, any other facility, qualifying patient, primary caregiver, or any other entity or individual licensed under this Article XIV.

(14) "Marijuana Testing Facility" means an entity certified by the department to acquire, test, certify, and transport marijuana.

(15) "Owner" means an officer, board member, or other individual who has a financial (other than a security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.

(16) "Unduly burdensome" means that the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject licensees or potential licensees to such a high investment of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the marijuana facility.

3. Limitations.

(1) Except as otherwise provided in this Article XIV, this section does not preclude, limit, or affect laws that assign liability relative to, prohibit, or otherwise regulate:

(a) Delivery or distribution of marijuana or marijuana accessories, with or without consideration, to a person younger than twenty-one years of age;

(b) Purchase, possession, use, or transport of marijuana or marijuana accessories by a person younger than twenty-one years of age;

(c) Consumption of marijuana by a person younger than twenty-one years of age;
(d) Operating or being in physical control of any motor vehicle, train, aircraft, motorboat, or other motorized form of transport while intoxicated by marijuana;
(e) Consumption of marijuana while operating or being in physical control of a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;
(f) Smoking marijuana within a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;
(g) Possession or consumption of marijuana or possession of marijuana accessories on the grounds of a public or private preschool, elementary or secondary school, institution of higher education, in a school bus, or on the grounds of any correctional facility;
(h) Smoking marijuana in a location where smoking tobacco is prohibited;
(i) Consumption of marijuana in a public place, other than in an area licensed by the department for consumption;
(j) Conduct that endangers others, including actions prohibited under consumer protection laws of this state in existence as of December 3, 2020;
(k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence or professional malpractice, unless protected under existing law, this section and Article XIV; or
(l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.
(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this Article XIV, or any other law of this state allowing for or regulating marijuana for medical use.
(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for violation of a workplace drug policy or for working while intoxicated by marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action against a person with respect to hire, tenure, terms, conditions, or privileges of employment because of that person's violation of a workplace drug policy or because that person was working while intoxicated by marijuana.
(4) This section allows a person to prohibit or otherwise regulate the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the person owns, leases, occupies, or manages, except that a lease agreement executed after the enactment of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.
4. Regulation of Marijuana.
(1) In carrying out the implementation of this section, the department shall have the authority to:
(a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any rule promulgated pursuant to this section and its purposes;
(b) Promulgate rules or emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section, so long as such rules are reasonable and not unduly burdensome;
(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;
(d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a consumer

to ensure that no marijuana grown by a marijuana cultivation facility or marijuana microbusiness facility or manufactured by a marijuana-infused products manufacturing facility or marijuana microbusiness facility is sold or otherwise transferred to a consumer except by a marijuana dispensary facility, a marijuana microbusiness facility, or any other facility legally able to sell marijuana or medical marijuana under this Article XIV. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products and medical marijuana and medical marijuana infused-products, including standards for any facility or certificate holder transporting to and from facilities regulated under this Article XIV to any other facility, qualifying patient, primary caregiver, or any other legal purchaser regulated under this Article XIV. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana dispensary facility, marijuana microbusiness facility, marijuana testing facility, or any other entity regulated under this Article XIV. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity regulated, licensed or certified pursuant to this Article XIV shall be allowed to transport its own inventory and products in compliance with department transportation rules;

(f) Promulgate rules and emergency rules for licensing, regulation and oversight of marijuana microbusiness facilities in accordance with the purposes of this section, including the requirement that an entity holding a marijuana microbusiness facility license be majority owned and directly controlled by one or more Missouri residents that have been living in this state for at least one year prior to application, and for any other requirements, obligations or rights of marijuana microbusinesses established pursuant to this section and Article XIV;

(g) Provide for the issuance of additional types or classes of licenses, with preference of licensure given to entities majority owned and directly controlled by Missouri residents that have been living in the state for at least one year prior to the date of application, including but not limited to, licenses to operate marijuana-related businesses that allow for limited processing, transportation, delivery and storage of marijuana, licenses for the consumption of marijuana within designated, age-restricted areas, licenses to applicants denied a license under section 1 of this Article XIV if doing so would further the purposes of this Article XIV, and licenses intended to facilitate scientific research, education and promotion of the cannabis industry in accordance with the purposes of this section;

(h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section;

(i) Establish a system to qualify marijuana license and certificate applicants, only if absolutely necessary to promote the purposes of this Article XIV, including qualifications for the following:

(i) The character, veracity, residency, and background of principal officers or managers;

(ii) The operating plan proposed by the applicant, including the ability to maintain public health and safety, accountability, procedures to prevent illegal product diversion and/or inversion, illegal sales, and other factors the department deems absolutely necessary to promote the purposes of this section; and

(iii) In the case of marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and potency and health care industry experience.

(j) In reviewing applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors.

(2) The department shall issue a marijuana facility license to each applicant that submits an operating plan and proof of compliance with rules and emergency rules promulgated in accordance with this section. The department shall review applications from any person or

entity previously denied a license under this Article XIV prior to reviewing applications from other applicants.

(3) The department shall promulgate rules and emergency rules establishing a system in which any qualified entity majority owned and directly controlled by one or more Missouri residents living in the state for at least one year prior to the date of application, be granted a marijuana microbusiness license in accordance with the purposes of this section and requirements established herein.

(4) The department shall issue rules or emergency rules necessary for the implementation and enforcement of this section and ensure the right to, availability, and safe use of marijuana by consumers in accordance with the purposes of this section. In developing such rules or emergency rules, the department may consult or contract with other public agencies. The department may, but is not required to, consider the following subjects when promulgating rules or emergency rules only when necessary for implementation of this section and if in furtherance of the purposes of this section:

(a) Procedures for issuing a license and for renewing, suspending, and revoking a license;

(b) Qualifications for licensure that are directly and demonstrably related to the operation of a marijuana facility;

(c) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products and prohibitions on pesticides that are not safe for use on marijuana;

(d) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;

(e) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;

(f) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;

(g) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;

(h) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;

(i) Restrictions on advertising, marketing, and display of marijuana, marijuana-infused products, marijuana accessories, and marijuana facilities;

(j) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;

(k) Administrative penalties for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including administrative fines and suspension, revocation, or restriction of a license. The licensee may choose to challenge any penalties imposed by the department through the Administrative Hearing Commission, or its successor entity. Pursuant to § 536.100 R.S.Mo., or successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;

(l) Reporting and transmittal of tax payments required under this section;

(m) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(n) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(5) The department shall issue rules or emergency rules for marijuana and marijuana-infused products independent testing and certification programs for marijuana facility licensees and require licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.

(6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as marijuana testing facilities. No marijuana testing facility shall be owned by an entity under common control, ownership, or management, directly or indirectly, as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, marijuana facility or other facility, individual or entity licensed or certified pursuant to this section.

(7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, as amended from time to time. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee are subject to closure. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) Identifying the applicant or licensee;

(b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) Where disclosure is reasonably necessary for the protection of public health or safety; or

(e) That are otherwise subject to public inspection under applicable law.

(8) Within two hundred and seventy days of December 3, 2020, the department shall make available to the public license application forms and application instructions, which are not unduly burdensome, for marijuana cultivation facilities, marijuana testing facilities, marijuana dispensary facilities, marijuana microbusiness facilities, marijuana-infused products manufacturing facilities, and any other license types and certifications it deems necessary to promote the purposes of this section. The department shall consider the financial impact on applicants previously denied licensure under this Article XIV, costs of reevaluating a similar application submitted by the same entity under this Article XIV and the non-refundable fees paid by applicants denied a license under this Article XIV when establishing rules and emergency rules for licensure requirements, fees, application procedures and instructions for licensure under this section.

(9) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only one and obtain only one license to grow cannabis as a cannabis cultivation facility. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. During the first three-year licensing period, the facility shall be limited by the department to one thousand flowering plants or ten thousand square feet of flowering canopy. In subsequent years, the facility shall be limited by the department to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The department shall charge each applicant a non-refundable application fee of three thousand dollars and a non-refundable license renewal fee of three thousand dollars. Annual fees shall be assessed at the rate of one dollar per square foot or at a rate of ten dollars per plant. Application, annual, and license renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the

Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(10) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only three and obtain only three licenses to operate a marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal for each applicant filing an application within three years of December 3, 2020, and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of three thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana dispensary facility licenses.

(11) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only three and obtain only three licenses to operate a marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal for each applicant filing an application within three years of December 3, 2020, and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of three thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana-infused products manufacturing facility licenses.

(12) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only one and obtain only one license to operate a marijuana microbusiness facility. A marijuana microbusiness facility license shall allow the licensee to be vertically integrated, including but not limited to, cultivating, processing, storing, manufacturing, transferring, transporting and dispensing marijuana, medical marijuana, and the products made therefrom. A marijuana microbusiness facility may be integrated using any methods allowed under this section. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed, if the applicant or license holder so chooses. A marijuana microbusiness facility licensee may sell marijuana it cultivates, processes, manufactures, and packages to any marijuana dispensary facility, any other marijuana microbusiness facility, directly to consumers, or to any other facility or individual able to purchase under this Article XIV. A marijuana microbusiness facility may also process, manufacture, store, acquire, sell, transfer or otherwise distribute, marijuana and marijuana-infused products it obtains from another marijuana microbusiness facility or any other facility or individual licensed or certified under this Article XIV so long as such facility is in compliance with other requirements of this section and this Article XIV. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of one thousand five hundred dollars per license application or renewal for each applicant filing an application within three years of December 3, 2020 and shall charge each applicant a non-refundable fee of one thousand five hundred dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of one thousand five hundred dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the

previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may not also be an owner of another licensed marijuana facility or medical marijuana facility regulated under this Article XIV. However, the owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this Article XIV. If granted one or more of these licenses, the marijuana microbusiness facility owner may transition to other licensed operations on a reasonably practical timetable established by the department.

(13) Any entity holding a marijuana microbusiness facility license must be at least seventy-five percent owned and directly controlled by one or more natural persons that have been living in the state of Missouri for at least one year prior to the date of application. Marijuana microbusiness facilities may, but shall not be required to obtain a certification issued by the department or any entity or organization designated by the department attesting to the qualifications of the entity, compliance with department and industry safety, health, ethical and traditionally recognized standards of the cannabis industry, and/or the quality of its marijuana and/or marijuana-infused products.

(14) The department shall begin accepting license and certification applications for marijuana dispensary facilities, marijuana testing facilities, marijuana cultivation facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred and seventy days after December 3, 2020. Applications for licenses under this section shall be approved or denied by the department no later than ninety days after their submission. If the department fails to carry out its non-discretionary duty to approve or deny an application within ninety days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(15) The department shall issue marijuana facility licenses in a manner providing special and additional consideration to applicants denied a commercial license under section 1 of this Article XIV. Licensees under section 1 of this Article XIV may apply for and obtain only one of the same or similar license type under this section. An applicant, including affiliated entities, not awarded any licensure under section 1 shall receive a credit from the department in the amount of any paid non-refundable fees required under section 1, and that credit shall only be applied to the initial application submission process in this section. This paragraph (15) shall expire five hundred and fifty days after December 3, 2020.

(16) The department shall ensure rules and emergency rules promulgated under this section incorporate existing environmental and waste disposal laws. The department shall issue guidance to assist marijuana facilities, marijuana related businesses and ancillary industries with compliance of all rules and emergency rules promulgated under this section. The department may promulgate rules and emergency rules establishing a special waste permitting or certification program, if necessary, to ensure public health and safety.

(17) A prospective applicant for a license pursuant to subdivision (15) may notify the department of their intent to apply and prefile their application fee with the department by February 1, 2021.

(18) Notwithstanding the provisions of section 1 of this Article XIV, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits marijuana dispensary facilities under this section, or is otherwise prevented from operating a marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary facility applicant may apply to the department for a marijuana dispensary license pursuant to subdivision (15) of this paragraph in a new location, and such application shall be granted so long as the applicant meets all the requirements of this section and department regulation. If an existing medical marijuana dispensary facility is located in a jurisdiction that temporarily prohibits non-medical retail marijuana facilities prior to November 3, 2020, and the medical marijuana dispensary facility does not apply to open a

marijuana dispensary facility in a new location, the medical marijuana dispensary facility may apply to the department for a marijuana dispensary facility license after November 3, 2020, and if the temporary prohibition is not permanently enacted, such application shall be granted, so long as the applicant meets all the requirements of this section and department regulation.

(19) Notwithstanding the provisions of section 1 of this Article XIV, three years after receiving a marijuana dispensary facility license pursuant to subdivision (15), a marijuana dispensary facility may apply to the department for permission to relocate the marijuana dispensary facility to a new location.

(20) The department shall issue licenses for marijuana microbusiness facilities to all qualified and certified applicants. Certifications will only be required if determined necessary by the department. If a certification process is determined necessary, it must be promulgated in accordance with the purposes of this section.

(21) The department shall not issue or deny any license if doing so is not in furtherance of the purposes of this Article XIV and Article II of this Constitution.

(22) The department may promulgate rules allowing for the sale, distribution, transport and transfer of marijuana and marijuana-infused products by facilities licensed under this section to facilities licensed under section 1 of this Article XIV, if doing so promotes the purposes of this Article XIV. The department shall promulgate rules ensuring qualifying patients and qualifying primary caregivers licensed, certified, or otherwise allowed to purchase medical marijuana under section 1 have access to purchase marijuana from facilities licensed under this section. Rules promulgated under this subsection (22) must ensure marijuana transferred pursuant to this section meets the same safety, health and quality standards as required for marijuana cultivated, processed, and sold to qualifying patients and primary caregivers pursuant to section 1 of this Article XIV.

(23) The department may not promulgate a rule prohibiting a marijuana facility from operating at the same location as a medical marijuana facility of the same license type operating pursuant to section 1 of this Article XIV.

(24) Marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers licensed or otherwise allowed to purchase medical marijuana under section 1 of this Article XIV.

(25) The department, or a designated association or entity, may charge a fee not to exceed one hundred dollars for all certifications deemed necessary and/or required for marijuana microbusiness facilities. The department may not charge more than five thousand dollars for any other certification issued pursuant to this section.

(26) Until such time that federal law permits otherwise, all marijuana sold in Missouri pursuant to this Article XIV shall be cultivated in Missouri. If allowed by federal law, marijuana may be exported from Missouri in accordance with department regulations. If allowed by federal law, the department may promulgate rules related to the import and export of marijuana and shall promulgate a rule requiring that all marijuana flower imported into Missouri be tested by a certified marijuana testing facility or certified medical marijuana testing facility located in Missouri and comply with Missouri testing standards.

(27) Until such time that federal law permits otherwise, all marijuana-infused products sold in Missouri pursuant to this Article XIV shall be manufactured in Missouri. If allowed by federal law, marijuana-infused products may be exported from Missouri in accordance with department regulations. If allowed by federal law, the department may promulgate rules related to the import and export of marijuana-infused products in accordance with the purposes of this section.

(28) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the Administrative Hearing Commission, or successor entity. Pursuant to § 536.100 R.S.Mo., or successor

provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.

(29) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(30) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers and managers are not identified to the application reviewers.

(31) Unless otherwise provided in this section, the department shall have sole authority in this state to issue licenses, certifications, registrations or requirements for marijuana facilities, consumers, and marijuana testing facilities.

(32) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

(1) Except as provided in this subsection, a local government may prohibit the operation of all non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction through voter approval of a ballot question submitted to the qualified voters of the local government, provided that any ballot measure shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year starting in 2022, thereby avoiding any additional local governmental cost or expense. Until the first general election following the general election held November 3, 2020, a local government may, through local ordinance, temporarily prohibit non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction. When a ballot question prohibiting non-medical retail marijuana facilities regulated under this section is submitted to voters, the following question shall be presented to the voters in the area subject to the prohibition, "Shall (insert name of local government) ban all non-medical retail marijuana facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forego any additional related local tax revenue? ( ) Yes () No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required majority, then the jurisdiction shall have no power to ban new non-medical retail marijuana facilities regulated under this section, unless voters at a subsequent election on the first Tuesday after the first Monday in November of an even-numbered year approve a ban on new non-medical retail marijuana facilities submitted to them by the governing body. A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition. In the case of a referral of a ballot question by the governing body or citizen petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year. A citizen petition to repeal an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review. Whether submitted by the governing body or by citizen petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical retail marijuana facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? ( ) Yes ( ) No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(2) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary, preschool or secondary school, child

day-care center, or church. The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located. Except as otherwise provided in this subsection, no local government shall prohibit marijuana facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of ten percent of the retail price or at a rate of one percent less than the current rate established for tobacco products in this state, whichever is less. The tax shall be collected by each licensed non-medical retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the "Veterans, Education, Public Welfare, Infrastructure, and Health Fund" created under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns, provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Veterans, Education, Public Welfare, Infrastructure, and Health Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made for or through contract or agreement for issuing standards and requirements promulgated pursuant to this section, reviewing applications and verifying compliance with this section, creating safety standards, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, distributed to the local government where the retail sale occurred, one-fifth of the remaining fund balance; and

(c) After the distribution to the local government where the retail sale occurred, the remaining fund balance shall be distributed as follows:

(i) One-fifth of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

(ii) One-fifth of the remainder of the fund balance to the State Road Fund created under Article XIV IV, section 30b of this Constitution for constructing and maintaining an adequate system of connected state highways;

(iii) One-fifth of the remainder of the fund balance to the department to provide grants to existing agencies and community-based not-for-profits, to increase access to evidence-based

low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders or similar disabilities. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants;

(iv) One-fifth of the remainder of the fund to provide funding to local agencies, subagencies and/or other governmental or non-profit organizations directly funding educational expenses and costs of public schools in Missouri school districts, with preference given to communities with the highest percentages of economically disadvantaged families, persons and/or children; and

(v) One-fifth of the remainder of the fund to provide funding to local, community-based non-profits providing food, housing and employment aid to economically disadvantaged persons in their respective local communities, with preference given to populations with the highest percentages of economically disadvantaged families, children and students.

All monies from the taxes and fees authorized hereunder shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana.

(6) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to criminal prosecution, denial of any right or privilege, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) An attorney, and his or her firm, shall not be subject to legal liability, or disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to any person related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal liability or sanctions under Missouri law, except as provided for by this section. To ensure protection of public health and welfare, any consumer, qualifying patient, primary caregiver, certificate holder, applicant or licensee harmed as a result of a violation of the provisions of this section shall be entitled to compensation and reasonable costs, including expenses, attorneys' fees and costs to remedy the harm, and as authorized under existing consumer protection laws as of December 3, 2020.

(4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for a marijuana offense, other than provision of marijuana to a minor;

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses unrelated to nonviolent marijuana crimes.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) All marijuana facilities and certificates shall be held by entities that are at least fifty-five percent owned and directly controlled by natural persons who have been residents of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, persons or entities outside the state of Missouri may own a non-controlling minority stake, indirectly, in such entities. By rule, the department may adjust the percentage of ownership required by residents of the state of Missouri, only if in accordance with the purpose of this section. Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to § 43.543 R.S.Mo., or successor provisions, and fees shall be paid pursuant to § 43.530 R.S.Mo., or successor provisions.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction up to and including loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, as mandated by the department, as containing "Marijuana" or a "Marijuana-Infused Product." Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public

place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this Article XIV shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility may allow a person under twenty-one years of age to volunteer or work for the marijuana facility, unless permitted by department regulation.

(11) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(12) To the fullest extent allowed by the Constitution of the United States, the Constitution of Missouri, and federal law, no unsolicited internet pop-up advertisements, banners on mass-market websites, unsolicited leaflets or handbills, or unsolicited direct mail advertisements for marijuana, marijuana-infused products, or marijuana accessories are permitted, and no off-site advertisement or marketing for marijuana, marijuana-infused products, or marijuana accessories may be placed on any billboard within the state or in any location exposed to view from a public place within one thousand feet of an elementary, preschool or secondary school, child daycare center, or church.

(13) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(14) No person shall extract resins from marijuana using dangerous materials or combustible gases without a marijuana-infused products manufacturing facility license or a marijuana microbusiness license that allows for this activity. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Possessing, using, ingesting, inhaling, processing, transporting, delivering and/or distributing without consideration three ounces or less of marijuana, except that not more than the equivalent of three ounces of marijuana, as determined by the department, may be in a concentrated form;

(b) Possessing, planting, cultivating, harvesting, drying, processing, or manufacturing one-half the number of plants a qualifying patient is permitted to cultivate pursuant to section 1 of this Article XIV and department regulation, provided:

(i) The plants and any marijuana produced by the plants in excess of four ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and

(ii) Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(d) Possessing, using, delivering, distributing, manufacturing, transferring, or selling to persons twenty-one years of age or older marijuana accessories.

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the department, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration one ounce or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section, a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than three times the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than three times the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than three times the amount of marijuana allowed by this subsection:

(a) For a first violation, is subject to an infraction punishable by a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana;

(b) For a second violation, is subject to an infraction punishable by a civil penalty not exceeding five hundred dollars and forfeiture of the marijuana;

(c) For a third or subsequent violation, is subject to a misdemeanor punishable by a fine not exceeding one-thousand dollars and forfeiture of the marijuana; and

(d) For a person under twenty-one years of age, is subject to a civil penalty not to exceed two hundred and fifty dollars. Any such person shall be provided the option of attending up to eight hours of drug education or counseling in lieu of the fine.

(7) Any person currently serving a sentence for a conviction, whether by trial, open or negotiated plea or otherwise, who would not have been guilty of an adult or juvenile offense, or who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article XIV been in effect at the time of the offense, may petition for and be granted a recall or dismissal of sentence before the trial court that entered the judgement of conviction in the person's case and may request resentencing or dismissal consistent with sections 1 and 2 of this Article XIV with credit for time and supervision period already served and such petition shall be granted.

(8) A person arrested, charged, or found guilty, whether by trial, open or negotiated plea or otherwise, for any offense that is no longer a crime after the effective dates of sections 1 and 2 of this Article XIV shall have the right to apply for expungement on and/or after December 3, 2020 and such expungement shall be granted and the records expunged from all government records. The effect of such order shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response

to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement.

(9) A person shall not be denied adoption, custody, or visitation rights relative to a minor, or any other individual under or in need of guardianship, solely for conduct that is permitted by this section and Article XIV, unless not in the best interests of the child as determined by other applicable laws and procedures unrelated to marijuana and cannabis.

(10) No person shall be denied access to or priority for an organ transplant for conduct that is permitted by this section.

11. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

12. Effective Date.

The provisions of this section shall become effective on December 3, 2020, as provided by this Constitution.

RE: Petition approval request from Mark Parachini regarding a proposed constitutional amendment to Article XIV (2020-145)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Parachini on January 10, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XIV is amended by amending Section 1 of Article XIV and enacting one new section to be known as Section 2 of Article XIV, to read as follows:

XIV Section 1. Right to access medical marijuana.

1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "**Administer**" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "**Department**" means the department of health and senior services, or its successor agency.

(3) "**Entity**" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "**Flowering plant**" means a marijuana plant from the time it exhibits the [first] final signs of sexual maturity through harvest.

(5) "**Marijuana**" or "**marihuana**" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis,* hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "**Marijuana-infused products**" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "**Medical marijuana cultivation facility**" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility or to any marijuana facility under this article.

(8) "**Medical marijuana dispensary facility**" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, [or to] a medical marijuana-infused products manufacturing facility, or to any legal consumer or marijuana facility licensed under this article.

(9) "**Medical marijuana-infused products manufacturing facility**" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, [or to] another medical marijuana-infused products manufacturing facility, or to any other marijuana facility licensed under this article.

(10) "**Medical marijuana testing facility**" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "**Medical use**" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "**Physician**" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "**Physician certification**" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "**Primary caregiver**" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(15) "**Qualifying medical condition**" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "**Qualifying patient**" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this

section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section.

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana,

plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and for requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under [substantially] common control, ownership, or management, directly or indirectly, as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, [or] medical marijuana dispensary facility, or any other licensee or certificate holder under this article.

(5) [The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.] Beginning December 2, 2020, all public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, as amended from time to time. Notwithstanding the foregoing, records containing proprietary business information obtained from an applicant or licensee are subject to closure. For documents submitted on or after December 2, 2020, the applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. For documents submitted prior to December 2, 2020, the applicant or licensee may advise the department, through a department approved process, of any records previously submitted by the applicant or licensee it believes contain proprietary business information. Proprietary business information shall include sales information, financial records, tax returns, credit reports, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) identifying the applicant or licensee;

(b) relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) where disclosure is reasonably necessary for the protection of public health or safety; or

(e) that are otherwise subject to public inspection under other applicable law.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting [may] shall be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting [may] shall be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting [may] shall be limited by the department [, at the election of the licensee,] to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable,

except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018 and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) [Except for good cause]To ensure qualifying patients have access to an adequate supply of medical marijuana, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate marijuana, including [up to six] non-flowering plants and at least twelve flowering plants for the [exclusive] use of that qualifying patient. Marijuana under this subsection (12) may not be sold. The card shall be valid for [twelve] thirty-six months from its date of issuance and shall be renewable with the [annual] submittal of a new or updated physician's certification. The department shall charge [an annual] a fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety-day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

(15) The department [may] shall restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States, and a restriction shall remain in effect once established, unless found to violate any other provision of law.. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department [may] shall restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States, and a restriction shall remain in effect once established, unless found to violate any other provision of law.. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department [may] shall restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018, and a restriction shall remain in effect once established, unless found to violate any other provision of law. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain [and annually renew] an identification card or cards from the department. The department shall charge a fee of twenty-

five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Cards shall be valid for three years and may be renewed with a new physician's certification. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain [and annually renew] an identification card from the department. Cards shall be valid for three years. The department shall charge a fee of [twenty-five] seventy-five dollars [per year], with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the

department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section I shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this section and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of [up to six] at least twelve flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney, and his or her firm, shall not be subject to legal liability, or disciplinary action by the state bar association or other professional licensing body, for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal [or civil] liability or sanctions under Missouri law, except as provided for by this section. To ensure protection of public health and safety, a consumer, qualifying patient, primary caregiver, certificate holder, applicant or licensee harmed as a result of a violation of the provisions of this section shall be entitled to compensation and reasonable costs, including court costs, expenses, and attorneys' fees, and as authorized under existing consumer protection laws as of the effective date of this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law. The only local government and association ordinances or regulations that are binding on a marijuana facility, qualifying patient, primary caregiver, certificate holder, or entity or individual regulated under this article, are those of the local government where the entity or individual is located.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All entities holding a license for a medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility [licenses], entities with medical marijuana testing facility certifications, and entities with

transportation certifications shall be held by entities that are majority owned and directly controlled by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may only own a minority stake, indirectly, in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department [, in a font size at least as large as the largest other font size used on the package,] as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than [three] six qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two] Six qualifying patients, who [both] all hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility, whether utilizing a primary caregiver or not. [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise

transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality. <u>The only local government ordinances or regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located</u>.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. [A qualifying patient must obtain a new physician certification at least annually.]

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.

Section 2. Marijuana Legalization, Regulation, and Taxation

1. Purposes.

The purposes of this section are to make marijuana legal under state and local law for adults twenty-one years of age or older, and to safely control the commercial production and distribution of marijuana under a system that licenses, regulates and reasonably taxes the businesses and consumers involved while promoting and protecting public safety, health and welfare in a fair way and safe environment. These purposes include promoting the Missouri cannabis industry of the people of this state and their rights to enjoyment of the gains of that industry, including the fair and equal opportunity to participate in their cannabis industry by means that are not overly burdensome, discriminating or unfair to its people. This section and its purposes shall be governed and protected as proscribed and mandated by the people of this great state, the "Show Me" state.

The intent of the purposes of this section is to provide revenue from the Missouri cannabis industry for education and general welfare programs for the people; prevent arrest and penalty for personal possession and cultivation of marijuana by adults twenty-one years of age or older; protect the rights of the voters of this state in support of a successful Missouri cannabis industry; minimize tax burdens of the people of this state by maintaining reasonable tax rates on cannabis that are lower than those of similar industries and reducing administrative, judicial and congressional expenses of illegal cannabis markets, including reduction of overcrowding of prisons and incarceration rates resulting from non-violent offenses related to cannabis; promoting the Missouri cannabis industry to foster economic prosperity for its people; enhance the quality of life, rights and benefits afforded to the honorable veterans of this state; allow for a marijuana microbusiness facility license to be held by any natural person that has been a resident of this state for at least one year and is otherwise qualified to directly control, safely operate and majority own a cannabis business in this state; remove the commercial production and distribution of marijuana from the illicit market for protection and safety of the people; prevent revenue generated from commerce in marijuana from going to criminal enterprises; prevent the distribution of marijuana to persons under twenty-one years of age; protect health by ensuring the safety of marijuana and products containing marijuana; and ensure the security of marijuana facilities. To the fullest extent possible, this section shall be interpreted in accordance with the purposes and intent set forth in this section and Constitution.

This section is not intended to allow for the public use of marijuana, driving while intoxicated by marijuana, the use of marijuana in the workplace, or the use of marijuana by persons under twenty-one years of age.

2. Definitions.

(1) "Consumer" means a person who is at least twenty-one years of age.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Local government" means, in the case of an incorporated area, a village, town, or city and, in the case of an unincorporated area, a county.

(6) "Marijuana" means *cannabis indica*, *cannabis sativa*, and *cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana or cannabis, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" does not include industrial hemp, including any part of that plant, including the seeds thereof and all derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than three-tenths of one percent on a dry weight basis, or commodities or products manufactured with industrial hemp, or any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other products.

(7) "Marijuana accessories" means any equipment, product, material, or combination of equipment, products, or materials, which is specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.

(8) "Marijuana Cultivation Facility" means an entity licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a marijuana dispensary facility, marijuana testing facility, or to a marijuana-infused products manufacturing facility, or as otherwise provided in this article.

(9) "Marijuana Dispensary Facility" means an entity licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and marijuana accessories as provided for in this section to consumers, or as otherwise provided in this article.

(10) "Marijuana Facility" means a marijuana cultivation facility, marijuana dispensary facility, marijuana testing facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or any other type of marijuana-related facility or business licensed or certified by the department pursuant to this section.

(11) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(12) "Marijuana-Infused Products Manufacturing Facility" means an entity licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a marijuana dispensary facility, a marijuana testing facility, or to another marijuana-infused products manufacturing facility, or as otherwise provided in this article.

(13) "Marijuana Microbusiness Facility" means an entity, majority owned and directly controlled by one or more Missouri residents that have lived in the state for at least one year prior to the date of application, licensed and/or certified to cultivate not more than one hundred and fifty flowering plants or one-thousand five hundred square feet of flowering canopy space, process, store, transport, sell and package the marijuana and marijuana-infused products it cultivates and processes as stated in this article, and/or to acquire, store, manufacture, transport, deliver, sell, or otherwise transfer marijuana and marijuana-infused products it possesses or obtains from other marijuana facilities, marijuana dispensary facilities and marijuana testing facilities, to other marijuana microbusiness facilities, consumers or as otherwise provided in this article.

(14) "Marijuana Testing Facility" means an entity certified by the department to acquire, test, certify, and transport marijuana.

(15) "Owner" means an officer, board member, or other individual who has a financial (other than a security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.

(16) "Unduly burdensome" means that the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject licensees or potential licensees to such a high investment of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the marijuana facility.

3. Limitations.

(1) Except as otherwise provided in this article, this section does not preclude, limit, or affect laws that assign liability relative to, prohibit, or otherwise regulate:

(a) Delivery or distribution of marijuana or marijuana accessories, with or without consideration, to a person younger than twenty-one years of age;

(b) Purchase, possession, use, or transport of marijuana or marijuana accessories by a person younger than twenty-one years of age;

(c) Consumption of marijuana by a person younger than twenty-one years of age;

(d) Operating or being in physical control of any motor vehicle, train, aircraft, motorboat, or other motorized form of transport while intoxicated by marijuana;

(e) Consumption of marijuana while operating or being in physical control of a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

(f) Smoking marijuana within a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

(g) Possession or consumption of marijuana or possession of marijuana accessories on the grounds of a public or private preschool, elementary or secondary school, institution of higher education, in a school bus, or on the grounds of any correctional facility;

(h) Smoking marijuana in a location where smoking tobacco is prohibited;

(i) Consumption of marijuana in a public place, other than in an area licensed by the department for consumption;

(j) Conduct that endangers others, including actions prohibited under existing consumer protection laws of this state as of the effective date of this section;

(k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence or professional malpractice, unless protected under existing law, this section or article; or

(l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.

(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this article, or any other law of this state allowing for or regulating marijuana for medical use.

(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for violation of a workplace drug policy or for working while intoxicated by marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action against a person with respect to hire, tenure, terms, conditions, or privileges of employment because of that person's violation of a workplace drug policy or because that person was working while intoxicated by marijuana.

(4) This section allows a person to prohibit or otherwise regulate the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the person owns, leases, occupies, or manages, except that a lease agreement executed after the enactment of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.

4. Regulation of Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any rule promulgated pursuant to this section and its purposes;

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section so long as such rules are reasonable and not unduly burdensome;

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a consumer to ensure that no marijuana grown by a marijuana cultivation facility or marijuana microbusiness facility or manufactured by a marijuana-infused products manufacturing facility or marijuana microbusiness facility is sold or otherwise transferred to a consumer except by a marijuana dispensary facility, a marijuana microbusiness facility, or any other facility legally able to sell marijuana or medical marijuana under this article. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products and medical marijuana and medical marijuana infused-products, including standards for transporting to and from facilities licensed under this article. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana dispensary facility, marijuana microbusiness facility, marijuana testing facility, or any other entity with a license or transportation certification under this article. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this article shall be allowed to transport its own inventory and products in compliance with department transportation rules;

(f) Promulgate rules and emergency rules for licensing, regulation and oversight of marijuana microbusiness facilities in accordance with the purposes of this section, including the requirement that an entity holding a marijuana microbusiness facility license be majority owned and directly controlled by one or more Missouri residents that have been living in this state for at least one year prior to application, and for any other

requirements, obligations or rights of marijuana microbusinesses established pursuant to this section and article;

(g) Provide for the issuance of additional types or classes of licenses, with preference of licensure given to entities majority owned and directly controlled by Missouri residents that have been living in the state for at least three years prior to the date of application, including but not limited to, licenses to operate marijuana-related businesses that allow for limited processing, transportation, delivery and storage of marijuana, licenses for the consumption of marijuana within designated, age-restricted areas, licenses to applicants denied a license under section 1 of this article if doing so would further the purposes of this article, and licenses intended to facilitate scientific research, education and promotion of the cannabis industry in accordance with the purposes of this section;

(h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section;

(i) Establish a system to qualify marijuana license and certificate applicants, including qualifications for the following:

(i) The character, veracity, residency, and background of principal officers or managers;

(ii) The operating plan proposed by the applicant, including the ability to maintain public health and safety, accountability, procedures to prevent illegal product diversion and/or inversion, illegal sales, and other factors the department deems absolutely necessary to promote the purposes of this section:

(iii) In the case of marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and potency and health care industry experience;

(j) In reviewing applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors.

(2) The department shall issue a marijuana facility license to each applicant that submits an operating plant and proof of compliance with rules and emergency rules promulgated in accordance with this section. The department shall review applications from any person or entity previously denied a license under this article prior to reviewing applications from other applicants.

(3) The department shall promulgate rules and emergency rules establishing a system in which any qualified entity majority owned and directly controlled by one or more Missouri residents living in the state for at least one year prior to the date of application, be granted a marijuana microbusiness license in accordance with the purposes of this section.

(4) The department shall issue rules or emergency rules necessary for the implementation and enforcement of this section and ensure the right to, availability, and safe use of marijuana by consumers in accordance with the purposes of this section. In developing such rules or emergency rules, the department may consult or contract with other public agencies. The department may, but is not required to, consider the following subjects when promulgating rules or emergency rules only when necessary for implementation of this section and if in furtherance of the purposes of this section:

(a) Procedures for issuing a license and for renewing, suspending, and revoking a license;

(b) Qualifications for licensure that are directly and demonstrably related to the operation of a marijuana facility;

(c) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products and prohibitions on pesticides that are not safe for use on marijuana;

(d) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;

(e) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;

(f) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;

(g) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;

(h) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;

(i) Restrictions on advertising, marketing, and display of marijuana, marijuana-infused products, marijuana accessories, and marijuana facilities;

(j) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;

(k) Administrative penalties for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including administrative fines and suspension, revocation, or restriction of

a license. The licensee may choose to challenge any penalties imposed by the department through the Administrative Hearing Commission, or its successor entity. Pursuant to § 536.100 R.S.Mo., or successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;

(l) Reporting and transmittal of tax payments required under this section;

(m) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section;

(n) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(5) The department shall issue rules or emergency rules for marijuana and marijuana-infused products independent testing and certification program for marijuana facility licensees and requiring licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.

(6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible. at least two entities as marijuana testing facilities. No marijuana testing facility shall be owned by an entity under common control, ownership, or management, directly or indirectly, as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, marijuana facility or other facility, individual or entity licensed or certified pursuant to this section.

(7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, as amended from time to time. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee are subject to closure. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, cultivation information unrelated to product safety. testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) Identifying the applicant or licensee;

(b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) Where disclosure is reasonably necessary for the protection of public health or safety; or

(e) That are otherwise subject to public inspection under applicable law.

(8) Within two hundred and seventy days of the effective date of this section, the department shall make available to the public license application forms and application instructions, which are not unduly burdensome, for marijuana cultivation facilities, marijuana testing facilities, marijuana dispensary facilities, marijuana microbusiness facilities, marijuana-infused products manufacturing facilities, and any other license types and certifications it deems necessary to promote the purposes of this section. The department shall consider the financial impact on applicants previously denied licensure under this article, costs of reevaluating a similar application submitted by the same entity under this article and the non-refundable fees paid by applicants denied a license under this article when establishing rules and emergency rules for licensure requirements, fees, application procedures and instructions for licensure under this section.

(9) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only one and obtain only one license to grow cannabis as a cannabis cultivation facility. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. During the first three-year licensing period, the facility shall be limited by the department to one thousand flowering plants or ten thousand square feet of flowering canopy. In subsequent years, the facility shall be limited by the department to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The department shall charge each applicant a non-refundable application fee of three thousand dollars and a non-refundable license renewal fee of three thousand dollars. Annual fees shall be assessed at the rate of one dollar per square foot or at a rate of ten dollars per plant. Application, annual, and license renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(10) An entity, including its associated or affiliated entities, may apply to the department for only three and obtain only three licenses to operate a marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of three thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana dispensary facility licenses.

(11) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only three and obtain only three licenses to operate a marijuana-infused

products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of three thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana-infused products manufacturing facility licenses.

(12) An entity, including its associated or affiliated entities, directly or indirectly, may apply to the department for only one and obtain only one license to operate a marijuana microbusiness facility. A marijuana microbusiness facility license shall allow the licensee to be vertically integrated, including but not limited to, cultivating, processing, storing, manufacturing, transferring, transporting and dispensing marijuana, medical marijuana, and the products made therefrom. A marijuana microbusiness facility may be integrated in any way consistent with and allowed under this section. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed, if the applicant or license holder so chooses. A marijuana microbusiness facility licensee may sell marijuana it cultivates, processes, manufactures, and packages to any marijuana dispensary facility, any other marijuana microbusiness facility, directly to consumers, or to any other facility or individual able to purchase under this article. A marijuana microbusiness facility may also process, manufacture, store, acquire, sell, transfer or otherwise distribute, marijuana and marijuana-infused products it obtains from another marijuana microbusiness facility or any other facility or individual licensed or certified under this article so long as in compliance with other requirements of this section and article. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of one thousand five hundred dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of one thousand five hundred dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of one thousand five hundred dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may not also be an owner of another licensed marijuana facility or medical marijuana facility regulated under this article. However, the owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this article. If granted one or more of these licenses, the marijuana microbusiness facility owner may transition to other licensed operations on a reasonably practical timetable established by the department. In addition to the requirements in this subsection (12), a marijuana micro business facility must obtain a certification as required per this section.

(13) Any entity holding a marijuana microbusiness facility license must be at least seventy-five percent owned and directly controlled by one or more natural persons that have been living in the state of Missouri for at least one year prior to the date of application. Marijuana microbusiness facilities may, but shall not be required to, obtain a certification issued by the department, or any entity or organization designated by the department, attesting to the qualifications of the entity, compliance with department and industry safety, health, ethical and traditionally recognized standards of the cannabis industry, and/or the quality of its marijuana and/or marijuana-infused products.

(14) The department shall begin accepting license and certification applications for marijuana dispensary facilities, marijuana testing facilities, marijuana cultivation facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred and seventy days after the effective date of this section. Applications for licenses under this section shall be approved or denied by the department no later than ninety days after their submission. If the department fails to carry out its non-discretionary duty to approve or deny an application within ninety days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(15) The department shall issue marijuana facility licenses in a manner providing special and additional consideration to applicants denied a commercial license under section 1 of this article. Licensees under section 1 of this article may apply for and obtain only one of the same or similar license type under this section. An applicant, including affiliated entities, not awarded any licensure under section 1 shall receive a credit from the department in the amount of any paid non-refundable fees required under section 1 and that credit shall only be applied to the initial application submission process in this section. Subdivision (15) of this subsection shall expire five hundred and fifty days after the effective date of this section.

(16) The department shall ensure rules and emergency rules promulgated under this section incorporating existing environmental and waste disposal laws of this state. The department shall establish a cannabis special waste rule to assist marijuana facilities, marijuana related businesses and ancillary industries comply with all rules and emergency rules promulgated under this section. The department may promulgate rules and emergency rules establishing a special waste permitting or certification program, if necessary, to ensure public health and safety.

(17) A prospective applicant for a license pursuant to subdivision (15) may notify the department of their intent to apply and prefile their application fee with the department by February 1, 2021.

(18) Notwithstanding the provisions of section 1 of this article, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits marijuana dispensary facilities under this section, or is otherwise prevented from operating a marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary facility applicant may apply to the department for a marijuana dispensary license pursuant to subdivision (15) of this subsection in a new location, and such application shall be granted so long as the applicant meets all the requirements of this section and department regulation. If an existing medical marijuana dispensary facility is located in a jurisdiction that temporarily prohibits non-medical retail marijuana facilities prior to November 3, 2020, and the medical

marijuana dispensary facility does not apply to open a marijuana dispensary facility in a new location, the medical marijuana dispensary facility may apply to the department for a marijuana dispensary facility license after November 3, 2020, and if the temporary prohibition is not permanently enacted, such application shall be granted, so long as the applicant meets all the requirements of this section and department regulation.

(19) Notwithstanding the provisions of section 1 of this article, three years after receiving a marijuana dispensary facility license pursuant to subdivision (15), a marijuana dispensary facility may apply to the department for permission to relocate the marijuana dispensary facility to a new location.

(20) The department shall issue licenses for marijuana microbusiness facilities to all qualified and certified applicants. Certifications will only be required if determined necessary by the department. If a certification process is determined necessary, it must be promulgated in accordance with the purposes of this section.

(21) The department shall not issue or deny any license if doing so is not in furtherance of the purposes of this article and article II of this constitution.

(22) The department may promulgate rules allowing for the sale, distribution, transport and transfer of marijuana and marijuana-infused products by facilities licensed under this section to facilities licensed under section 1 of this article, if doing so promotes the purposes of this article. The department shall promulgate rules ensuring qualifying patients and qualifying primary caregivers licensed, certified, or otherwise allowed to purchase medical marijuana under section 1 have access to purchase marijuana from facilities licensed under this section. Rules promulgated under this subsection (22) must ensure marijuana transferred pursuant to this section meets the same safety, health and quality standards as required for marijuana cultivated, processed, and sold to qualifying patients and primary caregivers pursuant to section 1 of this article

(23) The department may not promulgate a rule prohibiting a marijuana facility from operating at the same location as a medical marijuana facility of the same license type operating pursuant to section 1 of this article.

(24) Marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers licensed or overwise allowed to purchase medical marijuana under section 1 of this article.

(25) The department, or a designated association or entity, may charge a fee not to exceed one hundred dollars for all certifications deemed necessary and/or required for marijuana microbusiness facilities. The department may not charge more than five thousand dollars for any other certification issued pursuant to this section.

(26) Until such time that federal law permits otherwise, all marijuana sold in Missouri pursuant to this article shall be cultivated in Missouri. If allowed by federal law, marijuana may be exported from Missouri in accordance with department regulations. If allowed by federal law,

the department may promulgate rules related to the import and export of marijuana and shall promulgate a rule requiring that all marijuana flower imported into Missouri be tested by a certified marijuana testing facility or certified medical marijuana testing facility located in Missouri and comply with Missouri testing standards.

(27) Until such time that federal law permits otherwise, all marijuana-infused products sold in Missouri pursuant to this article shall be manufactured in Missouri. If allowed by federal law, marijuana-infused products may be exported from Missouri in accordance with department regulations. If allowed by federal law, the department may promulgate rules related to the import and export of marijuana-infused products in accordance with the purposes of this section.

(28) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the Administrative Hearing Commission, or successor entity. Pursuant to § 536.100 R.S.Mo., or successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.

(29) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(30) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers and managers are not identified to the application reviewers.

(31) Unless otherwise provided in this section, the department shall have sole authority in this state to issue licenses, certifications, registrations or requirements for marijuana facilities, consumers, and marijuana testing facilities.

(32) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

(1) Except as provided in this subsection, a local government may prohibit the operation of all non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction through voter approval of a ballot question submitted to the qualified voters of the local government, provided that any ballot measure shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year starting in 2022, thereby avoiding any additional local governmental cost or expense. Until the first general election following the general election held November 3, 2020, a local government may through local ordinance temporarily prohibit non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction. When a ballot question prohibiting non-medical retail marijuana facilities regulated under this section is submitted to voters, the following question shall be presented to the voters in the area subject to the prohibition, "Shall (insert name of local government) ban all non-medical retail marijuana facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forgo any additional related local tax revenue? ( ) Yes () No." If a

majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required majority, then the jurisdiction shall have no power to ban new non-medical retail marijuana facilities regulated under this section, unless voters at a subsequent election on the first Tuesday after the first Monday in November of an even-numbered year approve a ban on new non-medical retail marijuana facilities submitted to them by the governing body. A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition. In the case of a referral of a ballot question by the governing body or citizen's petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year. A citizen's petition to repeal an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review. Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical retail marijuana facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? ( ) Yes ( ) No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(2) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary, preschool or secondary school, child day-care center, or church. The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located. Except as otherwise provided in this subsection, no local government shall prohibit marijuana facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of ten percent of the retail price or at a rate of one percent less than the current rate established for tobacco products in this state, whichever is less. The tax shall be collected by each licensed non-medical retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the "Veterans, Education, Public Welfare, Infrastructure, and Health Fund" created

under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Veterans, Education, Public Welfare, Infrastructure, and Health Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made for or through contract or agreement for issuing standards and requirements promulgated pursuant to this section, reviewing applications and verifying compliance with this section, creating safety standards, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, distributed to the local government where the retail sale occurred, three-fifteenths of the remaining fund balance.

(c) After the distribution to the local government where the retail sale occurred, the remaining fund balance shall be distributed as follows:

(i) One-sixth of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

(ii) One-twelve of the remainder of the fund balance to the State Road Fund created under article IV, section 30b of this Constitution for constructing and maintaining an adequate system of connected state highways; and

(iii) One-sixth of the remainder of the fund balance to the department to provide grants to existing agencies and community-based not-for-profits, to increase access to evidence-based low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders or similar disabilities.

Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants.

(iv) One-sixth of the remainder of the fund to provide funding to local agencies, subagencies and/or other governmental or non-profit organizations directly funding educational expenses and costs of public schools in Missouri school districts, with preference given to communities highest percentages of economically disadvantaged families, persons and/or children; and

(v) One-sixth of the remainder of the fund to provide funding to local, community-based non-profits providing food, housing and employment aid to economically disadvantaged persons in their respective local communities, with preference given to populations with highest percentages of economically disadvantaged families, children and students.

(d) All monies from the taxes and fees authorized hereunder shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection. no additional taxes shall be imposed on the sale of marijuana.

(6) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to criminal prosecution, denial of any right or privilege, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) An attorney, and his or her firm, shall not be subject to legal liability, or disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to any person related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal liability or sanctions under Missouri law, except as provided for by this section. To ensure protection of public health and welfare, any consumer, qualifying patient, primary caregiver, certificate holder, applicant or licensee harmed as a result of a violation of the provisions of this section shall be entitled to compensation and reasonable costs, including expenses, attorneys' fees and costs to remedy the harm, and as authorized under existing consumer protection laws as of the effective date of section 1 of this article.

(4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for a marijuana offense, other than provision of marijuana to a minor; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from Parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) All marijuana facilities and certificates shall be held by entities that are at least fifty-five percent owned and directly controlled by natural persons who have been residents of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, persons or entities outside the state of Missouri may own a non-controlling minority stake, indirectly, in such entities. By rule, the department may adjust the percentage of ownership required by residents of the state of Missouri, only if in accordance with the purpose of this section. Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to § 43.543 R.S.Mo., or successor provisions, and fees shall be paid pursuant to § 43.530 R.S.Mo., or successor provisions.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction up to and including loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, as mandated by the department, as containing "Marijuana" or a "Marijuana-Infused Product." Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement

officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this article shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility may allow a person under twenty-one years of age to volunteer or work for the marijuana facility, unless permitted by department regulation.

(11) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(12) To the fullest extent allowed by the Constitution of the United States, the Constitution of Missouri, and federal law, no unsolicited internet pop-up advertisements, banners on mass-market websites, unsolicited leaflets or handbills, or unsolicited direct mail advertisements for marijuana, marijuana-infused products, or marijuana accessories are permitted, and no off-site advertisement or marketing for marijuana, marijuana-infused products, or marijuana accessories may be placed on any billboard within the state or in any location exposed to view from a public place within one thousand feet of an elementary, preschool or secondary school, child daycare center, or church.

(13) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(14) No person shall extract resins from marijuana using dangerous materials or combustible gases without a marijuana-infused products manufacturing facility license or a marijuana microbusiness license that allows for this activity. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Possessing, using, ingesting, inhaling, processing, transporting, delivering without consideration, or distributing without consideration one ounce or less of marijuana, except that not more than the equivalent of one ounce of marijuana, as determined by the department, may be in a concentrated form;

(b) Possessing, planting, cultivating, harvesting, drying, processing, or manufacturing one-half the number of plants a qualifying patient is permitted to cultivate pursuant to section 1 of this article and department regulation, provided:

a. The plants and any marijuana produced by the plants in excess of one ounce are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and

b. Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(d) Possessing, using, delivering, distributing, manufacturing, transferring, or selling to persons twenty-one years of age or older marijuana accessories.

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the department, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration two ounces or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section: a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than twice the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than twice the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than twice the amount of marijuana allowed by this subsection:

(a) For a first violation, is subject to an infraction punishable by a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana;

(b) For a second violation, is subject to an infraction punishable by a civil penalty not exceeding five hundred dollars and forfeiture of the marijuana;

(c) For a third or subsequent violation, is subject to a misdemeanor punishable by a fine not exceeding one-thousand dollars and forfeiture of the marijuana; and

(d) For a person under twenty-one years of age, is subject to a civil penalty not to exceed two hundred and fifty dollars. Any such person shall be provided the option of attending up to eight hours of drug education or counseling in lieu of the fine.

(7) Any person currently serving a sentence for a conviction, whether by trial, open or negotiated plea or otherwise, who would not have been guilty of an adult or juvenile offense, or who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this article been in effect at the time of the offense, may petition for a recall or dismissal of sentence before the trial court that entered the judgement of conviction in the person's case to request resentencing or dismissal consistent with sections 1 and 2 of this article with credit for time and supervision period already served and such petition shall be granted.

(8) A person arrested, charged, or found guilty, whether by trial, open or negotiated plea or otherwise, for any offense that is no longer a crime after the effective dates of sections 1 and 2 of this article shall have the right to apply for expungement upon the effective date of this section and such expungement shall be granted and the records expunged from all government records. The effect of such order shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement.

(9) A person shall not be denied adoption, custody, or visitation rights relative to a minor solely for conduct that is permitted by this section, unless not in the best interests of the child as determined by other applicable laws and procedures unrelated to marijuana.

(10) No person shall be denied access to or priority for an organ transplant for conduct that is permitted by this section.

11. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

12. Effective Date.

The provisions of this section shall become effective on December 3, 2020. as provided by this Constitution.

JOHN R. ASHCROFT

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from James Owen regarding a proposed statutory amendment to Chapter 393, version 3 (2020-144)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owen on January 3, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of [economic development] natural resources;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; [and]

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water [and that has a nameplate rating capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources,] and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the department[.]; and

(6) "Solar renewable energy credit" or "SREC", renewable energy credits or RECs representing that electricity has been generated from solar photovoltaic cells and panels, which can be used to demonstrate compliance with both the general portfolio requirements and the specific solar requirements of section 393.1030.1.

393.1030. 1. The commission shall, in consultation with the department, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2022 through [2013] 2024;

(2) No less than [five] twenty-five percent for calendar years [2014] 2025 through [2017] 2027;

(3) No less than [ten] thirty percent for calendar years [2018] 2028 through [2020] 2030; [and]

(4) No less than thirty-five percent for calendar years 2031 through 2033;

(5) No less than forty percent for calendar years 2034 through 2036;

(6) No less than forty-five percent for calendar years 2037 through 2039; and

[(4)] (7) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2040 and each year thereafter.

At least [two] five percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. The commission, in consultation with the department and within one year of November 4, 2008, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by retiring or purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the department is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the division of energy solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

3. [As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.] Solar renewable energy credits tariff requirement.

(1) By April 15, 2021, each electric utility shall submit a tariff to the commission for a solar renewable energy credit program, wherein the electric utility shall offer to purchase SRECs from the electric utility's customers who have installed or plan to install solar photovoltaic systems on their premises. The commission shall approve an electric utility's SREC program tariff within sixty days of submittal so long as it complies with the requirements of this section and whatever modification which the commission deems appropriate. The commission shall provide an opportunity for the staff for the commission, the office of public counsel, the department, and other interested parties to submit comments on each electric utility's proposed tariff.

(2) For customer-generators with systems of ten kilowatts or less, the tariff shall make an offer to purchase ten years of SRECs in a single upfront payment, due within thirty days of the system becoming operational. For customer-generators with a system size of greater than 10 kilowatts, the tariff shall offer annual payments for SRECs for a period of ten years, with payments due on April 15 of each calendar year. No revenue meter reading shall be required from the customer-generator prior to the electric utility making annual SREC payments.

(3) In determining the appropriate compensation amount for SRECs, the commission shall consider market conditions influencing the value of SRECs in the state of Missouri, including the electric utility's need to comply with the requirements of subsection 1 of this section, and the relative costs of procuring RECs and SRECs from other renewable energy sources. Each electric utility shall submit an updated SREC tariff program to the commission on April 15 of each calendar year.

(4) An electric utility shall not count the funds spent in purchasing SRECs from customers pursuant to this subsection towards its calculation of the maximum average retail rate impact of one percent as required by subdivision (1)

of subsection 2 of this section. An electric utility shall continue to offer to purchase SRECs from customer-generators pursuant to this subsection until the total amount of SRECs purchased in a calendar year equals one half of one percent of the total electricity sold by the electric utility in the previous calendar year.

4. The department shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

5. In carrying out the provisions of this section, the commission and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

6. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-144)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received January 6, 2020)

Date

January 27, 2020

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

James Owen provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they anticipate no impact as a result of the proposed initiative petition.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated:

Office of Public Counsel (OPC):
This petition, if passed, will have a cost to the Office of the Public Counsel. Their office would need an additional auditor to review the program expenditures, at a cost of approximately $60,000.

Public Service Commission (PSC):
This petition, if passed, will have a cost to the Public Service Commission. In order for the Commission to determine, within the specified timeframe, whether the electric utilities' Solar Renewable Energy Credit (S-REC) tariff(s) comply with this section, the Commission staff would have to complete its analysis of compliance within 30-45 days. This analysis might necessitate the need for additional staff resources. Accordingly, the PSC may need to request one additional full-time employee (a Utility Regulatory Engineer I or a Regulatory Economist III). There are also additional costs to the PSC associated with the required tariff filings of approximately $3,700. Both the costs for the filings as well as for the full-time employee are estimated to be approximately $83,500 ongoing annual costs.

Additionally, the proposal will also require at least one, but perhaps two, rulemakings at an estimated one-time cost to the PSC of up to approximately $8,600.

All other DCI Divisions:
This petition, if passed, will have no cost or savings to the remaining divisions within the Department of Commerce and Insurance.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the fiscal impact is unknown. They are unable to estimate the impact of this legislation on their utility costs. However, based on research, including research completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department.

Revenue Impact

This proposal requires that electric companies must purchase or generate electricity from renewable energy sources. Those sources include solar and wind production and do not include coal or nuclear power (by which most electricity is generated). Currently there is one solar farm being built in Missouri and 6 wind farms, which would not generate enough to meet the requirements of this proposal. Therefore, this proposal could potentially result in higher utility costs for their department. The impact at this time is unknown.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would not have a fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

The Division of Facilities Management, Design & Construction (OA-FMDC) assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the United States Energy Information Administration, renewable energy resources accounted for only 5.5% of Missouri's net electricity generation in 2018. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $5,000. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. They estimate $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have a significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they see no fiscal impact on the operations of their county government were Chapter 393, RSMo amended as proposed.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated they are unable to determine what, if any, fiscal impact this petition will have on their school district.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated additional expenses are always passed down to the consumer (assuming the electric utilities have additional expense converting energy sources). Without knowing the cost to the utility company(ies) and the downhill affect, it is difficult to know how it will affect Metropolitan Community College (MCC). Last fiscal year (7/1/18-6/30/19), MCC paid $2.3 million for electricity. The smallest increase could easily have a significant impact. For example, a 1% increase would result in $23,000 ongoing additional expense.

Re: Analysis on Missourians for Clean and Affordable Energy Ballot Initiative Petitions filed on January 3rd of 2020

To the State Auditor's Office:

Renew Missouri, a 501(c)(3) based out of Columbia, represents Missourians for Clean and Affordable Energy (MACE) and submits this letter as a precursory explanation for proposed ballot initiatives petitions filed on January 3rd of this year that intend to amend the statutes governing renewable energy statutes. It is Renew Missouri's belief these previous fiscal notes filed regarding previous ballot initiative petitions failed to consider other aspects of the law designed to cap utility rates at increases of no more than one percent per year. We respectfully offer this analysis for the State Auditor's consideration to reconsider how to draft similar fiscal notes from these new ballot initiative petitions.

In August of 2019, MACE filed similar ballot initiative petitions – designed to amend Sections 393.1025-393-1030 of the Revised Missouri statutes – and were numbered "2020-113", "2020-114", and "2020-115." (A fourth version – "2020 116" – was vacated by MACE's request in December of 2019.) The Missouri State Auditor's office responded to these petitions with a fiscal note that was certified with the Missouri Secretary of State's Office. In those fiscal notes, the State Auditor's wrote:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. Additionally, state and local governmental entities anticipate possible increased costs of electricity*, but the amount is unknown*. (Emphasis added.)

As the State Auditor is aware, this language from these previously-issued fiscal notes is the subject matter of a lawsuit filed in the Cole County Circuit Court by James Owen in his capacity as Treasurer for MACE. The contention in that action is the same contention we offer in this letter: separate statutes – not being amended by these proposed ballot initiative petitions - dictate the fiscal impact of the increase of the renewable energy standard.

Sections 393.1030.2(1) and 393.1045, RSMo limits any potential increase to retail rates charged to the customers of utilities due to compliance with the renewable energy standards to no more than an **annual average of one percent**. Section 393.1045 RSMo reads in pertinent part:

> "Any renewable mandate required by law shall not raise the retail rates charged to the customers of electric retail suppliers by an average of more than one percent in any year…"

It is Renew Missouri's belief that a more accurate version of the fiscal note language would read:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. The average annual rate impact to customers will not exceed one percent per year.

Of course, we do not know if the state governmental entities will have a different number for estimated employment cost for these new petitions filed on January 3rd. But we can say with certainly that the amount that electric rates will rise is limited to more than one percent per year, as a matter of law.

As a penultimate matter I would note that our lawyer who has been the primarily point of contact on this matter, Tim Opitz, is currently on paternity leave so, for the next month, I will be the main point of contact on this matter.

Renew Missouri thanks you in advance for your consideration of our request. Please contact me at 417-496-1924 or james@renewmo.org to discuss this issue in more detail.
Professionally,

James Owen
Executive Director, Renew Missouri
Missouri Bar #56835

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

Fiscal Note Summary

State governmental entities estimate additional ongoing costs of approximately $143,500 annually. Additionally, state and local governmental entities anticipate a possible unknown increase in electricity costs from this proposal, which is limited by existing law to be no more than an average retail rate increase of one percent annually.

RE: Petition approval request from James Owen regarding a proposed statutory amendment to Chapter 393, version 2 (2020-143)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owen on January 3, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of [economic development] natural resources;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; [and]

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water [and that has a nameplate rating capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources,] and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the department[.]; and

(6) "Solar renewable energy credit" or "SREC", renewable energy credits or RECs representing that electricity has been generated from solar photovoltaic cells and panels, which can be used to demonstrate compliance with both the general portfolio requirements and the specific solar requirements of section 393.1030.1.

393.1030. 1. The commission shall, in consultation with the department, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2022 through [2013] 2024;

(2) No less than [five] twenty-five percent for calendar years [2014] 2025 through [2017] 2027;

(3) No less than [ten] thirty percent for calendar years [2018] 2028 through [2020] 2030; [and]

(4) No less than thirty-five percent for calendar years 2031 through 2033;

(5) No less than forty percent for calendar years 2034 through 2036;

(6) No less than forty-five percent for calendar years 2037 through 2039; and

[(4)] (7) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2040 and each year thereafter.

At least [two] five percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. The commission, in consultation with the department and within one year of November 4, 2008, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by retiring or purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the department is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the division of energy solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

3. [As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.] Solar renewable energy credits tariff requirement.

(1) By April 15, 2021, each electric utility shall submit a tariff to the commission for a solar renewable energy credit program, wherein the electric utility shall offer to purchase SRECs from the electric utility's customers who have installed or plan to install solar photovoltaic systems on their premises. The commission shall approve an electric utility's SREC program tariff within sixty days of submittal so long as it complies with the requirements of this section and whatever modification which the commission deems appropriate. The commission shall provide an opportunity for the staff for the commission, the office of public counsel, the department, and other interested parties to submit comments on each electric utility's proposed tariff.

(2) For customer-generators with systems of ten kilowatts or less, the tariff shall make an offer to purchase ten years of SRECs in a single upfront payment, due within thirty days of the system becoming operational. For customer-generators with a system size of greater than 10 kilowatts, the tariff shall offer annual payments for SRECs for a period of ten years, with payments due on April 15 of each calendar year. No revenue meter reading shall be required from the customer-generator prior to the electric utility making annual SREC payments.

(3) For a period of ten years for each customer-generator taking service under the tariff, the value of SRECs shall be the following (with all system sizes measured in direct current): eighty-five dollars per SREC for systems of ten kilowatts or less; seventy dollars per SREC for systems of between ten and twenty-five kilowatts; fifty-five dollars per SREC for systems of between twenty-five and one hundred kilowatts; and forty dollars per SREC for systems of between one hundred and five hundred kilowatts.

(4) An electric utility shall not count the funds spent in purchasing SRECs from customers pursuant to this subsection towards its calculation of the maximum average retail rate impact of one percent as required by subdivision (1) of subsection 2 of this section. An electric utility shall continue to offer to purchase SRECs from customer-generators pursuant to this subsection until the total amount of SRECs purchased in a calendar year equals one half of one percent of the total electricity sold by the electric utility in the previous calendar year.

4. The department shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

5. In carrying out the provisions of this section, the commission and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

6. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-143)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received January 6, 2020)

Date

January 27, 2020

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

James Owen provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they anticipate no impact as a result of the proposed initiative petition.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated:

Office of Public Counsel (OPC):
This petition, if passed, will have a cost to the Office of the Public Counsel. Their office would need an additional auditor to review the program expenditures, at a cost of approximately $60,000.

Public Service Commission (PSC):
This petition, if passed, will have a cost to the Public Service Commission. In order for the Commission to determine, within the specified timeframe, whether the electric utilities' Solar Renewable Energy Credit (S-REC) tariff(s) comply with this section, the Commission staff would have to complete its analysis of compliance within 30-45 days. This analysis might necessitate the need for additional staff resources. Accordingly, the PSC may need to request one additional full-time employee (a Utility Regulatory Engineer I or a Regulatory Economist III). There are also additional costs to the PSC associated with the required tariff filings of approximately $3,700. Both the costs for the filings as well as for the full-time employee are estimated to be approximately $83,500 ongoing annual costs.

Additionally, the proposal will also require at least one, but perhaps two, rulemakings at an estimated one-time cost to the PSC of up to approximately $8,600.

All other DCI Divisions:
This petition, if passed, will have no cost or savings to the remaining divisions within the Department of Commerce and Insurance.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the fiscal impact is unknown. They are unable to estimate the impact of this legislation on their utility costs. However, based on research, including research completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department.

Revenue Impact

This proposal requires that electric companies must purchase or generate electricity from renewable energy sources. Those sources include solar and wind production and do not include coal or nuclear power (by which most electricity is generated). Currently there is one solar farm being built in Missouri and 6 wind farms, which would not generate enough to meet the requirements of this proposal. Therefore, this proposal could potentially result in higher utility costs for their department. The impact at this time is unknown.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would not have a fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

The Division of Facilities Management, Design & Construction (OA-FMDC) assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the United States Energy Information Administration, renewable energy resources accounted for only 5.5% of Missouri's net electricity generation in 2018. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $5,000. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. They estimate $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have a significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they see no fiscal impact on the operations of their county government were Chapter 393, RSMo amended as proposed.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated they are unable to determine what, if any, fiscal impact this petition will have on their school district.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated additional expenses are always passed down to the consumer (assuming the electric utilities have additional expense converting energy sources). Without knowing the cost to the utility company(ies) and the downhill affect, it is difficult to know how it will affect Metropolitan Community College (MCC). Last fiscal year (7/1/18-6/30/19), MCC paid $2.3 million for electricity. The smallest increase could easily have a significant impact. For example, a 1% increase would result in $23,000 ongoing additional expense.

Re: Analysis on Missourians for Clean and Affordable Energy Ballot Initiative Petitions filed on January 3rd of 2020

To the State Auditor's Office:

Renew Missouri, a 501(c)(3) based out of Columbia, represents Missourians for Clean and Affordable Energy (MACE) and submits this letter as a precursory explanation for proposed ballot initiatives petitions filed on January 3rd of this year that intend to amend the statutes governing renewable energy statutes. It is Renew Missouri's belief these previous fiscal notes filed regarding previous ballot initiative petitions failed to consider other aspects of the law designed to cap utility rates at increases of no more than one percent per year. We respectfully offer this analysis for the State Auditor's consideration to reconsider how to draft similar fiscal notes from these new ballot initiative petitions.

In August of 2019, MACE filed similar ballot initiative petitions – designed to amend Sections 393.1025-393-1030 of the Revised Missouri statutes – and were numbered "2020-113", "2020-114", and "2020-115." (A fourth version – "2020 116" – was vacated by MACE's request in December of 2019.) The Missouri State Auditor's office responded to these petitions with a fiscal note that was certified with the Missouri Secretary of State's Office. In those fiscal notes, the State Auditor's wrote:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. Additionally, state and local governmental entities anticipate possible increased costs of electricity*, but the amount is unknown*. (Emphasis added.)

As the State Auditor is aware, this language from these previously-issued fiscal notes is the subject matter of a lawsuit filed in the Cole County Circuit Court by James Owen in his capacity as Treasurer for MACE. The contention in that action is the same contention we offer in this letter: separate statutes – not being amended by these proposed ballot initiative petitions - dictate the fiscal impact of the increase of the renewable energy standard.

Sections 393.1030.2(1) and 393.1045, RSMo limits any potential increase to retail rates charged to the customers of utilities due to compliance with the renewable energy standards to no more than an **annual average of one percent**. Section 393.1045 RSMo reads in pertinent part:

> "Any renewable mandate required by law shall not raise the retail rates charged to the customers of electric retail suppliers by an average of more than one percent in any year…"

It is Renew Missouri's belief that a more accurate version of the fiscal note language would read:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. The average annual rate impact to customers will not exceed one percent per year.

Of course, we do not know if the state governmental entities will have a different number for estimated employment cost for these new petitions filed on January 3rd. But we can say with certainly that the amount that electric rates will rise is limited to more than one percent per year, as a matter of law.

As a penultimate matter I would note that our lawyer who has been the primarily point of contact on this matter, Tim Opitz, is currently on paternity leave so, for the next month, I will be the main point of contact on this matter.

Renew Missouri thanks you in advance for your consideration of our request. Please contact me at 417-496-1924 or james@renewmo.org to discuss this issue in more detail.
Professionally,

James Owen
Executive Director, Renew Missouri
Missouri Bar #56835

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

Fiscal Note Summary

State governmental entities estimate additional ongoing costs of approximately $143,500 annually. Additionally, state and local governmental entities anticipate a possible unknown increase in electricity costs from this proposal, which is limited by existing law to be no more than an average retail rate increase of one percent annually.

RE: Petition approval request from James Owen regarding a proposed statutory amendment to Chapter 393, version 1 (2020-142)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owen on January 3, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and three new sections, to be known as sections 393.1025, 393.1030, and 393.1060 are enacted in lieu thereof, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of [economic development] natural resources;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, [hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a nameplate rating of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources,] and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the department. Electric energy produced from hydropower facilities (not including pumped storage) certified as renewable by rule by the department that do not require a new diversion or impoundment of water and that have a nameplate rating of ten megawatts or less shall also constitute renewable energy resources for purposes of compliance with the portfolio requirements applicable to calendar years 2011 through 2024, and hydropower facilities (not including pumped storage) certified as renewable by rule by the department that do not require a new diversion or impoundment of water irrespective of the nameplate rating shall constitute renewable energy resources for purposes of compliance with the portfolio requirements applicable to calendar year 2025 and thereafter.

393.1030. 1. The commission shall, in consultation with the department, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than two percent for calendar years 2011 through 2013;

(2) No less than five percent for calendar years 2014 through 2017;

(3) No less than ten percent for calendar years 2018 through 2020; [and]

(4) No less than fifteen percent [in each calendar year beginning in 2021.] for calendar years 2021 through 2024;

(5) No less than twenty percent for calendar years 2025 through 2029;

(6) No less than thirty percent for calendar years 2030 through 2034;

(7) No less than thirty-five percent for calendar years 2035 through 2039; and

(8) No less than forty percent for calendar year 2040 and each year thereafter.

2. [At least two percent of each portfolio requirement shall be derived from solar energy.] The portfolio requirements set forth in subsection 1 of this section shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. A utility may comply with such portfolio requirements in whole or in part by purchasing RECs[.], provided that such RECs are either associated with electricity produced by the electric utility, or are associated with electricity purchased by the electric utility. At least two percent of each portfolio requirement applicable to calendar years 2011 through 2024, and at least five percent of each portfolio requirement applicable to calendar year 2025 and thereafter, shall be derived from solar energy. Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance with the portfolio requirements set forth in subsection 1 of this subsection.

3. (1) This subsection shall apply to each purchased power agreement with a term commencing on or after January 1, 2025 that the electric utility entered into for compliance with the portfolio requirements applicable to calendar year 2025 and thereafter. If the term of one or more purchased power agreements have commenced prior to the rate base cutoff date in one of the electric utility's regular rate cases, the commission shall, without limiting recoveries outside the context of a regular rate case as contemplated by the mechanism required by subdivision (4) of subsection 4 of this section:

(i) include in the revenue requirement used to set base rates in that regular rate case an amount equal to the electric utility's prudently incurred costs to purchase energy, capacity, and RECs under each such agreement; and

(ii) include in the revenue requirement used to set base rates in that regular rate case an additional amount equal to the common equity earnings the electric utility would have received had it, in lieu of entering into each such purchased power agreement, instead invested in and placed in service, on the date the term of each such purchased power agreement commenced, a renewable energy resource of the type being operated to supply energy under each such purchased power agreement with a capacity sufficient to provide the quantity of energy being purchased under each such purchased power agreement. In determining the additional amount required by this item (ii), the commission shall utilize the common equity return on rate base and the common equity percentage used to determine the revenue requirement in that regular rate case and shall also include in such revenue requirement applicable federal, state, and local income and excise taxes associated with such additional amount.

(2) Items (i) and (ii) in subdivision (1) of this subsection shall continue to be included in the revenue requirement used to set rates in each subsequent electric utility regular rate case where the term of the purchased power agreement remains ongoing as of the rate base cutoff date in that proceeding. The amount included in the revenue requirement in subsequent regular rate cases for item (i) shall be based upon costs for the test period in that case. Except as specifically provided for below, the amount included in the revenue requirement in subsequent regular rate cases for item (ii) shall be calculated in the same manner as calculated for item (ii) in the first regular rate case where such amount was determined and shall not be recalculated in subsequent regular rate cases, except that the calculation in each subsequent regular rate case shall utilize the common equity return on rate base and the common equity percentage used to determine the revenue requirement in that subsequent case and shall account for accumulated depreciation that would have been accrued had the electric utility invested in and placed a renewable energy resource in service instead of entering into a purchased power agreement.

(3) The phrase "rate base cutoff date" shall have the meaning given in in subdivision (4) of subsection 1 of section 393.1400 as of the date of its original enactment.

[2]4. The commission, in consultation with the department and within one year of November 4, 2008, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the department is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the division of energy solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems

becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.]

[4]5. The department shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5]6. In carrying out the provisions of this section, the commission and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6]7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

393.1060. It is the policy of the state of Missouri to support beneficial electrification programs offered by electrical corporations. In furtherance of this policy the Missouri Public Service Commission shall approve any electrification program proposed by an electrical corporation which is anticipated to be cost-effective for customers of the electrical corporation that are not participants in such programs over the long-run.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-142)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received January 6, 2020)

Date

January 27, 2020

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

James Owen provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they anticipate no impact as a result of the proposed initiative petition.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated:

Office of Public Counsel (OPC):
This petition, if passed, will have a cost to the Office of the Public Counsel. There would be a need to retain either a consultant or hire an employee knowledgeable in performing the cost calculations necessary to develop and calculate hypothetical plant costs, at a cost of approximately $80,000.

Public Service Commission (PSC):
This petition, if passed, will have a cost to the Public Service Commission. The equity imputation language for renewable purchased power agreements would introduce a new and somewhat complex issue into general rate cases that might necessitate the need for more staff resources. Accordingly, the PSC may need to request one additional FTE (Utility Regulatory Auditor III) at an estimated cost of approximately $67,000.

All other DCI Divisions:
This petition, if passed, will have no cost or savings to the remaining divisions within the Department of Commerce and Insurance.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the fiscal impact is unknown. They are unable to estimate the impact of this legislation on their utility costs. However, based on research, including research completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department.

Revenue Impact

This proposal requires that electric companies must purchase or generate electricity from renewable energy sources. Those sources include solar and wind production and do not include coal or nuclear power (by which most electricity is generated). Currently there is one solar farm being built in Missouri and 6 wind farms, which would not generate enough to meet the requirements of this proposal. Therefore, this proposal could potentially result in higher utility costs for their department. The impact at this time is unknown.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would not have a fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition

C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

The Division of Facilities Management, Design & Construction (OA-FMDC) assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the United States Energy Information Administration, renewable energy resources accounted for only 5.5% of Missouri's net electricity generation in 2018. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $5,000. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions

certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. They estimate $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have a significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they see no fiscal impact on the operations of their county government were Chapter 393, RSMo amended as proposed.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated they are unable to determine what, if any, fiscal impact this petition will have on their school district.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated additional expenses are always passed down to the consumer (assuming the electric utilities have additional expense converting energy sources). Without knowing the cost to the utility company(ies) and the downhill affect, it is difficult to know how it will affect Metropolitan Community College (MCC). Last fiscal year (7/1/18-6/30/19), MCC paid $2.3 million for electricity. The smallest increase could easily have a significant impact. For example, a 1% increase would result in $23,000 ongoing additional expense.

Re: Analysis on Missourians for Clean and Affordable Energy Ballot Initiative Petitions filed on January 3rd of 2020

To the State Auditor's Office:

Renew Missouri, a 501(c)(3) based out of Columbia, represents Missourians for Clean and Affordable Energy (MACE) and submits this letter as a precursory explanation for proposed ballot initiatives petitions filed on January 3rd of this year that intend to amend the statutes governing renewable energy statutes. It is Renew Missouri's belief these previous fiscal notes filed regarding previous ballot initiative petitions failed to consider other aspects of the law designed to cap utility rates at increases of no more than one percent per year. We respectfully offer this analysis for the State Auditor's consideration to reconsider how to draft similar fiscal notes from these new ballot initiative petitions.

In August of 2019, MACE filed similar ballot initiative petitions – designed to amend Sections 393.1025-393-1030 of the Revised Missouri statutes – and were numbered "2020-113", "2020-114", and "2020-115." (A fourth version – "2020 116" – was vacated by MACE's request in December of 2019.) The Missouri State Auditor's office responded to these petitions with a fiscal note that was certified with the Missouri Secretary of State's Office. In those fiscal notes, the State Auditor's wrote:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. Additionally, state and local governmental entities anticipate possible increased costs of electricity*, but the amount is unknown*. (Emphasis added.)

As the State Auditor is aware, this language from these previously-issued fiscal notes is the subject matter of a lawsuit filed in the Cole County Circuit Court by James Owen in his capacity as Treasurer for MACE. The contention in that action is the same contention we offer in this letter: separate statutes – not being amended by these proposed ballot initiative petitions - dictate the fiscal impact of the increase of the renewable energy standard.

Sections 393.1030.2(1) and 393.1045, RSMo limits any potential increase to retail rates charged to the customers of utilities due to compliance with the renewable energy standards to no more than an **annual average of one percent**. Section 393.1045 RSMo reads in pertinent part:

> "Any renewable mandate required by law shall not raise the retail rates charged to the customers of electric retail suppliers by an average of more than one percent in any year…"

It is Renew Missouri's belief that a more accurate version of the fiscal note language would read:

> State governmental entities estimate additional employment costs of approximately $88,000 annually. The average annual rate impact to customers will not exceed one percent per year.

Of course, we do not know if the state governmental entities will have a different number for estimated employment cost for these new petitions filed on January 3rd. But we can say with certainly that the amount that electric rates will rise is limited to more than one percent per year, as a matter of law.

As a penultimate matter I would note that our lawyer who has been the primarily point of contact on this matter, Tim Opitz, is currently on paternity leave so, for the next month, I will be the main point of contact on this matter.

Renew Missouri thanks you in advance for your consideration of our request. Please contact me at 417-496-1924 or james@renewmo.org to discuss this issue in more detail.
Professionally,

James Owen
Executive Director, Renew Missouri
Missouri Bar #56835

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission**.

Fiscal Note Summary

State governmental entities estimate additional ongoing costs of approximately $147,000 annually. Additionally, state and local governmental entities anticipate a possible unknown increase in electricity costs from this proposal, which is limited by existing law to be no more than an average retail rate increase of one percent annually.

RE: Petition approval request from Winston Apple regarding a proposed statutory amendment to Chapter 192 (2020-141)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Winston Apple on November 13, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires: _____

Be it enacted by the people of the state of Missouri:

One new section of the Revised Missouri Statutes is enacted, to be known as section 192.008, to read as follows:

192.008. 1. "The Missouri Health Insurance Cooperative" (hereinafter referred to as "MHIC") and the "Missouri Health Care Cooperative" (hereinafter referred to as "MHCC") are hereby created within the department of health and senior services to provide health insurance and/or pay for health care for citizens of Missouri who elect to become members of one of these cooperatives.
2. The MHIC and MHCC shall be administered by the director of the department of health and senior services. The department of health and senior services shall, within one (1) calendar year of the effective date of this section, promulgate rules necessary for the administration of this section and these cooperatives.
3. The state of Missouri is authorized to issue bonds to cover the start-up costs for the MHIC and MHCC, as well as to cover any shortages of funds needed to pay authorized benefits and administrative costs until funds received from membership dues are sufficient to cover those expenses. Membership dues for both the MHIC and MHCC and out-of-pocket maximums for members of the MHIC are to be set as soon as practicable, and then adjusted as needed, to fully cover administrative expenses and benefits paid with money collected from dues paid by members.
4. Memberships in the MHIC and MHCC shall be available beginning no later than January 1, 2022.
5. Enrollment in the MHIC or MHCC shall be voluntary and limited to citizens of the state of Missouri.
6. The MHIC and MHCC shall be revenue neutral. Membership dues for the MHIC and MHCC, as well as the annual out-of-pocket maximum for members of the MHIC, will be based on percentages of each member's gross annual income from all sources. Membership dues are to be set as low as possible, and out-of-pocket maximums for the MHIC set no higher than necessary, to minimize the cost of membership and healthcare expenses for members, with revenues from dues sufficient to cover, but not significantly exceed, all operating costs.
7. Only treatments, procedures, and prescriptions for medications deemed medically necessary, as determined by the department of health and senior services, shall be covered through the MHIC and MHCC.
8. The amount of payments made to health care providers for treatments, procedures and services and the amount paid or reimbursed for prescription medications will be determined by the department of health and senior services and shall not be excessive. The amounts paid to health care providers by Medicare and Medicaid shall serve as a general guide for pricing treatments, procedures, services, and prescription medications.
9. Members of the MHIC will be responsible for paying health care providers, including pharmacies providing prescription medications, directly. All payments made in excess of the out-of-pocket maximum will be promptly reimbursed by the MHIC. If a member is unable to pay expenses in excess of the out-of-pocket maximum directly, the MHIC may make necessary payments to providers in lieu of reimbursing the member.
10. All medically necessary health-related expenses, including treatments, procedures, services, and prescription medications for members of the MHCC will be paid for by the MHCC.
11. Members of the MHIC and MHCC, as well as health care providers and pharmacies in the state of Missouri, are responsible for keeping full and accurate records and receipts and invoices for covered health care.
12. All subsections and all clauses of this statute, and the phrases, and the words within them, are severable. If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-141)

Subject

Initiative petition from Winston Apple regarding a proposed amendment to Chapter 192 of the Revised Statutes of Missouri. (Received November 13, 2019)

Date

December 3, 2019

Description

This proposal would amend Chapter 192 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Higher Education and Workforce Development** indicated they report no impact.

Officials from the **Department of Health and Senior Services** (DHSS) indicated expenses of $0.

An unknown number of staff to oversee the Missouri Health Insurance Cooperative program would require rental space, located in Jefferson City.

Unknown Information Technology costs or savings related to this proposal.

Section 192.008 of the proposed initiative creates two new health insurance program, *The Missouri Health Insurance Cooperative* (MHIC) and *Missouri Health Care Cooperative* (MHCC), with oversight by the Department of Health and Senior Services (DHSS). MHIC and MHCC are to be available by January 1, 2022 which is six months of fiscal year 2022.

They are unable to determine the number of individuals who would participate in MHIC. In addition, the premium rates charged by MHIC could be affected by such items as: (1) costs for covered services, (2) the scope of benefits that are included, (3) the plan's cost-sharing requirements, and (4) the health status of the plan's enrollees. Also, the MHIC program oversight responsibilities and costs would be directly impacted by the size of the program (i.e., number of participants, list of covered services, etc.) The Office of Administration could issue bonds for startup costs and to cover initial shortages. They are not able to determine the amount of startup cost, premium rate, etc. They do not administer a similar program of any kind, so significant unknown staffing or contractual costs would be necessary. Due to the numerous unknown factors, they are submitting an Unknown Expense equal to Unknown Revenue (Revenue Neutral – zero impact) fiscal note.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated this initiative petition is expected to have no impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition will have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal creates the Missouri Health Insurance Cooperative (MHIC) and the Missouri Health Care Cooperative (MHCC), housed in and administered by the Department of Health and Senior Services, to provide health insurance and/or pay for health care for Missouri citizens who wish to become members of the cooperatives. Membership in the MHIC and MHCC is to be available beginning no later than January 1, 2022 and enrollment is to be voluntary. The MHIC and MHCC are to be revenue neutral, with dues and out-of-pocket maximums adjusted annually to ensure that revenues are sufficient to cover all costs. The State of Missouri is authorized to issue bonds to cover the start-up costs for the MHIC and MHCC, as well as any shortages of funds needed to pay authorized benefits until the funds received from membership dues are sufficient to cover those expenses.

It should be noted that it is unclear if the State of Missouri would have the authority to issue bonds for a health insurance or health care cooperative. The Office of Administration defers to the Department of Health and Senior Services on the fiscal impact of Initiative Petition 20-141.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have a significant impact on their office.

Officials from the **State Treasurer's office** indicated this appears to have no fiscal impact to their office, but it is unclear. There is no discussion of the fund that will manage the costs of the MHIC, how it will operate and if the fund will be held in the treasury. There is a provision for bonds to be issued to cover start-up costs. There is no maximum authorized amount, nor any requirements noted or funding for repayment of principal and interest.

There is the potential that the Treasurer would have to sign any bond documents and their office would be managing the cash flow of the debt service payments.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated this petition, if enacted, would have no fiscal impact on the operations of their county government.

Officials from the **City of Kansas City** indicated this proposed amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated depending on the cost of insurance once these programs get started, this could represent a positive fiscal impact on public schools. If the cost of health insurance services goes down and public schools are allowed to access these programs then it would cost schools less, freeing up resources for instructional services. Of course, if the costs go up, or for some reason public schools are not allowed to access them, then never mind.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated if this is healthcare in addition to employer provided insurance, there will be no fiscal impact. If this is healthcare that can be selected by one of their Missouri resident employees instead of employer funded medical plans, healthcare expense for their college could be reduced. The potential amount is unknown. They have a significant number of employees outside of Missouri. They also provide "employee only" coverage for very little to no out-of-pocket expense. The savings would come if an employee that lives in Missouri was able to change their "employee+" plans down to "employee only" if their families choose to participate in a cooperative.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities expect any costs to equal any savings. Local governmental entities expect no costs from this proposal and may have savings of an unknown amount if some employees or employees' families switch health care coverage to these new health cooperatives.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III (2020-140)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on November 13, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by repealing Sections 10 and 14 and amending Sections 3, 5, 6, 7, 9, 11 and 20(d), to read as follows:

Article III Section 3. [(a) There is hereby established the post of "Nonpartisan State Demographer". The nonpartisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.]

[(b) The nonpartisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the nonpartisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the nonpartisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the nonpartisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The nonpartisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the nonpartisan state demographer position, an individual shall not have served in a partisan, elected position for four years prior to the appointment. The nonpartisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.]

[(c)] The house of representatives shall consist of [one hundred sixty-three] twenty members from each congressional district elected at each general election [and apportioned as provided in this section] for a term of two years.

[(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the nonpartisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

a. Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census;

b. Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. **"Partisan fairness"** means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. **"Competitiveness"** means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the nonpartisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the nonpartisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. **"Wasted votes"** are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the nonpartisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the nonpartisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The nonpartisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable;

c. Subject to the requirements of paragraphs a. and b. of this subdivision, districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous;

d. To the extent consistent with paragraphs a. to c. of this subdivision, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county;

e. Preference shall be that districts are compact in form, but the standards established by paragraphs a. to d. of this subdivision take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.]

[(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.]

[(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the nonpartisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the nonpartisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.]

Article III Section 5. The senate shall consist of thirty-four members elected by the qualified voters of the [senatorial districts] state of Missouri for a term of four years. [Senatorial districts shall be apportioned as provided for in Article III, Section 7.]

Article III Section 6. Each senator shall be thirty years of age, and next before the day of his election shall have been a qualified voter and a resident of the state for [three] two years [and a resident of the district which he is chosen to represent for one year, if such district shall have been so long established, and if not, then of the district or districts from which the same shall have been taken].

Article III Section 7. [(a) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the nonpartisan state demographer authorized in Article III, Section 3 shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the house of representatives.

(b) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(c) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the nonpartisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the nonpartisan state demographer provided that such changes are consistent with this section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the house of representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.]

(a) Beginning with the election of senators and representatives to be held in the year two thousand and twenty-two there will be no primary election for those offices. All candidates who file to run for the senate or the house of representatives will be listed on the ballot for the general election, grouped by political party affiliation. Independent candidates will be grouped together. The general election shall be carried out using a system of ranked choice voting under which each voter shall be able to rank a minimum of three candidates for the office of senator and three candidates for the office of representative in the order of the voter's preference. If feasible, the ballot shall permit voters to rank a total of ten candidates for the senate and ten candidates for the house, or as close to that number as feasible. Voters shall be able to request either a general ballot listing all of the candidates for all political parties and all independent candidates, a single-party ballot listing only the candidates affiliated with a single political party, or a ballot listing only independent candidates. A number of

spaces equal to the number of choices voters are able to rank shall be provided to write in the names of candidates not appearing on the ballot. All write-in candidates who have properly registered with the secretary of state will be treated as independent candidates when votes are tabulated. The ballot shall be simple and easy to understand, with instructions necessary to enable voters to successfully cast ballots under the system.

(b) In tabulating the results of each general election, first choice votes will first be counted to determine how many seats each political party is awarded in the senate and in the house of representatives and which independent candidates will be awarded seats. The "election threshold" will be determined by dividing the total number of ballots cast by seventeen, for seats in the senate, and by twenty in each congressional district, for seats in the house of representatives. The number of seats to be filled by candidates from each political party will then be provisionally determined by dividing the total number of first choice votes cast for all of a political party's candidates by the election threshold, rounded down to the nearest whole number. If a voter inadvertently casts a vote for more than a single candidate as their first choice each candidate listed will be given the appropriate fraction of a whole vote. Any votes received by the candidates for each political party in excess of the product of the number of seats earned by a political party multiplied by the election threshold shall be considered "surplus votes." Any independent candidates receiving a number of first choice votes equal to, or greater than, the election threshold is elected. The first-choice votes for any independent candidate not initially elected will be treated as surplus votes for that candidate.

(c) If a single seat in either the senate or the house of representatives remains to be awarded after the initial tabulation, the party or independent candidate with the most surplus votes will be awarded that seat. If more than one seat in either chamber remains to be awarded, the party or independent candidate with the most surplus votes will be awarded the first additional seat, and a number of surplus votes equal to the number of surplus votes held by the party or independent candidate with the second most surplus votes, plus one additional surplus vote, shall be deducted from the total number of surplus votes held by the party or independent candidate being awarded the first seat. This process shall be repeated for each additional unfilled seat until all seventeen seats, in the case of the senate, and all twenty seats from each congressional district, in the case of the house of representatives, have been provisionally awarded to a political party or independent candidate.

(d) Once the number of seats to be awarded to each political party and which independent candidates have been elected is provisionally determined, the candidates to be elected from each political party will be determined by awarding points based on the rank of each vote received by a candidate. Points equal to the number of choices a voter is able to rank will be awarded for each first-choice vote. The number of points awarded for each subsequent rank will decrease by one point for each subsequent rank. A single point will be awarded for the lowest rank on each ballot. If a voter inadvertently casts a vote for more than a single candidate at any rank, each candidate listed will be given the appropriate fraction of the number of points to be awarded for that rank on that ballot. If a voter inadvertently lists a single candidate at more than one level of preference, only the point value of the highest rank will be awarded to that candidate.

(e) The candidates from each political party will then be ranked according to total points received, with the candidate receiving the most points listed first and the candidate with the least points listed last. The number of candidates equal to the number of seats to which a political party is entitled are elected from that ranked list unless the point total of one or more independent candidates is greater than the point total for one or more candidates affiliated with a political party, in which case the independent candidate(s) shall be elected in place of the candidate(s) affiliated with a political party having fewer total points.

(f) A political party having no candidate for statewide office receiving at least two percent of the total vote in the preceding general election, may qualify for a place on the ballot for the house in each congressional district by presenting petitions signed by one-half of one per cent of the legal voters in that congressional district. An independent candidate may qualify for a place on the ballot in a congressional district by presenting petitions signed by one-fifth of one percent of the legal voters in that congressional district. A political party having no candidate for statewide office receiving at least two percent of the total vote in the preceding general election, may qualify for a place on the ballot for the senate by presenting petitions signed by one-half of one per cent of the legal voters in the state of Missouri. An independent candidate may qualify for a place on the ballot for the senate by presenting petitions signed by one-fifth of one percent of the legal voters in the state of Missouri. The number of "legal voters" is equal to, and determined by, the total vote for governor in the general election last preceding. Said petitions are to be delivered to the secretary of state no later than one hundred and twenty days preceding the general election.

(g) The signatures on petitions submitted by independent candidates and political parties shall be subject to verification according to the procedures in the code of state regulations for independent candidate petitions in force at the time the petitions are submitted.

(h) If a senator or representative resigns, dies, or is removed from office for any reason during the subsequent legislative sessions, the seat shall be filled by the next candidate from her or his party or the next independent candidate who would have been elected based on total points.

(i) Officials shall determine a random selection algorithm, prior to tabulation, to resolve ties between candidates. If a tie occurs at any point in the tabulation procedure and tabulation cannot proceed until the tie is resolved, then the random selection algorithm shall resolve the tie.

(j) If a senator or representative resigns, dies, or is removed from office for any reason during the subsequent legislative sessions, the seat shall be filled by the next candidate from her or his political party's ordered list, or in the case of an independent candidate, the candidate who would have been elected had there been one more member elected using the prescribed method for tabulating votes.

Article III Section 9. Until the convening of the Seventy-fourth General Assembly the House of Representatives shall consist of one hundred sixty-three members elected from the one hundred sixty-three representative districts, as they existed January 1, 1965. Beginning with the election of representatives in the primary and general elections to be held in the year two thousand and twenty-two the House of Representatives shall consist of twenty members elected from each congressional district. In the event that members of Congress from Missouri are elected at large, congressional district boundaries will still be drawn and used in the election of members of the Missouri House of Representatives.

[Article III Section 10. The last decennial census of the United States shall be used in apportioning representatives and determining the population of senatorial and representative districts. Such districts may be altered from time to time as public convenience may require.]

Article III Section 11. The first election of senators and representatives under this constitution, shall be held at the general election in the year one thousand nine hundred and forty-six when the whole number of representatives and the senators from the districts having even numbers, who shall compose the first class, shall be elected, and two years thereafter the whole number of representatives and the senators from districts having odd numbers, who shall compose the second class, shall be elected, and so on at each succeeding general election. Beginning with the general election to be held in the year two thousand and twenty-two senators will continue to be divided into two classes, with senators from each class, as the term of that class expires, to be elected at large on a state-wide basis.

[Article III Section 14. Writs of election to fill vacancies in either house of the general assembly shall be issued by the governor.]

Article III Section 20(d). If any provision of sections 2, 3, 5, 6, 7, 9, 11, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-140)

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received November 13, 2019)

Date

December 3, 2019

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated this initiative petition is not expected to have a fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated the only affect to the Missouri House would be the reduction of three member positions (new total set at 20 from each congressional district or 160).

Here is the math for the annual savings using today's salary, per diem, expense account and mileage reimbursement amounts:
Member salary = 3 x $35,915 = $107,745
Member expense accounts = 3 x $8,400 = $25,200
Session mileage = 3 x 267 (average weekly roundtrip mileage) x .43 x 19 (weeks of session) = $6,544
Session per diem = 3 x $120.80 x 70 (days of session) = $25,368 (changed in October to $151 so 80% of that (per RSMo 21.145) is $120.80)
Legislative Assistant (LA) salary = 3 x $35,275 = $105,825 (we have 111 entry level LAs budgeted at $3,915,491 for average of $35,275)
ANNUAL SAVINGS = $270,682

The savings during the first fiscal year (FY 23) would only be $151,297 as the non-session related costs (salaries and expense accounts) would be halved (January to July).

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition will have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal amends Article III of the Missouri Constitution by repealing Sections 10 and 14 and amending Sections 3, 5, 6, 7, 9, 11 and 20(d).

The proposed amendment would:

- Amend Section 3 by:
    - Removing language relating to the establishment of the post of non-partisan state demographer;
    - Removing provisions concerning the number of State House members (163);
    - Requiring that the House of Representatives consist of twenty members from each of the State's Congressional districts; and
    - Removing language creating the House and Senatorial Apportionment Commissions.
- Amend Section 5 by:
    - Removing the requirement for senatorial districts; and
    - Striking the language voters of the "districts" and adding voters of the "state."

- Amend Section 6 by adding the requirement that state senatorial candidates be a resident of the State and changing the minimum duration from three years to two.
- Amend Section 7 by:
    - Striking all of the language referring to the drawing of legislative districts; and
    - Adding language that changes the election process and process to fill vacancies for State Representatives and Senators. Beginning with the 2022 election, there will be no primary, and the general election shall be carried out using a system of ranked choice voting.
- Amend Section 9 by adding language starting the new election process in the year 2022 and requiring twenty House members be elected from each U.S. Congressional district.
- Repeal Section 10, which requires that Census data be used in redistricting and which allows that "districts may be altered from time to time as public convenience may require."
- Amend Section 11 by adding language making clear that the Senate will have two classes with staggered elections beginning in the year 2022.
- Repeal Section 14, which grants the Governor the authority to issue writs of election to fill vacancies in either house of the general assembly.
- Amend Section 20(d) by adding Sections 5, 6, 9 and 11 to the list of applicable sections of Article III.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions

certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $65,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Their office was asked to complete a fiscal note request for Initiative Petition 2020-140 proposing to amend Article III of the Missouri Constitution.

Petition 2020-140 would change the composition of the General Assembly and cause representatives to be elected by congressional district and senators on a statewide basis using ranked-choice voting. At each general election, voters would see a list of all representative candidates in their congressional district and a list of all senate candidates from the state, with the ability to rank their choices of at least three but possibly up to 10 candidates from each list. This consolidation into congressional districts may incur the following costs:

Re-programming/Replacing voting machines: Voting machines in Missouri are currently programmed to accept only single-page ballots with a single vote per race – each of these machines would need to be reprogrammed to accept ranked-choice votes and provide for multiple-page ballots due to the potential for large numbers of candidates to file for each congressional district's seats. Any machine that cannot be reprogrammed would need to be replaced with a new machine that does possess such capabilities. Either cost would be a new requirement that the state must assume under Article X, Section 21 of the Missouri Constitution.

As of the 2017 voting systems survey conducted by the Secretary of State's Office, local election authorities reported that they possessed 7,565 voting machines. The estimated cost for each new voting machine is $5,000. The total cost to the state will vary depending on the number of machines which are ready to accept ranked-choice votes or can be reprogrammed to do so. However, using total replacement of all machines as a maximum cost, this provision may result in a total impact to general revenue ranging from $0 up to $37,825,000.

Postage Costs: mailing envelopes used to return absentee ballots are printed with business reply permits – pursuant to Section 115.285, RSMo., Local Election Authorities are reimbursed for these costs by the Missouri Secretary of State's Office at a current cost of

$1.80 per envelope based on the current size and weight of the envelope and ballot; multiple-page ballots would increase these costs.

Ballot printing costs: Local Election Authorities bear the cost of printing ballots for each election – paying to print multiple page ballots would substantially increase printing costs.

Due to situational variables, it is not possible to determine a concrete amount of fiscal impact to this measure (beyond the aforementioned machine replacements). However, the costs to the state and to local election authorities could be significant.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have a significant impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated there are anticipated costs to their county for initiative petition, 20-140. The total cost is anticipated to be $104,718.90 for even numbered year general elections, as the costs would be ongoing with each general election. The attachment on the next page outlines the anticipated costs.

Officials from **St. Louis County** indicated this petition, if ultimately enacted, does not appear as if it would have a fiscal impact on the operations of their county.

Officials from the **City of Kansas City** indicated this proposed amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated they suspect the start-up costs to revamping the state wide election process will be significant for a few years. With this in mind, they can envision a negative fiscal impact for all other state funded programs including their school district.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they estimate that this amendment would require a $50,000 software upgrade to comply with ranked-choice voting. It is important to add that in their opinion, there is no way to aggregate and tabulate ranked-choice voting results on a statewide basis.

Officials from the **Kansas City Board of Election Commissioners** indicated there are only a few jurisdictions in Missouri (Kansas City Board of Election Commissioners) that purchased equipment that is capable of completing the ranking system with upgraded software. The other LEA's in Missouri do not have equipment that is capable of ranking the candidates.

For Kansas City Board of Election Commissioners this bill will substantially increase the cost of elections for several reasons. The initial expense of upgrading software, programming of election equipment and training of staff will cost at least $25,000. There will be permanent per election increases for printing of multi-page ballots, costing an additional $40,000, plus $10,000 in postage per election. Election judges would need to be retrained at $45,000 and legal notices of $30,000 would need to be published to explain the differences with the new law. Besides the increase in expenses, there will be public outrage when winning candidates become losing candidates due to the law. Recounts would be impossible to explain to the media, candidates or interested parties.

Software, programming and staff training of $25,000 would be a one-time expense. Postage and Printing of $50,000 ($40,000 + $10,000) would be a potential increase every time we had an election with ranked choice voting. Training of election judges and legal notices would be a one-time expense.

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,**

the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

The state legislature is estimated to save approximately $271,000 annually. State and local governments could incur additional election-related costs that could be significant ranging from $150,000 to $38 million in one-time costs and unknown ongoing costs totaling at least $154,000 for each general election.

Jefferson City, MO 65101

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 11 (2020-139)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

County: _____

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5 and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5 and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) The secretary of state may also request lists of eligible citizens from additional state agencies including any agency that does or could provide applicants with the opportunity to affirm voter eligibility criteria as part of their agency transaction, any agency that has records of eligible citizens who would not otherwise be registered to vote, and any agency that is required to offer voter registration services under any other provision of law including but not limited to Section 7 of the National Voter Registration Act as amended. Such lists shall be provided on at least a weekly basis as eligible citizens conduct transactions with the agencies from which the lists are requested.

(3) Based on the lists received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(4) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(5) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is

transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(6) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in subsection 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-139)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

Additional state agencies as described in Section 5 (2) may be affected.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5 and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. Applicable state agencies shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that an absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated they could have a fiscal impact if they were interpreted to be at state agency and had to provide a list; however, their office currently does not retain or collect any of the voter information referenced in the provisions found in Section 5., paragraph 2, subsection (2), and therefore based on the information and data they currently maintain, they would have no fiscal impact.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P.** This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-139** proposing to amend Article VIII, version 11, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $9,000 annually. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $30,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29 Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $31,000 in costs per election.

JOHN R. ASHCROFT
SECRETARY OF STATE
STATE OF MISSOURI

JAMES C. KIRKPATRICK

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RECEIVED
NOV 0 6 2019
STATE AUDITORS OFFICE

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 10 (2020-138)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

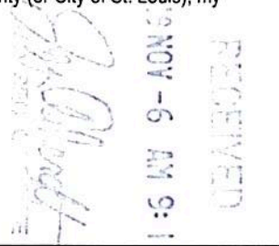
It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

County: _____

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.



[OFFICIAL BALLOT TITLE]

CIRCULATOR'S AFFIDAVIT

STATE OF MISSOURI, COUNTY OF _____ I,_____being first duly sworn, say (print names of signers)

NAME (Signature)	DATE Signed	REGISTERED VOTING ADDRESS (Number)(Street), (City, Town Or Village)	ZIP CODE	CONG. DIST.	FIRST NAME (Printed or Typed)	MIDDLE NAME (Printed or Typed)	LAST NAME (Printed or Typed)

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5 and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5 and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to conduct automatic voter registration of all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in subsection 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

Section 26. Every citizen of the United States who is a qualified, registered voter in Missouri shall have the right to vote a secret ballot in all elections called pursuant to general election law.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-138)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5 and 22 and adopting three new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that an absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal provides that every qualified, registered voter shall have the right to vote using a secret ballot.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is

estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay
291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-138** proposing to amend Article VIII, version 10, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $9,000 annually. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $35,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Fiscal Notice 20-137	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they anticipate no fiscal impact.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Andrew Bergerson and Jared Wight provided the following information:

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $36,000 in costs per election.

JOHN R. ASHCROFT

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 9 (2020-137)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt

County: _____

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

[OFFICIAL BALLOT TITLE]

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5 and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5 and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to conduct automatic voter registration of all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in subsection 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-137)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5 and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that an absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-137** proposing to amend Article VIII, version 9, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $9,000 annually. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $30,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the

services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they anticipate no fiscal impact.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $31,000 in costs per election.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 8 (2020-136)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) The secretary of state may also request lists of eligible citizens from additional state agencies including any agency that does or could provide applicants with the opportunity to affirm voter eligibility criteria as part of their agency transaction, any agency that has records of eligible citizens who would not otherwise be registered to vote, and any agency that is required to offer voter registration services under any other provision of law including but not limited to Section 7 of the National Voter Registration Act as amended. Such lists shall be provided on at least a weekly basis as eligible citizens conduct transactions with the agencies from which the lists are requested.

(3) Based on the lists received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(4) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(5) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is

transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(6) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

Section 26. Every citizen of the United States who is a qualified, registered voter in Missouri shall have the right to vote a secret ballot in all elections called pursuant to general election law.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-136)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

Additional state agencies as described in Section 5 (2) may be affected.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting three new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. Applicable state agencies shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal provides that every qualified, registered voter shall have the right to vote using a secret ballot.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for

outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated they could have a fiscal impact if they were interpreted to be at state agency and had to provide a list; however, their office currently does not retain or collect any of the voter information referenced in the provisions found in Section 5., paragraph 2, subsection (2), and therefore based on the information and data they currently maintain, they would have no fiscal impact.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-136** proposing to amend Article VIII, version 8, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $30,000 per County-wide election, with an additional $9,000 annual cost. The additional absentee costs in the amendment would cost $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $35,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot
Fiscal Notice 20-129	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

[28] For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

[29] The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $66,000 in costs per election.

JOHN R. ASHCROFT

RECEIVED
NOV 06 2019
STATE AUDITORS OFFICE

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 7 (2020-135)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) The secretary of state may also request lists of eligible citizens from additional state agencies including any agency that does or could provide applicants with the opportunity to affirm voter eligibility criteria as part of their agency transaction, any agency that has records of eligible citizens who would not otherwise be registered to vote, and any agency that is required to offer voter registration services under any other provision of law including but not limited to Section 7 of the National Voter Registration Act as amended. Such lists shall be provided on at least a weekly basis as eligible citizens conduct transactions with the agencies from which the lists are requested.

(3) Based on the lists received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(4) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(5) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is

transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(6) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours and for at least eight hours on the Saturday and eight hours on the Sunday immediately prior to the election.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

Section 26. Every citizen of the United States who is a qualified, registered voter in Missouri shall have the right to vote a secret ballot in all elections called pursuant to general election law.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-135)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

Additional state agencies as described in Section 5 (2) may be affected.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting three new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal provides that every qualified, registered voter shall have the right to vote using a secret ballot.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for

outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Additionally, this petition also requires local election authorities to maintain one or more locations for eight hours on the Saturday and Sunday before each election to facilitate absentee voting. While each local election authority already maintains four hours of Saturday operation as required by current law, this increase would require additional staffing costs for the equivalent of 348 judge-days statewide (two judges for 1.5 days in 116 jurisdictions). Assuming an average payment of $125 per judge-day, this would amount to $43,500 per election beginning in FY 2021.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated they could have a fiscal impact if they were interpreted to be at state agency and had to provide a list; however, their office currently does not retain or collect any of the voter information referenced in the provisions found in Section 5., paragraph 2, subsection (2), and therefore based on the information and data they currently maintain, they would have no fiscal impact.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-135** proposing to amend Article VIII, version 7, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for

word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $60,000 per County-wide election, with an additional $9,000 annual cost. Having each of four satellite offices open for an additional 12 hours on the weekend, and at a rate of $5,000 per every 8 hours, this would cost $30,000. The additional absentee costs in the amendment are also estimated to be about $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $43,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot
Fiscal Notice 20-129	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-130	$80,000	$7,500	$5,000	$7,500	$7,500	$6,000	$5,000	$118,500	x	x	x	x	
Fiscal Notice 20-131	$80,000	$7,500	$5,000	$7,500	$7,500	$6,000	$5,000	$118,500	x	x	x	x	
Fiscal Notice 20-132	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-133	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-134	$80,000	$7,500	$7,500	$7,500	$10,000	$6,000	$5,000	$123,500	x	x	x	x	x
Fiscal Notice 20-135	$80,000	$7,500	$7,500	$7,500	$10,000	$6,000	$5,000	$123,500	x	x	x	x	x
Fiscal Notice 20-136	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-137	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they anticipate an additional cost of $2,000.00 per election.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Andrew Bergerson and Jared Wight provided the following information:

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure.*

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting.*

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $149,000 in costs per election.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 6 (2020-134)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

[OFFICIAL BALLOT TITLE]

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours and for at least eight hours on the Saturday and eight hours on the Sunday immediately prior to the election.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

Section 26. Every citizen of the United States who is a qualified, registered voter in Missouri shall have the right to vote a secret ballot in all elections called pursuant to general election law.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-134)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting three new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal provides that every qualified, registered voter shall have the right to vote using a secret ballot.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for

outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Additionally, this petition also requires local election authorities to maintain one or more locations for eight hours on the Saturday and Sunday before each election to facilitate absentee voting. While each local election authority already maintains four hours of Saturday operation as required by current law, this increase would require additional staffing costs for the equivalent of 348 judge-days statewide (two judges for 1.5 days in 116 jurisdictions). Assuming an average payment of $125 per judge-day, this would amount to $43,500 per election beginning in FY 2021.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-134** proposing to amend Article VIII, version 6, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $60,000 per County-wide election, with an additional $9,000 annual cost. Having each of four satellite offices open for an additional 12 hours on the weekend, and at a rate of $5,000 per every 8 hours, this would cost $30,000. The additional absentee costs in the amendment are also estimated to be about $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $43,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Fiscal Notice 20-137	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they anticipate $2,000.00 of additional expense per election.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Andrew Bergerson and Jared Wight provided the following information:

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $149,000 in costs per election.

JOHN R. ASHCROFT
SECRETARY OF STATE
STATE OF MISSOURI

RECEIVED
NOV 06 2019
STATE AUDITOR'S OFFICE

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 5 (2020-133)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

[OFFICIAL BALLOT TITLE]

RECEIVED
2019 NOV -6 AM 9:18
SECRETARY OF STATE

CIRCULATOR'S AFFIDAVIT

STATE OF MISSOURI, COUNTY OF _____ I,_____ being first duly sworn, say (print names of signers)

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting three new sections to be known as Article VIII, Sections 24, 25, and 26 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours.

(1) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

Section 26. Every citizen of the United States who is a qualified, registered voter in Missouri shall have the right to vote using a secret ballot in all elections called pursuant to general election law.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-133)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)
For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting three new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal provides that every qualified, registered voter shall have the right to vote using a secret ballot.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for

outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-133** proposing to amend Article VIII, version 5, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $30,000 per County-wide election, with an additional $9,000 annual cost. The additional absentee costs in the amendment would cost

$30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $35,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore, the City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $66,000 in costs per election.

RECEIVED
NOV 06 2019
STATE AUDITORS OFFICE

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 4 (2020-132)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt

Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

County: _____

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible, all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) The secretary of state may also request lists of eligible citizens from additional state agencies including any agency that does or could provide applicants with the opportunity to affirm voter eligibility criteria as part of their agency transaction, any agency that has records of eligible citizens who would not otherwise be registered to vote, and any agency that is required to offer voter registration services under any other provision of law including but not limited to Section 7 of the National Voter Registration Act as amended. Such lists shall be provided on at least a weekly basis as eligible citizens conduct transactions with the agencies from which the lists are requested.

(3) Based on the lists received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(4) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(5) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is

transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(6) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-132)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

Additional state agencies as described in Section 5 (2) will be affected.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is

estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated they could have a fiscal impact if they were interpreted to be at state agency and had to provide a list; however, their office currently does not retain or collect any of the voter information referenced in the provisions found in Section 5., paragraph 2, subsection (2), and therefore based on the information and data they currently maintain, they would have no fiscal impact.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to

predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-132** proposing to amend Article VIII, version 4, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $30,000 per County-wide election, with an additional $9,000 annual cost. The additional absentee costs in the amendment would cost $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $30,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Officials from the **Platte County Election Board** indicated they anticipate no fiscal impact.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $61,000 in costs per election.

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 3 (2020-131)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible, all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) The secretary of state may also request lists of eligible citizens from additional state agencies including any agency that does or could provide applicants with the opportunity to affirm voter eligibility criteria as part of their agency transaction, any agency that has records of eligible citizens who would not otherwise be registered to vote, and any agency that is required to offer voter registration services under any other provision of law including but not limited to Section 7 of the National Voter Registration Act as amended. Such lists shall be provided on at least a weekly basis as eligible citizens conduct transactions with the agencies from which the lists are requested.

(3) Based on the lists received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(4) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(5) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is

transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(6) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours and for at least eight hours on the Saturday and eight hours on the Sunday immediately prior to the election.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-131)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)
For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. Applicable state agencies shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is

estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Additionally, this petition also requires local election authorities to maintain one or more locations for eight hours on the Saturday and Sunday before each election to facilitate absentee voting. While each local election authority already maintains four hours of Saturday operation as required by current law, this increase would require additional staffing costs for the equivalent of 348 judge-days statewide (two judges for 1.5 days in 116 jurisdictions). Assuming an average payment of $125 per judge-day, this would amount to $43,500 per election beginning in FY 2021.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated they could have a fiscal impact if they were interpreted to be at state agency and had to provide a list; however, their office currently does not retain or collect any of the information referenced in the provisions found in Section 5., paragraph 2, subsection (2), and therefore based on the information and data they currently maintain, they would have no fiscal impact.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-131** proposing to amend Article VIII, version 3, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $60,000 per County-wide election, with an additional $9,000 annual cost. Having each of four satellite offices open for an additional 12 hours on the weekend, and at a rate of $5,000 per every 8 hours, this would cost $30,000. The additional absentee costs in the amendment are also estimated to be about $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $38,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot
Fiscal Notice 20-129	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x

Fiscal Notice 20-131	$80,000	$7,500	$5,000	$7,500	$7,500	$6,000	$5,000	$118,500	x	x	x	x	
Fiscal Notice 20-132	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-133	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-134	$80,000	$7,500	$7,500	$7,500	$10,000	$6,000	$5,000	$123,500	x	x	x	x	x
Fiscal Notice 20-135	$80,000	$7,500	$7,500	$7,500	$10,000	$6,000	$5,000	$123,500	x	x	x	x	x
Fiscal Notice 20-136	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-137	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they expect an additional cost of $2,000.00 per election.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $144,000 in costs per election.

JOHN R. ASHCROFT

Jefferson City, MO 65101

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 2 (2020-130)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible, all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not verified to be eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours and for at least eight hours on the Saturday and eight hours on the Sunday immediately prior to the election.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection 1.

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-130)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore, the City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners, the Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)
For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is

estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Additionally, this petition also requires local election authorities to maintain one or more locations for eight hours on the Saturday and Sunday before each election to facilitate absentee voting. While each local election authority already maintains four hours of Saturday operation as required by current law, this increase would require additional staffing costs for the equivalent of 348 judge-days statewide (two judges for 1.5 days in 116 jurisdictions). Assuming an average payment of $125 per judge-day, this would amount to $43,500 per election beginning in FY 2021.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-130** proposing to amend Article VIII, version 2, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $60,000 per County-wide election, with an additional $9,000 annual cost. Having each of four satellite offices open for an additional 12 hours on the weekend, and at a rate of $5,000 per every 8 hours, this would cost $30,000. The additional absentee costs in the amendment are also estimated to be about $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $38,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Fiscal Notice 20-135	$80,000	$7,500	$7,500	$7,500	$10,000	$6,000	$5,000	$123,500	x	x	x	x	x
Fiscal Notice 20-136	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-137	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		
Fiscal Notice 20-138	$80,000	$7,500	$7,500	$5,000	$7,500	$3,000	$5,000	$115,500	x	x	x		x
Fiscal Notice 20-139	$80,000	$7,500	$5,000	$5,000	$5,000	$3,000	$5,000	$110,500	x	x	x		

Officials from the **Platte County Election Board** indicated they anticipate additional costs of $2,000.00 per election.

Officials from the **State Auditor's office** indicated this initiative petition proposal should have no fiscal impact on their office and any impact can be absorbed through current appropriations.

Andrew Bergerson and Jared Wight provided the following information:

moaudit@auditor.mo.gov

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29. Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $144,000 in costs per election.

STATE AUDITORS OFFICE

RE: Petition approval request from Mary Anne Sedey regarding a proposed constitutional amendment to Article VIII, version 1 (2020-129)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mary Anne Sedey on November 6, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal, or modify by implication, the following Sections of the Missouri Revised Statutes: Sections 115.003 through 115.960. The proposed amendment revises Article VIII of the Constitution by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by amending Sections 5, 7, and 22, and adopting two new sections to be known as Article VIII, Sections 24 and 25 to read as follows:

Section 5. Registration of voters [may be provided for by law] shall occur as specified herein. All laws governing registration shall be interpreted liberally to ensure, to the extent possible, all eligible citizens are registered to vote. Only American citizens who are residents of Missouri and meet all other legal criteria established under general election law shall be allowed to register to vote or to vote.

2. The secretary of state shall establish a process to automatically register to vote all eligible citizens subject to the following provisions.

(1) The department of revenue shall, on at least a weekly basis, provide the secretary of state with a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver's license or state issued nondriver's license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in Missouri. Such list shall contain any information required to register to vote under applicable law, and any available electronic signature information.

(2) Based on the list received from the department of revenue under this subsection, the secretary of state shall provide lists of citizens who are presumptively eligible to vote to local election authorities. These lists shall be sent to local election authorities as often as required by law, but at least every thirty days, and fourteen days prior to any election. These lists shall include the names of presumptively eligible voters, the information required to determine whether an individual is eligible to vote, and any available electronic signature information. The local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for determining whether an individual is eligible to vote. Local election authorities shall retain full jurisdiction and power to decline to register individuals not eligible to vote, and in accordance with applicable state and federal law, may remove the names of individuals who are no longer eligible to vote from voter registration lists.

(3) Regardless of the amount of time it takes to process the registration, an individual shall be deemed registered to vote on the day the local election authority receives the information from the secretary of state provided that such individual is later determined eligible to vote by the local election authority. Within seven business days of the local election authority receiving an individual's information from the secretary of state, the local election authority shall update its list of eligible voters and send notice of automatic registration to newly registered voters and provide the opportunity to decline registration. Such notice may be sent in the same manner and at the same time as voter identification cards or other communication required by law. If, after a period of thirty days, a voter has not declined registration by the method provided, the individual's name shall remain on the voter registration list. Any time an individual declines registration the individual's name shall be removed from the voter registration list. This subsection shall not be construed to prevent removal from voter registration lists by any other method allowed under state and federal law.

(4) No individual who does not meet the legal criteria to be eligible to vote shall be considered to have caused a false or fictitious voter registration if the record of such individual is transmitted by the secretary of state to a local election authority pursuant to this section without the individual's affirmative consent. If such an individual is added to the voter registration list, the individual shall not be subject to any penalty under law. Upon determining such individual is not eligible to vote, the local election authority shall remove the individual from the voter registration list.

(5) In no case shall any agency or the secretary of state be required to provide lists of eligible voters who did not conduct a transaction with said agency or secretary of state in the week prior to the production of the list.

3. Methods of voter registration other than those provided for in section 2 of this section may be provided for by law. Nothing in this section shall invalidate methods of voter registration that existed prior to its adoption.

4. In order to vote in any election for which registration is required, the deadline for a person to be registered to vote in the jurisdiction of his or her residence shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters as defined by general election law. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

5. Nothing in this section shall be interpreted to conflict with the Voting Rights Act of 1965, The National Voter Registration Act of 1993, The Help America Vote Act of 2002, or any other applicable federal law or regulation.

Section 7. All qualified [electors] voters of the state [who are absent, whether within or without the state,] may [be enabled by general law to] vote by absentee ballot without providing a reason at all elections by the people starting forty-two days before an election. For the purposes of this section, the early voting period shall be the period when eligible voters may cast an absentee ballot. Procedures for voting by absentee ballot shall be the same as provided in general election law, except as provided herein.

(1) Each local election authority shall make one or more locations available to issue absentee ballots and to receive completed absentee ballots during the early voting period. Any such designated location shall be open during the local election authority's regularly scheduled business hours.

(2) Local election authorities may make absentee ballots available for voting in person during the early voting period at additional times and places beyond what is designated in subsection (1).

Section 22. If any portion, clause, or phrase of this Article [Amendment] is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

Section 24. An absentee ballot of an overseas or uniformed services voter, as defined by general election law, shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the local election authority within seven days of election day.

Section 25. In order to prevent voter fraud and election tampering, the secretary of state in conjunction with the state auditor shall provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-129)

Subject

Initiative petition from Mary Ann Sedey regarding a proposed constitutional amendment to Article VIII. (Received November 6, 2019)

Date

November 26, 2019

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** and the **State Auditor's office.**

Andrew Bergerson and Jared Wight provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they assume this will have no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. It would cause increased operating costs in the General Revenue Fund of $40,034 for fiscal year (FY) 2021 for salary costs and Office of Administration - Information Technology Services Division (OA)-ITSD costs.

OA-ITSD cost estimate equals 298.08 hours x $75 = $28,318

2. Does this proposal duplicate any other program?
No
8a. Provide narrative on how this bill would affect anything IT related. (program expansion, new program, consolidation, etc.)
This bill impacts the Online Address Change website to collect change of addresses by citizens
8b. Explantion of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.
Language in the IP is already being implemented in a rewrite of the online address change website process

Section 5 (1)

The proposed language requires the Department to provide, on at least a weekly basis, a list of eligible citizens who have applied for, applied to renew, or changed the address related to a driver license or nondriver license, are citizens of the United States, residents of Missouri, and meet the legal criteria to be eligible to vote in the state of Missouri. Such list shall contain any information required to register to vote and any available electronic signature information.

The Department assumes it will provide a regularly scheduled file of all driver license, nondriver license, and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they were currently registered to vote, applicants who responded that they were not registered and did not want to register to vote, and applicants who completed the voter registration applications at the time of license or permit application.

The "necessary" information is not defined, however the Department assumes that it will be required to send name, date of birth, address, at a minimum the last 4 digits of the social security number, and a copy of the applicant's signature for final voter registration processing.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature.

The requirement to submit a copy of the individual's signature will require the Department to amend or discontinue current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

The Department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule.
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State.
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State.
- Test the file generation and transfer process to ensure all required data elements and signature are sent as required.
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic registration.
- Amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not currently required in this process.

Administrative Impact

To implement provisions of Section 5 (1) the administrative cost may be estimated as:

Personnel Services Bureau FY 2021
Update Webpage - Administrative Analyst III 10 hrs. x $19.80 = $198.00

Driver License Bureau FY 2021
Requirements development and testing:

Administrative Analyst II –	240 hrs. x $17.13 per hr. =	$4,111.20
Management Analyst Spec. II –	320 hrs. x $20.57 per hr. =	$6,582.40
Revenue Manager -	40 hrs. x $20.59 per hr. =	$ 824.00

Total = $11,715.60

OA-ITSD Impact

The department also provided the following comments:

Section 5 (1)

For purpose of this fiscal note the Department assumes that it will apply the same requirements related to automatic voter registration specified for new and renewal applicants to individuals applying for a duplicate, reprint or replica driver license, nondriver license, instruction permit, or commercial learners permit. If it is not the sponsor's intent to include duplicate transactions, the Department recommends the sponsor amend the language to specifically prohibit.

The Department assumes it is not the sponsor's intent to forward record updates derived from other mailing address updates sources such as National Change of Address files, courts or documentation received from sources other than the applicant.

The proposed language will require the Department to amend the current data files posted to the Secretary of State or develop a new file specific to automatic voter registration to include the digital image of the signature when the application or request for update included collection of the individual's signature.

The requirement to submit a copy of the individual's signature will require the Department to amend current programs for on-line requests for change of mailing address since identity verification and signature collection are not required in this process.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition should have no fiscal impact to their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation/Missouri Highways and Transportation Commission** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highways and Transportation Commission. The reporting of a list of citizens for voting is not eligible to be paid for with State Revenue Derived from Highway Users (SRHU), and further, Article IV, Section 30(b), Missouri Constitution limits the Department of Revenue (DOR) to its actual costs to collect SRHU and caps the amount of SRHU that DOR may receive to no more than 3% of the proceeds of SRHU collected.

Officials from the **Office of Administration** indicated this proposal amends Article VIII of the Constitution of Missouri by amending Sections 5, 7, and 22 and adopting two new sections.

This proposal requires the Secretary of State to establish a process to conduct automatic voter registration. The Department of Revenue shall provide to the Secretary of State lists of citizens eligible to vote, any available electronic signature information, and any other information required to register to vote. The Secretary of State shall provide lists of citizens who are presumptively eligible to vote to local election authorities. Local election authorities shall include such presumptively eligible voters on voter registration lists subject to existing verification procedures for voter eligibility. Individuals automatically registered to vote shall be provided an opportunity to decline registration. Individuals automatically registered to vote who are not eligible to vote shall not be subject to any penalty, and the local election authority shall remove any such individuals from the voter registration list. The deadline for voter registration shall be no earlier than 5:00 p.m. on the second Tuesday prior to the election, except with regard to covered voters and intrastate voters. Intrastate voters may vote in their new jurisdiction if they are registered to vote in Missouri.

This proposal provides that all qualified voters of the state may vote by absentee ballot without providing a reason starting 42 days before an election and specifies how local election authorities are to administer absentee ballots. An absentee ballot of an overseas or uniformed services voter shall be counted by the local election authority so long as the ballot is dated on or before election day and received by the election authority within 7 days of election day.

This proposal requires the Secretary of State in conjunction with the State Auditor to provide a recommendation to local election authorities for the best method to conduct a risk-limiting audit of election returns. Each local election authority shall adopt a method of risk-limiting audit for auditing election returns.

This proposal should not result in additional costs for their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would implement an automatic voter registration program. The bill would require the Department of Revenue (DOR) to transmit to the Secretary of State (SOS) records containing information of eligible voters, based on agency records (such as driver's license applications). This information is then made available to each local election authority, which will then send notice to each person giving them the opportunity to decline to be registered. For the purposes of this fiscal note, their office assumes that this information will be transmitted in an electronic format.

To implement these requirements, significant programming changes would need to be made to the centralized voter registration database (MCVR) to develop a new interface, to allow electronic transmission of electronic agency data, to sync agency data with currently existing voter information in MCVR, to allow local election authorities to generate and send notices of opportunity to decline registration, to create a queue of individuals who have been sent notice of opportunity to decline registration, and to allow information to be transferred between counties. Based on the implementation of similar systems in other states, this section would result in an estimated one-time cost of $1,000,000 in fiscal year (FY) 2021.

This bill requires local election authorities to send notice of opportunity to decline registration to each individual that is not currently a registered voter. This is a new responsibility that must be funded by the state under Article X, Section 21 of the Missouri Constitution. Based on a recent comparison of voter records to driver's license records, a total of 743,280 individuals were found to have a driver's license but were not identified as registered voters. Sending notice to each individual would cost $0.90 to mail ($0.55 for outgoing postage as of January 2019, $0.35 for the endorsement on the paid return postcard) plus the costs of printing. Postage would amount to $668,952 and printing is

estimated at $33,270, for a total that could reach or exceed $702,222 (depending on the specific number of persons identified by DOR and other agencies) beginning in FY 2021.

Future notice mailings would incur costs to the state of Missouri. The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases.

Their office is being conservative in assuming all new costs will be subject to Article X though there may be some legal uncertainties on this point.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Greene County** indicated the following estimate is based on U.S. Census Data that estimates current county population at **291,923**. It is estimated that **20.9%** of the population is under **18** years old, which accounts for **60,957** residents. They have on average **190,000** registered voters, of which about **30,000 (16%)** are inactive, meaning their address is no longer verified but registered nonetheless and so they are included as part of the number below.

R's = Residents
RV's = Registered Voters
yrs = Years
PV's = Potential Voters
MC = Mailing Cost
CPC2P = Cost Per Card to Process
FTH = Fulltime Hire
AP = Annual Pay

291,923 R's – 60,957 R's under **18 yrs = 230,966 R's 18 yrs** or older

230,966 R's 18 yrs or older – **190,000 RV's = 40,966 PV's**

40,966 PV's x .50 MC = $20,483

40,966 PV x 1.06 CPC2P = $43,423.96

If they have approximately **40,966 PV's** not registered based on the number above, and a Voter ID card is mailed to each voter as stated in the petition language at **.50** apiece, it will be a **$20,483 MC**. How will that cost be delineated in subsequent mailings is very hard to predict, but they do anticipate it will be reduced over time from the original estimate as more residents become registered.

The actual time spent to fully process any new Voter ID card is estimated at **$1.06 CPC2P**. This adds an additional **$43,423.96** to the cost when it is multiplied by the estimated **40,966** voters eligible to be registered.

There is also in the petition language additional requirements. This includes allowing new voters to register up to 2 weeks prior to an election, absentee mailing changes and risk-limited auditing requirements post-election. These additional requirements will at a minimum require an additional **2 FTH** for the office to ensure the ongoing administrative duties the petition requires will be completed on time for voters. This additional cost will be **$24,689.60** per hire for their annual pay. The total annual cost for two fulltime hires will be **$49,379.20.**

40,966 PV's x .50 MC	**= $20,483**
40,966 PV's x 1.06 CPC2P	**= $43,423.96**
2 FTH x $24,689.60 AP	**= $49,379.20**
Total:	**= $113,286.16**

The total estimated initial cost for Greene County for **IP 20-129** proposing to amend Article VIII, version 1, will cost Greene County **$113,286.16** with a minimum ongoing cost of **$49,379.20** for personnel. There will be other ongoing cost to include COLA increases, Step increases for employee pay as well as anticipated ongoing administrative cost that cannot be predicted at this time.

Officials from **St. Louis County** indicated they do not foresee a substantial fiscal impact on the operations of St. Louis County Government.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Wellsville-Middletown R-1 School District** indicated with regards to petitions 20-129 through 20-139, which all appear to pertain to the establishment of an automatic voter registration process; admittedly they did not read each of these word for word, however the two they did read (20-129 and 20-138) did not appear to have any specific fiscal impact unique to their school district other than the cost this process may have to the state's general revenue. In which case there will be slightly less money available for all other state funded services, including their school.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they predict this amendment would have a fiscal impact of $30,000 per County-wide election, with an additional $9,000 annual cost. The additional absentee costs in the amendment would cost $30,000. They pay a vendor to print and mail their absentee ballots, so the no-excuse

absentee portion of the petition would include additional absentee costs for printing and mailing. The annual cost of sending voters postage cards to decline automatic registration would be about $9,000. It is important to note that a significant portion of all of these costs could be offset by the reduced need for polling places due to early voting.

Officials from the **Kansas City Election Board** indicated additional costs of $80,000 per year and $30,500 per election for this initiative petition. The spreadsheet on the next page shows the anticipated costs for all 11 versions of this fiscal note. This estimate was based on one election per year, would range from $110,500 to $123,500 depending on the services provided. Two additional staff would need to be hired to process the additional affidavits for $80,000, including benefits, (fixed expenses). There would variable costs for each election for postage, printing, staff overtime, temporary expense, election services fee of 5% and other miscellaneous expenses ranging from $30,500 to $43,500.

Kansas City Election Board Fiscal Notes 11/15/2019	Two Voter Services Employees w/ Benefits	Postage	Supplies & Printing	Overtime	Temporaries	Parking & Other Services	Election Services Fee	Total	DMV	Early Absentee	Risk-Limit Auditing	Sat & Sun Extended Hours	Secret Ballot

Re: Fiscal-Cost Estimates for Ballot Initiatives in 11 Variations 20-129 through 20-139

To the Honorable Nicole Galloway, CPA, Missouri State Auditor:

Pursuant to Title IX Section 116.175 of the Missouri Constitution, we hereby submit this statement of fiscal impact to advise you and your office in estimating the fiscal cost of petition-based ballot initiatives to amend the Missouri Constitution in 11 variations: 20-129 through 20-139.

Drew Bergerson is a Professor of History and Jared Wight is a System Administrator, both at the University of Missouri-Kansas City. Although we submit this opinion purely as private citizens, we used our experience as social and computer scientists to do so.

We surveyed the relevant legislation proposed to the Missouri General Assembly for ten or more years, focusing especially on any associated fiscal notes from the State Auditors. We analyzed the fiscal note for petition 20-072, on which these petitions are based. We interviewed local election officials in the Kansas City and St. Louis areas. We reviewed the reports of major think tanks, non-profit organizations, and scholars who specialize in electoral practices. Finally, we considered reports provided by counties and states like California, Colorado, Michigan, and North Carolina that recently implemented similar policies.

Below we summarize our research in seven points, including information particular to one or more variations of the ballot language where relevant.

1. **Automatic voter registration will likely incur one-time infrastructural costs of *$0 to the State of Missouri.***

   In the fiscal note for the recent bill with the most detailed description of one-time costs (HB 1934 McCann Beatty, 2018; see also HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), the State Auditor anticipated significant one-time expenses for extensive technological improvements to the Missouri Voter Registration Database ($1,000,000)[1], software programming ($27,540-$85,050), administrative costs for impacted departments ($7,228-$8,700), and employee training ($0-unknown). In the fiscal note for a similar version of this petition (20-072), the State Auditor predicted a similar figure for modernizing the Missouri Centralized Voter Registration ($1,000,000) with modest figures for programming software updates ($34,072).

   As we emphasized in our earlier letter to your office, however, Missouri has *no reason to rely solely on its own resources* for modernizing its election technologies. In 2018, Missouri received *$7,230,625* for these express purposes from the Federal Government.[2] Moreover, the 5% matching funds required of the State have already been provided, according to the Federal Financial Report, so it is also not necessary to budget an additional sum of approximately $50-60,000 for those matching funds. According to the U. S. Election Assistance Commission, states may use those funds to improve elections by adding cybersecurity systems, cybersecurity training, new voting equipment with paper ballots, and post-election risk-limiting audit systems (see #2 below). In the *Missouri 2018 HAVA Program and Budget Narrative* submitted to the U. S. Election Assistance Commission in July 2018, Secretary of State John Ashcroft specifically mentions that his office plans to use these Federal resources to "modernize" the MCVR and upgrade both physical and electronic security, among other things.

1 According to Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018, similar one-time improvements cost approximately $200,000 in Oregon and $434,117 in Vermont. According to WBUR News, MA State Representative John Mahoney estimated in 2018 that implementation of the Massachusetts automatic voter registration legislation would cost $500,000 up front. In the fiscal cost analysis of the Voter Access and Modernized Elections Act (HB13-1303), Colorado anticipated $644,000 to update SCORE, its Statewide Voter Registration System. The larger figure of $1,000,000 for Missouri is reasonable given the relatively backward state of our election technologies (also as per the Fiscal Note for HB 731 Manlove 2019).

2 According to the U.S. Election Assistance Commission's Grant Expenditure Report for Fiscal Year 2018, published April 4, 2019, Missouri has spent all of the funds plus interest distributed starting in 2003 by the EAC to states under Section 101 of HAVA 2002: $6,829,277. Section 251 funds, known as Requirements Payments, were distributed to States using a formula found in HAVA based on a percentage equal to the quotient of the voting-age population of each State and the total-voting age population of all States. Missouri has spent $54,177,399, leaving a balance of $472,833 including interest. In March 2018, however, Congress provided an additional $380,000,000 through the Consolidated Appropriations Act of 2018. According to the report from 2018, Missouri has currently spent $224,922 of $7,230,625 requested, leaving a balance of *$7,037,285* including interest. Missouri has until March 22, 2023 to spend these funds.

In other words, these expenses are already accounted for. To be sure, new needs may arise in the course of making these improvements, but they are unknown. The most accurate estimate for new infrastructural costs *due to the petition would therefore be "$0 to unknown".*

2. **Risk-limiting audits will incur "unknown" up-front and ongoing costs.**

   The Federal grants (listed above) that cover upgrading our technology for cybersecurity etc.[3] could also be used to cover infrastructural improvements for risk-limiting audits. These Federal grants have already been received and State matching funds have already been apportioned for those purposes.

   Long-term, there may be ongoing costs or even net savings; but it is impossible to estimate them without knowing which specific kind of risk-limiting audits and what kinds of cybersecurity technologies will be implemented. *It makes the most sense to list them as "$0 to unknown."*

3. **There will be no ($0) up-front costs for "opt-out" mailings for automatic voter registration because the petitions no longer mandate an initial mailing to all non-registered voters.**

   Prior bills with fiscal notes (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019) offer a wide range of estimates for an initial set of "opt-out" mailings based on the number of eligible non-registered voters in government records.[4] In the fiscal note for petition 20-072, the Secretary of State estimated that there are 743,280 eligible non-registered voters who could be contacted at a total expense statewide for local election officials of as much as or more than $702,222. Yet this estimate of eligible voters is probably two times too high;[5] and the current petitions 20-129 through -139 no longer mandate an initial mailing to allow all those non-registered voters to "opt-out" of voter registration beginning in 2021. These expenses should therefore be *removed entirely from the fiscal cost analysis ($0)* and no other new expenses should be added.

3 *Ibid.*

4 The highest projections anticipate 743,280 individuals who, according to the Department of Motor Vehicles, have driver's licenses but are not registered voters, which makes the total cost for mailing and printing, as per the Secretary of State, $668,952 + $33,270 = $702,222. Yet data from the United States Election Project suggests that this population estimate is two times too high. They estimate only 528,782 non-registered voters in 2018, and after removing ineligible voters, pegs the vote-eligible population at 357,583.

5 *Ibid.*

[**Clarification**: The new batch of petitions specifically stipulate in Section 5.2(5): "In no case shall any agency or the Secretary of State be required to provide lists of eligible voters who did not conduct a transaction with said agency or Secretary of State in the week prior to the production of the list." The former petitions mandated the creation of lists of *all potential* voters who are currently not registered. They would have required a large single mailing at the first implementation of these new procedures. The current petitions refer simply to lists of *new* voters identified each week through regular automatic voter registration procedures, for instance, when eligible voters seek to renew a license at the Department of Motor Vehicles.]

4. The long-term cost of automatic voter registration is "unknown."

Fiscal notes for prior legislation offer a wide range of estimates for long-term costs, mostly for printing and mailing costs. Kansas City was an outlier, anticipating new staff positions at much larger expense ($180-260,000); but most local election authorities anticipated $0 impact.[6] In the fiscal note for a similar version of this petition (20-072), only St. Louis County listed ongoing costs of automatic voter registration at $9,000 for printing and mailing costs.

[**Clarification**: The Secretary of State overestimates the number of non-registered eligible voters who would ultimately be registered through the automatic voter registration process. We know, for instance, that many voters self-register or are registered in voter registration drives by non-profit organizations. Moreover, this figure fails to consider opportunities to economize the voter registration process that typically come with automatic voter registration (see below). The Secretary of State draws a similar conclusion about ongoing costs in his comment for petition 20-072: "The cost of notice mailings in future fiscal years is unknown due to several variable factors including voter registration rates and postage cost increases."]

No additional staff was required for implementing automatic voter registration in Colorado, Oregon, and Vermont. Oregon, which has a comparable number of non-registered voters (539,532) to Missouri (528,782), has reported mailing a consistent number of 21,700 mailings per month for "opt-out" registrations at the cost of $330,217 per biennium.[7] In various states, however, automatic voter registration has

6 For prior bills with fiscal notes in Missouri (HB 1934 McCann Beatty, 2018; HB29, Stacy, 2019; HB 731 Manlove 2019; HB994, Price, 2019), local election officials have estimated the additional cost of printing and mailing postcards from $0 to $92,708 per year per election district but most anticipate being able to absorb the cost into their existing budgets.

7 Common Cause-Massachusetts, *Automatic Voter Registration Cost Report*, 05.24.2018.

reduced other costs, for instance, by reducing the number of provisional ballots.[8] Arguably large cost savings for Missouri would come from replacing the current system of paper registration cards and manually reentering voter registrations from paper lists with digital voter registration systems.[9] In the most detailed fiscal notes to two of the prior bills (HB 1934 McCann Beatty, 2018; HB 731 Manlove 2019), the Office of the Secretary of State explicitly stated their assumption that voter lists "will be transmitted in an electronic format," no doubt in recognition of this opportunity to economize.

Without knowing the precise nature of the new technologies and given the likelihood of opportunities to economize, it is impossible to estimate the long-term costs of automatic voter registration. We therefore urge the State Auditor to describe these costs as *"$0 to unknown."*

5. Moving the final registration date to fifteen days before election day will cost $0.

There are still no fiscal notes yet available for the two bills introduced into the Missouri General Assembly on this topic (HB 993 Price, 2019; SB 384, Schupp, 2019). In the fiscal note for petition (20-072), only Greene County mentions any additional costs whatsoever for moving back the last possible registration date, claiming that it requires the hiring of 2.5 additional employees at $49,379.20 annually; but they justify these hires also on the basis of higher costs for administering absentee mailing and risk-limited auditing post-election. Most other counties do not report any need for additional expenditures.

This conclusion is demonstrated by comparative evidence from other states who have implemented *same-day* registration: they either report *no* increase in long-term cost for new technology and staff, or report a reallocation of existing resources to absorb those expenses.[10] In 2012, California approved Conditional Voter

8 National Conference of State Legislatures, Automatic Voter Registration, 04.22.2019. See also Sawyer, *Early Voting Business Case* for Mecklenburg County, NC, ca. 2015.

9 In its Election Initiative issues brief "Inaccurate, Costly, and Inefficient Evidence that America's Voter Registration System Needs an Upgrade" from 02.2012, the Pew Center on the States argues that paper registration systems are expensive compared to electronic. Where Oregon spent $4.11 per active voter to process registrations and maintain their voting list or $7.67 per transaction (new or updated registration), Canada spent $0.35 per voter to process registrations and Maricopa County, AZ reduced costs from $0.83 for paper registration to $.03 for online registration. In California, the introduction of Conditional Voter Registration was delayed from 2012 to 2017 until VoteCal, California's statewide voter registration database, was operational (see California Secretary of State and Santa Clara Registrar of Voters).

10 According to the National Conference of State Legislators, additional technology is not required even for same-day registration. Whereas the additional administrative work can be time consuming, many states report a reallocation of existing costs and resources rather than additional costs. In 2015, Project Vote reported that most states experienced "minimal" incremental costs in the long term. Iowa introduced SDR with only a $40,000 onetime statewide expense. In 2011-12, Demos conducted a survey of counties in Iowa and North Carolina and found that a large majority reported little to no additional costs for same-day registration.

Registration (AB 1436) that allowed unregistered voters to register and vote within fifteen days of and including election day using a provisional ballot, and it became operational in 2017 (see California Secretary of State and Santa Clara Registrar of Voters). Their State Legislature anticipated increases in cost of $5-10,000 per county but only due to the provisions of the law related to *same-day* registration.[11] The policy proposed in Missouri sets the registration deadline at fifteen days before election day as well but *without* the option for same-day registration.[12]

It is therefore reasonable to assume that *no additional expenses ($0) would be incurred.*

6. The cost to allow all eligible voters to vote "without excuse" by absentee ballot is "unknown" if not $0.

The number of absentee ballots cast in Missouri fluctuated between 5.7% and 9.6% in 2008-2012.[13] According to the fiscal notes associated with past bills in the Missouri General Assembly (HB173, Conway, 2017; HB644, Smith, 2017; HB29, Stacy, 2019; HB202, Shull, 2019) as well as proposed constitutional amendments (HJR 90, Dugger, 2014), most local election officials did not respond with feedback or stated that the impact would be negligible on their expenses. By contrast, the local election officials from Audrain, Kansas City, Platt, and St. Louis Counties estimated increased costs ranging from $1,700 to $32,000 due to increased postage, printing, and staff. In more recent bills (HB368, McGaugh, 2019; HB527, Stevens, 2019; HB992, Price, 2019), however, the local election officials from Platt and St. Louis Counties estimate $0 fiscal impact for similar policies.

Given such wildly different cost estimates from rural, suburban, and urban counties, the Committee on Legislative Oversight correctly notes that there could be a potential increase in costs but the actual fiscal impact is "unknown" if not $0. In the

Most did not require additional staffing at the polls. Any new expenses were generally associated with additional printing and mailing of registration forms. North Carolina respondents most frequently cited additional staffing at one-stop sites as the most notable cost associated with same-day registration. This need tended to increase among smaller-sized counties. The increased expenses cited in North Carolina may not be entirely attributable to same-day registration, however. Most counties that reported adding staff were unable to disaggregate same-day registration costs from overall early voting expenses.

11 The California Assembly predicted a modest cost increase of "$5,000 to $10,000 per county annually to accommodate voter registration, *principally on election day*, at county elections offices. This includes the costs for staffing, providing sufficient ballot types for a voter residing anywhere in the county, processing the additional voter registrations, and any additional handling associated with processing the ballots" (our *italics*). Yet they admitted that these costs will vary according to county, popularity of option, turnout, and other factors, including the number of existing provisional ballots.

12 The other factor increasing anticipated costs in the California case was the need to process provisional ballots after election day. The Senate for instance predicted that an increase in last minute voter registration would necessitate additional labor, overtime, computers, ballots, networks, and security *on election day* and also in order to complete the processing of *more provisional ballots* during the 28 day canvas period after an election. In the proposed Missouri legislation, automatic voter registration should decrease the need for provisional ballots.

13 Christopher Mann, "Mail Ballots in the United States: Policy Choice and Administrative Challenges," in Barry Burden and Charles Stewart, *The Measure of American Elections* (Cambridge, 2014), p. 118.

fiscal note for 20-072, Greene County includes the expense of absentee ballots (along with other things) at $49,379.20 annually; but the much larger St. Louis County set this figure at $30,000; and Platt County at $3,000. The reason: costs (i.e. for increased staff) may increase in the short term if voters suddenly switch to absentee voting before the necessary infrastructure has been created.

But it is far more likely that there will be a more gradual adjustment period because state- and even county-specific voting cultures are often strong predictors of future behavior, which suggests that there will be some inertia when it comes to voting practices.[14] With the implementation of the Voter's Choice Act in California, for instance, Madera County saw an increase in voting by mail from 64% to 93% in 2018, but because VCA actually *required* ballots to be mailed in that county.[15] By contrast, Mecklenburg County in North Carolina saw a more gradual increase in early voting but relatively stable percentages of no-excuse absentee ballots since the introduction of both.[16] It thus seems reasonable to assume, given the fact that absentee ballots would be available during the 42 day early voting period, that most local election officials would be able to absorb this work using existing resources of staff and space.[17]

Moreover, the data from other states suggest that mail-in balloting significantly *reduces* the cost per vote of elections. Although it requires short-term increases in voter education programs and can incur expenses through trial and error with the number of voting centers, most local election officials who have made the transition to vote-by-mail systems anticipate long-term cost savings as a result of reduced labor costs by replacing many poll workers with fewer voter center workers as well as fewer voting machines.[18] St. Louis County is anticipating that this reduction in costs from fewer polling locations on election day will offset some of the new costs.

14 Burden and Stewart, *Measure*.

15 Madera County, CA, Election Administration Plan 2018.

16 As per Hannah Sawyer, an intern who worked at the Mecklenburg County Board of Elections, who authored a Six Sigma study as part of her MPA entitled *Early Voting Business Case* [ca. 2015].

17 See for instance Sawyer, *Early Voting*.

18 In California, "the Nevada County Elections Office has determined that costs will exceed savings with the first implementation of the VCA. However, the Nevada County Elections Office predicts that over time conducting elections in accordance with the VCA will encourage savings based on evidence from Colorado who implemented a similar elections model." (Nevada County Election Administration Plan 2018; see also Madera County Election Administration Plan 2018, Napa County Election Administration Plan 2018, Sacramento County Election Administration Plan's Appendix J, 2018). According to the Pew Charitable Trusts' issue brief "Colorado Voting Reforms: Early Results 2013" from March 22, 2016, the statewide average cost per vote in Colorado decreased in the wake of their Voter Access and Modernized Elections Act of May 2013 from $15.96 in 2008 to $9.56 in 2014 due to reduced labor, printing, postage, and miscellaneous costs. On-demand ballot printing at vote centers reduced the total number of ballots that need to be printed. Moving from assigned polling places to fewer vote centers also required less staff.

Given the wide variation in reporting from counties, the likelihood of short-term cost fluctuations, as well as the likelihood of long-term savings, all of an indeterminate quantity, it makes the most sense to describe the fiscal impact *as "$0 to unknown."*

7. Early voting has an uncertain impact on the cost of elections ranging from "unknown" cost increases to "unknown" cost savings.

There are an unpredictably wide range of variables that could impact the cost of early voting, resulting in wildly disparate predictions of fiscal impact.[19] It seems reasonable to presume that local election officials will use the flexibility inherent in this legislation to try to avoid new costs.[20] For both practical and financial reasons, we anticipate that local election officials would want to provide one voting center for approximately 50,000 registered (35,000 likely) voters.[21] In the sixteen suburban, exurban, or urban districts in Missouri with 50,000 or more registered voters, including St. Louis with more than 750,000 registered (457,609 likely) voters, local election officials should be able to reallocate resources from their many precincts into consolidated early voting centers to actually incur cost savings.[22] This consolidation would allow the local election officials to rely on their best workers and reduce the number of required voting machines (and associated costs for

19 For HJR 90 (Dugger, 2014), St. Louis County assumed that they would be required to open seven satellite sites at an estimated annual cost for the location, paper and labor of $1,737,892 per election as well as non-recurring start-up costs to be $1,195,678. Yet these estimates do not consider the cost savings of reducing precincts during election day, using less voting equipment, and other factors, which would have considerable impact on an election district with a large population of registered voters. By contrast, most local election officials did not even bother to respond to the request for a fiscal note, suggesting little concern for increased costs.

20 For instance, Illinois mandates that early voting centers must be provided at public universities (Early Voting report from NYU's Brennan Center for Justice). Local election officials could save money by using the existing local election facility itself as one of their voting centers (such as the County Clerk's office) and using other publicly owned (municipal, county, and state) facilities for the auxiliary centers as needed (such as civic centers, firehouses, high school gymnasiums, or public university buildings). The latter are typically located in central locations, accessible by public transportation, open on a similar schedule as the local election officials office, provide public parking, and can be secured such that the machines do not need to be removed each day. Other popular alternatives in states with early voting include retail stores, bus stations, hotels, and supermarkets. (Robert Stein and Greg Vonnahme, "Polling Place Practices and the Voting Experience," in Burden and Stewart, *Measure*, p. 170-72)

21 Prior bills submitted to the Missouri General Assembly stipulated a range of formulae: one voting center for every three existing precincts (HB994, Price, 2019) which results in a very large price tag of $9,764,250 in new election costs; one additional voting site for more than 175,000 registered voters (HB848, Neth, 2013) or a staggered scale thereafter for every 75,000 voters (HJR5, Merideth, 2019), which would only impact six local election officials; one voting center for every 50,000 residents (HB501, Newman, 2017; HB1550, Newman, 2018) which would require 49 voting centers statewide; or no formula at all (HJR 90 Dugger, 2014). See also Matt Blunt Early Voting Report, n.d., and Jason Kander, Time for Early Voting, 2013.

22 For instance, the Jackson County Election Board currently has 239 precincts for 254,769 registered and 151,029 likely voters that they currently open only on election day, for which they pay $200.00 per precinct (for a total of $47,800) plus 2 judges per site @ $12.00 per hour for 8 hours per day ($192 per precinct = $45,888). If they chose to participate in early voting, the local election official might instead open 5 voting centers in public buildings including the local election official itself (at $0 cost) which requires 2 judges per site @ $12.00 per hour for 8 hours per day for 42 days before election day for a total of $41,856, which is a reduction in cost. (See data from Secretary of State's Office and HB994, Price, 2019; compare to Sacramento County Election Administration Plan's Appendix J, 2018)

transportation and rental space), as has happened in other states.[23] It also reduces the number of provisional ballots.[24]

If at all, the 102 rural counties in Missouri with fewer than 50,000 voters would incur costs only for overtime for its staff on the Saturday and Sunday before election day. In the fiscal note for petition 20-072, the Secretary of State anticipated that these additional weekend hours would require 348 judge-days statewide (two judges for 1.5 days in all 116 jurisdictions) for $375 per jurisdiction or $43,500 per election.

> [**Clarification**: Petitions 20-129, 132-133, and 136-139 do not mandate weekend hours, which should exclude these figures from the fiscal cost analysis.

Overall, early voting has been proven in other states to *drastically reduce* costs in the long-term and/or allowed for the reallocation of scarce resources.[25] Crucial to estimating the fiscal impact of these ballot initiatives is the fact that they allow local election officials to determine the number of early voting centers and allows them to increase hours of operation beyond the minimum based on local circumstances. Opening a second early voting center may not make fiscal sense for a district with only 2-5,000 registered voters; but additional voting centers or longer hours may enable more populous jurisdictions to make better and more dynamic use of existing resources.[26] Doing so may require some trial and error, as other states have experienced.[27]

23 Between 1999 and 2001, North Carolina introduced no excuse absentee ballots and an eighteen-day early voting period. According to Sawyer's *Early Voting*, Mecklenburg County, NC, was able to significantly reduce the number of required machines at a cost savings of $1,261,700 in purchase price and maintenance costs by using the same machines on both election day and during the early voting period. The more people who voted early (62% in 2012, 75% anticipated in 2016), the more they maximized existing infrastructure, halving the annualized cost of each machine from $685.56 to $309 over a ten-year period.

24 Mecklenburg County NC (*ibid.*) recorded a reduction from 3,156 provisional ballots in 1996 to 1,522 in 2012 due to early voting. The Pew Charitable Trusts reported in "Colorado Voting Reforms: Early Results 2013" on March 22, 2016, that there was a remarkable 98% reduction in provisional ballots cast in Colorado.

25 Between 2008 and 2016, voter transactions in Mecklenburg County NC (*ibid.*) cost $2.48-$3.57 per early vote in contrast to $7.19-$11.69 for election-day voting. See also Pew Charitable Trusts, "Colorado Voting Reforms: Early Results 2013", March 22, 2016.

26 For instance, Buchanan County with 52,996 registered (30,117 current) voters in 2018 could process on average 1262 registered voters per 8-hour day or 158 per hour in an early voting period of 42 days if they restricted themselves to just the existing local election authority's offices as their voting center. Adding a second early voting center would reduce these rates to a more manageable 631 per day and 79 per hour. By contrast, Macon County with 10,805 registered (6,591 current) voters in 2018 could already process on average 258 registered voters per day or 33 per hour in a single voting center without having to open a second center.

27 Colorado's General Assembly has passed a new bill HB19-1278 (2019) that would change the formula for determining how many ballot drop boxes and vote centers are required in order to address isolated instances of long lines on election day. In 2018, researchers from USC and UC-Riverside found elections officials faced a number of unexpected hurdles with the Voter's Choice Act. As John Myers of the Los Angeles Times reported on 21 April 2019: "Costs went up in some counties, as workers at vote centers needed additional training and counties replaced the often no-fee locations for polling places with buildings that had to be rented for a week or more. Some local officials said they needed more vote centers than the minimum required by the state law, especially on election day — for whatever reason, a number of voters didn't use the service until the last minute." The researchers concluded: "The culture of in-person voting on one single day will require more than one election cycle to change." In the long-term, however, the four original counties in California who implemented the Voter's Choice Act all anticipate long-term costs savings (Madera County Election Administration Plan 2018; Nevada County Election Administration Plan 2018; Napa County Election Administration Plan 2018; Sacramento County Election Administration Plan's Appendix J, 2018).

[**Clarification**: In the case of Petitions 20-130-131 and 134-135 which mandate weekend hours before election day, local election officers could easily reallocate existing staff to cover those hours.[28]]

Given the flexibility in the legislation to adapt to local conditions, the fiscal impact cannot be precisely measured. It should be stated as *"$0 to unknown."*

These points, especially when taken together, indicate that there is a strong likelihood of new short-term expenses resulting from these petitions along with significant opportunities for long-term cost savings. This variation makes it impossible to estimate the net fiscal impact of this multifaceted legislation.[29] We therefore advise the State Auditor to summarize the potential cost to taxpayers as **$0 to "unknown"** since that is the most accurate description of its overall fiscal impact.

Yours sincerely,

Andrew Stuart Bergerson, 5601 Locust Street, Kansas City, MO, 64110, and
Jared Wight, 5711 Holmes Street, Kansas City, MO, 64110

28 For instance, local election officials could ensure that there are two staff members available on the Saturday and Sunday of the weekend before election day either by creating a 46 minute daily reduction in a single staff member's daily schedule for the 42 days of early voting or offering two days day off during the week for two staff members during a period of low voter activity. Some local election officers already engage in such practices.

29 The House Fiscal Agency in Michigan drew a similar conclusion regarding the 2018 ballot proposal 3 Promote the Vote, which included many similar features and is the foundation for the Missouri legislation. "The various rights proposed in the amendment would have *separate indeterminate costs*, but they will likely entail *marginal* increased costs for local units of government and *overall decreased* expenditures from the state, with some marginal cost increases for the Department of State (DOS)." (our *italics*)

The State Auditor's office did not receive a response from the **Department of Higher Education and Workforce Development, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities expect one-time costs of at least $1 million and possible ongoing costs. Local governments are expected to have costs of an unknown amount totaling at least $746,000 in one-time costs, $138,000 in annual costs, and $61,000 in costs per election.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Deirdre Hirner regarding a proposed constitutional amendment to Article XIV (2020-128)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Deirdre Hirner on November 4, 2019.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

INITIATIVE PETITION

Page No. _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 3rd day of November, 2020, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

CIRCULATOR'S AFFIDAVIT

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XIV is amended by amending Section 1 of Article XIV and enacting one new section to be known as Section 2 of Article XIV, to read as follows:

XIV Section 1. Right to access medical marijuana. — 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) **"Administer"** means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) **"Department"** means the department of health and senior services, or its successor agency.

(3) **"Entity"** means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) **"Flowering plant"** means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) **"Marijuana"** or **"marihuana"** means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) **"Marijuana-infused products"** means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) **"Medical marijuana cultivation facility"** means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) **"Medical marijuana dispensary facility"** means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) **"Medical marijuana-infused products manufacturing facility"** means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) **"Medical marijuana testing facility"** means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) **"Medical use"** means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) **"Physician"** means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) **"Physician certification"** means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) **"Primary caregiver"** means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(15) **"Qualifying medical condition"** means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) **"Qualifying patient"** means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this

section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) [The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection

pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.] Beginning December 2, 2020, all public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, as amended from time to time. Notwithstanding the foregoing, records containing proprietary business information obtained from an applicant or licensee are subject to closure. For documents submitted on or after December 2, 2020, the applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. For documents submitted prior to December 2, 2020, the applicant or licensee may advise the department, through a department approved process, of any records previously submitted by the applicant or licensee it believes contain proprietary business information. Proprietary business information shall include sales information, financial records, tax returns, credit reports, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) identifying the applicant or licensee;

(b) relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) where disclosure is reasonably necessary for the protection of public health or safety; or

(e) that are otherwise subject to public inspection under other applicable law.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to six flowering marijuana plants for the exclusive use of that qualifying patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety-day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer

than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain [and annually renew] an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Cards shall be valid for three years and may be renewed with a new physician's certification. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain [and annually renew] an identification card from the department. Cards shall be valid for three years. The department shall charge a fee of [twenty-five] seventy-five dollars [per year], with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this section and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned, directly or indirectly, by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, persons or entities outside the state of Missouri may own a minority stake, directly or indirectly, in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department [, in a font size at least as large as the largest other font size used on the package,] as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than three qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local

government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality. The only local government ordinances or regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. [A qualifying patient must obtain a new physician certification at least annually.]

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.

Section 2. Marijuana Legalization, Regulation, and Taxation

1. Purpose.

The purpose of this section is to make marijuana legal under state and local law for adults twenty-one years of age or older, and to control the commercial production and distribution of marijuana under a system that licenses, regulates, and taxes the businesses involved while protecting public health. The intent is to prevent arrest and penalty for personal possession and cultivation of limited amounts of marijuana by adults twenty-one years of age or older; remove the commercial production and distribution of marijuana from the illicit market; prevent revenue generated from commerce in marijuana from going to criminal enterprises; prevent the distribution of marijuana to persons under twenty-one years of age; prevent the diversion of marijuana to illicit markets; protect health by ensuring the safety of marijuana and products containing marijuana; and ensure the security of marijuana facilities. To the fullest extent

possible, this section shall be interpreted in accordance with the purpose and intent set forth in this section.

This section is not intended to allow for the public use of marijuana, driving while intoxicated by marijuana, the use of marijuana in the workplace, or the use of marijuana by persons under twenty-one years of age.

2. Definitions.

(1) "Consumer" means a person who is at least twenty-one years of age.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Local government" means, in the case of an incorporated area, a village, town, or city and, in the case of an unincorporated area, a county.

(6) "Marijuana" means *cannabis indica*, *cannabis sativa*, and *cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana or cannabis, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" does not include industrial hemp, including any part of that plant, including the seeds thereof and all derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than three-tenths of one percent on a dry weight basis, or commodities or products manufactured with industrial hemp, or any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other products.

(7) "Marijuana accessories" means any equipment, product, material, or combination of equipment, products, or materials, which is specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.

(8) "Marijuana Cultivation Facility" means an entity licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a marijuana dispensary facility, marijuana testing facility, or to a marijuana-infused products manufacturing facility.

(9) "Marijuana Dispensary Facility" means an entity licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and marijuana accessories as provided for in this section to consumers.

(10) "Marijuana Facility" means a marijuana cultivation facility, marijuana dispensary facility, marijuana testing facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or any other type of marijuana-related facility or business licensed or certified by the department pursuant to this section.

(11) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(12) "Marijuana-Infused Products Manufacturing Facility" means an entity licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a marijuana dispensary facility, a marijuana testing facility, or to another marijuana-infused products manufacturing facility.

(13) "Marijuana Microbusiness Facility" means an entity licensed to cultivate not more than one hundred and fifty flowering plants, process, store, transport, sell, and package the marijuana it cultivates or that it obtains from another marijuana microbusiness facility, and acquire, store, manufacture, transport, deliver, sell, or otherwise transfer marijuana and marijuana-infused products it cultivates and processes, or that it obtains from other marijuana microbusiness

facilities, to marijuana dispensary facilities, marijuana testing facilities, other marijuana microbusiness facilities, or consumers.

(14) "Marijuana Testing Facility" means an entity certified by the department to acquire, test, certify, and transport marijuana.

(15) "Owner" means an officer, board member, or other individual who has a financial (other than a security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.

(16) "Unduly burdensome" means that the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject licensees or potential licensees to such a high investment of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the marijuana facility.

3. Limitations.

(1) Except as otherwise provided in this article, this section does not preclude, limit, or affect laws that assign liability relative to, prohibit, or otherwise regulate:

(a) Delivery or distribution of marijuana or marijuana accessories, with or without consideration, to a person younger than twenty-one years of age;

(b) Purchase, possession, use, or transport of marijuana or marijuana accessories by a person younger than twenty-one years of age;

(c) Consumption of marijuana by a person younger than twenty-one years of age;

(d) Operating or being in physical control of any motor vehicle, train, aircraft, motorboat, or other motorized form of transport while intoxicated by marijuana;

(e) Consumption of marijuana while operating or being in physical control of a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

(f) Smoking marijuana within a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

(g) Possession or consumption of marijuana or possession of marijuana accessories on the grounds of a public or private preschool, elementary or secondary school, institution of higher education, in a school bus, or on the grounds of any correctional facility;

(h) Smoking marijuana in a location where smoking tobacco is prohibited;

(i) Consumption of marijuana in a public place, other than in an area licensed by the department for consumption;

(j) Conduct that endangers others;

(k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence or professional malpractice; or

(l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.

(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this article, or any other law of this state allowing for or regulating marijuana for medical use.

(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for violation of a workplace drug policy or for working while intoxicated by marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action

against a person with respect to hire, tenure, terms, conditions, or privileges of employment because of that person's violation of a workplace drug policy or because that person was working while intoxicated by marijuana.

(4) This section allows a person to prohibit or otherwise regulate the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the person owns, leases, occupies, or manages, except that a lease agreement executed after the enactment of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.

4. Regulation of Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any rule promulgated pursuant to this section;

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section so long as such rules are reasonable and not unduly burdensome;

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a consumer to ensure that no marijuana grown by a marijuana cultivation facility or marijuana microbusiness facility or manufactured by a marijuana-infused products manufacturing facility or marijuana microbusiness facility is sold or otherwise transferred to a consumer except by a marijuana dispensary facility or a marijuana microbusiness facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana dispensary facility, marijuana microbusiness facility, marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport its own inventory and products in compliance with department transportation rules;

(f) Promulgate rules and emergency rules specific to the licensing, regulation, and oversight of marijuana microbusiness facilities;

(g) Provide for the issuance of additional types or classes of licenses to operate marijuana-related businesses that allow for only limited processing, transportation, delivery, or storage of marijuana, licenses that allow for the consumption of marijuana within designated, age-restricted areas, and licenses intended to facilitate scientific research or education;

(h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section;

(i) Establish a system to numerically score competing marijuana license and certificate applicants, including marijuana microbusiness applicants, only in cases where more applicants apply than the number of licenses available, in which scoring shall be limited to an analysis of the following:

(i) The character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) The business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, and for all facilities shall include procedures to be used to prevent product diversion;

(iii) Site security;

(iv) In the case of licenses other than the microbusiness license, testing certification, or transport certification, experience as an owner or employee of a Missouri marijuana microbusiness facility;

(v) In the case of marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and potency and health care industry experience;

(vi) The potential for positive economic impact in the site community;

(vii) In the case of marijuana cultivation facilities and marijuana microbusiness facilities, capacity or experience with agriculture and horticulture;

(viii) In the case of marijuana dispensary facilities, the suitability of the proposed location for consumer access, and experience as an owner or employee of a Missouri marijuana dispensary facility or Missouri medical marijuana dispensary facility;

(ix) In the case of marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing or manufacturing marijuana-infused products;

(x) Maintaining competitiveness in the marijuana marketplace; and

(xi) Whether there is an over-concentration of marijuana facilities within the boundaries of any particular local government.

(j) In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors.

(2) The department shall issue, at a minimum, the same number of marijuana cultivation facility licenses as are issued for medical marijuana cultivation facilities under section 1 of this article, the same number of marijuana-infused products manufacturing facility licenses as are issued for medical marijuana-infused products manufacturing facilities under section 1, the same number of marijuana dispensary facility licenses with the same congressional distribution requirements as are issued to medical marijuana dispensary facilities under section 1, in addition to the minimum number of marijuana microbusiness licenses as are required under this section. The department may lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana by consumers in the state and to ensure a competitive market while also preventing an over-concentration of marijuana facilities within the boundaries of any particular local government.

(3) If marijuana cultivation facility licenses, marijuana-infused products manufacturing facility licenses, or marijuana dispensary facility licenses become available so that the number of total licenses in any respective category falls below the minimum required under this article, section, and subsection, the department shall award at least fifty percent of new licenses available to satisfy the minimum requirement to applicants who are:

(a) Owners of a marijuana microbusiness facility that has been in operation for at least one year and is in good standing with the department;

(b) At least fifty percent owned by natural persons who qualified as economically disadvantaged owners or disabled veterans at the time they applied for and received the marijuana microbusiness facility license; and

(c) Otherwise qualified for the license.

(4) The department may issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana by consumers. In developing such rules or emergency rules, the department may consult or contract with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department shall issue rules or emergency rules relating to the following subjects:

(a) Procedures for issuing a license and for renewing, suspending, and revoking a license;

(b) Qualifications for licensure that are directly and demonstrably related to the operation of a marijuana facility;

(c) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products and prohibitions on pesticides that are not safe for use on marijuana;

(d) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;

(e) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;

(f) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;

(g) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;

(h) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;

(i) Restrictions on advertising, marketing, and display of marijuana, marijuana-infused products, marijuana accessories, and marijuana facilities;

(j) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;

(k) Administrative penalties for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including administrative fines and suspension, revocation, or restriction of a license. The licensee may choose to challenge any penalties imposed by the department through the Administrative Hearing Commission, or its successor entity. Pursuant to § 536.100 R.S.Mo., or successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;

(l) Reporting and transmittal of tax payments required under this section;

(m) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(n) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(5) The department shall issue rules or emergency rules for marijuana and marijuana-infused products independent testing and certification program for marijuana facility licensees and requiring licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.

(6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as marijuana testing facilities. No marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or marijuana dispensary facility.

(7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, as amended from time to time. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee are subject to closure. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) Identifying the applicant or licensee;

(b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) Where disclosure is reasonably necessary for the protection of public health or safety; or

(e) That are otherwise subject to public inspection under applicable law.

(8) Within two hundred and seventy days of the effective date of this section, the department shall make available to the public license application forms and application instructions for marijuana cultivation facilities, marijuana testing facilities, marijuana dispensary facilities, marijuana microbusiness facilities, marijuana-infused products manufacturing facilities, and any other license types and certifications it deems necessary.

(9) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of twelve thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the

percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana cultivation facility licenses.

(10) An entity may apply to the department for and obtain one or more licenses to operate a marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than five marijuana dispensary facility licenses.

(11) An entity may apply to the department for and obtain one or more licenses to operate a marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than three marijuana-infused products manufacturing facility licenses.

(12) An entity may apply to the department for and obtain only one license to operate a marijuana microbusiness facility. A marijuana microbusiness facility license shall allow the licensee to be vertically integrated. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed, if the applicant or license holder so chooses. A marijuana microbusiness facility licensee may sell marijuana it cultivates, processes, manufactures, and packages to any marijuana dispensary facility, any other marijuana microbusiness facility, or directly to consumers. A marijuana microbusiness facility may also process, manufacture, and sell to consumers marijuana and marijuana-infused products it obtains from another marijuana microbusiness facility. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of one thousand five hundred dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of two thousand five hundred dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of two thousand five hundred dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may not also be an owner of another licensed marijuana facility or medical marijuana facility regulated under this article. However, the owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this article. If granted one or more of these licenses, the marijuana microbusiness facility owner may transition to other licensed operations on a reasonably practical timetable established by the department. In addition to other requirements established by this section, a marijuana microbusiness facility must be majority-owned by natural persons who have been residents of the state of Missouri for at least one year prior to the application for such license. The majority owner or owners must be economically disadvantaged persons, as defined by the department, or disabled veterans, as defined by the department.

(13) The department may restrict the aggregate number of licenses granted for marijuana microbusiness facilities, provided, however, that the number may not be limited to fewer than the following number of licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018:

(a) Six, once the department begins issuing licenses for marijuana facilities under this subsection;

(b) An additional six following the first two hundred and seventy days after the department begins issuing licenses for marijuana facilities under this subsection; and

(c) An additional six after the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities under this subsection, but only after the department conducts an analysis and determines that there is a market for additional microbusiness licenses.

Future changes to the boundaries or the number of congressional districts shall have no impact.

(14) The department shall begin accepting license and certification applications for marijuana dispensary facilities, marijuana testing facilities, marijuana cultivation facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than three hundred and sixty-five days after the effective date of this section. Applications for licenses under this section shall be approved or denied by the department no later than one hundred eighty days after their submission. If the department fails to carry out its non-discretionary duty to approve or deny an application within one hundred eighty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(15) With the exception of microbusiness licenses, and consistent with any limitations set forth in this section, for the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities, the department may only issue a license:

(a) For a marijuana cultivation facility to an entity holding a medical marijuana cultivation facility license issued pursuant to section 1 of this article seeking licensure to operate a marijuana cultivation facility at the same location;

(b) For a marijuana dispensary facility to an entity holding a medical marijuana dispensary facility license issued pursuant to section 1 of this article seeking licensure to operate a marijuana dispensary facility at the same location;

(c) For a marijuana-infused products manufacturing facility to an entity holding a medical marijuana-infused products manufacturing facility license issued pursuant to section 1 of this article seeking licensure to operate a marijuana-infused products manufacturing facility at the same location; and

(d) For a marijuana testing facility to an entity holding a medical marijuana testing facility license issued pursuant to section 1 of this article seeking licensure to operate a marijuana testing facility at the same location.

(16) The department shall issue a license to each applicant for a marijuana facility pursuant to subdivision (15) of this subsection if the applicant is in good standing with the department and has reasonably complied with this article and all of the rules and regulations promulgated pursuant to this article.

(17) A prospective applicant for a license pursuant to subdivision (15) shall notify the department of their intent to apply and prefile their application fee with the department by February 1, 2021.

(18) Notwithstanding the provisions of section 1 of this article, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits marijuana dispensary facilities under this section, or is otherwise prevented from operating a marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary

facility may apply to the department for a marijuana dispensary license pursuant to subdivision (15) of this subsection in a new location, and such application shall be granted so long as the applicant meets all the requirements of this section and department regulation. If an existing medical marijuana dispensary facility is located in a jurisdiction that temporarily prohibits non-medical retail marijuana facilities prior to November 3, 2020, and the medical marijuana dispensary facility does not apply to open a marijuana dispensary facility in a new location, the medical marijuana dispensary facility may apply to the department for a marijuana dispensary facility license after November 3, 2020, and if the temporary prohibition is not permanently enacted, such application shall be granted, so long as the applicant meets all the requirements of this section and department regulation.

(19) Notwithstanding the provisions of section 1 of this article, three years after receiving a marijuana dispensary facility license pursuant to subdivision (15), a marijuana dispensary facility may apply to the department for permission to relocate the marijuana dispensary facility to a new location.

(20) Notwithstanding the provisions of section 1 of this article, for the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities under this section, the department shall issue licenses for marijuana microbusiness facilities to qualified applicants consistent with the qualifications and limitations set forth in this section.

(21) Notwithstanding the provisions of section 1 of this article, a medical marijuana cultivation facility that is issued a marijuana cultivation facility license pursuant to subdivision (15) of this subsection is limited under both licenses to a total of two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy space. An entity issued a license pursuant to subdivision (15) of this subsection may sell marijuana to medical marijuana facilities and marijuana facilities so long as the entity has both a medical marijuana cultivation facility license and a marijuana cultivation facility license consistent with any limitations set forth in this article or department regulation.

(22) In addition to the foregoing, the department shall not issue a non-medical license pursuant to this section to a medical marijuana cultivation facility, medical marijuana-infused products manufacturing facility, or medical marijuana dispensary facility, if the department determines that doing so will limit or restrict access by qualifying patients, as defined in section 1 of this article, to an adequate supply of marijuana and marijuana-infused products at a reasonable cost.

(23) The department may not promulgate a rule prohibiting a marijuana facility from operating at the same location as a medical marijuana facility of the same license type operating pursuant to section 1 of this article.

(24) Marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers consistent with section 1 of this article and department regulation.

(25) The department may charge a fee not to exceed five thousand dollars for any certification issued pursuant to this section.

(26) Until such time that federal law permits otherwise, all marijuana sold in Missouri pursuant to this article shall be cultivated in Missouri. If allowed by federal law, marijuana may be exported from Missouri in accordance with department regulations. If allowed by federal law, the department may promulgate rules related to the import and export of marijuana and shall promulgate a rule requiring that all marijuana flower imported into Missouri be tested by a marijuana testing facility located in Missouri and comply with Missouri testing standards.

(27) Until such time that federal law permits otherwise, all marijuana-infused products sold in Missouri pursuant to this article shall be manufactured in Missouri. If allowed by federal law, marijuana-infused products may be exported from Missouri in accordance with department regulations. If allowed by federal law, the department may promulgate rules related to the import and export of marijuana-infused products.

(28) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the Administrative Hearing

Commission, or successor entity. Pursuant to § 536.100 R.S.Mo., or successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.

(29) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(30) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers, and managers are not identified to the application scorers.

(31) The department shall have the sole authority within the state of Missouri to issue licenses for marijuana facilities and certifications pursuant to this section.

(32) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

(1) Except as provided in this subsection, a local government may prohibit the operation of all non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction through voter approval of a ballot question submitted to the qualified voters of the local government, provided that any ballot measure shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year starting in 2022, thereby avoiding any additional local governmental cost or expense. Until the first general election following the general election held November 3, 2020, a local government may through local ordinance temporarily prohibit non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction. When a ballot question prohibiting non-medical retail marijuana facilities regulated under this section is submitted to voters, the following question shall be presented to the voters in the area subject to the prohibition, "Shall (insert name of local government) ban all non-medical retail marijuana facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forgo any additional related local tax revenue? ( ) Yes ( ) No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required majority, then the jurisdiction shall have no power to ban new non-medical retail marijuana facilities regulated under this section, unless voters at a subsequent election on the first Tuesday after the first Monday in November of an even-numbered year approve a ban on new non-medical retail marijuana facilities submitted to them by the governing body. A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition. In the case of a referral of a ballot question by the governing body or citizen's petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of an even-numbered year. A citizen's petition to repeal an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review. Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical retail marijuana facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? ( ) Yes ( ) No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(2) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located. Except as otherwise provided in this subsection, no local government shall prohibit marijuana

facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of fifteen percent of the retail price. The tax shall be collected by each licensed non-medical retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the "Veterans, Infrastructure, and Health Fund" created under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Veterans, Infrastructure, and Health Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, distributed to the local government where the retail sale occurred, three-fifteenths of the remaining fund balance.

(c) After the distribution to the local government where the retail sale occurred, the remaining fund balance shall be distributed in thirds as follows:

(i) One-third of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

(ii) One-third of the remainder of the fund balance to the State Road Fund created under article IV, section 30b of this Constitution for constructing and maintaining an adequate system of connected state highways; and

(iii) One-third of the remainder of the fund balance to the department to provide grants to existing agencies and not-for-profit organizations, whether government or community-based, to increase access to evidence-based low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants.

(d) All monies from the taxes and fees authorized hereunder shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana.

(6) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to any person related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for a marijuana offense, other than provision of marijuana to a minor; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) All marijuana facilities and certificates shall be held by entities that are majority owned, directly or indirectly, by natural persons who have been residents of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, persons or entities outside the state of Missouri may own a minority stake, directly or indirectly, in such entities. By rule, the department may adjust the percentage of ownership required by residents of the state of Missouri. Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to § 43.543 R.S.Mo., or successor provisions, and fees shall be paid pursuant to § 43.530 R.S.Mo., or successor provisions.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, as mandated by the department, as containing "Marijuana" or a "Marijuana-Infused Product." Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this article shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility may allow a person under twenty-one years of age to volunteer or work for the marijuana facility, unless permitted by department regulation.

(11) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(12) To the fullest extent allowed by the Constitution of the United States, the Constitution of Missouri, and federal law, no unsolicited internet pop-up advertisements, banners on mass-market websites, unsolicited leaflets or handbills, or unsolicited direct mail advertisements for marijuana, marijuana-infused products, or marijuana accessories are permitted, and no off-site advertisement or marketing for marijuana, marijuana-infused products, or marijuana accessories may be placed on any billboard within the state or in any location exposed to view from a public place within one thousand feet of an elementary or secondary school, child daycare center, or church.

(13) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(14) No person shall extract resins from marijuana using dangerous materials or combustible gases without a marijuana-infused products manufacturing facility license or a marijuana microbusiness license that allows for this activity. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Purchasing, possessing, using, ingesting, inhaling, processing, transporting, delivering without consideration, or distributing without consideration one ounce or less of marijuana, except that not more than the equivalent of one ounce of marijuana, as determined by the department, may be in a concentrated form;

(b) Possessing, planting, cultivating, harvesting, drying, processing, or manufacturing one-half the number of plants a qualifying patient is permitted to cultivate pursuant to section 1 of this article and department regulation, provided:

a. The plants and any marijuana produced by the plants in excess of one ounce are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and
b. Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(d) Purchasing, possessing, using, delivering, distributing, manufacturing, transferring, or selling to persons twenty-one years of age or older marijuana accessories.

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the department, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration one ounce or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and

forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section, a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than twice the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than twice the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than twice the amount of marijuana allowed by this subsection:

(a) For a first violation, is subject to an infraction punishable by a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana;

(b) For a second violation, is subject to an infraction punishable by a civil penalty not exceeding five hundred dollars and forfeiture of the marijuana;

(c) For a third or subsequent violation, is subject to a misdemeanor punishable by a fine not exceeding one-thousand dollars and forfeiture of the marijuana; and

(d) For a person under twenty-one years of age, is subject to a civil penalty not to exceed two hundred and fifty dollars. Any such person shall be provided the option of attending up to eight hours of drug education or counseling in lieu of the fine.

(7) Any person currently serving a sentence for a conviction, whether by trial or open or negotiated plea, who would not have been guilty of an adult or juvenile offense, or who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this article been in effect at the time of the offense, may petition for a recall or dismissal of sentence before the trial court that entered the judgement of conviction in the person's case to request resentencing or dismissal consistent with sections 1 and 2 of this article with credit for time and supervision period already served and such petition shall be granted. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5 in interstate or intrastate transportation unless otherwise exempted as found in § 307.400 R.S.Mo.

(8) A person arrested, charged, or found guilty, whether by trial or open or negotiated plea, for any offense that is no longer a crime after the effective dates of sections 1 and 2 of this article may apply for expungement upon the effective date of this section and such expungement shall be granted and the records expunged from all government records absent good cause for denial. The effect of such order shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5 in interstate or intrastate transportation unless otherwise exempted as found in § 307.400 R.S.Mo.

(9) A person shall not be denied adoption, custody, or visitation rights relative to a minor solely for conduct that is permitted by this section, unless the person's behavior is such that granting the rights is not in the best interests of the child, as determined by other applicable law and procedures.

(10) No person shall be denied access to or priority for an organ transplant for conduct that is permitted by this section.

11. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

12. Effective Date.

The provisions of this section shall become effective on December 3, 2020, as provided by this Constitution.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (20-128)

Subject

Initiative petition from Deirdre Hirner regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received November 5, 2019)

Date

November 25, 2019

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2020.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Missouri Veterans Commission, Missouri Office of Prosecution Services, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern**

State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University.**

Mark R. Reading provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated a total estimated net effect on all state funds of $0 for fiscal year 2020, $0 for fiscal year 2021, and $0 for fiscal year 2022.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact for their department for this initiative petition.

Officials from the **Department of Health and Senior Services** indicated increased operating costs to the Veterans Infrastructure and Health Fund of $1,605,331 in fiscal year 2021, $5,541,694 in fiscal year 2022, and $14,219,361 in fiscal year 2023. Of these costs, $77,049 are one-time costs in fiscal year 2021 for office furniture and equipment, $508,624 are one-time costs in fiscal year 2022 for office furniture, equipment, and application scoring costs, and $6,483,964 are one-time costs in fiscal year 2023 for office furniture, equipment, contracted attorney fees, and application scoring costs.

Space for thirty-nine additional staff will be required by fiscal year (FY) 2023: 39 full-time employees (FTE) x 230 sq. ft. x &18.00 = $161,460. These staff will be located in Jefferson City. An additional thirty FTE are assumed to be telecommuters.

This will create new small business opportunities and all the costs associated with a new business, along with the associated licensing fees.

At the time of submission Office of Administration - Information Technology Services Division (ITSD) had not provided a response.

The proposed legislation amends Section 1 of Article XIV and enacts one new section to be known as Section 2 of Article XIV regarding adult use marijuana legalization,

regulation, and taxation. The new law stipulates the minimum number of facilities to be licensed and the application and operation fees associated with each type of facility. It is assumed sales of marijuana will begin in FY 2023, increasing state revenue through the collection of a fifteen percent sales tax levied on the retail sale of adult use marijuana sold to consumers.

Office of General Counsel:

The proposed changes to this legislation will require the Department of Health and Senior Services to aid the program in building all the rules, pre-licensing, preparing required forms, and litigation on any legal challenges for denial of licenses through the Missouri court system. Based on our experience with medical marijuana facility license applications, we assume a similar number of facility license applications will be received for potentially even fewer available licenses. To defend the denial of an estimated 2,000 licenses, the department will temporarily contract with attorneys and support staff for a period of approximately 18 – 24 months. The total estimated amount of these contracts is $5,300,000. In addition, the department would require the following staff:

Three full-time attorneys (average annual salary of $75,000) would be needed to assist in reviewing records and defending the department in anticipated trials from denied licenses due to the limited number allowed to be issued. Two Attorneys would be needed for fiscal year 2021 with a third FTE Attorney added in fiscal year 2022, and maintaining the three Attorneys for the third year of fiscal year 2023.
Additional duties include:

- Reviewing requests for records (sunshine and/or subpoenas)
- Coordinating and advising with Medical Marijuana staff to determine whether the Department has records responsive to requests
- Review of individual records
- Determining appropriate response
- Responding to requestor
- Drafting/filing motions to quash subpoenas when necessary
- Possible referrals to AGO
- Representing the department in any court room activities resulting from this change in legislation

In addition, one support staff would be required to assist the three attorneys in the paperwork required for these court cases.

For the purposes of this fiscal note, they assumed temporary contracts would be necessary for attorneys, paralegals, and support staff to defend the denial of an estimated 2,000 licenses. The length of these contracts is estimated for a period of approximately 18 – 24 months, at an estimated total cost of $5,300,000, to cover any litigation associated with these denials. The three full-time attorneys and one support staff needed to handle the on-going costs of this proposed legislation would indeed be on-going with no estimate of any end date. Within the parameters of the assumptions used for this response, at this time,

there are no other anticipated temporary or other costs for this proposed legislation from the Office of General Counsel.

Division of Regulation and Licensure (DRL):

Section 1 of Article XIV includes minor changes that will cause some adjustment to the operations of the Section for Medical Marijuana (SMMR), but those changes have no fiscal impact. Section 2 of Article XIV requires creation of a new program for the regulation of adult use marijuana. This new program will share some employees and resources with the current SMMR. For purposes of this fiscal note, the new, combined program will be called the Section for Marijuana Regulation (SMR).

Section 2 of Article XIV requires implementation of adult use marijuana in several phases over the course of three years. Much of the regulatory structure mandated in Section 2 mirrors that in Section 1; thus, some efficiencies can be captured by merging this new program with the existing SMMR. However, the regulations and businesses to be licensed for the new program are different enough from the SMMR regulations and businesses that some functions, particularly on the compliance side, will need to be expanded significantly. Furthermore, assuming similar licensing functions for the new program (initial applications with applications for changes to businesses following licensure), the licensing needs of the new program will double those of the existing program as several waves of new licensing processes will occur at regular intervals, including for a new class of marijuana businesses. With each new wave, facility agent application processing will increase.

In addition to staffing needs, the new program will necessitate new or amended contracts for IT solutions and application scoring. All new adult use businesses will have application requirements different from medical marijuana businesses, which must be built within the existing IT solution for Missouri marijuana regulation or through a new IT solution. While the bulk of the initial wave of licensing for adult use will not require scoring applications, microbusiness applications will likely require scoring at each stage of licensing, and in the third year, it appears scoring will be necessary for all new facilities of any type.

The following are the estimates of costs associate with the staffing and contractual needs outlined above.

YEAR 1

Between December 2020 and December 2021, the SMR will begin program build out, draft and file rules, draft and issue Request for Proposals (RFPs) or contract amendments for IT solutions, and begin pre-licensing functions, including public outreach/response.

To cover program implementation, pre-licensing, and public outreach/response in the first year, the SMR will require additional staff. The following positions will be hired as of January 2021:

- One Planner IV with an annual salary of $55,000, job duties will include oversight of contracts, procurement, and website and supervisory responsibilities;

- One Planner II with an annual salary of $45,000, job duties will be consistent with that of the Planner IV to a lesser degree;
- Four Special Assistant Professionals with an annual salary of $45,000, job duties will be to function as facility licensing specialists and process applications and renewals;
- Five Health Program Representative IIs with an annual salary of $40,000 job duties will be Facility Agent ID's and handle public assistant calls; and
- Two Administrative Office Support Assistants with an annual salary of $38,000, to provide support for the above staff.

Due to the increase supervisory and oversight responsibilities, salaries to existing staff will be studied and adjustments will be made when deemed appropriate.

The current contract for IT solutions will need to be continued and expanded. The estimated cost for year one is $769,000.

YEAR 2

The SMR will continue program build-out and begin accepting facility applications in December 2021 and will have 150 days to approve or deny all applications. For 348 licenses, applications will be reviewed for minimum qualifications, but no scoring will be necessary. For 48 licenses (the microbusiness licenses), applications will be reviewed for minimum qualifications and scoring will be necessary. Facilities may begin operating sometime after May 2022. Facility agent applications and oversight will increase when the new facilities begin operating. The SMR will also draft and issue RFPs or contract amendments for application scoring in Year 2.

To cover program implementation and oversight, public outreach/response, facility agent applications and oversight, and compliance/enforcement functions for a new regulatory structure with up to 396 new facility licenses (not counting additional, new license types added as needed), the SMR will require additional staff. The following positions will be hired as of July 2021:

- Three Investigation Managers with an annual salary of $65,000, job duties to include supervision of additional investigative staff;
- Three Investigator IIIs with an annual salary of $60,000, job duties to be to inspect and investigate facilities throughout the state and provide oversight to Investigator II's;
- Seventeen Investigators II with an annual salary of $50,000, job duties to include inspecting and investigating facilities across the state;
- One Planner II with an annual salary of $45,000, job duties to include oversight on additional contracts and regulations;
- Five Health Program Representatives II with an annual salary of $40,000, job duties to provide public assistance and facilitate increase activity for facility agent ID applications. and
- Two Administrative Office Support Assistants with an annual salary of $38,000, to provide support for the above additional staff.

The Investigators are assumed to be telecommuters and are expected to travel extensively; it is assumed that the travel cost will be $10,118 annually for all investigative staff.

It is assumed application scoring will cost approximately $200,000 in Year 2. This estimate is based on the current SMMR contract, assuming a new contract will be necessary and assuming there will be four times the number of applications received as there are licenses available for microbusinesses (based on experience in 2019).

The current contract for IT solutions will need to be continued and expanded. The estimated cost for year two is $518,599.

Section 6 (iii) requires the Department to provide grants to existing agencies and not-for-profit organizations to increase access to evidence-based low barrier drug addiction treatment, and to support reintegrating those with substance abuse disorders, by supporting job placement, housing and counseling. The Division of Regulation and Licensure's Financial Services Unit (FSU) will require additional personnel to oversee the grant processes, as well as provide overall support to the additional SMR staff. The FSU will require one Planner III at an annual salary of $60,000, one Executive II with an annual salary of $40,000, and one Senior Office Support Assistant with an annual salary of $27,851. All FSU staff are assumed to start in July 2021.

YEAR 3

The SMR will continue program build-out and receive applications for an additional 48 microbusinesses in January 2023, which will likely require both minimum qualification review and scoring. Licensing of new business of all types will begin in November 2023, requiring minimum qualification review and scoring. Facility agent applications and oversight will increase when new facilities begin operating.

To cover public outreach/response, facility agent applications and oversight, and additional increases in compliance/enforcement functions for new facility licenses, the SMR will require additional staff. The following positions will be hired as of July 2022:

- Two Investigator IIIs with an annual salary of $60,000;
- Eight Investigators II with an annual salary of $50,000;
- Four Special Assistant Professionals with an annual salary of $45,000;
- Three Health Program Representative IIs with an annual salary of $40,000; and
- One Administrative Office Support Assistant with an annual salary of $38,000.

All job duties consistent with previous staff.

The Investigators are assumed to be telecommuters and are expected to travel extensively; it is assumed that the travel cost will be $10,118 annually for all investigative staff.

It is assumed application scoring will cost approximately $2,200,000 in Year 3. This estimate is based on the current SMMR contract, assuming a new contract will be necessary and assuming there will be four times the number of applications received as there are

licenses available for microbusinesses, and assuming the scoring expense for new marijuana business applications of all types will be similar to 2019 SMMR experience for expenses.

The IP implies a duty to reopen application periods when licenses become available. There is also the option to issue additional licenses indefinitely. And whenever there are more applicants than licenses available, DRL will have to have them scored. DRL would assumes that the ongoing costs would be approximately $1,110,000 for application scoring. We do not have any other one-time costs except for the office furniture/equipment.

The current contract for IT solutions will need to be continued and expanded. The estimated cost for year three is $518,599.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of costs savings of $0 in fiscal year 2020, $192,382 in fiscal year 2021, $1,324,322 in fiscal year 2025, and $1,364,701 by fiscal year 2027.

The estimate of the impact of this amendment is determined by a standard response of looking at persons committed for marijuana-only offenses. In 2018, thirty people were incarcerated and 383 given probationary terms of cannabis-only violations. The average sentence is 7.0 years with 0.9 served before first release; the average probationary term is three years.

Passage of Initiative Petition (IP) 2020-128 is estimated to result in 30 fewer persons incarcerated and 383 fewer persons entering probationary supervision per year in their department. The full impact of the bill occurs in fiscal year (FY) 2028 with 90 fewer persons incarcerated and 1,269 fewer persons on field supervision. This results in a reduction of 10 (Probation and Parole) P&P officers by FY2026. Their department cost of incarceration in $17.224 per day or an annual cost of $6,287 per offender. Their department cost of probation or parole is determined by the number of P&P Officer II positions that would be needed to cover the new caseload.

Officials from the **Department of Labor and Industrial Relations** indicated this fiscal note has no fiscal impact on their department.

Officials from the **Department of Revenue** indicated:

Section 1.3 states that all public records produced or retained pursuant to this section are subject to the general provisions of Missouri's Sunshine Law. Thus, information obtained from an applicant or licensee are subject to closure.

Section 1.3 also states that qualifying patients under this section shall obtain an identification card which shall be valid for three years and may be renewed with a new physician's certification. The Department recognizes that the fee of twenty-five dollars per year per card remains the same, and does not anticipate a fiscal impact.

Section 1.3 also states that primary caregiver's identification cards shall be valid for three years. Furthermore, the fee for a primary caregiver's identification card has been increased from twenty-five dollars to seventy-five dollars. The Department recognizes that the fee, as it is written today, reads that it shall be twenty-five dollars per year. This initiative petition increases the fee to seventy-five dollars every three years. The total revenue gained, in totality, then, should not change, but the state could recognize changes in cash flow with the fee being paid by primary caregivers every three years instead of one. The Department defers to the Department of Health and Senior Services to estimate the impact to state cash flows.

Section 1.5 awards non-resident of Missouri patients the ability to purchase marijuana for medical purposes from a medical marijuana dispensary facility as permitted by this section. The Department recognizes that if out of state residents purchase medical marijuana in Missouri that the Missouri Veterans' Health and Care fund could increase as well as state and local sales and use taxes. The Department provides an unknown impact for this section, though, as the number of outside residents purchasing marijuana in Missouri cannot truly be estimated.

Section 2.1 states that recreational marijuana shall be legal for individuals aged twenty one and above.

Section 2.3 states that this section shall not require any employer to permit or accommodate conduct otherwise allowed by this section in or on any workplace or employer's property.

Section 2.4 states the Department of Health and Senior Services shall issue, at a minimum, the same number of marijuana cultivation facilities under Section 1 (medical marijuana), the same number of marijuana-infused products manufacturing facilities licenses as are issued for medical marijuana infused products manufacturing facilities, the same number of marijuana dispensary facility licenses as are issued to medical marijuana dispensary facilities, and a minimum number of marijuana microbusiness licenses are allowed for medical marijuana; stating that marijuana microbusiness licenses may be awarded to applicants of marijuana microbusinesses that is at least fifty percent owned by natural persons who qualified as economically disadvantaged owners or disabled veterans at the time they applied and received their licenses.

The Department recognizes that Section 1 (medical marijuana) allows for a minimum of 60 cultivation facility licenses, 86 marijuana-infused product facilities, and 192 dispensary

licenses. The number of marijuana microbusiness licenses would be issued over a period of time, as any other licenses allowed fall short of the minimum required.

The Department estimates the following minimum impact for Section 2.4:

Chart 1

Facility Type	Application Fee/Renewal Fee		Annual Fee	Minimum Number of Licenses	Estimated Revenue (Minimum)		
					Application Fee	Renewal Fee	Annual Fee
	Valid for 3 years	Year 4 and Thereafter					
Marijuana Cultivation Facility	$12,000	$5,000	$25,000	60	$720,000	$300,000	$1,500,000
Dispensary	$7,000	$3,000	$10,000	192	$1,344,000	$576,000	$1,920,000
Marijuana Infused Product Facility	$7,000	$3,000	$10,000	86	$602,000	$258,000	$860,000
Marijuana Microbusiness	$1,500	$2,500	$2,500	96	$144,000	$240,000	$240,000

Section 2.5 states that a local government may prohibit the operation of all non-medical retail marijuana facilities regulated under this section from being located within its jurisdiction through voter approval of a ballot question submitted to such voters of such local government.

Section 2.6 of this initiative petition states that a tax equal to 15% of the retail price of non-medical marijuana sold to consumers shall be levied. Furthermore, the Department recognizes that Section 2.6 states that the tax levied is separate from and in addition to any general state and local sales and use tax(es) that apply to retail sales – which will be collected upon the retail sales to consumers.

The Department observed data published by Marijuana Business Daily that projects U.S. retail marijuana sales to 2023, including both medical marijuana retail sales and recreational marijuana retail sales, shown separately (please see Chart 2).

Chart 2

Year	Medical U.S. Cannabis Retail Sales		Recreational U.S. Cannabis Retail Sales		Total U.S. Cannabis Retail Sales	
	Low	High	Low	High	Low	High
2018	$3,300,000,000	$3,800,000,000	$5,300,000,000	$6,200,000,000	$8,600,000,000	$10,000,000,000
2019	$4,200,000,000	$5,200,000,000	$7,000,000,000	$8,500,000,000	$11,200,000,000	$13,700,000,000
2020	$5,500,000,000	$6,800,000,000	$10,200,000,000	$12,200,000,000	$15,700,000,000	$19,000,000,000
2021	$6,400,000,000	$7,800,000,000	$13,000,000,000	$15,700,000,000	$19,400,000,000	$23,500,000,000
2022	$6,700,000,000	$8,300,000,000	$15,700,000,000	$19,100,000,000	$22,400,000,000	$27,400,000,000
2023	$6,900,000,000	$8,400,000,000	$18,100,000,000	$22,000,000,000	$25,000,000,000	$30,400,000,000

https://mjbizdaily.com/exclusive-us-retail-marijuana-sales-on-pace-to-rise-35-in-2019-and-near-30-billion-by-2023/

Using the "Total U.S. Cannabis Retail Sales column(s) from Chart 2, the Department calculated, for both high and low estimates, the estimated increase in total U.S. marijuana

retail sales for each year in order to calculate an the average increase recognized each year so that the Department could estimate retail sales through Year 2030. The Department recognized the following estimated increases in U.S. marijuana retail sales, as they were estimated by Marijuana Business Daily, between 2018 and 2023:

Chart 3

Year	Percent Difference/Increase (Using Total U.S. Marijuana Retail Sales – Chart 2)	
	Low	High
2019	30.23%	37%
2020	40.18%	39%
2021	23.57%	24%
2022	15.46%	17%
2023	11.61%	11%
Average Percent Difference/Increase	**24%**	**25%**

The Department used the average percent difference (increase) calculated from Chart 3 to estimate the total U.S. marijuana retail sales through Year 2030:

Chart 4

Year	Total Estimated U.S. Cannabis Retail Sales 2018-2030	
	Low	High
2018	$8,600,000,000	$10,000,000,000
2019	$11,200,000,000	$13,700,000,000
2020	$15,700,000,000	$19,000,000,000
2021	$19,400,000,000	$23,500,000,000
2022	$22,400,000,000	$27,400,000,000
2023	$25,000,000,000	$30,400,000,000
2024	$31,052,453,447	$38,116,431,496
2025	$38,570,194,602	$47,791,524,670
2026	$47,907,966,892	$59,922,446,584
2027	$59,506,396,466	$75,132,560,206
2028	$73,912,784,241	$94,203,456,716
2029	$91,806,931,670	$118,115,118,571
2030	$114,033,218,871	$148,096,277,158

The Department, then, using Chart 2, calculated the estimated percent of medical marijuana retail sales (medical marijuana retail sales / total U.S. marijuana retail sales) and the estimated percent of recreational marijuana retail sales (recreational marijuana retail sales / total U.S. marijuana retail sales), for both low and high estimates:

Chart 5

Year	Percent of Medical	Percent of Medical	Percent of Recreational	Percent of Recreational
	Low	High	Low	High
2018	38%	38%	62%	62%
2019	38%	38%	63%	62%
2020	35%	36%	65%	64%
2021	33%	33%	67%	67%
2023	30%	30%	70%	70%
2023	28%	28%	72%	72%
Average Percent	**34%**	**34%**	**66%**	**66%**

The Department recognized that the estimated medical marijuana retail sales results to 34 percent of the total U.S. marijuana retail sales and recreational marijuana retail sales results in 66 percent of the total U.S. marijuana retail sales.

The Department applied the percentages estimated in Chart 5 to Chart 4 to determine the U.S. Cannabis Retail Sales, from 2018 to 2030, separated by medical marijuana retail sales and recreational marijuana retail sales:

Chart 6

Year	Total Estimated U.S. Cannabis Retail Sales		Medical Sales (Low)	Recreational Sales (Low)	Medical Sales (High)	Recreational Sales (High)
	Low	High	34%	66%	34%	66%
2018	$8,600,000,000	$10,000,000,000	$2,924,000,000	$5,676,000,000	$3,400,000,000	$6,600,000,000
2019	$11,200,000,000	$13,700,000,000	$3,808,000,000	$7,392,000,000	$4,658,000,000	$9,042,000,000
2020	$15,700,000,000	$19,000,000,000	$5,338,000,000	$10,362,000,000	$6,460,000,000	$12,540,000,000
2021	$19,400,000,000	$23,500,000,000	$6,596,000,000	$12,804,000,000	$7,990,000,000	$15,510,000,000
2022	$22,400,000,000	$27,400,000,000	$7,616,000,000	$14,784,000,000	$9,316,000,000	$18,084,000,000
2023	$25,000,000,000	$30,400,000,000	$8,500,000,000	$16,500,000,000	$10,336,000,000	$20,064,000,000
2024	$31,052,453,447	$38,116,431,496	$10,557,834,172	$20,494,619,275	$12,959,586,708	$25,156,844,787
2025	$38,570,194,602	$47,791,524,670	$13,113,866,165	$25,456,328,437	$16,249,118,388	$31,542,406,282
2026	$47,907,966,892	$59,922,446,584	$16,288,708,743	$31,619,258,149	$20,373,631,838	$39,548,814,745
2027	$59,506,396,466	$75,132,560,206	$20,232,174,798	$39,274,221,667	$25,545,070,470	$49,587,489,736
2028	$73,912,784,241	$94,203,456,716	$25,130,346,642	$48,782,437,599	$32,029,175,283	$62,174,281,432
2029	$91,806,931,670	$118,115,118,571	$31,214,356,768	$60,592,574,902	$40,159,140,314	$77,955,978,257
2030	$114,033,218,871	$148,096,277,158	$38,771,294,416	$75,261,924,455	$50,352,734,234	$97,743,542,924

The Department recognizes that medical marijuana will be accounted for pursuant to the passage of Amendment 2 of 2018 and that this initiative petition states that a "tax shall be levied upon the retail sale of *non-medical marijuana*…" Thus, the Department has removed the medical marijuana retail sales from the projections moving forward:

Chart 7

Year	Total Estimated U.S. Cannabis Retail Sales		Recreational Sales (Low)	Recreational Sales (High)
	Low	High	66%	66%
2018	$8,600,000,000	$10,000,000,000	$5,676,000,000	$6,600,000,000
2019	$11,200,000,000	$13,700,000,000	$7,392,000,000	$9,042,000,000
2020	$15,700,000,000	$19,000,000,000	$10,362,000,000	$12,540,000,000
2021	$19,400,000,000	$23,500,000,000	$12,804,000,000	$15,510,000,000
2022	$22,400,000,000	$27,400,000,000	$14,784,000,000	$18,084,000,000
2023	$25,000,000,000	$30,400,000,000	$16,500,000,000	$20,064,000,000
2024	$31,052,453,447	$38,116,431,496	$20,494,619,275	$25,156,844,787
2025	$38,570,194,602	$47,791,524,670	$25,456,328,437	$31,542,406,282
2026	$47,907,966,892	$59,922,446,584	$31,619,258,149	$39,548,814,745
2027	$59,506,396,466	$75,132,560,206	$39,274,221,667	$49,587,489,736
2028	$73,912,784,241	$94,203,456,716	$48,782,437,599	$62,174,281,432
2029	$91,806,931,670	$118,115,118,571	$60,592,574,902	$77,955,978,257
2030	$114,033,218,871	$148,096,277,158	$75,261,924,455	$97,743,542,924

Based on a report published by the Substance Abuse and Mental Health Services Administration, in 2018, 34.8 percent of individuals surveyed, within the United States, aged 18-25 used marijuana in the past year and 13.3 percent of individuals surveyed, within the United States, aged 26 and older used marijuana in the past year.

The Henry Kaiser Family Foundation (KFF) states that there are approximately 240,903,600 individuals in the United States aged 19 and above. Separating the population by age, there are approximately 28,348,600 individuals within the United States between the ages of 19 and 25 and approximately 212,555,000 individuals within the United States aged 26 or above.

Using the data published by the Substance Abuse and Mental Health Services Administration in conjunction with the age demographics published by the KFF, approximately 9,865,313 (28,348,600 x 34.8%) individuals in the United States aged between 19 and 25 and 28,269,815 (212,555,000 x 13.3%) individuals in the United States aged 26 and older that have used marijuana in the past year.

A data search with Missouri Census Data Center states that there are approximately 566,385 individuals in Missouri aged 18 -24 and approximately 4,183,237 individuals in Missouri aged 25 and older, with a total of 4,749,622 individuals aged 18 or above.

Using the data published by the Substance Abuse and Mental Health Services Administration in conjunction with the Missouri Census Data Center statistics, 197,102 (566,385 x 34.8%) Missourians aged 18-24 and 556,370 (4,183,237 x 13.3%) Missourians aged 25 and above have used marijuana in the past year.

*The Department notes that, due to the difference in the age groups defined between the Substance Abuse and Mental Health Services Administration and the Missouri Census Data Center, that the revenue forecasts for Missouri is understated slightly, as individuals aged 25 in Missouri are included within the projections using the lower percent of 13.3% and not 34.8% - whereas individuals aged 25 were included within the 34.8% stated by the Substance Abuse and Mental Health Services Administration. Also, due to the differences in the age groups defined between the Henry Kaiser Family Foundation and the Missouri Census Data Center, the revenue forecasts for Missouri is slightly overstated slightly, as individuals aged 18 are not included in the Henry Kaiser Family Foundation data but is included and accounted for in the Missouri Census Data Center data. The Department assumes, due to these acknowledgements just mentioned, that a "wash" could occur – reporting more accurate data than not.

Comparing the United States individuals to Missouri individuals who have used marijuana in the past year, the Department estimates Missouri's marijuana market share of total U.S. marijuana retail sales to be approximately 1.98% (estimated Missouri total population aged 18 and above using marijuana in the past year / total U.S. population aged 18 and above using marijuana in the past year percent of the total marijuana market within the United States – (197,102 + 556,370) / (9,865,313 + 28,269,815)).

Therefore, the Department refers back to the total Estimated U.S. Cannabis Retail Sales 2018-2030 from Chart 7, to forecast Missouri's recreational marijuana market/retail sales:

Chart 8

Missouri's Recreational Marijuana Market (1.98%)	
Low	**High**
$112,384,800	$130,680,000
$146,361,600	$179,031,600
$205,167,600	$248,292,000
$253,519,200	$307,098,000
$292,723,200	$358,063,200

$1,490,186,104	$1,935,322,150

The Department recognizes that Section 2.4 states that the Department of Health and Senior Services shall begin accepting facility applications within 365 days of December 3, 2020 (effective date of Section 2) and must allow application approvals within one-hundred eighty days after application submissions. The Department believes that the sale of recreational marijuana would not begin until June 2022.

When applying the state sales tax, the 15 percent excise tax, and weighted average local tax rate to Missouri's recreational marijuana market, as shown in Chart 7, the Department estimates the following increases, including both low and high estimates, for the following tax years:

The Department further recognizes that sales would begin one month before the end of Fiscal Year 2022. Based on historical sales tax collection data, the Department adjusts calendar year collections putting 50 percent into the first fiscal year and fifty percent into the second fiscal year. Thus, the Department estimates the following increases, including both low and high estimates, for the following fiscal years:

Chart 11

FY 29	$41,618,687.13	$13,872,895.71	$1,734,111.96	$1,387,289.57	$58,612,984	$208,093,435.64	$54,520,480.14
FY 30	$52,182,757.79	$17,394,252.60	$2,174,281.57	$1,739,425.26	$73,490,717	$260,913,788.95	$68,359,412.71

Section 2.6 further states that all revenues gained under Section 2 shall be deposited into the Veterans, Infrastructure, and Health Fund. The Department believes that this would include all license fees, application fees, renewal fees, annual fees, and the 15 percent tax levied. The Department does not believe this would include the 4.225% state sales tax. The Department notes that monies in the Veterans, infrastructure, and Health Fund shall be distributed in the following manner:

a. Amounts necessary to cover any Department of Health and Senior Services costs related to the administration of Section 2.
b. Amounts necessary for the creation of a reserve fund within the Department of Health and Senior Services to ensure there is enough working capital to administer Section 2.
c. 3/15th of the remaining balance to any local jurisdiction with recreational marijuana sales.
d. Any remaining balance will then be distributed
    a. 1/3rd to the Missouri Veterans' Commission
    b. 1/3rd to the State Road Fund
    c. 1/3rd to the Department of Health and Senior Services for grants to non-profits and other agencies in relation to drug addiction treatment.

The Department is unable to determine the amounts necessary for the Department of Health and Senior Services to administer Section 2 and the amounts necessary for the reserve fund. The Department will show the maximum amount of sales tax related revenues that could be distributed if all administration fees and reserve fund needs were met by the facility licensing fees.

As a result of the Department's inability to determine or estimate the administrative costs of the Department of Health and Senior Services and the amounts necessary for the reserve fund, the distribution(s) shown above are subject to change significantly.

Section 10 states that the adult use of recreational marijuana is not unlawful and further allows individuals who have been arrested, charged, or found guilty for any offense that would no longer be illegal after the effective date of Section 2 to apply for and be granted an expungement of their records specific to the aforementioned offenses. The Department defers to the Department of Corrections and the State Public Defender's Office to estimate the impact of Section 10.

Officials from the **Department of Public Safety - Office of Director** indicated they anticipate no impact. They also provided the following comments from Missouri State Highway Patrol officials.

Department of Public Safety - Division of Missouri State Highway Patrol indicated:

If this Amendment would be approved, it would result in a fiscal impact to the Criminal Record Systems Fund.

The Missouri Department of Health and Senior Services estimates that between 18,000 and 36,000 new fingerprint based criminal record checks will be performed in relation to the 348 medical marijuana facilities under Section 1 of Article XIV. The Patrol estimates that between $396,000.00 and $792,000.00 may be deposited in the Criminal Record System Fund as a result of the background check requirements in Section 2. For purposes of this response, the Patrol assumes it will perform 36,000 checks. Using these same figures for

the marijuana facilities licensed as identified in Section 2 of Article XIV, the Patrol estimates the following fiscal impact.

The state fee for a fingerprint based criminal record check is $20.00 per request.
The federal fee for a fingerprint based criminal record check is $13.25 per request, of which, the CJIS Division retains $2.00 of the federal fee. This equates to $22.00 of the total state and federal fingerprint background check fee that is retained in the Criminal Record System Fund per request.

State and Federal Fingerprint Fee Schedule
State Fee = $20.00
Federal Fee = $13.25
Total State and Federal fee = $33.25
Vendor Fee (if applicable) = $8.50
Total State and Federal with Vendor fee = $41.75
Total Retained in the Criminal Record System Fund = $22.00

Meanwhile, the Patrol's Criminal Justice Information Services Division (CJIS) processes all requests for expungements for criminal history records, and the requests are processed by a CJIS Technician. This person reviews criminal history records, contacts agencies associated with the arrests or convictions, and collects all necessary data for court orders.

As of September 2019, there were 234,808 marijuana related arrest charges in the Central Repository. The expungement process takes approximately 90 minutes, so 1 FTE could handle 1,243 expungements per year.

- 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.
- 111,840 minutes per year / 90 minutes per expungement = 1,243 expungements per year per FTE
- 234,808 records / 1,243 per FTE per year = 189 FTE

Additionally, the Patrol Records Division (PRD) processes all petitions and court orders relating to expungement of marijuana related traffic arrests.

There are currently 113,922 traffic arrest records in the system. The expungement process takes approximately 30 minutes, so 1 FTE could handle 3,728 expungements per year.

- 111,840 minutes per year / 30 minutes per expungement = 3,728 expungements per year per FTE
- 113,922 records / 3,728 per FTE per year = 31 FTE

The Patrol would also need to replace all 10 of its canines. The Patrol's canines are currently trained using Cannabis/Marijuana as one of the drugs to which they alert. If this initiative were to pass, each canine would have to be retired and replaced. The purchase and initial training for a canine is approximately $22,000. Since the Patrol contracts its canine training, the time to train all 10 canines could take up to 3 years.

As a result, the anticipated total initial cost to the Patrol will be approximately **$13,476,898**, as follows:

$12,730,318	Salary and fringe benefits for 189 CJIS Technicians and 31 PRD Technicians
$1,318,580	Expense and Equipment, including rental space, janitorial for the 220 FTE
$220,000	Cost of replacing and training 10 canines
($792,000)	Fee collected from fingerprinting/added to CRS Fund
$13,476,898	Total Cost

With the time involved in hiring and training FTE and processing expungements the Patrol anticipates this being a 2-year project, after which time the FTE would be terminated.

Missouri State Highway Patrol - Comments and Concerns

While the Initiative Petition has the appropriate wording, the FBI does not recognize an Amendment to Missouri's Constitution by means of an Initiative Petition as meeting Public Law 92-544 criteria to authorize a federal fingerprint based criminal record check. If a Constitutional Amendment were to pass by means of the Initiative Petition process, the Patrol recommends that the Department of Health and Senior Services seek specific legislation to ensure the state and federal fingerprint based criminal record check is properly authorized.

In 2009, Colorado traffic fatalities involving drivers testing positive for marijuana represented 9% of the total traffic fatalities. Recreational marijuana use was legalized in 2012. By 2016, that number more than doubled to 21%.

Marijuana-related traffic deaths increased 66% in the four-year average (2013-2016) since Colorado legalized recreational marijuana compared to the four-year average (2009-2012) prior to legalization.

Marijuana-related deaths when a driver tested positive for marijuana more than doubled from 55 deaths in 2013 to 125 deaths in 2016.

The yearly number of marijuana related hospitalizations increased 72% after the legalization of marijuana, (2009-2012) vs. (2013-2016).

Colorado youth past month marijuana use for 2014/2015 was 55% higher than the national average.

The average THC levels in marijuana has increased significantly over the years: 1969-0.8%, 1995-4%, 2013-13%; 2017-20+%; Oil, 1995-13%, 2013-52%; highest Plant 38%, highest oil 95%+.
